2. REVIEW OF OPERATIONS

During the Financial Year, Company achieved Gross Revenue of Rs 276.71 lacs against Rs 259.57 lacs achieved during the previous year. The net profit for the Financial Year is Rs. 19.14 lacs as compared to Rs. 16.93 lacs in the previous year.

Your Company's step-down subsidiary **JWIL Infra Limited ("JWIL")** - The year 2021-22 has been quite a challenging one for the World, Country, and Indian Economy as well, due to increase in commodity prices across the globe. The Company took swift actions to minimize disruption caused by it and has been able to achieve a turnover of Rs. 789.34 Crores during the year with a growth of about 28% over previous year. JWIL has also been able to maintain Profitability with various cost saving initiatives.

The Company is focused on Digitalization of processes along with operational efficiency and has taken various steps to achieve the same such as engaging PWC as consultants for smoothing and improvement of SAP functions etc. Further, the company is exploring new business line such as Sewage/Waste water Treatment and new geographical markets such UAE, East Africa etc.

During the year, the company has secured orders worth Rs. 365 Crores in state of Jharkhand to cater the drinking water supply requirement for Rural Population in Godda & Sundarpahari Block.

Existing EPC work to be executed as on year ended March '22 was close to Rs. 1600 crores. As a company JWIL will be doing selective bidding for new projects. The company is

targeting to complete four continuing projects during the year 2022-23. Further, company is also doing long term Operations & Maintenance of past executed eleven projects as on date.

The subsidiary of the Company namely JITF ESIPL CETP (Sitarganj) Limited continued to operate the 4 MLD Common Effluent Treatment Plant at Sitarganj, Uttarakhand, jointly with Eldeco Sidcul Industrial Park Limited and achieved turnover of Rs. 4.28 Crores during FY 2021-22.

JITF Urban Infrastructure Limited ("JUIL") is in the business of Municipal Solid Waste (MSW) management which includes setting up and operating Waste to Energy projects and material recovery facilities at different locations in the country. JUIL has created a niche in Indian Waste to Energy (WtE) segment with vast experience of successfully operating WtE Plant for more than 11 years in adherence of the emission norms set by the Pollution Control Board. The initial capacity of the WtE plant located in Delhi was 16 MW which was later enhanced to 23 MW. With the enhanced capacity of 23 MW, Okhla WtE plant alone has processed approx. 6,32,879 MT of MSW during FY 2021-22 and converted it into greener energy over 166 million units out of which about 142 million units exported to the grid, compost over 538 tons, and recyclables upto 700 tons. On environment indices, this plant, since its inception, has prevented around 100 acres of land (considering Landfill height of 20 Meters) from getting converted into Landfill and generation of around 10 million KL of leachate which would have contaminated the ground water by seepage.

JUIL has 7 WtE projects in various stages amounting to a total capacity of approx. 111 MW. Out of them, two projects located at Guntur and Visakhapatnam in Andhra Pradesh were commissioned in October, 2021 and February, 2022, respectively. Plant at Guntur has been running on full load (15 MW) since 26th April' 2022. Another project at Tehkhand, Delhi, is in the advance stage of erection and commissioning is expected in October' 2022. The 98% of Plain Cement Concrete work and 93% of Reinforced Cement Concrete work are completed despite all odds of pandemic and government restrictions. Civil works have started in full swing for Ahmedabad Project while civil works will start at Jodhpur and Jaipur project site in near future. JUIL will have the capacity of handling around 9000 MT of MSW on successful operation of all plants. The performance of all the plants has been remarkably good with plant stabilization, improved efficiency and high PLF since start of its operations.

Jindal Rail Infrastructure Limited ("JRIL"): Railway Industry offers significant long-term growth opportunities. Demand for freight wagons both from Indian Railways and Private Sector clients is increasing driven by robust growth in Railway sector. Jindal Rail will benefit from favorable outlook of wagon industry as growing demand for wagons will increase company's capacity utilization, support its operating profitability, and enhance its competitive positioning.

JRIL has achieved a total turnover of Rs.257.78 crores during the year. JRIL manufactured 790 wagons comprising of BFNV, BOXNHL, BCFCM, BVCM and Gondola types of wagons. JRIL exported 13 wagons during the year.

The Company has strong pipeline of wagon orders from the Private Sector customers which provides clear revenue visibility for FY 2023 and beyond. JRIL has gained extensive experience in manufacturing almost all major types of freight wagons over last decade and is well positioned to leverage

BOARD'S REPORT

its established position in wagon manufacturing industry and capture significant share of this growing market.

The Company is focused on innovation in design and development of new design wagons – BFNV type wagon which was jointly developed by Ministry of Railways' Research Designs & Standards Organization (RDSO) and Jindal Rail has been successfully inducted into service over IR network. Development of more such new design wagons is under discussions with several clients.

3. Company Response to COVID-19

SECRETARIAL AUDIT REPORT

FOR THE FINANCIAL YEAR ENDED ON 31ST March, 2022

[Pursuant to section 204(1) of the Companies Act, 2013 and Rule No. 9 of the Companies (Appointment and Remuneration Personnel) Rules, 2014]

To,
The Members,

JITF INFRALOGISTICS LIMITED

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **JITF INFRALOGISTICS LIMITED** (hereinafter called the Company). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

Based on our verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, We hereby report that in our opinion, the company has, during the audit period covering the **financial year ended on 31st March, 2022 (Audit Period)**, complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter.

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the **financial year ended on 31st March, 2022** according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made there under;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made there under;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed there under;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made there under to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act') viz.:-
 - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - (c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018;
 - (d) The Securities and Exchange Board of India (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 **{Not Applicable to the Company during the Audit Period}**;
 - (e) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 **{Not Applicable to the Company during the Audit Period}**;
 - (f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;
 - (g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009 **{Not Applicable to the Company during the Audit Period}**; and
 - (h) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 1998 **{Not Applicable to the Company during the Audit Period}**;
- (vi) And other laws specifically applicable to the Company as per **Annexure-A**.

We have also examined compliance with the applicable clauses of the following:

- (i) The Listing Agreements entered into by the Company with Bombay Stock Exchange and National Stock Exchange;
- (ii) Securities and Exchange Board of India (Listing Obligation and disclosure Requirements) Regulations, 2015;
- (iii) Secretarial Standards (SS-1 & SS-2) issued by the Institute of Company Secretaries of India.

During the period under review, the Company has **complied with the applicable provisions** of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above.

Other Observation:

The Securities and Exchange Board of India (SEBI) under regulation 3(4) of the SEBI (Substantial Acquisition of Shares and Takeover) 1997, issued a Show Cause Notice No: SEBI/EAD/SM/AD/4223/3/2022 dated 1st February, 2022 under the provisions of Rule 4(1) of the SEBI (Procedure for Holding Inquiry and Imposing Penalties) Rules, 2005 read with Rule 4(1) of the Securities Contracts (Regulation) directing the Company, while affording an opportunity to get the default condoned under the SEBI (Settlement Proceedings) Regulations 2018. In response, a reply to the show cause notice was filed with SEBI on 22nd April, 2022. In addition to this, the Company has also filed a Settlement Application with SEBI on 4th April, 2022 for amicable settlement of the matter. The said matter is pending before SEBI.

We further report that

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

SECRETARIAL AUDIT REPORT OF MATERIAL SUBSIDIARIES FOR THE FINANCIAL YEAR ENDED ON 31ST March, 2022

[Pursuant to section 204(1) of the Companies Act, 2013 and Rule No. 9 of the Companies (Appointment and Remuneration Personnel) Rules, 2014]

To,
The Members,

TIMARPUR-OKHLA WASTE MANAGEMENT COMPANY LIMITED
(Formerly known as TIMARPUR-OKHLA WASTE MANAGEMENT COMPANY PRIVATE LIMITED)

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **TIMARPUR-OKHLA WASTE MANAGEMENT COMPANY LIMITED** (hereinafter called 'the Company'). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

Based on our verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, We hereby report that in our opinion, the company has, during the audit period covering the financial year ended on 31st March 2022 ('Audit Period') complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March, 2022 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made thereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder; **(Not applicable to the company during the Audit Period)**
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act') viz.:
 - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011, **(Not applicable to the company during the Audit Period)**;
 - (a) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015 **(Not applicable to the company during the Audit Period)**;

- (b) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 **(Not applicable to the company during the Audit Period)**;
 - (c) Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 **(Not applicable to the company during the Audit Period)**;
 - (d) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 **(Not applicable to the company during the Audit Period)**;
 - (e) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client **(Not applicable to the company during the Audit Period)**;
 - (f) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009; and **(Not applicable to the company during the Audit Period)**
 - (g) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018 **(Not applicable to the company during the Audit Period)**.
- (vi) and other laws specifically applicable to the Company as per **Annexure-A**.

We further report that having regard to the compliance system prevailing in the Company and on examination of the relevant documents and records in pursuance thereof, on test-check basis and representation made by the Company and its officers, the Company has complied with the applicable clauses of the Secretarial Standards issued by The Institute of Company Secretaries of India.

During the period under review, the Company has **complied with the applicable provisions** of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above.

We further report that the Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all directors to schedule the Board Meetings. Except where consent of the directors was received for scheduling meeting at a shorter notice, agenda and detailed notes on agenda were sent at least seven days in advance.

A system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

All decisions at Board Meetings and committee meetings are carried out unanimously as recorded in the minutes of the Meetings of the board of Directors or Committee of the Board, as the case may be.

We further report that based on the information provided by the Company, its officers and authorised representatives during the conduct of Audit and review of Internal Auditor's Report, periodical Compliance Reports are taken on record by the Board of Directors of the Company.

**BOARD'S REPORT**

In our opinion there are adequate systems and processes in the company commensurate with the size and operations of the company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

We further report that during the audit period, there were no instances of:

1. Public/Rights/Preferential issue of Shares/Debentures/Sweat Equity.
2. Redemption/Buy Back of Securities.
3. Major decisions taken by the members in pursuance to section 180 of the Companies Act, 2013.

4. Merger/Amalgamation/Reconstruction etc.
5. Foreign Technical Collaborations.

**MANAGEMENT DISCUSSION AND ANALYSIS REPORT****Industry Structure and Developments****ECONOMIC SCENARIO****Global Economy**

The global economic recovery is facing significant headwinds amid new waves of COVID-19 infections, persistent labour market challenges, lingering supply-chain challenges and rising inflationary pressures. Several shocks have hit a world economy already weakened by the pandemic: higher-than-expected inflation worldwide—especially in the United States and major European economies—triggering tighter financial conditions; a worse-than-anticipated slowdown in China, reflecting COVID-19 outbreaks and lockdowns. The war in Ukraine will further hinder global growth and aggravate inflationary pressures, creating a new negative supply shock for the world economy. After expanding by 5.5 per cent in 2021, the global output is projected to grow by only 4.00 percent in 2022 and 3.5 percent in 2023.

Indian Economy

Just when uncertainties associated with the COVID-19 pandemic were declining, the Russia-Ukraine crisis escalated. Consequently, India's growth outlook appears to have clouded. Crude oil prices are lingering around US\$100 per barrel, and wheat and cereal prices have gone up several times—all of which are critical imports from the two warring nations. India also partly meets its fertilizer needs from the region. For India, which has been battling inflation for a while now, this situation is making matters worse. Higher fuel and fertilizer prices will reduce government revenues and increase subsidy costs. Furthermore, capital outflows and rising import bills will weigh on the current account balance and currency valuation.

Despite the external shocks, we believe that India's underlying economic fundamentals are strong and despite the short-term turbulence, the impact on the long-term outlook will be marginal. Because of the heightened uncertainties during January–March 2022, due to the surge in Omicron variant and the war, growth projections have been revised down for the entire fiscal year by 45 bps. However, growth will be strong in the next two quarters. Growth-enhancing policies and schemes, increased infrastructure spending, rising exports, rapid digitization, and spill-over effects of geopolitical developments will likely aid in growth.

COMPANY OVERVIEW**About us**

Your Company's business is to carry out infrastructure businesses through its subsidiaries and step down subsidiaries. The infrastructure businesses include (a) Waste to Energy which is being carried out by various SPVs under JITF Urban Infrastructure Limited; (b) Railway Rolling Stock Manufacturing business being carried out by Jindal Rail Infrastructure Limited and (c) Water and Waste Water EPC business being carried out by JWIL Infra Limited.

MAJOR SUBSIDIARIES & THEIR OPERATIONS:

The Company has interest in various infrastructure business through its subsidiaries in India and abroad. JITF Infra Logistics Limited is the holding company for infrastructure business which is consisting of water infrastructure business, municipal solid waste processing and power generation (infrastructure) business, and rail wagon manufacturing (fabrication) business.

JWIL Infra Limited (JWIL)

The COVID-19 outbreak has been negatively affecting the economy of India. The year 2021-22 has been quite a challenging one for the World, Country, and Indian Economy as well, due to increase in commodity prices across the globe. The Company took swift actions to minimize disruption caused by it and has been able to achieve a turnover of Rs. 789.34 Crores during the year with a growth of about 28 % over previous year. We have also been able to maintain our Profitability with various cost saving initiatives.

The Company is focused on Digitalization of processes along with operational efficiency and has taken various steps to achieve the same such as engaging PWC as consultants for smoothing and improvement of SAP functions etc. Further, the company is exploring new business line such as Sewage / Wastewater Treatment and new geographical markets such as UAE, East Africa etc.

In line of the above, Company has submitted various Bid in the following:

1. Tanzania Project – East Africa – Rs. 650 Crores Approx.
2. Bhandup, Maharashtra (Sewage Treatment Plant) Project – Rs. 1200 Crores approx..

During the year, the company has secured orders worth Rs. 365 Crores in state of Jharkhand to cater the drinking water supply requirement for Rural Population in Godda & Sundarpahari Block.

Existing EPC work to be executed as on year ending March '22 was close to Rs.1600 Crores. As a company JWIL will be doing selective bidding for new projects, based on parameters laid down by the Board in this respect.

The company is targeting to complete four continuing projects during the year 2022-23. Further, company is also doing long term Operations & Maintenance of past executed eleven projects as on today.

Future Outlook and Challenges

Water has been integral part of our life and its market growth has become synergic with growth of country. World Bank forecasted that India could comfortably achieve 7.5% gross domestic product (GDP) growth every year, but not 8.0% unless it implements effective water management strategies.

The Water and Wastewater Market in India stands above USD 2100 Million in 2021 and is projected to grow with CAGR of greater than 8% during the next 5 Years. This growing and expanding water sector market is gaining widespread attention of all the major players to invest and collaborate with sector-based EPC companies. Municipal Water sector market is expected to dominate this forecast and would cover more than 55% of total market size.

Government Agencies are implementing regulatory and funding mechanisms to open up, Water and Waste water Treatment Market for private investments. It is an opportune time for market participants to achieve significant growth as the industry shifts toward deriving more project value-based outcomes (total cost of ownership) and utilizing government expenditure efficiently.

Robust Governmental initiatives, such as, Amrut, Jal Jeevan Mission, National Mission for Clean Ganga Community Drinking

**MANAGEMENT DISCUSSION AND ANALYSIS REPORT**

Water Schemes etc. contribute to the growth of the Indian Water and Wastewater Treatment Market. In Indian Budget for the year 2022-23, Finance Minister has increased last year allocation to 150% in Jal Jeevan mission (JJM) totaling Rs. 60,000 Crores for the current year. Most of the State Governments have enhanced their Budget allocations for various Irrigation water schemes.

Over the past few years, the urban sewage capacity in the country has grown significantly. This growing capacity is likely to drive the demand for the application of innovative water treatment technology in the country. The existing collection and treatment infrastructure and facilities contributes to only 44%, which is inadequate to meet the disposal and treatment of growing Sewage generation. Owing to this with rapid Urbanization and development initiatives by government agencies, municipal water and wastewater treatment technologies are likely to dominate the market during the forecast period.

To fulfill our moto of providing sustainable water management and be part of India's inclusive Growth, the company is exploring opportunities in Sewerage/ Wastewater Treatment, along with strengthening its presence in Water & Irrigation sector with continuous improvement and growth in Sales and Project Management pursuing on cost competitive engineering.

JITF Urban Infrastructure Limited (JUIL)

JITF Urban Infrastructure Ltd. ("JUIL") is in the business of Municipal Solid Waste (MSW) management which includes setting up and operating Waste to Energy projects and material recovery facilities at different locations in the country. JUIL has created a niche in Indian Waste to Energy (WtE) segment with vast experience of successfully operating WtE Plant for more than 11 years in adherence of the emission norms set by the Pollution Control Board. The initial capacity of the WtE plant located in Delhi was 16 MW which was later enhanced to 23 MW. With the enhanced capacity of 23MW, Okhla WtE plant alone has processed approx. 6,32,879 MT of MSW during FY 2021-22 and converted it into greener energy over 166 million units out of which about 142 million units exported to the grid, compost over 538 tons, and recyclables upto 700 tons. On environment indices, this plant, since its inception, has prevented around 100 acres of land (considering Landfill height of 20 Meters) to get converted into Landfill and generation of around 10 million KL of leachate which would have contaminated the ground water by seepage.

JUIL has 7 WtE projects in various stages amounting to a total capacity of approx. 111 MW. Out of them, two projects are located at Guntur and Visakhapatnam in Andhra Pradesh were commissioned in October, 2021 and February, 2022, respectively. Plant at Guntur has been running on full load (15 MW) since 26th April'2022. Another project at Tehkhand, Delhi, is in the advance stage of erection and commissioning is expected to by October'2022. JUIL will have the capacity of handling around 9000 MT of MSW per day on successful operation of all plants. The performance of all the plants has been remarkably good with plant stabilization, improved efficiency and high PLF since start of its operations.

Future Outlook and Challenges

An increasing urbanisation, population growth, and economic expansion are generating a mounting quantity of solid waste in

many developing countries. Solid waste management is one of the critical problems in India. Currently, more than 100 million tonnes of solid waste have generated from various sectors in India. Per capita waste generation varies from 0.2 kg to 0.6 kg depending on household and economic size of the Indian population. Inefficient solid waste collection have an impact on public health and aesthetic of towns and cities in India.

Most of the MSW generated in Indian cities and town is being disposed off in unscientific method, thus creating serious problems of environmental degradation, and adverse impacts on all components of the environment and human health. In 2020, MNRE had announced Central Financial Assistance Scheme for Waste to Energy projects providing subsidy of Rs. 5 crores per MW capacity of the project subject to maximum subsidy of Rs. 50 crores per project. Further, many Urban Local Bodies are providing viability gap funding for establishment of WtE projects.

The national and state governments have provided an impetus to improve the solid waste management in urban areas under various schemes and programmes. Several cities in India have taken positive steps towards implementing sustainable waste management practices.

Increased environmental awareness regarding renewable waste management systems among people and rise in CO2 emissions, globally are expected to generate growth opportunities for the waste management market. Ministry of Urban Development, nodal agency for Swachh Bharat Mission also recognized WtE projects as a viable option.

JUIL is currently operating a WtE plant of 23 MW in Delhi and two 15 MW plant in Guntur and Visakhapatnam through SPVs and has 4 more projects under various stages of construction and planning which put together will have a total capacity approx 111 MW. One project at Tehkhand, Delhi is expected to be commissioned during this year. All the commissioned projects will generate a healthy revenue stream for the Company.

Based on above, the management believes in healthy outlook for future growth of JUIL.

Jindal Rail Infrastructure Limited (JRIL)

Railway Industry offers significant long-term growth opportunities. Demand for freight wagons both from Indian Railways and Private Sector clients is increasing driven by robust growth in Railway sector. JRIL will benefit from favorable outlook of wagon industry as growing demand for wagons will increase company's capacity utilization, support its operating profitability, and enhance its competitive positioning.

JRIL has achieved a total turnover of Rs. 257.77 crore during the year. JRIL manufactured 790 wagons comprising of BFNV, BOXNHL, BCFCM, BVCM and Gondola types of wagons. JRIL exported 13 wagons during the year.

The Company has strong pipeline of wagon orders from the Private Sector customers which provides clear revenue visibility for FY 2023 and beyond. JRIL has gained extensive experience in manufacturing almost all major types of freight wagons over last decade and is well positioned to leverage its established position in wagon manufacturing industry and capture significant share of this growing market.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Future Outlook and Challenges

Global demand for transport is growing fast. Given present trends, passenger and freight activity will more than double by year 2050. Such growth is a token of social and economic progress. The transport sector is responsible for more than half of global oil demand and around one-quarter of global CO₂ emissions from fuel combustion where rail is among the most energy efficient modes of transport for freight and passengers.

The Indian Government is undertaking several initiatives to upgrade its aging railway infrastructure and enhance its quality of service. The Railway Ministry has announced plans to invest Rs. 5,400,000 crore (US\$680 billion) to upgrade the railways by year 2030. Dedicated Freight Corridor Corporation of India (DFCCIL) is the agency undertaking development of freight corridors around the country. Indian Railway will convert 10,000 km passenger and freight trunk routes in to High-speed rail corridors of India over 10 years with total investment of Rs.20 lakh crore (equivalent to US\$300 billion in 2020) and annual investment of Rs.2 lakh crore (equivalent to US\$30 billion in 2020) from year 2017 to 2027. Dedicated freight corridors of 3,300 km length will also be completed thus freeing the dual use high demand trunk routes for running more high-speed passenger trains.

The next 10 years will see a very high level of capital expenditure in the railway sector as capacity growth has to be accelerated, so that by year 2030 it is ahead of demand, as per the Economic Survey.

The National Rail Plan lays down the road map for capacity expansion of the railway network by year 2030 to cater to growth up to year 2050. It envisages the creation of a future ready railway system that is able to not only meet the passenger demand but also increase the modal share of railways in freight to 40-45 per cent from the present level of 26-27 per cent. The National Rail Plan provides a pipeline of projects, which on completion will increase railway capacity to capture 45 per cent of freight traffic.

The government has in the past few years focused on boosting infrastructure and over the next few years, Indian Railways is expected to come out with large contracts to upgrade both passenger wagons and freight wagons. The private sector is also expected to start operating trains soon.

After struggling with COVID-19 effects in the past two years, India's railway wagon industry is on the verge of a breakthrough and is likely to grow multi-fold in the next few years.

Over last decade, JRIL has gained extensive experience in manufacturing almost all major types of freight wagons in India. The Company is focused on innovation in design and development of new design wagons – BFN type wagon which was jointly developed by Ministry of Railways' Research Designs & Standards Organization (RDSO) and JRIL has been successfully inducted into service over Indian Railway network. Development of more such new design wagons is under discussions with several clients.

Geopolitical conflict in Europe has added risks and uncertainties for global economy. Wagon Industry is witnessing volatility in prices of raw material and facing the prospect macroeconomic instability and supply chain issues. The Management is in discussions with all stakeholders to mitigate emerging challenges and foresees

demand for wagons to remain strong in coming years.

The Company is optimistic about medium-to-long term business prospects and intends to maintain a healthy order book in near-term. Discussions are in advanced stages with several clients for future orders.

The management foresees a healthy business outlook for future growth of the Company.

OPPORTUNITIES AND FUTURE OUTLOOK

India was gearing up for a strong economic recovery, several forecasters such as the International Monetary Fund expected growth to exceed 9% this fiscal. This optimism received a jolt this year with wave of Omicron infections and then Russia – Ukraine conflict. These events aggravated the pre-existing challenges such as surging inflation, supply shortages, and shifting geopolitical realities across the world with no definite end in sight. And the subsequent confluence of headwinds such as surging commodity prices and disruption in trade and financial transactions quickly deteriorated economic fundamentals that were trending up a few months back.

However, we believe the risks are not strong enough to deny India an economic rebound given the domestic demand potential. India being primarily a domestic demand-driven economy, it is expected that India will grow by 7.1%–7.6% in FY 22–23 and 6%–6.7% in FY 23–24. This will ensure that India reigns as the world's fastest-growing economy over the next few years, driving world growth even as several major economies brace themselves for a slowdown or possibly a recession.

The government's capital spending share is going up while India's gross tax collection has beaten all expectations. The tax buoyancy and the simplified tax regime with low rates are likely to support further capital spending in the future.

Infrastructure sector is a key driver for the Indian economy. The sector is highly responsible for propelling India's overall development. The infrastructure sector has become the biggest focus area for the Government of India. The Gati Shakti National Masterplan continues to be center stage with respect to the efforts augmenting national infrastructure. Given the huge thrust on infrastructure as a sector that has one of the highest multiplier effects on the economy, one can hope that the initiatives taken by the government will revive the infrastructure sector.

The Company is engaged in the Infrastructure Business having operating companies in various verticals comprising of Water, Environment, Solid Waste Management and Rail Infrastructure. We have emerged as a leading operator in the field of water and urban waste management sector based on the strengths and advantages that we enjoy in the market place. JWIL is exploring opportunities in Sewerage/ Wastewater Treatment, along with strengthening its presence in Water & Irrigation sector with continuous improvement and growth in Sales and Project Management pursuing on cost competitive engineering. Railway sector in India offers significant long-term growth opportunities. Over last decade, JRIL has gained extensive experience in manufacturing almost all major types of freight wagons in India. With the diversified business portfolio, it has managed to mitigate the business risk to its optimum low level. JRIL is currently operating a WtE plant of 23MW in Delhi and two 15 MW plant in Guntur and Visakhapatnam through SPVs

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

and has 4 more projects under various stages of construction and planning. One project at Tehkhand, Delhi is expected to be commissioned during this year. All the commissioned project will contribute to the financial health of the company significantly.

In the present scenario, the management is optimistic that with the strong leadership at the Centre with a vision of Vibrant India, the overall future outlook of the infrastructure sector in India looks bright and Company expects more opportunities to come its way to maintain healthy order book in the coming years and is confident that the financial performance of the Company shall continue to improve.

We believe we are uniquely placed to compete in the market place and deliver a sustainably commendable performance while keeping risks pertaining to market concentration and industry dynamics in check.

INDEPENDENT AUDITOR'S REPORT

To the members of
JITF Infralogistics Limited
Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of JITF Infralogistics Limited (the "Company"), which comprise the Balance Sheet as at March 31, 2022, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as the "standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, and its profit and (including other comprehensive income), changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing ("SA's") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Emphasis of Matter

Attention is drawn to Note no. 24 (13) of the standalone financial statements for the financial year ended 31st March 2022 regarding non-provision of diminution in the value of investment in subsidiary company as the management is of the opinion that such diminution is temporary in nature and for the reasons stated in the said note.

Our opinion is not modified in respect of above matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that no key audit matters to communicate in our report.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance Report, and Shareholder Information, but does not include the standalone financial statements and our auditor's report thereon. The other information is expected to be made available to us after this Auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position/state of affairs, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from

INDEPENDENT AUDITOR'S REPORT

material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Companies Act 2013, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Sub-section (11) of Section 143 of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable
2. As required by Section 143(3) of the Act, based on our audit we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account.
 - d) In our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards (referred to as "IND AS") specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
 - e) On the basis of the written representations received from the directors as on March 31, 2022 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2022 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

**INDEPENDENT AUDITOR'S REPORT**

- i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements.
- ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts;
- iii. There were no amounts which were required to be transferred, to the Investor Education and Protection Fund by the Company, during the year ended March 31, 2022.
- a) The management has represented that to the best of its knowledge and belief, no funds (which are material either individually or in aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- b) The management has represented that, no funds (which are material either individually or in aggregate) have been received by the company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- c) Based on such audit procedures that we have considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) above as required by Rule 11(e) of Companies (Audit & Auditors) Rules, 2014, as amended, contain any material mis-statement.
- v. The Company has not declared or paid dividend during the year, accordingly the provisions of section 123 of the Companies Act, 2013 are not applicable.
- h) Managerial remuneration has been paid/provided for by the Company to its directors in accordance with the provisions of Section 197 read with Schedule V of the Companies Act, 2013.

- b) According to the records and information & explanations given to us, there are no statutory dues referred to in sub-clause (a) above which have not been deposited as on 31st March 2022 on account of any disputes.
- VIII. The Company has not surrendered or disclosed any transaction, previously unrecorded in the books of account, in the tax assessments under the Income Tax Act, 1961 as income during the year. Accordingly, the requirement to report on clause 3(viii) of the Order is not applicable to the Company.
- IX. a) In our opinion, on the basis of audit procedures and according to the information and explanations given to us, the Company has not defaulted in the repayment of loan or other borrowings or in the payment of interest thereon to its lender during the year.

	Guarantees
A. Aggregate amount granted/ provided during the year: - Subsidiary Companies	Rs. 10,000 Lakhs
B. Balance outstanding as at 31st March 2022 in respect of above cases: - Subsidiary Companies	Rs. 10,000 Lakhs

Annexure “A” to the Independent Auditor’s Report

- b) The Company has not been declared wilful defaulter by any bank or financial institutions or government or any government authority.
- c) On the basis of information and explanation given to us, the Company has not raised money through term loan during the current year. Hence, reporting under clause 3 (ix)(c) of the Order is not applicable.
- d) The Company did not raise any funds during the year hence, the requirement to report on clause (ix)(d) of the Order is not applicable to the Company.
- e) The Company has not raised taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries and joint ventures and has not raised any loans during the year on the pledge of securities held in its subsidiary. Accordingly, the requirement to report on clause 3(ix)(e) and (f) of the Order are not applicable to the Company.
- X. a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause 3 (x) (a) of the Order is not applicable.
- b) During the year the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause (x)(b) of the Order is not applicable to the Company.
- XI. a) During the course of our examination of books and records of the Company, carried out in accordance with generally accepted auditing practices in India, and according to the information and explanations given to us, we have neither come across any instance of material fraud by the Company or on the Company, noticed or reported during the year, nor we have been informed of any such case by the management.
- b) To the best of our knowledge, no report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and up to the date of this report.
- c) As represented to us by the Management, there were no whistle blower complaints received by the Company during the year which remained unattended by the competent authorities.
- XII. In our opinion and according to the information and explanations given to us, the Company is not a nidhi company. Accordingly, clause 3(xii) of the Order is not applicable.
- XIII. According to the information and explanations and records made available by the management of the Company and audit procedure performed, for transactions with the related parties during the year, the Company has complied with the provisions of Section 177 and 188 of the Act. As explained and as per records, details of related party transactions have been disclosed in the standalone financial statements as per the applicable Indian Accounting Standards.
- XIV. a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.
- b) We have considered, the internal audit reports issued to the Company during the year and till date in determining the nature, timing and extent of our audit procedures.
- XV. On the basis of records made available to us and according to information and explanations given to us, the Company has not entered into non-cash transactions with the directors or persons connected with him. Accordingly, clause 3(xv) of the Order is not applicable.
- XVI. The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act 1934.
- a) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act 1934 and hence reporting under clause 3 (xvi)(a), (b) and (c) of the Order is not applicable.
- b) As per the information and representation provided by the management, there is no core investment company within the group (as defined in Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause 3 (xvi) (d) of the Order is not applicable.
- xvii. The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.
- XVIII. There has been no resignation of the statutory auditors of the Company during the year.
- xix. On the basis of the financial ratios [as stated in note no. 24(14) of standalone financial statements], ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company and/ or certificate with respect to meeting financial obligations by the Company as and when they fall due. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- XX. The Company is not required to spend towards Corporate Social Responsibility (CSR) during the year. Accordingly, reporting under clause (xx) of the Order is not applicable for the year.
- XXI. The reporting under clause 3 (xxi) of the Order is not applicable in respect of audit of the standalone financial statements. Accordingly, no comment in respect of the said clause has been included in this report.

Annexure “B” to the Independent Auditor’s Report

(Referred to in paragraph 2(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of JITF Infralogistics Limited of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of JITF Infralogistics Limited (the “Company”) as of March 31, 2022 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the “ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of the management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the internal financial control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

SIGNIFICANT ACCOUNTING POLICIES AND NOTES TO STANDALONE FINANCIAL STATEMENTS
NOTE NO: 24
1. Corporate and General Information

JITF Infralogistics Limited is domiciled and incorporated in India. The Company's main object to carry on the business of rail, water and urban infrastructure in and outside India through its subsidiaries and to act as technical, engineering, management consultants and/or provider of managerial and technical manpower services.

2. Basis of preparation

The Annual financial statement have been prepared complying with all Indian Accounting Standards notified under Section 133 of the Companies Act 2013, read with the companies (Indian Accounting Standard) Rule, 2015, as amended and other relevant provision of the Act.

The Company has consistently applied the accounting policies used in the preparation for all periods presented.

The significant accounting policies used in preparing the financial statements are set out in Note no. 24.3 of the Notes to the Financial Statements.

Ministry of Corporate Affairs ("MCA") through a notification dated March 24, 2021, amended Division II of Schedule III of the Companies Act, 2013. These amendments are applicable for the reporting period beginning on or after April 1, 2021. The amendment encompasses significant additional disclosure requirements and includes certain changes to the existing disclosures. The Company has applied and incorporated the requirements of amended Division II of Schedule III of the Companies Act, 2013 while preparing these standalone financial statements based on available information including exposure draft of revised guidance note on Division II- Ind AS schedule III to the Companies Act, 2013 issued by the corporate laws & corporate governance committee of the Institute of Chartered Accountants India (ICAI).

3. Significant Accounting Policies
3.1 Basis of Measurement

The financial statements have been prepared on accrual basis and under the historical cost convention except following which have been measured at fair value:

- financial assets and liabilities except certain Investments and borrowings carried at amortised cost,
- defined benefit plans – plan assets measured at fair value,

3.2 Use of Estimates

The preparation of the financial statements requires management to make estimates and assumptions. Actual results could vary from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting

NOTES TO STANDALONE FINANCIAL STATEMENTS

estimates are recognised in the period in which the estimate is revised if the revision effects only that period or in the period of the revision and future periods if the revision affects both current and future years (refer Note no. 24.4 on critical accounting estimates, assumptions and judgements).

3.3 Property, Plant and equipment

Property, Plant and Equipment are carried at cost less accumulated depreciation and accumulated impairment losses, if any. Cost includes expenditure that is directly attributable to the acquisition of the items.

Assets are depreciated to the residual values on a straight line basis over the estimated useful lives based on technical estimates which are different from one specified in Schedule II to the Companies Act, 2013. Assets residual values and useful lives are reviewed at each financial year end considering the physical condition of the assets and benchmarking analysis or whenever there are indicators for review of residual value and useful life. Changes in the expected useful life of assets are treated as change in accounting estimates. Freehold land is not depreciated. Estimated useful lives of the assets are as follows:

Category of Assets	Years
Other Office Equipment	
- Computer	3-5
- Office Equipment	3-5

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the Statement of Profit and Loss on the date of disposal or retirement.

3.4 Intangible Assets

Identifiable intangible assets are recognised a) when the Company controls the asset, b) it is probable that future economic benefits attributed to the asset will flow to the Company and c) the cost of the asset can be reliably measured.

Computer software's are capitalised at the amounts paid to acquire the respective license for use and are amortised over the period of license, generally not exceeding five years on straight line basis. The assets' useful lives are reviewed at each financial year end.

3.5 Cash and cash equivalents

Cash and cash equivalents includes cash on hand and at bank, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value and are held for the purpose of meeting short-term cash commitments.

3.6 Employee benefits

- Short term employee benefits are recognized as an expense in the Statement of Profit and Loss of the year in which the related services are rendered. Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.
- Leave encashment being a short term benefit is accounted for using the projected unit credit method, on the basis of actuarial valuations carried out by third party actuaries at each Balance Sheet date. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to profit and loss in the period in which they arise.
- Contribution to Provident Fund, a defined contribution plan, is made in accordance with the statute, and is recognised as an expense in the year in which employees have rendered services.
- The liability or asset recognised in the balance sheet in respect of gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation denominated in Indian Rupees (₹) is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

The Company operates defined benefit plans for gratuity, which requires contributions to be made to a separately administered fund. Funds are managed by a trust. The trust has taken policies from an insurance company.

NOTES TO STANDALONE FINANCIAL STATEMENTS

3.7 Financial instruments – initial recognition, subsequent measurement and impairment

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a. Financial Assets

Financial Assets are classified at amortised cost or fair value through Other Comprehensive Income or fair value through Profit or Loss, depending on its business model for managing those financial assets and the assets contractual cash flow characteristics.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The company reclassifies debt investments when and only when its business model for managing these assets changes.

For impairment purposes significant financial assets are tested on an individual basis, other financial assets are assessed collectively in groups that share similar credit risk characteristics.

Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Trade receivables

A receivable is classified as a 'trade receivable' if it is in respect to the amount due from customers on account of goods sold or services rendered in the ordinary course of business. Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. For some trade receivables the Company may obtain security in the form of guarantee, security deposit or letter of credit which can be called upon if the counterparty is in default under the terms of the agreement.

Impairment is made on the expected credit losses, which are the present value of the cash shortfalls over the expected life of financial assets. The impairment methodology applied depends on whether there has been a significant increase in credit risk. The estimated impairment losses are recognised in a separate provision for impairment and the impairment losses are recognised in the Statement of Profit and Loss within other expenses.

Subsequent changes in assessment of impairment are recognised in provision for impairment and the change in impairment losses are recognised in the Statement of Profit and Loss within other expenses.

For foreign currency trade receivable, impairment is assessed after reinstatement at closing rates.

Individual receivables which are known to be uncollectible are written off by reducing the carrying amount of trade receivable and the amount of the loss is recognised in the Statement of Profit and Loss within other expenses.

Subsequent recoveries of amounts previously written off are credited to other Income.

Investment in equity shares

Investment in equity securities are initially measured at fair value. Any subsequent fair value gain or loss is recognized through Profit or Loss if such investments in equity securities are held for trading purposes. The fair value gains or losses of all other equity securities are recognized in Other Comprehensive Income. Where the company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit and loss. Dividends from such investments are recognised in profit and loss as other income when the company's right to receive payments is established. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

De-recognition of financial asset

A financial asset is derecognised only when

- The company has transferred the rights to receive cash flows from the financial asset or
- Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

NOTES TO STANDALONE FINANCIAL STATEMENTS

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the company has not retained control of the financial asset. Where the company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

b) **Financial Liabilities**

At initial recognition, all financial liabilities other than fair valued through profit and loss are recognised initially at fair value less transaction costs that are attributable to the issue of financial liability. Transaction costs of financial liability carried at fair value through profit or loss is expensed in profit or loss.

i. **Financial liabilities at fair value through profit or loss**

Financial liabilities at fair value through profit or loss include financial liabilities held for trading. The Company has not designated any financial liabilities upon initial measurement recognition at fair value through profit or loss. Financial liabilities at fair value through profit or loss are at each reporting date at fair value with all the changes recognized in the Statement of Profit and Loss.

ii. **Financial liabilities measured at amortized cost**

Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are derecognised from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains/(losses).

Borrowings are classified as current liabilities unless the company has unconditional right to defer settlement of the liability for at least twelve months after reporting period.

Trade and other payables

A payable is classified as 'trade payable' if it is in respect of the amount due on account of goods purchased or services received in the normal course of business. These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

De-recognition of financial liability

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other income or finance costs.

3.8 Equity share capital

Ordinary shares are classified as equity. Incremental costs net of taxes directly attributable to the issue of new equity shares are reduced from retained earnings, net of taxes.

3.9 Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

Other borrowing costs are expensed in the period in which they are incurred.

3.10 Taxation

Income tax expenses or credit for the period comprised of tax payable on the current period's taxable income based on the applicable income tax rate, the changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses, minimum alternative tax (MAT) and previous year tax adjustments.

NOTES TO STANDALONE FINANCIAL STATEMENTS

Tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised directly in equity or other comprehensive income, in such cases the tax is also recognised directly in equity or in other comprehensive income. Any subsequent change in direct tax on items initially recognised in equity or other comprehensive income is also recognised in equity or other comprehensive income, such change could be for change in tax rate.

The current income tax charge or credit is calculated on the basis of the tax law enacted after considering allowances, exemptions and unused tax losses under the provisions of the applicable Income Tax Laws. Current tax assets and current tax liabilities are off set, and presented as net.

Deferred income tax is recognised, using the liability method, on temporary differences arising between the tax base of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates and laws that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses. Deferred tax assets and deferred tax liabilities are off set, and presented as net.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available against which the temporary differences can be utilised.

The Company recognises Credit of MAT as an asset when there is reasonable certainty that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the MAT credit becomes eligible to be recognised as an asset, the said asset is created by way of a credit to the statement of profit and loss account and included in the deferred tax assets. The carrying amount of MAT is reviewed at each balance sheet date.

3.11 Revenue recognition and other operating income

a) Sale of services

Revenue from services is accounted on accrual basis depending upon risk and rewards transferred.

b) Other Income

Interest

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

Dividend

Dividend income is recognised when the right to receive dividend is established.

3.12 Earnings per share

Basic earnings per share is computed using the net profit for the year attributable to the shareholders' and weighted average number of shares outstanding during the year. The weighted average numbers of shares also includes fixed number of equity shares that are issuable on conversion of compulsorily convertible preference shares, debentures or any other instrument, from the date consideration is receivable (generally the date of their issue) of such instruments.

Diluted earnings per share is computed using the net profit for the year attributable to the shareholder' and weighted average number of equity and potential equity shares outstanding during the year including share options, convertible preference shares and debentures, except where the result would be anti-dilutive. Potential equity shares that are converted during the year are included in the calculation of diluted earnings per share, from the beginning of the year or date of issuance of such potential equity shares, to the date of conversion.

3.13 Provisions and contingencies

Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Contingencies

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Information on contingent liability is disclosed in the Notes to the Financial Statements. Contingent assets are not recognised. However, when the realisation of income is virtually certain, then the related asset is no longer a contingent asset, but it is recognised as an asset.

NOTES TO STANDALONE FINANCIAL STATEMENTS

3.14 Investment in Subsidiaries

A subsidiary is an entity controlled by the Company. Control exists when the Company has power over the entity, is exposed, or has rights to variable returns from its involvement with the entity and has the ability to affect those returns by using its power over entity.

Power is demonstrated through existing rights that give the ability to direct relevant activities, those which significantly affect the entity's returns.

Investments in subsidiaries are carried at cost. The cost comprises price paid to acquire investment and directly attributable cost.

3.15 Current versus non-current classification

The Company presents assets and liabilities in statement of financial position based on current/non-current classification.

The Company has presented non-current assets and current assets before equity, non-current liabilities and current liabilities in accordance with Schedule III, Division II of Companies Act, 2013 notified by MCA.

An asset is classified as current when it is:

- a) Expected to be realised or intended to be sold or consumed in normal operating cycle,
- b) Held primarily for the purpose of trading,
- c) Expected to be realised within twelve months after the reporting period, or
- d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:

- a) It is expected to be settled in normal operating cycle,
- b) It is held primarily for the purpose of trading,
- c) It is due to be settled within twelve months after the reporting period, or
- d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

3.16 Compound financial instruments

The liability component of a compound financial instrument is recognised initially at fair value of a similar liability that does not have an equity component. The equity component is recognised initially as the difference between the fair value of the compound financial instrument as a whole and the fair value of the liability component. Any directly attributable transaction costs are allocated to the liability and the equity components, if material, in proportion to their initial carrying amounts.

Subsequent to the initial recognition, the liability component of a compound financial instrument is measured at amortised cost using the effective interest rate method. The equity component of a compound financial instrument is not re-measured subsequent to initial recognition except on conversion or expiry.

3.17 Leases

As per Ind AS 116, leases, the arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets for a period of time in exchange for consideration, even if that right is not explicitly specified in an arrangement.

Lease accounting by lessee

Company as lessee will measure the right-of-use asset at cost by recognition a right-of-use asset and a lease liability on initial measurement of the right-of-use asset at the commencement date of the lease.

The cost of the right-of-use asset will comprise:

- the amount of the initial measurement of the lease liability,
- any lease payments made at or before the commencement date less any incentives received,
- any initial direct costs incurred
- an estimate of costs to be incurred in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories.

Lease liability will be initially measured at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if the rate cannot be readily determined incremental borrowing rate will

NOTES TO STANDALONE FINANCIAL STATEMENTS

be considered. Interest on lease liability in each period during the lease will be the amount that produces a constant periodic rate of interest on the remaining balance of the lease liability.

Lease payments will comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date:

- fixed payments less any lease incentives receivable
- variable lease payments
- amounts expected to be payable under residual value guarantees
- the exercise price of a purchase option, if the Company is reasonably certain to exercise that option
- payments of penalties for terminating the lease, if the lease term reflects the Company exercising an option to terminate the lease.

Subsequent measurement of the right-of-use asset after the commencement date will be at cost model, the value of right-of-use asset will be initially measured cost less accumulated depreciation and any accumulated impairment loss and adjustment for any re-measurement of the lease liability.

The right-of-use asset will be depreciated from the commencement date to the earlier of the end of the useful life of the asset or the end of lease term, unless lease transfers ownership of the underlying asset to the Company by the end of the lease term or if the cost of the right-of-asset reflects that the Company will exercise a purchase option, in such case the Company will depreciate asset to the end of the useful life.

Subsequent measurement of the lease liability after the commencement date will reflect the initially measured liability increased by interest on lease liability, reduced by lease payments and re-measuring the carrying amount to reflect any re-assessment or lease modification.

Right-of-use asset and lease liability are presented on the face of balance sheet. Depreciation charge on right-to-use is presented under depreciation expense as a separate line item. Interest charge on lease liability is presented under finance cost as a separate line item. Under the cash flow statement, cash flow from lease payments including interest are presented under financing activities. Short-term lease payments, payments for leases of low-value assets and variable lease payments that are not included in the measurement of the lease liabilities are presented as cash flows from operating activities.

The Company has elected to adopt the practical expedient not to account for short term leases or leases for which the underlying asset is of low value, as right-of-use assets. Company will recognise these lease payments associated with those leases as an expense on either a straight-line basis over the lease term or another systematic basis.

Lease accounting by lessor

Company as a lessor need to classify each of its leases either as an operating lease or a finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset.

Finance lease

At the commencement date, will recognise assets held under a finance lease in its balance sheet and present them as a receivable at an amount equal to the net investment in the lease. Net investment is the discount value of lease receipts net of initial direct costs using the interest rate implicit in the lease. For subsequent measurement of finance leased assets, the Company will recognise interest income over the lease period, based on a pattern reflecting a constant periodic rate of return on the Company's net investment in the lease.

Operating lease

Company will recognise lease receipts from operating leases as income on either a straight-line basis or another systematic basis. Company will recognise costs, including depreciation incurred in earning the lease income as expense.

3.18 Recent accounting pronouncements

Ministry of Corporate Affairs ("MCA") has vide notification dated 23 March 2022 notified Companies (Indian Accounting Standards) Amendment Rules, 2022 which amends certain accounting standards, and are effective from 1 April 2022. These amendments are not expected to have a material impact on the group in the current or future reporting periods and on foreseeable future transactions.

Ministry of Corporate Affairs ("MCA") amended the Schedule III to the Companies Act, 2013 on 24 March 2021 to increase the transparency and provide additional disclosures to users of financial statements. These amendments are effective from 1 April 2021.

Consequent to above, the company has changed the classification/presentation of

- (i) current maturities of long-term borrowings
- (ii) security deposits, in the current year.

The current maturities of long-term borrowings (including interest accrued) has now been included in the "Current borrowings" line item. Previously, current maturities of long-term borrowings and interest accrued were included in 'other financial liabilities' line item.

NOTES TO STANDALONE FINANCIAL STATEMENTS

Further, security deposits (which meet the definition of a financial asset as per Ind AS 32) have been included in 'other financial assets' line item. Previously, these deposits were included in 'loans' line item.

4. Critical accounting estimates, assumptions and judgements

In the process of applying the Company's accounting policies, management has made the following estimates, assumptions and judgements, which have significant effect on the amounts recognised in the financial statement:

(a) *Property, plant and equipment*

External adviser or internal technical team assess the remaining useful lives and residual value of property, plant and equipment. Management believes that the assigned useful lives and residual value are reasonable, the estimates and assumptions made to determine depreciation are critical to the Company's financial position and performance.

(b) *Intangibles*

Internal technical or user team assess the remaining useful lives of Intangible assets. Management believes that assigned useful lives are reasonable.

(c) *Income taxes*

Management judgment is required for the calculation of provision for income taxes and deferred tax assets and liabilities. The Company reviews at each balance sheet date the carrying amount of deferred tax assets. The factors used in estimates may differ from actual outcome which could lead to significant adjustment to the amounts reported in the standalone financial statements.

(d) *Contingencies*

Management judgement is required for estimating the possible outflow of resources, if any, in respect of contingencies/claim/litigations against the Company as it is not possible to predict the outcome of pending matters with accuracy.

5. Financial risk management

Financial risk factors

The Company's principal financial liabilities, comprise borrowings, trade and other payables. The main purpose of these financial liabilities is to manage finances for the Company's operations. The Company has loan and other receivables, trade and other receivables, and cash and short-term deposits that arise directly from its operations. The Company's activities expose it to a variety of financial risks:

i) **Market risk**

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk: currency rate risk, interest rate risk and other price risks, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, deposits, investments, and derivative financial instruments. Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. This is based on the financial assets and financial liabilities held as of March 31, 2022 and March 31, 2021.

ii) **Credit risk**

Credit risk is the risk that a counter party will not meet its obligations under a financial instrument or customer contract, leading to a financial loss.

iii) **Liquidity risk.**

Liquidity risk is the risk that the Company may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses.

Risk management is carried out by the treasury department under policies approved by the board of directors. The treasury team identifies, evaluates and hedges financial risks in close co-operation with the Company's operating units. The board provides principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, and credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

Market Risk

The sensitivity analysis excludes the impact of movements in market variables on the carrying value of post-employment benefit obligations provisions and on the non-financial assets and liabilities. The sensitivity of the relevant Statement of Profit and Loss item is the effect of the assumed changes in the respective market risks. The Company's activities expose it to a variety of financial risks, including the effects of changes in foreign currency exchange rates and interest rates.

(a) *Foreign exchange risk and sensitivity*

The Company has no foreign currency trade payables and receivable outstanding as on 31st March, 2022 and is therefore, not exposed to foreign exchange risk.

NOTES TO STANDALONE FINANCIAL STATEMENTS
(b) Interest rate risk and sensitivity

The Company's exposure to the risk of changes in market interest rates relates primarily to long term debt.

With all other variables held constant, the following table demonstrates the impact of borrowing cost on floating rate borrowings.

(₹ Lacs)

Particulars	Increase/Decrease in basis points	Effect on Profit before tax
For the year ended March 31, 2022		
INR Borrowing	+50	(0.63)
	-50	0.63
For the year ended March 31, 2021		
INR Borrowing	+50	(0.67)
	-50	0.67

The assumed movement in basis points for interest rate sensitivity analysis is based on the currently observable market environment.

Credit risk

The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities.

Liquidity risk

The Company's objective is to; at all times maintain optimum levels of liquidity to meet its cash and collateral requirements.. In case of temporary short fall in liquidity to repay the borrowing/operational short fall , the company uses mix of capital infusion and borrowing from its group company. However, the company envisage that such short fall is temporary and the company would generate sufficient cash flows as per approved projections.

The table below provides undiscounted cash flows towards non-derivative financial liabilities into relevant maturity based on the remaining period at the balance sheet to the contractual maturity date.

Capital risk management

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The primary objective of the Company's capital management is to maximize the shareholder value. The Company's primary objective when managing capital is to ensure that it maintains an efficient capital structure and healthy capital ratios and safeguard the Company's ability to continue as a going concern in order to support its business and provide maximum returns for shareholders. The Company also proposes to maintain an optimal capital structure to reduce the cost of capital. No changes were made in the objectives, policies or processes during the year ended March 31, 2022 and March 31, 2021.

For the purpose of the Company's capital management, capital includes issued capital, share premium and all other equity reserves. Net debt includes, interest bearing loans and borrowings, trade and other payables less cash and short term deposits, excluding discontinued operations.

The Company monitors capital using a gearing ratio, which is net debt divided by total capital. Net debt is calculated as loans and borrowings less cash and cash equivalents.

The Gearing ratio for FY 2021-22 and 2020-21 is an under.

Fair Valuation techniques

The Company maintains policies and procedures to value financial assets or financial liabilities using the best and most relevant data available. The fair values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The following methods and assumptions were used to estimate the fair values:

- 1) Fair value of cash and other current financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.
- 2) Long-term fixed-rate borrowings are evaluated by the Company based on parameters such as interest rates, specific country risk factors, credit risk and other risk characteristics. Fair value of variable interest rate borrowings is not material different from carrying values. For fixed interest rate borrowing fair value is determined by using the discounted cash flow (DCF) method using discount rate that reflects the issuer's borrowings rate. Risk of non-performance for the company is considered to be insignificant in valuation.

Fair Value hierarchy

The following table provides the fair value measurement hierarchy of Company's asset and liabilities, grouped into Level 1 to Level 3 as described below:

Fair Valuation of Financial guarantees:

Financial guarantees issued by the Company on behalf of its subsidiary companies have been measured through profit and loss account. Fair value of said guarantees as at March 31, 2022 is considered Rs. Nil (March 31, 2021- Nil).

- Quoted prices / published NVA (unadjusted) in active markets for identical assets or liabilities (level 1). It includes fair value of financial instruments traded in active markets and are based on quoted market prices at the balance sheet date and financial instruments like mutual funds for which net assets value (NAV) is published mutual fund operators at the balance sheet date.
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2). It includes fair value of the financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on the company specific estimates. If all significant inputs required to fair value an instrument are observable. Derivatives included interest rate swaps and foreign currency forwards.
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3). If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

OCI presentation of defined benefit plan

- Gratuity in the nature of defined benefit plan, Re-measurement gains/(losses) on defined benefit plans is shown under OCI as Items that will not be reclassified to profit or loss and also the income tax effect on the same.
- Leave encashment cost is in the nature of short term employee benefits.

Presentation in Statement of Profit and Loss and Balance Sheet

Expense for service cost, net interest on net defined benefit liability (asset) is charged to Statement of Profit and Loss.

IND AS 19 do not require segregation of provision in current and non-current, however net defined liability (Assets) is shown as current and non-current provision in balance sheet as per IND AS 1.

Actuarial liability for short term benefits (leave encashment cost) is shown as current and non-current provision in balance sheet.

When there is surplus in defined benefit plan, company is required to measure the net defined benefit asset at the lower of; the surplus in the defined benefit plan and the assets ceiling, determined using the discount rate specified, i.e. market yield at the end of the reporting period on government bonds, this is applicable for domestic companies, foreign company can use corporate bonds rate.

The Company assesses these assumptions with its projected long-term plans of growth and prevalent industry standards. The mortality rates used are as published by one of the leading life insurance companies in India.

**CONSOLIDATED
FINANCIAL
STATEMENTS**

**INDEPENDENT AUDITORS' REPORT****To The Members of JITF INFRALOGISTICS LIMITED
Report on the Audit of the Consolidated Financial Statements****Opinion**

We have audited the accompanying consolidated financial statements of JITF Infralogistics Limited (hereinafter referred to as "the Holding Company") and its subsidiaries, (the Holding Company and its subsidiaries together referred to as the "Group") and its joint ventures, which comprise the Consolidated Balance Sheet as at March 31, 2022, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as the "consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements, give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ("Ind AS") prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2022, the consolidated loss, consolidated total comprehensive income, consolidated changes in equity and its consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing ("SA's") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Material uncertainty relating to Going concern related to Subsidiary Company:

JITF Water Infra (Naya Raipur) Limited (JITFWIL/NRDA): Auditor of JITFWIL/NRDA has drawn attention regarding non-extension of the Concession agreement for Operation and Maintenance beyond 4th January, 2018 by the local authority. Therefore, it indicates that a material uncertainty exists that may cast significant doubt on the JITFWIL's ability to continue as a going concern {note no. 36.26(a) of the audited consolidated financial statements for the year ended 31st March, 2022}.

Our opinion is not modified in respect of this matter.

Emphasis of Matter:

We draw attention in respect to JITF Urban Waste Management (Bathinda) Limited whose auditors have drawn attention in their

report that the said Company has prepared financial statements on going concern basis based on their assessment of receiving the Arbitration Award and additional support from promoters [read with note no. 36.26(d) of the audited consolidated financial statements for the year ended 31st March, 2022]. The auditors of the above stated company had not modified their opinion in this regard.

Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that there are no key audit matters to be communicated in our report.

Information Other than the Financial Statements and Auditor's Report Thereon

The Holding Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon. The other information is expected to be made available to us after this Auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

When we read Annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matters to those charged with governance.

Management's Responsibilities and those charged with governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group including its joint ventures in accordance with the Ind AS and other accounting principles generally accepted in India. The respective Boards of Directors of the companies included in the Group and of its joint ventures are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and/or its joint ventures and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments

INDEPENDENT AUDITORS' REPORT

and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Boards of Directors of the companies included in the Group and joint ventures are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Boards of Directors either intend to liquidate their respective entities or to cease operations, or have no realistic alternative but to do so.

The respective Boards of Directors of the companies included in the Group and of its joint ventures are also responsible for overseeing the financial reporting process of the Group and of its joint ventures.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the holding company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its joint ventures to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its joint ventures to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities within the Group and its joint ventures to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors remain responsible for the direction, supervision and performance of audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

INDEPENDENT AUDITORS' REPORT

Other Matters

a) We did not audit the financial statements of eighteen subsidiaries, whose financial statements/financial information reflect total assets of Rs. 4,45,986.34 lakhs as at 31st March 2022, total revenue of Rs. 1,33,818.77 lacs, total net profit/(loss) after tax of Rs. (16,457.85 lakhs), total comprehensive income Rs. Annexure “B” to the Independent Auditor’s Report

Annexure “B” to the independent Auditor’s Report

(Referred to in paragraph 1 (f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of JITF Infralogistics Limited of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2022, we have audited the internal financial controls over financial reporting of JITF Infralogistics Limited (hereinafter referred to as “the Holding Company”) and its subsidiary companies (incorporated in India), (the Company and its subsidiaries together referred to as the “Group”) which are companies incorporated in India, as of that date.

Management’s Responsibility for Internal Financial Controls

The Respective Boards of Directors of the Holding Company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the “ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company and its subsidiary companies, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India (“ICAI”) and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over

financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained and audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below is sufficient and appropriate to provide a basis for our audit opinion on the Group’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Holding Company and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the internal financial control over

Annexure “B” to the Independent Auditor’s Report

financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Other Matters

- a) Our aforesaid report u/s 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over the financial reporting of the Holding Company in so far as it relates to 18 number subsidiary companies, which are incorporated in India, is based solely on the corresponding reports of respective auditors of such subsidiaries Incorporated in India.

Our opinion is not modified in respect of this matter.

- b) We are not expressing our opinion on whether 7 Joint Ventures has in place adequate internal financial controls system

over financial reporting and operating effectiveness of such controls in Joint Ventures, as stated in the corresponding reports of the respective auditors of such joint ventures and we are also unable to comment on 2 Joint venture which is unaudited and as certified by management.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note No-36

1. Corporate and General Information

JITF InfraLogistics Limited ("JIL" or "Parent") is domiciled and incorporated in India. The registered office of JIL is situated at A-1, UPSIDC Industrial Area, Nandgaon Road, Kosi Kalan, District Mathura, 281403 (U.P.) India.

The consolidated financial statements comprise financial statement of JITF InfraLogistics Limited (the Parent) and its subsidiaries (hereinafter collectively referred to as group) and its joint ventures for the year ended 31st March 2022.

Group and its joint ventures are engaged in the business of development of urban infrastructure, water infrastructure, Management of Municipal solid waste and generation of energy from Municipal solid waste. Group is also engaged in manufacturing of railway freight wagons.

2. Basis of preparation

The Annual financial statement have been prepared complying with all Indian Accounting Standards notified under Section 133 of the Companies Act 2013, read with the Companies (Indian Accounting Standard) Rule, 2015, as amended and other relevant provision of the Act.

The Group has consistently applied the accounting policies used in the preparation for all periods presented.

The Significant accounting policies used in preparing the financial statements are set out in Note no.36.3 of the Notes to these Financial Statements.

3. Significant Accounting Policies

3.1 Basis of Measurement

The consolidated financial statements have been prepared on an accrual basis and under the historical cost convention except following which have been measured at fair value:

- Certain financial assets and liabilities except certain borrowings carried at amortised cost,
- defined benefit plans – plan assets measured at fair value,
- derivative financial instruments,

The consolidated financial statements are presented in Indian Rupees (₹), which is the Group's functional and Group's presentation currency and all amounts are rounded to the nearest lacs (₹ 00,000) and two decimals thereof, except as stated otherwise.

3.2 Use of Estimates

The preparation of the financial statements requires management to make estimates and assumptions. Actual results could vary from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision effects only that period or in the period of the revision and future periods if the revision affects both current and future years (refer Note no. 36.4 on significant accounting estimates, assumptions and judgements).

3.3 Basis of consolidation

The consolidated financial statements relate to the Group and joint ventures. Subsidiary are those entities in which the Parent directly or indirectly, has interest more than 50% of the voting power or otherwise control the composition of the board or governing body so as to obtain economic benefits from activities. The consolidated financial statements have been prepared on the following basis:-

- a) The financial statements of the subsidiaries are combined on a line-by-line basis by adding together the like items of assets, liabilities, income and expenses after fully eliminating intra-group balances and intra-group transactions and unrealized profits or losses in accordance with IND AS 110 – 'Consolidated Financial Statements' notified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015 as amended time to time.
- b) Interest in joint ventures are consolidated using equity method as per IND AS 28 – 'Investment in Associates and Joint Ventures'. Under the equity method, post-acquisition attributable profit/losses are adjusted in the carrying value of investment upto the Group investment in the joint venture.
- c) Non-controlling Interest (NCI) in the net assets of the consolidated subsidiaries is identified and presented in the consolidated Balance Sheet separately from liabilities and the equity attributable to the Parent's shareholders. NCI in the net assets of the consolidated subsidiaries consists of:
 - The amount of equity attributable to NCI at the date on which investment in a subsidiary is made; and
 - The NCI share of movement in the equity since the date the parent subsidiary relationship came into existence.
- d) NCI in the total comprehensive income (comprising of profit and loss and other comprehensive income) for the year, of consolidated subsidiaries is identified and adjusted against the total comprehensive income of the Group. However, losses attributable over and above the share of NCI are borne by NCI even if it results in their deficit balance subsequent to IND AS transition date.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

- e) Where Group has contractual obligation (Put, call or any other) to deliver cash or another financial asset and to settle any compound financial instruments classified by subsidiary as equity or mix of equity and liability, to the extent there is such an obligation or a component of it subject to obligation, the equity component considered by subsidiary is classified as financial liability in consolidated financial statement.
- f) For acquisitions of additional interests in subsidiaries, where there is no change in control, the Group recognises a reduction to the non-controlling interest of the respective subsidiary with the difference between this figure and the cash paid, inclusive of transaction fees, being recognised in equity. In addition, upon dilution of non-controlling interests the difference between the cash received from sale or listing of the subsidiary shares and the increase to non-controlling interest is also recognised in equity. If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, non-controlling interest and other components of equity, while any resultant gain or loss is recognised in profit and loss. Any investment retained is recognised at fair value. The results of subsidiaries acquired or disposed of during the year are included in the consolidated Profit and Loss Statement from the effective date of acquisition or up to the effective date of disposal, as appropriate.
- g) The consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented in the same manner as the companies separate financial statements.

3.4 Property, Plant and Equipment

Property, Plant and Equipment are carried at cost less accumulated depreciation and accumulated impairment losses, if any. Cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Assets are depreciated to the residual values on a straight line basis over the estimated useful lives based on technical estimates which is different from one specified in Schedule II to the Companies Act, 2013. Assets residual values and useful lives are reviewed at each financial year end considering the physical condition of the assets or whenever there are indicators for review of residual value and useful life. Changes in the expected useful life of assets are treated as change in accounting estimates. Freehold land is not depreciated. Estimated useful lives of the assets are as follows:

Category of Assets	Years
- Temporary Structure	3
- Buildings	30-50
- Lease Asset	18-20
Equipment & Machinery	
- Plant and Machinery	5-45
- Electrical Installation	5-25
Other equipment, operating and office equipment	
- Computer Equipment	3-8
- Office equipment	3-25
- Furniture and fixture	2-10
- Vehicles	3-10

The gain or loss arising on the disposal or retirement of an item of Property, Plant and Equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the Statement of Profit and Loss on the date of disposal or retirement.

3.5 Intangible Assets

Identifiable intangible assets are recognised a) when the Group controls the asset, b) it is probable that future economic benefits attributed to the asset will flow to the Group and c) the cost of the asset can be reliably measured.

- a) Computer software

Computer software's are capitalised at the amounts paid to acquire the respective license for use and are amortised over the period of license, generally not exceeding five years on straight line basis. The assets' useful lives are reviewed at each financial year end.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

b) Intangible Assets under service concession arrangement

The Company recognises an intangible asset arising from a service concession arrangement when it has a right to charge for usage of the concession infrastructure. An intangible asset received as consideration for providing construction services is a service concession arrangement is measured at cost, less accumulated amortisation and accumulated impairment losses. Grant related to Service Concession agreement is deducted from the value of intangible assets.

3.6 Impairment of non-current assets

Non-current assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

3.7 Cash and cash equivalents

Cash and cash equivalents includes cash on hand and at bank, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value and are held for the purpose of meeting short-term cash commitments.

For the purpose of the Statement of Cash Flows, cash and cash equivalents consists of cash and short term deposits, as defined above, net of outstanding bank overdraft as they are being considered as integral part of the Group's cash management.

3.8 Inventories

Inventories are valued at the lower of cost and net realizable value except scrap, which is valued at net realizable value. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale. The cost of inventories comprises of cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their respective present location and condition. Cost is computed on the weighted average basis.

3.9 Employee benefits

- a) Short term employee benefits are recognized as an expense in the Statement of Profit and Loss of the year in which the related services are rendered. Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.
- b) Leave encashment is accounted for using the projected unit credit method, on the basis of actuarial valuations carried out by third party actuaries at each Balance Sheet date. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to profit and loss in the period in which they arise.
- c) Contribution to Provident Fund, a defined contribution plan, is made in accordance with the statute, and is recognised as an expense in the year in which employees have rendered services.
- d) The liability or asset recognised in the balance sheet in respect of gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation denominated in Indian Rupees (₹) is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

The Group operates defined benefit plans for gratuity, which requires contributions to be made to a separately administered fund. Funds are managed by trust. This trust has policy from an insurance company.

3.10 Foreign currency translation

(a) Functional and presentation currency

Consolidated financial statements have been presented in Indian Rupees, which is the Group's functional currency and Group's presentation currency. Each entity in the Group determines its own functional currency (the currency of the primary economic

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

environment in which the entity operates) and items included in the financial statements of each entity are measured using that functional currency.

(b) Transactions and balances

Transactions in foreign currencies are initially recorded by the entities in Group at their respective functional currency rates prevailing at the date of the transaction. Subsequently monetary items are translated at closing exchange rates of balance sheet date and the resulting exchange difference recognised in profit and loss. Differences arising on settlement of monetary items are also recognised in profit and loss.

Exchange gain and loss on debtors, creditors and other than financing activities are presented in the statement of profit and loss, as other income and as other expenses respectively. Foreign exchange gain and losses on financing activities to the extent that they are regarded as an adjustment to interest costs are presented in the statement of profit and loss as finance cost and balance gain and loss are presented in statement of profit and loss as other income and as other expenses respectively.

Non-monetary items that are measured at fair value in foreign currency are translated using the exchange rates at the date when the fair value was determined.

Foreign exchange fluctuations on long term foreign currency monetary liabilities are capitalised.

3.11 Financial instruments – initial recognition, subsequent measurement and impairment

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a. Financial Assets

Financial Assets are classified at amortised cost or fair value through Other Comprehensive Income or fair value through Profit or Loss, depending on its business model for managing those financial assets and the assets contractual cash flow characteristics.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The group reclassifies debt investments when and only when its business model for managing these assets changes.

For impairment purposes significant financial assets are tested on an individual basis, other financial assets are assessed collectively in groups that share similar credit risk characteristics.

Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Investment in Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the group classifies its debt instruments:

- **Amortised cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Financial assets classified at amortised cost are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. Interest income from these financial assets is included in finance income using the effective interest rate method.
- **Fair value through other comprehensive income (FVOCI):** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method.
- **Fair value through profit or loss (FVPL):** Any financial asset that does not meet the criteria for classification as at amortized cost or as financial assets at fair value through other comprehensive income, is classified as at financial assets at fair value through profit or loss. Financial assets at fair value through profit or loss are at each reporting date fair valued with all the changes recognized in the statement of profit or loss.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Trade receivables

A receivable is classified as a 'trade receivable' if it is in respect to the amount due from customers on account of goods sold or services rendered in the ordinary course of business. Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. For some trade receivables the group may obtain security in the form of guarantee, security deposit or letter of credit which can be called upon if the counterparty is in default under the terms of the agreement.

Impairment is made on the expected credit losses, which are the present value of the cash shortfalls over the expected life of financial assets. The impairment methodology applied depends on whether there has been a significant increase in credit risk. The estimated impairment losses are recognised in a separate provision for impairment and the impairment losses are recognised in the Statement of Profit and Loss within other expenses.

Subsequent changes in assessment of impairment are recognised in provision for impairment and the change in impairment losses are recognised in the Statement of Profit and Loss within other expenses.

For foreign currency trade receivable, impairment is assessed after reinstatement at closing rates.

Individual receivables which are known to be uncollectible are written off by reducing the carrying amount of trade receivable and the amount of the loss is recognised in the Statement of Profit and Loss within other expenses.

Subsequent recoveries of amounts previously written off are credited to other Income

Investment in equity instruments

Investment in equity securities are initially measured at fair value. Any subsequent fair value gain or loss is recognized through Profit or Loss if such investments in equity securities are held for trading purposes. The fair value gains or losses of all other equity securities are recognized in Other Comprehensive Income. Where the company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit and loss. Dividends from such investments are recognised in profit and loss as other income when the company's right to receive payments is established. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

De-recognition of financial asset

A financial asset is derecognised only when

- The group has transferred the rights to receive cash flows from the financial asset or
- Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the company has not retained control of the financial asset. Where the company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

b. Financial Liabilities

At initial recognition, all financial liabilities other than fair valued through profit and loss are recognised initially at fair value less transaction costs that are attributable to the issue of financial liability. Transaction costs of financial liabilities are carried at fair value through profit and loss is expensed in Profit and Loss.

Financial liabilities at fair value through profit and loss

Financial liabilities at fair value through profit and loss include financial liabilities held for trading. The Group has not designated any financial liabilities upon initial measurement recognition at fair value through profit and loss. Financial liabilities at fair value through profit and loss are accounted at each reporting date at fair value with all the changes recognized in the Statement of Profit and Loss.

Financial liabilities measured at amortized cost

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortised cost using the effective interest rate ("EIR") method except for those designated in an effective hedging relationship. The carrying value of borrowings that are designated as hedged items in fair value hedges that would otherwise be carried at amortised cost are adjusted to record changes in fair values attributable to the risks that are hedged in effective hedging relationship.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fee or costs that are an integral part of the EIR. The EIR amortisation is included in finance costs in the Statement of Profit and Loss.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

After initial recognition, interest-bearing borrowings are subsequently measured at amortised cost using the effective interest rate method. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit and loss over the period of the borrowings using the effective interest rate method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least twelve months after the reporting period.

Trade and other payables

Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. Trade payables are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest rate method.

De-recognition of financial liability

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in Profit and Loss as other income or finance costs.

3.12 Derivative financial instruments and hedging activities

The Group uses derivative financial instruments, such as forward currency contracts and interest rate swaps to hedge its foreign currency risks and interest rate risks. Derivative financial instruments are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value at the end of each period. The method of recognising the resulting gain or loss depends on whether the derivative is designated as a hedging instrument, and if so, on the nature of the item being hedged. Any gains or losses arising from changes in the fair value of derivatives are taken directly to Profit and Loss.

3.13 Compound financial instruments

The liability component of a compound financial instrument is recognised initially at fair value of a similar liability that does not have an equity component. The equity component is recognised initially as the difference between the fair value of the compound financial instrument as a whole and the fair value of the liability component. Any directly attributable transaction cost is allocated to the liability and the equity component, if material, in proportion to their initial carrying amounts.

Subsequent to the initial recognition, the liability component of a compound financial instrument is measured at amortised cost using the effective interest rate method. The equity component of a compound financial instrument is not re-measured subsequent to initial recognition except on conversion or expiry.

3.14 Equity share capital

Ordinary shares are classified as equity. Incremental costs net of taxes directly attributable to the issue of new equity shares are reduced from retained earnings, net of taxes.

3.15 Borrowing costs

Borrowing costs specifically relating to the acquisition or construction of qualifying assets that necessarily takes a substantial period of time to get ready for its intended use are capitalised (net of income on temporarily deployment of funds) as part of the cost of such assets. Borrowing costs consist of interest and other costs that the Group incurs in connection with the borrowing of funds.

For general borrowing used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization is determined by applying a capitalization rate to the expenditures on that asset. The capitalization rate is the weighted average of the borrowing costs applicable to the borrowings of the Group that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs capitalized during a period does not exceed the amount of borrowing cost incurred during that period.

All other borrowing costs are expensed in the period in which they are incurred.

3.16 Taxation

Income tax expense represents the sum of current and deferred tax. Tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised directly in equity or other comprehensive income. In this case the tax is also recognised directly in equity or in other comprehensive income. Any subsequent change in direct tax on items initially recognised in equity or other comprehensive income is also recognised in equity or other comprehensive income, such change could be for change in tax rate.

Current tax provision is computed for Income calculated after considering allowances and exemptions under the provisions of the applicable Income Tax laws. Current tax assets and current tax liabilities are off set at each subsidiary level and net assets or liabilities are added line by line, and presented as gross at group level.

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using the balance sheet liability method.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Deferred tax liabilities are generally recognised for all taxable temporary differences, and deferred tax assets are generally recognised for all deductible temporary differences, carry forward tax losses and allowances to the extent that it is probable that future taxable profits will be available against which those deductible temporary differences, carry forward tax losses and allowances can be utilised. Deferred tax assets and liabilities are measured at the tax rates applicable to each subsidiary. Deferred tax assets and deferred tax liabilities are off-set at each subsidiary level and net assets or liabilities are added line by line, and presented as gross at group level.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available against which the temporary differences can be utilised.

Credit of MAT is recognised as an asset only when and to the extent there is convincing evidence that the Parent or other Indian subsidiaries will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the MAT credit becomes eligible to be recognised as an asset, the said asset is created by way of a credit to the Statement of Profit and Loss and shown as MAT credit entitlement.

3.17 Revenue recognition and other operating income

The Group has adopted the new standard Ind AS 115, "Revenue from contracts with customers" from April 1, 2018, applying the modified retrospective approach which provides that the cumulative impact of the adoption will be recognised in retained earnings as of April 1, 2018 and comparatives will not be restated. Ind AS 115 did not have material impact on the amount or timing of recognition of reported revenue.

The Object of the group is to carry on the infrastructure business and other activities through chain of its subsidiaries.

a) Sale of goods

- (i) Revenue is recognized at the fair value of consideration received or receivable and represents the net invoice value of goods supplied to third parties after deducting discounts, volume rebates and outgoing sales tax and are recognized either on delivery or on transfer of significant risk and rewards of ownership of the goods.
- (ii) Revenue in respect of Rail freight wagon is recognized at the fair value of consideration received or receivable and represents the net invoice value of goods supplied to third parties after deducting discounts, volume rebates and outgoing sales tax and are recognized either on delivery or on transfer of significant risk and rewards of ownership of the goods.

b) Sale of power

Revenue from the sale of power is recognised when the electricity is supplied and measured based on contractually agreed tariff rates.

c) Sale of services

- (i) Revenue in respect of Service/ Works Contracts is recognized based on the Work performed and invoiced as per the terms of specific Contracts. Contract revenue in respect of erection and commissioning is recognized by adding the aggregate cost and proportionate margin using the percentage completion method. Percentage of completion is determined as a proportion of cost incurred-to-date to the total estimated contract cost. Estimated loss on project activity to be undertaken in future years is provided for.
- (ii) Revenue from supply of ETP treated water is accounted for upon transfer of risk and rewards to customers on accrual basis.
- (iii) Revenue from customers from operation and maintenance is accounted for upon transfer of risk and rewards to customers on accrual basis.
- (iv) Tipping Fees and usage charges earnings including unbilled revenue are recognized on accrual basis.
- (v) Revenue from logistics services is accounted on accrual basis depending upon risk and rewards transferred.

d) Sale of CER

Revenue from (i) self-generated CER is recognized on the date of receipt of certificates at its estimated realizable value and (ii) from purchased CER, at its selling price at the time of sale. The difference between actual selling price and the carrying amount is accounted for in the year of sale. CER not sold on each reporting date are valued at lower of initial estimated realizable value or market value and considered in other current financial assets.

e) Other Operating Income

Incentives on exports and other government incentives related to operations are recognised in books after due consideration of certainty of utilization/receipt of such incentives. For government grants refer para 36.3.18.

f) Other Income

Interest

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

Dividend

Dividend income is recognised when the right to receive dividend is established.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

3.18 Government grants

Government grants with a condition to purchase, construct or otherwise acquire long-term assets are initially measured based on grant receivable under the scheme, such grants are recognised in the Profit and Loss Statement on a systematic basis over the useful life of the asset. Amount of benefits receivable in excess of grant income accrued based on usage of the assets is accounted as deferred income. Changes in estimates are recognised prospectively over the remaining life of the assets. Government revenue grants relating to costs are deferred and recognised in the Profit and Loss Statement over the period necessary to match them with the costs that they are intended to compensate.

3.19 Dividend distribution

Annual dividend distribution to the shareholders is recognised as a liability in the period in which the dividend is approved by the shareholders. Any interim dividend paid is recognised on approval by Board of Directors. Dividend payable and corresponding tax on dividend distribution is recognised directly in equity.

3.20 Earnings per share

The Group's Basic earnings per Share ('EPS') is determined based on the net profit attributable to the equity shareholders' of the Parent and weighted average number of shares outstanding during the year. The weighted average numbers of shares also includes fixed number of equity shares that are issuable on conversion of compulsorily convertible preference shares, debentures or any other instrument, from the date consideration is receivable (generally the date of their issue) for such instruments.

Diluted earnings per share is computed using the net profit for the year attributable to the equity shareholder' of the Parent and weighted average number of equity and potential equity shares outstanding during the year including share options, convertible preference shares and debentures, except where the result would be anti-dilutive. Potential equity shares that are converted during the year are included in the calculation of diluted earnings per share, from the beginning of the year or date of issuance of such potential equity shares, to the date of conversion.

3.21 Provisions and Contingencies

Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using equivalent period government securities interest rate. Unwinding of the discount is recognised in the Statement of Profit and Loss as a finance cost. Provisions are reviewed at each balance sheet date and are adjusted to reflect the current best estimate.

Gratuity and leave encashment provision

Refer Note no 36.3.9 above for provision relating to gratuity and leave encashment.

Contingencies

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Information on contingent liability is disclosed in the Notes to the financial statements. Contingent assets are not recognised. However, when the realisation of income is virtually certain, then the related asset is no longer a contingent asset, but it is recognised as an asset.

3.22 Investment in joint ventures

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement and have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

Investment in joint ventures are accounted at equity method.

3.23 Current versus non-current classification

The Group presents assets and liabilities in Balance Sheet based on current/non-current classification.

The Group has presented non-current assets and current assets before equity, non-current liabilities and current liabilities in accordance with Schedule III, Division II of Companies Act, 2013 notified by MCA.

An asset is classified as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle,
- Held primarily for the purpose of trading,
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

All other assets are classified as non-current.

A liability is classified as current when:

- a) It is expected to be settled in normal operating cycle,
- b) It is held primarily for the purpose of trading,
- c) It is due to be settled within twelve months after the reporting period, or
- d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

3.24 Service concession arrangement

Revenue

Revenue related to construction under a service concession arrangement is recognised based on the stage of completion of the work performed, consistent with the Group's accounting policy on recognising revenue on construction contracts. Operating or service revenue is recognised in the period in which the services are rendered by the Group.

Financial Assets

The Group recognises a financial asset arising from a service concession arrangement when it has an unconditional contractual right to receive cash or another financial asset from or at the discretion of the grantor for the construction. Such financial assets are measured at fair value on initial recognition and classification as loans and receivables. Subsequent to initial recognition, the financial assets are measured at amortised cost.

If the Group is paid for the construction services partly by a financial asset and partly by an intangible asset, then each component of the consideration is accounted for separately and is recognised initially at the fair value of the consideration.

Intangible Assets

The Group recognises an intangible asset arising from a service concession arrangement when it has a right to charge for usage of the concession infrastructure. An intangible asset received as consideration for providing construction services in a service concession arrangement is measured at cost, less accumulated amortisation and accumulated impairment losses.

Determination of fair values

The fair value of intangible assets received as consideration for providing construction services in a service concession arrangement is estimated by reference to the fair value of the construction services provided. The fair value is calculated as the estimated total cost plus a profit margin of 5%, which the Group considers a reasonable margin. When the Group receives an intangible asset and a financial asset as consideration for providing construction services in a service concession arrangement, the Group estimates the fair value of intangible assets as the difference between the fair value of the construction services provided and the fair value of the financial assets received.

3.25 Leases

Lease accounting by lessee

Group as lessee will measure the right-of-use asset at cost by recognition a right-of-use asset and a lease liability on initial measurement of the right-of-use asset at the commencement date of the lease.

The cost of the right-of-use asset will comprise:

- the amount of the initial measurement of the lease liability,
- any lease payments made at or before the commencement date less any incentives received,
- any initial direct costs incurred
- an estimate of costs to be incurred in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories.

Lease liability will be initially measured at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if the rate cannot be readily determined incremental borrowing rate will be considered. Interest on lease liability in each period during the lease will be the amount that produces a constant periodic rate of interest on the remaining balance of the lease liability.

Lease payments will comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date:

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

- fixed payments less any lease incentives receivable
- variable lease payments
- amounts expected to be payable under residual value guarantees
- the exercise price of a purchase option, if the Company is reasonably certain to exercise that option
- payments of penalties for terminating the lease, if the lease term reflects the Company exercising an option to terminate the lease.

Subsequent measurement of the right-of-use asset after the commencement date will be at cost model, the value of right-of-use asset will be initially measured cost less accumulated depreciation and any accumulated impairment loss and adjustment for any re-measurement of the lease liability.

The right-of-use asset will be depreciated from the commencement date to the earlier of the end of the useful life of the asset or the end of lease term, unless lease transfers ownership of the underlying asset to the group by the end of the lease term or if the cost of the right-of-asset reflects that the group will exercise a purchase option, in such case the group will depreciate asset to the end of the useful life.

Subsequent measurement of the lease liability after the commencement date will reflect the initially measured liability increased by interest on lease liability, reduced by lease payments and re-measuring the carrying amount to reflect any re-assessment or lease modification.

Right-of-use asset and lease liability are presented on the face of balance sheet. Depreciation charge on right-to-use is presented under depreciation expense as a separate line item. Interest charge on lease liability is presented under finance cost as a separate line item. Under the cash flow statement, cash flow from lease payments including interest are presented under financing activities. Short-term lease payments, payments for leases of low-value assets and variable lease payments that are not included in the measurement of the lease liabilities are presented as cash flows from operating activities.

The group has elected to adopt the practical expedient not to account for short term leases or leases for which the underlying asset is of low value, as right-of-use assets. Company will recognise these lease payments associated with those leases as an expense on either a straight-line basis over the lease term or another systematic basis.

Lease accounting by lessor

Group as a lessor need to classify each of its leases either as an operating lease or a finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset.

Finance lease

At the commencement date, will recognise assets held under a finance lease in its balance sheet and present them as a receivable at an amount equal to the net investment in the lease. Net investment is the discount value of lease receipts net of initial direct costs using the interest rate implicit in the lease. For subsequent measurement of finance leased assets, the group will recognise interest income over the lease period, based on a pattern reflecting a constant periodic rate of return on the Company's net investment in the lease.

Operating lease

Group will recognise lease receipts from operating leases as income on either a straight-line basis or another systematic basis. Group will recognise costs, including depreciation incurred in earning the lease income as expense.

3.26 Recent accounting pronouncements

Ministry of Corporate Affairs ("MCA") has vide notification dated 23 March 2022 notified Companies (Indian Accounting Standards) Amendment Rules, 2022 which amends certain accounting standards, and are effective from 1 April 2022. These amendments are not expected to have a material impact on the group in the current or future reporting periods and on foreseeable future transactions.

Ministry of Corporate Affairs ("MCA") amended the Schedule III to the Companies Act, 2013 on 24 March 2021 to increase the transparency and provide additional disclosures to users of financial statements. These amendments are effective from 1 April 2021.

Consequent to above, the company has changed the classification/presentation of

- (i) current maturities of long-term borrowings
- (ii) security deposits, in the current year.

The current maturities of long-term borrowings (including interest accrued) has now been included in the "Current borrowings" line item. Previously, current maturities of long-term borrowings and interest accrued were included in 'other financial liabilities' line item.

Further, security deposits (which meet the definition of a financial asset as per Ind AS 32) have been included in 'other financial assets' line item. Previously, these deposits were included in 'loans' line item.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

4. Critical accounting estimates, assumptions and judgements

In the process of applying the Group's accounting policies, management has made the following estimates and judgements, which have significant effect on the amounts recognised in the financial statement:

(a) Property, plant and equipment

External adviser or internal technical team assess the remaining useful lives and residual value of property, plant and equipment. Management believes that the assigned useful lives and residual value are reasonable, the estimates and assumptions made to determine depreciation are critical to the Group's financial position and performance.

(b) Intangibles

Internal technical or user team assess the remaining useful lives of Intangible assets. Management believes that assigned useful lives are reasonable.

(c) Income taxes

Management judgment is required for the calculation of provision for income taxes and deferred tax assets and liabilities. The group reviews at each balance sheet date the carrying amount of deferred tax assets. The factors used in estimates may differ from actual outcome which could lead to significant adjustment to the amounts reported in the standalone financial statements.

(d) Contingencies

Management judgement is required for estimating the possible outflow of resources, if any, in respect of contingencies/claim/litigations against the Group as it is not possible to predict the outcome of pending matters with accuracy.

(e) Allowance for uncollected accounts receivable and advances

Trade receivables do not carry any interest and are stated at their normal value as reduced by appropriate allowances for estimated irrecoverable amounts. Individual trade receivables are written off when management deems them not to be collectible. Impairment is made on the expected credit losses, which are the present value of the cash shortfall over the expected life of the financial assets.

(f) Insurance claims

Insurance claims are recognised when the Group have reasonable certainty of recovery. Subsequently any change in recoverability is provided for.

(g) Liquidated damages

Liquidated damages payable are estimated and recorded as per contractual terms; estimate may vary from actuals as levy by customer.

5. Financial risk management

Financial risk factors

The Group's principal financial liabilities, other than derivatives, comprise borrowings, trade and other payables. The main purpose of these financial liabilities is to manage finances for the Group's operations. The Group has loan and other receivables, trade and other receivables, finance lease receivable and cash and short-term deposits that arise directly from its operations. The Group also enters into derivative transactions. The Group's activities expose it to a variety of financial risks:

i) Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk: currency rate risk, interest rate risk and other price risks, such as equity risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, deposits, investments, and derivative financial instruments. Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. This is based on the financial assets and financial liabilities held as at March 31, 2022 and March 31, 2021.

ii) Credit risk

Credit risk is the risk that a counter party will not meet its obligations under a financial instrument or customer contract, leading to a financial loss.

iii) Liquidity risk.

Liquidity risk is the risk that the Group may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses.

The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance. The Group uses derivative financial instruments to hedge certain risk exposures. The Group does not acquire or issue derivative financial instruments for trading or speculative purposes.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Risk management is carried out by the treasury department under policies approved by the board of directors. The treasury team identifies, evaluates and hedges financial risks in close co-operation with the Group's operating units. The board provides principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, and credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

Market Risk

The sensitivity analysis excludes the impact of movements in market variables on the carrying value of post-employment benefit obligation provisions and on the non-financial assets and liabilities. The sensitivity of the relevant Statement of Profit and Loss item is the effect of the assumed changes in the respective market risks. The Group's activities expose it to a variety of financial risks, including the effects of changes in foreign currency exchange rates and interest rates. The Group uses derivative financial instruments such as foreign exchange forward contracts and interest rate swaps of varying maturity depending upon the underlying contract and risk management strategy to manage its exposures to foreign exchange fluctuations and interest rate.

(a) Foreign exchange risk and sensitivity

The Group transacts business primarily in Indian Rupee and in some foreign currencies. The Group has obtained foreign currency loans and is therefore, exposed to foreign exchange risk. For the exposure to foreign exchange risk, the Group adopts a policy of selective hedging based on risk perception of the management. Foreign exchange hedging contracts are carried at fair value.

(b) Interest rate risk and sensitivity

The Group's exposure to the risk of changes in market interest rates relates primarily to the Company's long term debt obligations with floating interest rates, any changes in the interest rates environment may impact future cost of borrowing.

(i) The exposure of the Group borrowings to interest rate changes at the end of the reporting period are as follows:

(₹ Lacs)

Particulars	Total Borrowing	Floating rate borrowing	Fixed rate borrowing
INR	2,93,079.79	2,62,844.59	30,235.20
Total as on March 31, 2022	2,93,079.79	2,62,844.59	30,235.20
INR	2,42,384.39	2,25,959.04	16,425.35
Total as on March 31, 2021	2,42,384.39	2,25,959.04	16,425.35

(ii) With all other variables held constant, the following table demonstrates the impact of borrowing cost on floating rate portion of loans and borrowings:

(₹ Lacs)

Particulars	Increase/ Decrease in basis points	Effect on profit/(loss) before tax
For the year ended March 31, 2022		
INR	+50	(1,314.22)
	-50	1,314.22
For the year ended March 31, 2021		
INR	+50	(1,129.80)
	-50	1,129.80

The assumed movement in basis points for interest rate sensitivity analysis is based on the currently observable market environment.

(c) Commodity price risk and sensitivity

The Group is exposed to the movement in price of key raw materials in domestic and international markets. The Group has in place policies to manage exposure to fluctuations in the prices of the key raw materials used in operations. The Group enter into contracts for procurement of material, most of the transactions are short term fixed price contract and a few transactions are long term fixed price contracts.

Credit risk

The Group is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks, mutual funds and financial institutions and other financial instruments.

Trade Receivables

The Group extends credit to customers in normal course of business. The Group considers factors such as credit track record in the market and past dealings with the Group for extension of credit to customers. The Group monitors the payment track record of the customers. Outstanding customer receivables are regularly monitored. The Group evaluates the concentration of risk with respect to trade receivables as low, as its major customers are state Government/ local bodies/ Indian Railways. The Group has also taken advances and security deposits from its customers & distributors, which mitigate the credit risk to an extent.

- Financial instruments and cash deposits

The Group considers factors such as track record, size of the institution, market reputation and service standards to select the banks with which balances are maintained. Generally, the balances are maintained with the institutions with which the Group has also availed borrowings. The Group does not maintain significant cash and deposit balances other than those required for its day to day operations.

Liquidity risk

The Group objective is to; at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. In case of temporary short fall in liquidity to repay the bank borrowing/operational short fall, the company uses mix of capital infusion.

The table below provides undiscounted liabilities towards non-derivative financial liabilities and net-settled derivative financial liabilities into relevant maturity based on the remaining period at the balance sheet to the contractual maturity date.

Competition and price risk

The Group faces competition from local and foreign competitors. Nevertheless, it believes that it has competitive advantage in terms of high quality products and by continuously upgrading its expertise and range of products to meet the needs of its customers.

Capital risk management

The Group manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. The capital of the group would be increased as the group to envisage various projects of waste to energy, water infrastructure and manufacturing of railways freight wagons in future.

The Group monitors capital using a gearing ratio, which is net debt divided by sum of total capital and net debt. Net debt is calculated as loans and borrowings less cash and cash equivalents

The gearing ratios as at March 31, 2022 and March 31, 2021 were as follows: (₹ Lacs)

Particulars	As of March 31, 2022	As of March 31, 2021

Fair Values techniques

The Group maintains policies and procedures to value financial assets or financial liabilities using the best and most relevant data available. The fair values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The following methods and assumptions were used to estimate the fair values:

- 1) Fair value of cash and deposits, trade receivables, trade payables, and other current financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.
- 2) Long-term fixed-rate and variable-rate receivables / borrowings are evaluated by the Group based on parameters such as interest rates, specific country risk factors, credit risk and other risk characteristics. Fair value of variable interest rate borrowings is not materially different from carrying values. For fixed interest rate borrowing fair value is determined by using the discounted cash flow (DCF) method using discount rate that reflects the issuer's borrowings rate. Risk of non-performance for the Group is considered to be insignificant in valuation.
- 3) The fair values of derivatives are estimated by using pricing models, where the inputs to those models are based on readily observable market parameters basis contractual terms, period to maturity, and market parameters such as interest rates, foreign exchange rates, and volatility. These models do not contain a high level of subjectivity as the valuation techniques used do not require significant judgement, and inputs thereto are readily observable from actively quoted market prices. Management has evaluated the credit and non-performance risks associated with its derivative counterparties and believe them to be insignificant and not warranting a credit adjustment.

Fair Value hierarchy

The following table provides the fair value measurement hierarchy of Group's asset and liabilities, grouped into Level 1 to Level 3 as described below:

Fair Valuation of Financial guarantees:

Financial guarantees issued by the Company on behalf of its subsidiary companies have been measured through profit and loss account. Fair value of said guarantees as at March 31, 2022 is considered Rs. Nil (March 31,2021-Nil).

- Quoted prices / published NVA (unadjusted) in active markets for identical assets or liabilities (level 1). It includes fair value of financial instruments traded in active markets and are based on quoted market prices at the balance sheet date and financial instruments like mutual funds for which net assets value(NAV) is published mutual fund operators at the balance sheet date.
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2). It includes fair value of the financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on the Group specific estimates. If all significant inputs required to fair value an instrument are observable then instrument is included in level 2.
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3). If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

15. Service concession arrangement

On November 5, 2009 the JITF Water Infra (Naya Raipur) Limited (indirect subsidiary) (NRDA) entered into a service concession arrangement with local authority (the grantor) to construct water supply infrastructure. The construction of the infrastructure was commenced on November 29, 2009 and Provisional readiness certificate was issued on August 3, 2015 for completion by August 5, 2015.

Under the terms of the arrangement, the Company will operate the water supply infrastructure and make available water to users. This will also include metering and collection for a period of 5 years starting after completion of construction. The company will be responsible for all maintenance, metering and collection from consumers. The company does not expect major expenditure on overhauling the infrastructure during operation period. The grantor will provide the Company a guaranteed minimum quarterly payment.

The Company has right to charge the users a fee for using the infrastructure, which company will collect and retain. The fee is subject to revision periodically and the grantor has committed minimum volume that provides the company minimum guaranteed receipts. At the end of the service period the water supply infrastructure will becomes the property of the grantor and the Company will have no further involvement in its operation or maintenance.

The service concession agreement does not contain a renewal option. The standard rights of the grantor to terminate the arrangement includes poor performance by the Company and in the event of a material breach in the terms of the agreement. The standard rights of the Company to terminate the agreement include failure of the grantor to make payments under the agreement, a material breach in the terms of the agreement, and any changes in law that would render it impossible for the Company to fulfil its requirements under the agreement.

Since, the Concession agreement for Operation and Maintenance was not extended after 4th January, 2018. Therefore, the Company is not a going concern. The accounts have been prepared on the assumption that the company is not a going concern. The Management of the Company does not foresee any material losses due to closure of operations.

16. Earnings per share

The following is a reconciliation of the equity shares used in the computation of basic and diluted earnings per equity share:
 (Number of shares)

Particulars	Year ended March 31, 2022	Year ended March 31, 2021
Issued equity shares	2,57,03,706	2,57,03,706
Weighted average shares outstanding - Basic and Diluted - A	2,57,03,706	2,57,03,706

ITEM No. 6, 7, 8 & 9

As per the provisions of Regulation 23 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, ('SEBI Listing Regulations'), as amended vide SEBI (Listing Obligations and Disclosure Requirements) (Sixth Amendment) Regulations, 2021, effective April 1, 2022 (SEBI Listing Regulations), all Material Related Party Transactions (MRPT) with an aggregate value exceeding Rs. 1,000 crore or 10% of annual consolidated turnover of the Company as per the last audited financial statements of the Company, whichever is lower, shall require prior approval of shareholders. The said limits are applicable, even if the transactions are in the ordinary course of business of the company and at an arm's length basis. The amended Regulation 2(1)(zc) of the SEBI Listing Regulations has also enhanced the definition of related party transaction which now includes a transaction involving a transfer of resources, services or obligations between a listed entity or any of its subsidiaries on one hand and a related party of the listed entity or any of its subsidiaries on the other hand, regardless of whether a price is charged or not.

The Company has provided the Audit Committee with the relevant details, of the proposed RPTs, as required under the regulations, including material terms and basis of pricing. The Audit Committee, after reviewing all necessary information, has unanimously granted approval for entering into the below mentioned MRPTs. The Audit Committee has further noted that the transactions will be at an arm's length basis and in the ordinary course of business of the Company. Accordingly, basis the approval of the Audit Committee, the Board of Directors recommend the resolutions contained in Item Nos. 6, 7 & 8 of the accompanying Notice to the Shareholders for approval. In terms of the provisions of the SEBI Listing Regulations, the related parties as defined thereunder (whether such related party or parties are a party to the aforesaid transactions or not), shall not vote to approve resolutions under Item Nos. 6, 7 & 8.

ITEM No. 6 - Approval of Material Related Party Transactions between JWIL Infra Limited and Jindal Saw Limited.

JWIL Infra Limited ("JWIL"), a subsidiary of the Company and Jindal Saw Limited ("JSAW") is a related party of JWIL. The Pipes and steel is supplied by JSAW to JWIL.

During the Financial Year 2021-22, JSAW supplied Pipes and steel to JWIL amounting Rs. 335 Crore approx. Based on the above and considering the maximum annual requirements, the transactions between JWIL and JSAW are estimated to be around Rs. 500 Crore during the Financial Year 2022-23.

The aforesaid transactions between JWIL and JSAW, undertaken on an arm's length basis and in the ordinary course of business are ongoing. Accordingly, the value of the transactions proposed to be undertaken for the Financial Year 2022-23 duly extrapolated and marked appropriately for any exigencies, price variation / revision by the regulator, impact of annual inflation, and increase in demand for Pipes and steel, etc., is estimated to be for an amount not exceeding Rs. 500 Crore.

The above proposed transactions are between JWIL and JSAW; the Company is not a party to any of the said transactions. With effect from 1st April, 2022, Regulation 23 of the SEBI Listing Regulations, mandates obtaining prior approval of the Members of a listed entity through ordinary resolution for all 'Material' Related Party Transactions to which the subsidiary of a listed entity is a party even though the listed entity is not a party.

As per the SEBI circular number SEBI/HO/CFD/CMD1/CIR/P/2021/662 dated November 22, 2021, the information as placed before the Audit Committee for approval of MRPT are reproduced here:

None of the Directors, Key Managerial Personnel of the Company and their relatives, have any concern or interest, financial or otherwise in the Resolution

ITEM NO. 10- Authorization for borrowing money u/s 180(1)(a) of Companies Act, 2013.

Keeping in view, the existing borrowing and the additional fund requirements for meeting the capital expenditure for the ongoing / future projects, capacity expansion, acquisitions and enhanced long term working capital needs of the Company, the Board of Directors had, in its meeting held on 10th August 2022, considered and approved subject to the approval of the shareholders, the borrowing limits of the company to Rs. 250 Crore (Rupees Two Hundred & Fifty Crore) and creation of security on the properties of the Company and recommends Resolution no. 8 of the accompanying Notice to the shareholder for their approval by way of Special Resolution.

Pursuant to 180(1)(a) of the Companies Act 2013, approval of the Shareholder by way of Special Resolution is required to authorize the Board of Director to borrow moneys up to the said limits and create security in respect thereof.

None of the Directors and / or Key Managerial Personnel of the Company and their relatives is concerned or interested, financial or otherwise, in the resolution set out at Item No.9.

ITEM NO. 11 - Authorization for borrowing money u/s 180(1)(c) of Companies Act, 2013.

In accordance with the provisions of Section 180(1)(c) of the Companies Act, 2013, the powers can be exercised by the Board of Directors with the consent of the company by a Special Resolution:

To borrow money, where the money to be borrowed, together with the money already borrowed by the Company will exceed the aggregate of the Company's paid-up share capital and free reserves and securities premium, apart from temporary loans obtained from the company's bankers in the ordinary course of business.

The Board is of the view that the in order to further expand the business activities of the Company and for meeting the expenses for capital expenditure, the Company may be further required to borrow money, either secured or unsecured, from the banks/ financial institutions/ other body corporate, from time to time. The Board of Directors of the Company proposes to increase the limits to borrow money upto Rs. 250 Crore (Rupees Two Hundred & Fifty Crore) and to secure such borrowings by pledging, mortgaging, hypothecating the movable or immovable properties of the Company amounting up to Rs. 250 Crore (Rupees Two Hundred & Fifty Crore).

It is, therefore, required to obtain fresh approval of members by Special Resolution under Sections 180(1)(c) of the Companies Act, 2013, to enable the Board of Directors to borrow money in excess of the aggregate of the paid up share capital and free reserves of the Company under the Companies Act, 2013.

None of the Directors and Key Managerial Personnel of the Company and their relatives is concerned or interested, financial or otherwise, in the said resolutions.

The Board recommends the Special Resolution set out at Item No. 10 of the Notice for approval by the Members

ITEM NO. 12 - To give loan or to give guarantee or to make investment u/s 186 of Companies Act 2013.

Pursuant to the provisions of Section 186(2) of the Companies Act, 2013 ('Act'), the Company shall not directly or indirectly: -

- (a) give any loan to any person or other body corporate.
- (b) give any guarantee or provide security in connection with a loan to any other body corporate or person; and
- (c) acquire by way of subscription, purchase or otherwise, the securities of any other body corporate, exceeding sixty percent of its paid-up share capital, free reserves and securities premium account or one hundred percent of its free reserves and securities premium account, whichever is higher.

Pursuant to the provisions of Section 186(3) of the Act, where the giving of any loan or guarantee or providing any security or the acquisition of securities exceeds the limits specified in Section 186(2) of the Act, prior approval by means of a Special Resolution passed at a General Meeting is necessary. In terms of Rule No.11(1) of the Companies (Meeting of Board and its Powers) Rules, where a loan or guarantee is given or security has been provided by a company to its wholly-owned subsidiary or a joint venture, or acquisition is made by a holding company, by way of subscription of securities of its wholly owned subsidiary, the requirement of Section 186(3) of the Act shall not apply, however it will be included for the purpose of overall limit in the normal course of business, the Company may be required to give loans or guarantees or make investments in excess of the limits specified in Section 186(2) of the Act.

Accordingly, it is proposed to seek prior approval of Members vide an enabling Resolution to provide loans, guarantees and make investments up to a sum of Rs. 250 Crore (Rupees Two Hundred & Fifty Crore) over and above the aggregate of free reserves and securities premium account of the Company at any point of time.

The Board of Directors recommends resolution as set out in item No. 11 for approval of the members of the Company by way of passing a Special Resolution.

None of the Directors or Key Managerial Personnel of the Company (including relatives of Directors and Key Managerial Personnel) is in any way, whether financially or otherwise, concerned or interested, in the said resolution.

ITEM No. 13 - To set the limit for providing loan in which director interested u/s 185 of Companies Act, 2013.

As per the provisions of Section 185 of the Companies Act, 2013, ('Act') no company shall, directly or indirectly, advance any loan including any loan represented by a book debt, to any of its Directors or to any other person in whom the Director is interested or give any guarantee or provide any security in connection with any loan taken by him or such other person.

In terms of the amended Section 185 of the Act, a company may advance any loan, including any loan represented by a book debt, to any person in whom any of the Directors of the Company is interested or give any guarantee or provide any security in connection with any loan taken by any such person, subject to the condition that approval of the shareholders of the Company is obtained by way of passing a Special Resolution. The management is of the view that the Company may be required to invest funds, if available in its subsidiary Companies or to any other body corporate(s) in which the Directors of the Company are interested, as and when required.

Hence, as an abundant caution, the Board decided to seek approval of the shareholders pursuant to the amended provisions of Section 185 of the Act to advance any loan, including any loan represented by book debt, to its subsidiary company(ies) (Indian or overseas) or other body corporate(s) in whom any of the Directors of the Company is interested or to give guarantee or provide any security in connection with any loans/ debentures / bonds etc. raised by its subsidiary company(ies) (Indian or overseas) or other body corporate(s) in whom any of the Directors of the Company is interested up to an aggregate amount of approved by the shareholder of the Company under Section 186 of the Company Act, 2013 over and above the limit of 60% of the paid-up share capital, free reserves and securities premium account of the Company or 100% of free reserves and securities premium account of the Company, whichever is more.

The Board of Directors recommends resolution as set out in item No. 12 for approval of the members of the Company by way of passing a Special Resolution.

None of the Directors, Key Managerial Personnel of the Company or their relatives or any of other officials of the Company is, in any way, financially or otherwise, concerned or interested in the resolution.
