# H1B fee to fund apprentice scheme: US commerce secy

PRESS TRUST OF INDIA  
 Washington, 18 July

The US is financing its ambitious apprentice programme to close the skills gap amongst Americans from funds generated by the H1B visa fee, according to Commerce Secretary Wilbur Ross.

The H1B visa programme allows employers to temporarily employ foreign workers in the US on a non-immigrant basis in specialty occupations or as fashion models of distinguished merit and ability. The H1B visas are the most sought-after by Indian IT professionals. Ross said on Wednesday that the Trump administration had launched a new Industry-

Recognized Apprenticeship System in a major effort to spur employer-led training and was now planning to expand it.

He said the additional public funding could help establish new apprenticeship programmes in the travel and tourism industry.

According to Ross, the Department of Labor has \$100 million in funding available for about 30 apprenticeship grants.

These will go to public/private partnerships to develop new apprenticeship models and expand existing apprenticeship programmes.

In his address to the US Travel and Tourism Advisory Board, Ross said: "The fund-

ing source is the fees companies pay to hire foreign workers under the H-1B visa programme. These fees are then provided as grants for training American workers in the occupations for which employers are hiring H-1B workers, such as IT jobs.

"The Department of Labor is expanding its apprenticeship programmes to include cybersecurity and artificial intelligence since every sector of the economy requires workers with these skill sets, Ross added.

The grants are funded through H-1B visa fees, which are paid to bring foreign workers to America when Americans cannot be found to fill open jobs.

# G7 ministers agree to tax tech giants

AFP/PTI  
 Chantilly, 18 July

G7 finance ministers meeting in France on Thursday agreed a plan for taxing digital companies such as Facebook and Google that will set a minimum level of taxation for them.

Ministers "fully supported a two-pillar solution to be adopted by 2020", said a statement from France which holds the rotating chairmanship of the group of world's most developed countries.

"New rules should be developed to address new business models... allowing companies to do business in a territory without any physical presence," it said.
