Dear Sir,

Subject: Intimation of Schedule of Analyst / Institutional Investor meetings under the SEBI (Listing Obligations and Disclosure Requirements), Regulations 2015

Pursuant to the relevant provisions of SEBI (Listing Obligations and Disclosure Requirements), Regulations 2015, we would like to inform you that the officials of the Company will be meeting Investors (Participants), the details of which are below.

Date	Organized by	Place
27th August 2019	Systematix Shares & Stock (I) Ltd.	Mumbai

The copy of Investor Presentation – August 2019 which will be shared with Investors at the meetings is attached herewith and is also available on website of the Company at [www.hikal.com](http://www.hikal.com)

This information is submitted to you pursuant to Regulation 30(6) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements), Regulations, 2015.

Kindly note that changes may happen due to exigencies on the part of Participants / Company.

Thanking you,

Yours faithfully,  
for **HIKAL LTD.**,

**Mukund Mujumdar**  
**DGM Secretarial**

**Hikal Ltd.**

***August 2019 Presentation***

This presentation and the accompanying slides (the “Presentation”), which have been prepared by Hikal Limited (the “Company”), have been prepared solely for information purposes and do not constitute any offer, recommendation or invitation to purchase or subscribe for any securities, and shall not form the basis or be relied on in connection with any contract or binding commitment whatsoever. No offering of securities of the Company will be made except by means of a statutory offering document containing detailed information about the Company.

This Presentation has been prepared by the Company based on information and data which the Company considers reliable, but the Company makes no representation or warranty, express or implied, whatsoever, and no reliance shall be placed on, the truth, accuracy, completeness, fairness and reasonableness of the contents of this Presentation. This Presentation may not be all inclusive and may not contain all of the information that you may consider material. Any liability in respect of the contents of, or any omission from, this Presentation is expressly excluded.

Certain matters discussed in this Presentation may contain statements regarding the Company’s market opportunity and business prospects that are individually and collectively forward-looking statements. Such forward-looking statements are not guarantees of future performance and are subject to known and unknown risks, uncertainties and assumptions that are difficult to predict. These risks and uncertainties include, but are not limited to, the performance of the Indian economy and of the economies of various international markets, the performance of the industry in India and world-wide, competition, the company’s ability to successfully implement its strategy, the Company’s future levels of growth and expansion, technological implementation, changes and advancements, changes in revenue, income or cash flows, the Company’s market preferences and its exposure to market risks, as well as other risks. The Company’s actual results, levels of activity, performance or achievements could differ materially and adversely from results expressed in or implied by this Presentation. The Company assumes no obligation to update any forward-looking information contained in this Presentation. Any forward-looking statements and projections made by third parties included in this Presentation are not adopted by the Company and the Company is not responsible for such third party statements and projections.

Leading Sustainable Technology driven company serving the Crop Protection & Pharmaceutical Industries

- Amongst the few Global Company to offer customized, cost effective and sustainable solutions from **R&D to Commercial Manufacturing**
  - One of very few global and only Indian Company to provide Active Ingredients for both **Pharmaceuticals and Agrochemicals - Hybrid Model**
    - Preferred Supplier to Large Global Customers across the **Regulated Markets**
  - **First Responsible Care** custom manufacturing Life Science Company in India
- First Indian Company to be member of **Rx - 360**, a global pharmaceutical supply chain consortium for upholding world class quality standards

## 1 Pharmaceuticals

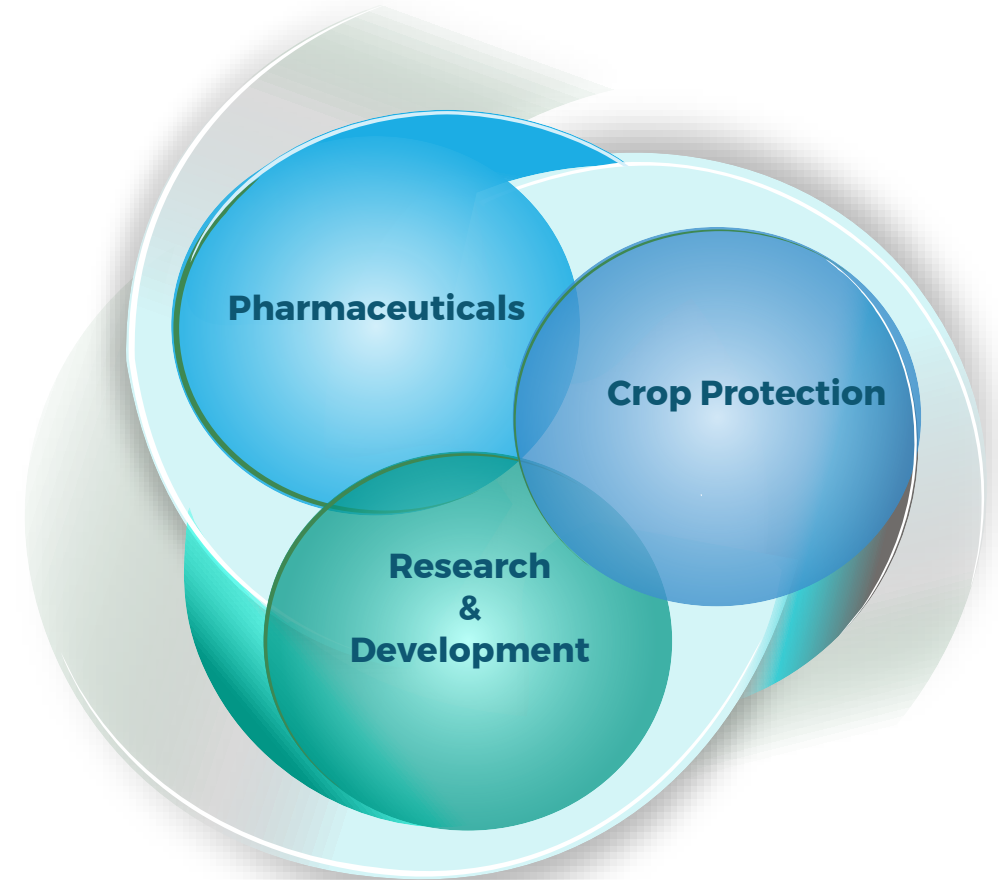

- Contract & Custom Manufacturing
- Generics
- Human Health
- Animal Health
- Strong Relationships with Innovators, Mid size Pharma, Biotech & Generic Companies

## 3 Research & Development

- Offers Right Combination of Capabilities, Quality combined with significant Cost Arbitrage
- Full development & Scale up Service to Innovator Companies , Generic & Biotech Companies

## 2 Crop Protection

- Custom Synthesis and Contract Manufacturing of Agrochemicals, Intermediates, Biocides and Specialty Chemicals
- Preferred Supplier to Top Crop Protection Companies

## Crop Protection

*Commenced operations with a plant in Mahad.*

*Second Plant commissioned in Talaja along with Merck, USA*

## Pharmaceuticals

*Diversified into pharmaceuticals business by acquiring Panoli plant from Novartis (formerly Sandoz) and drug manufacturing plant from Wintac (formerly Recon) in Bangalore*

## R&D

*Established R&D center in Pune to focus on R&D and augment pharmaceuticals and crop protection processes*

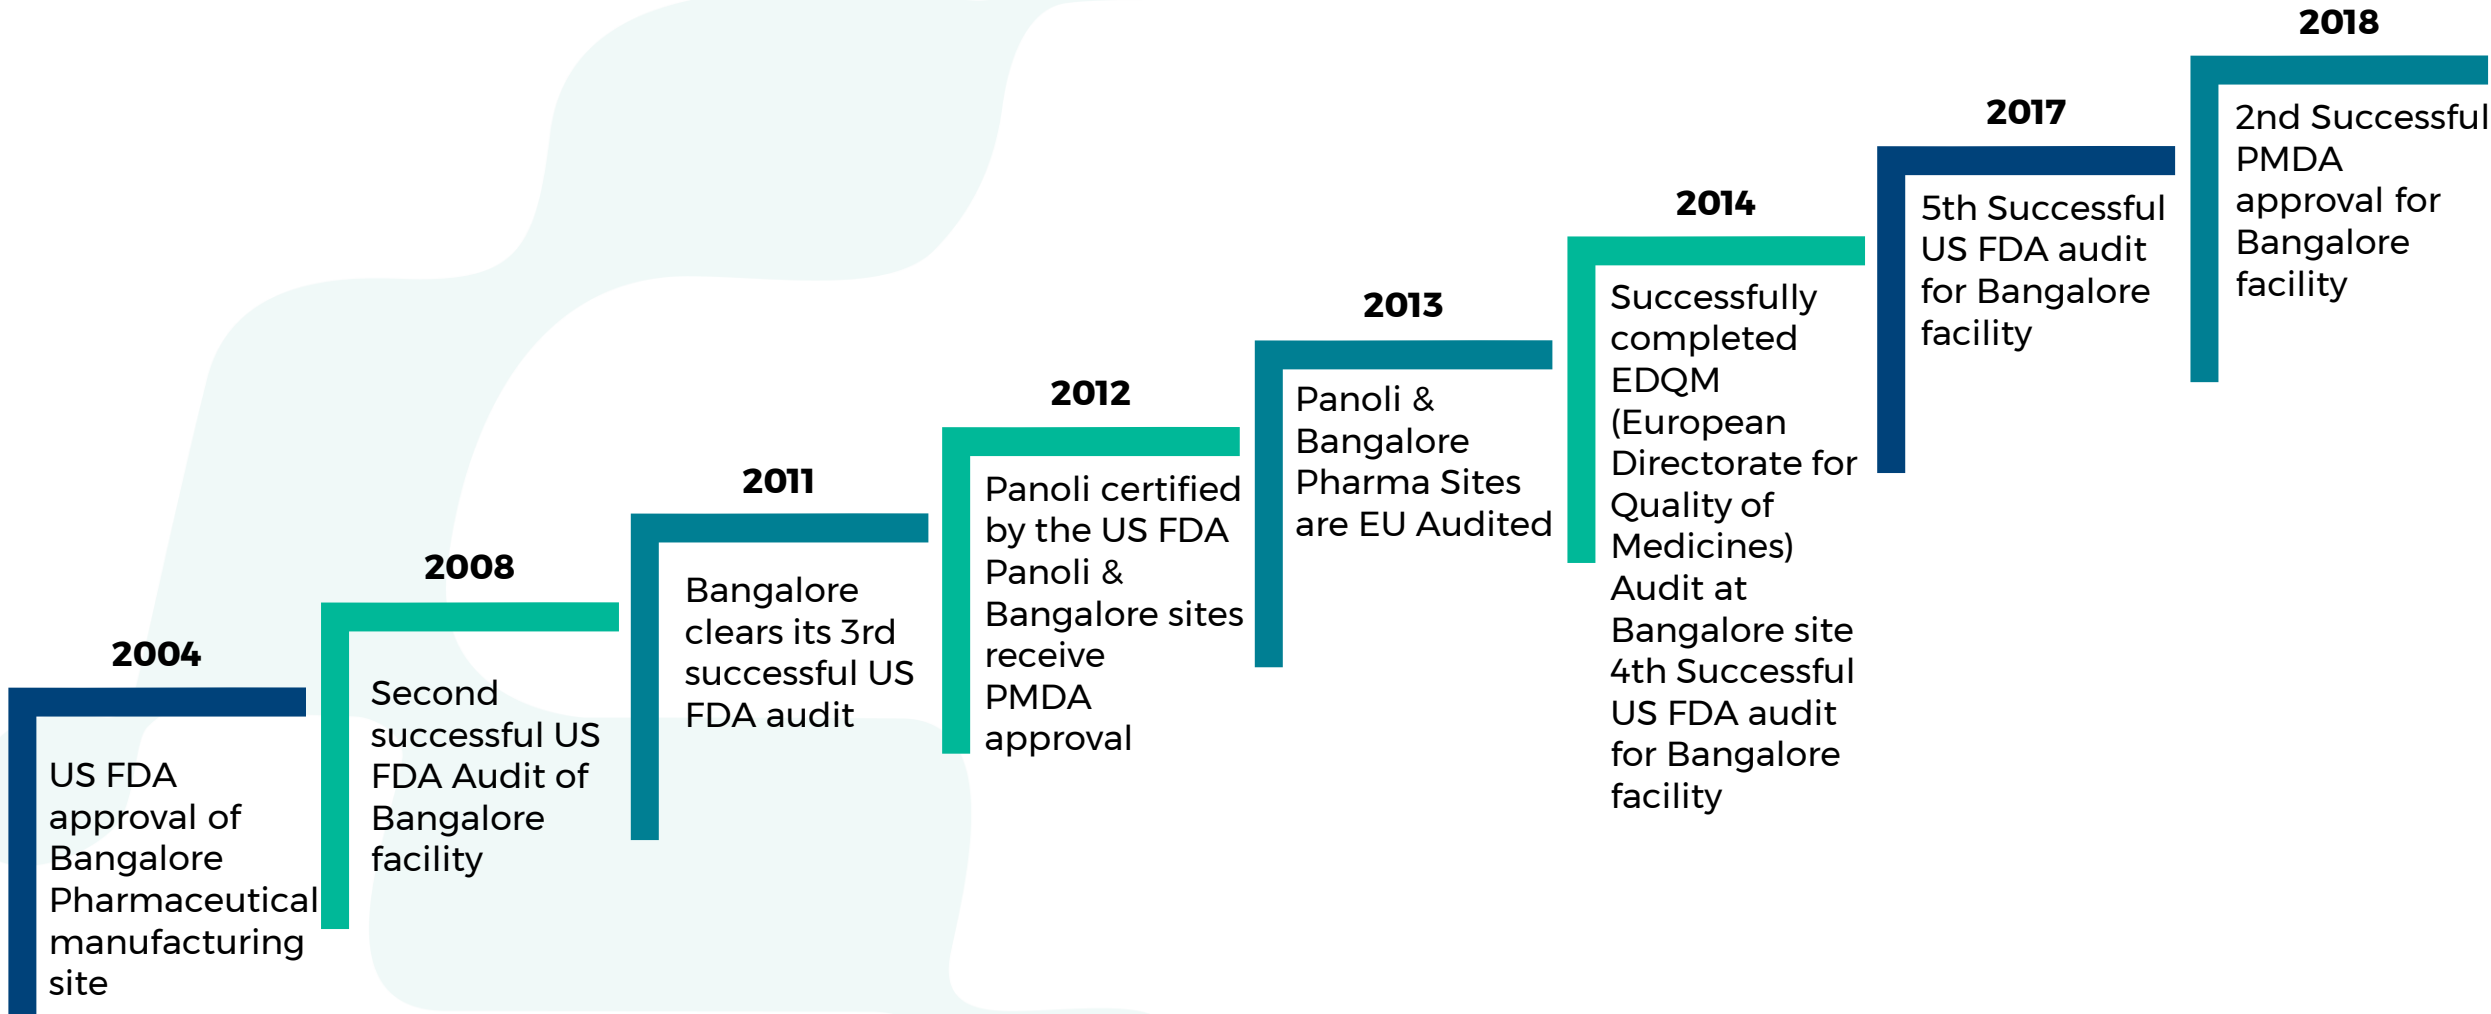

Year	Milestones
1988	Hikal is incorporated
1991	First Manufacturing site at Mahad begins operations - Signed a long term supply agreement with Hoescht India
1995	Signed a long term manufacturing and supply agreement with Merck, U.S., for a large volume Agvet Active Ingredient
1997	Manufacturing of the Active Ingredient for Merck begins at Taloja site
2000	Hikal acquires manufacturing site from Novartis in Panoli, Gujarat
2001	Acquired R&D and Manufacturing site in Bangalore. Hikal enters the Pharmaceutical business
2002	First Pharmaceutical API patent for non infringing process filed in the U.S.
2003	First new API plant commissioned at Bangalore. Multi-purpose Pharmaceutical intermediate plant commissioned at Panoli.
2005	Hikal Scientific Advisory Board formed Signed long term supply agreement with a multinational Crop Protection company
2006	Signed Long term supply contract with global innovator company for commercial supply of API's
2007	Signed long term contract API manufacturing supply agreement with a leading Animal health company
2008	IFC (World Bank) invests 8.27% equity into the company.
2009	Acoris (Research & Development Centre) becomes operational Signed Long term supply contract for an on patent molecule with a global crop protection innovator company.
2012	Hikal wins Aditya Birla Award for "Best Responsible Care Company" in India
2013	Signed a long term supply agreement for human health products with a global biopharmaceutical company
2014	Pharmaceutical Sites, Panoli & Bangalore received EU GMP Approval
2015	New Development & Launch Plant in Bangalore successfully commission for new products from the Pharmaceutical Division Company successfully commissioned Co generation Plant and Biomass boilers at all sites as part of its sustainability program
2016	Hikal wins Indian Chemical Council's (ICC) Acharya P. C. Ray award for Development of Indigenous Technology
2017	Successfully commissioned a new, state-of-the-art plant at Mahad for a leading global crop protection innovator company
2019	Hikal has been certified as a "Great Place to Work" by the Great Place to Work® (GPW) Institute

Dr. Sudhir Nambiar  
Research &  
Technology

Manoj Mehrotra  
Pharmaceuticals

Kumar Inamdar  
Crop Protection

Sham Wahalekar  
Finance

Kumar Priyaranjan  
HR

Dr. Goverdhan Mehta

- He holds a D.Sc. from the University of Marseilles, France; Ph.D. In Organic Chemistry from Pune University - National Chemical Laboratory; and a Ph.D. from Michigan State University and Ohio State University USA
- He is a National Research Professor, Eli Lilly Chair, School of Chemistry at the University of Hyderabad and a Bhatnagar Fellow
- Padma Shri in 2000 by the President of India
- Chevalier de la Légion d'Honneur
- Fellow of the Royal Society and a member of the Scientific Advisory Committee to the Prime Minister of India

Prof. K Nagarajan

- He is B.Sc. (Hons) in Chemistry from Loyola College, Madras, and Ph.D. from the University of Madras.
- He is a postdoctoral Fellow from Wayne State University, California Institute of Technology, Pasadena and Zurich University, Switzerland
- He has held various positions as Head, Medicinal Chemistry, Ciba Research Center; Director, R&D of Searle India, among others
- Bhatnagar Prize in Chemistry and Lifetime Research Award from the Chemical Research Society of India. Dr. K. Nagarajan spearheads the scientific efforts at Hikal

Dr Axel Kleemann

- He is a Ph.D. in Chemistry from the Johann Wolfgang Goethe University, Frankfurt am Main, where he is the Honorary Professor of Chemistry
- Prof. Kleemann is the Chairman of the Board of Directors of Protagen AG and a member of the Board of Directors of several non-listed and listed biotech and fine chemical companies
- Co-author of the standard reference book, 'Pharmaceutical Substances'

## Focused Strategy

To be the leading global fine chemical company to the Pharmaceutical, Crop Protection and Speciality Chemical Industries

Vision

Strategy

### Aggressive Growth

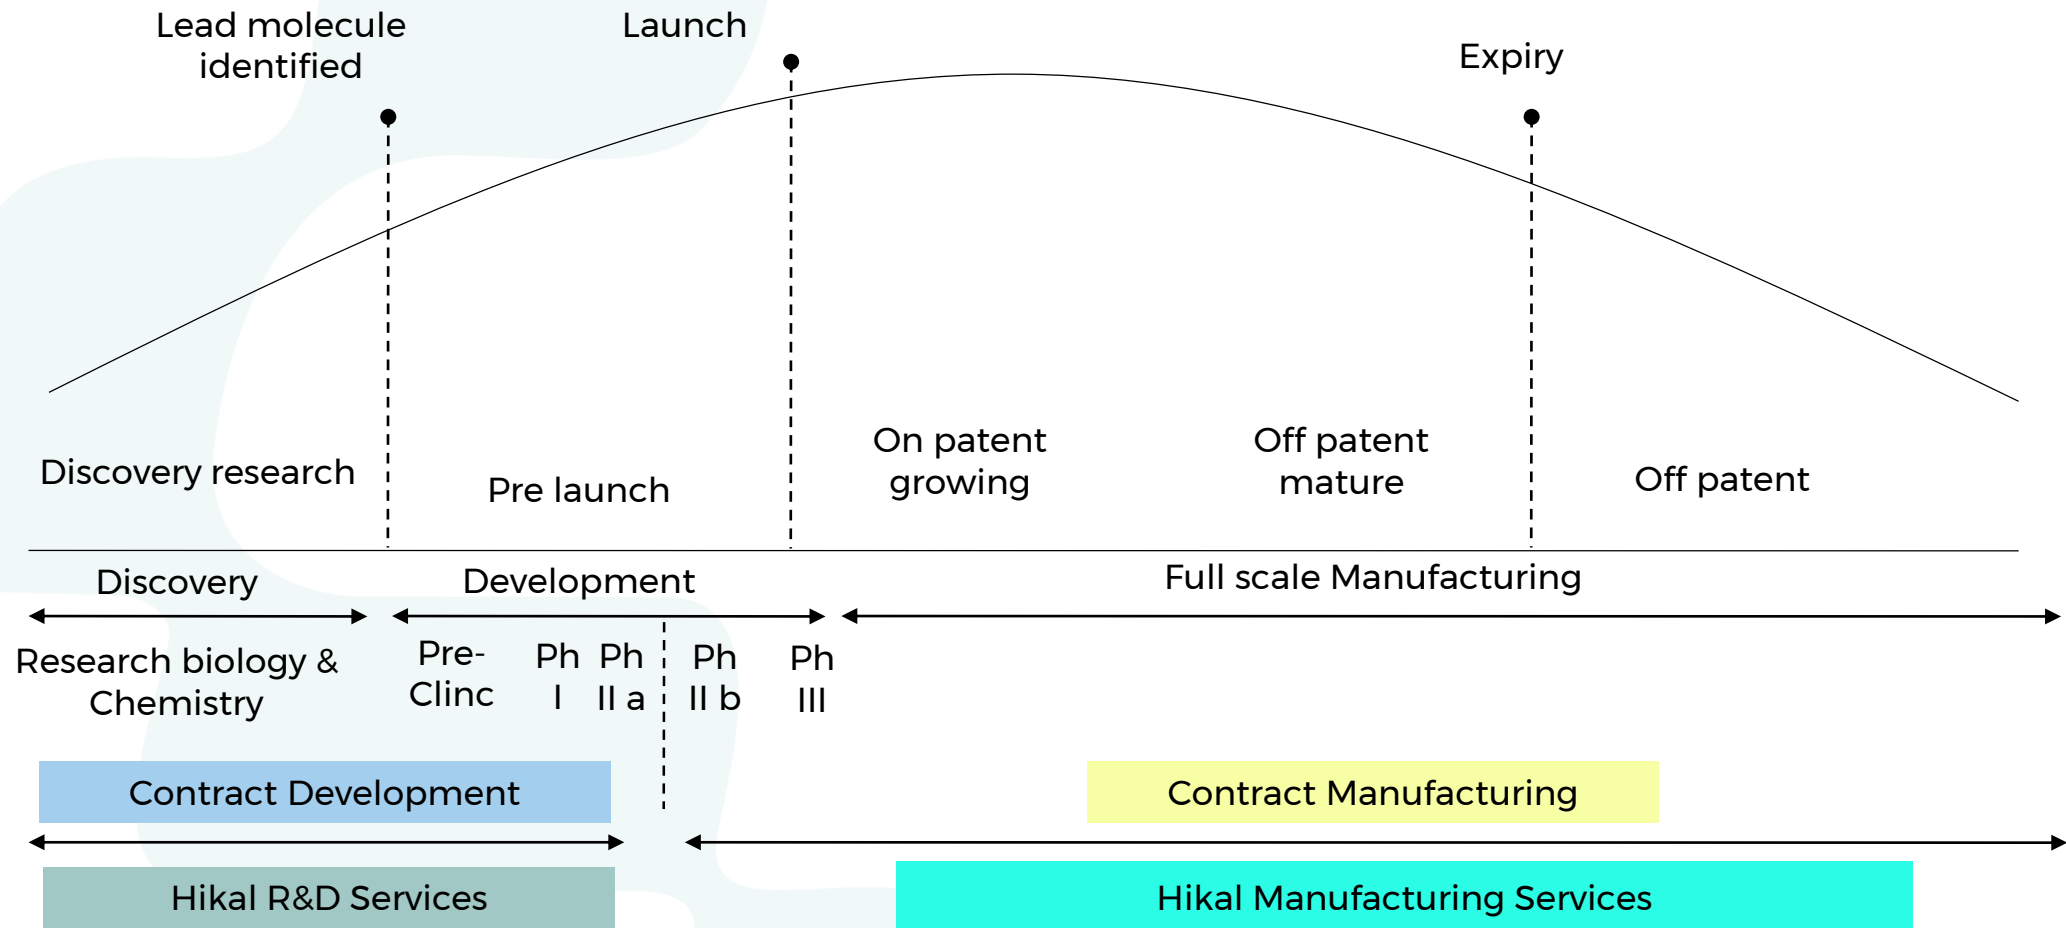

- Aggressive growth in Pharmaceuticals , Animal Health & Crop Protection
- Support NCE & Gx Molecules Serving a large range of Customers

### Develop Own Portfolio

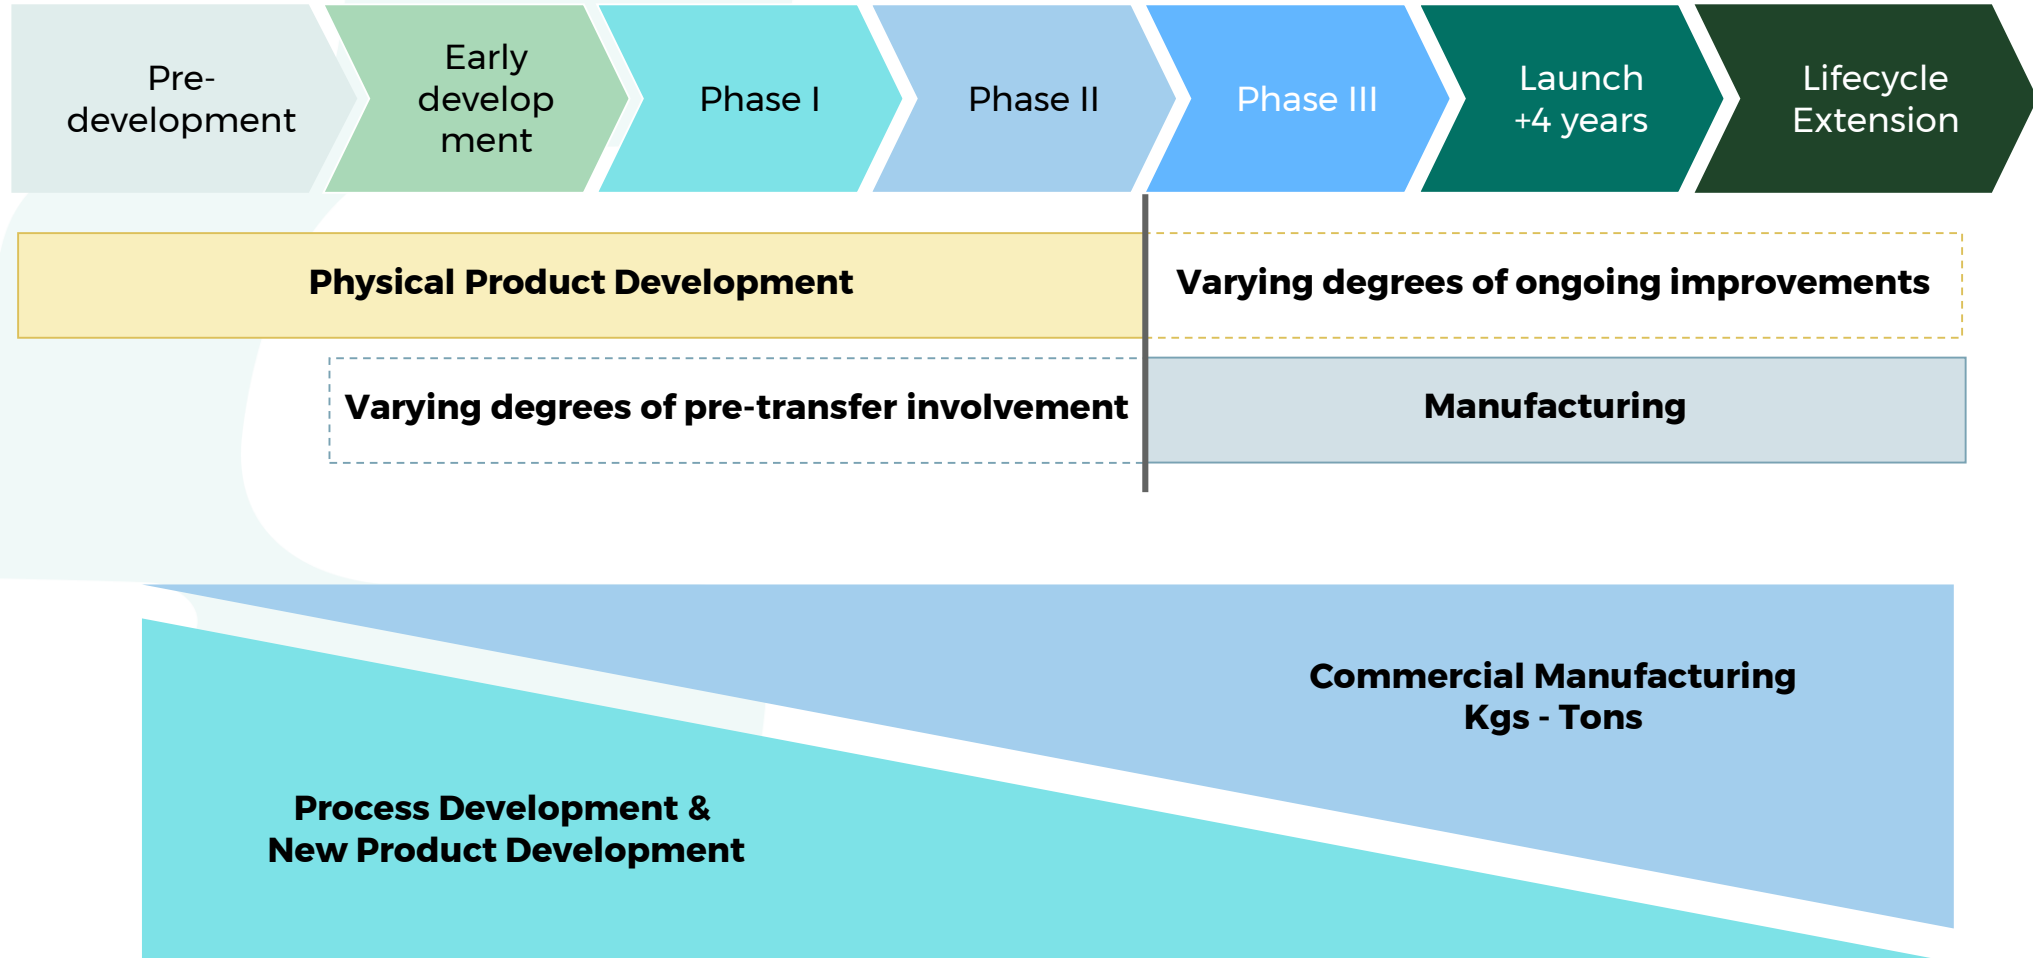

- Develop own portfolio of products as next wave of Hikal growth
- Life cycle extension

Positive track record with Existing Customers to expand the Relationships and Target New Customers

Expertise in Custom Synthesis and Contract Research with capabilities scaling up from Gram to Kilo and Ton level of Production

Hikal's Business Model is to provide Services and Support across the Value Chain

# Manufacturing Capabilities

## Pune

R&T Center in Pune becomes operational

2009

## Bangalore & Panoli

First new API plant commissioned at Bangalore. Multi-purpose pharma intermediate plant commissioned at Panoli

2003

## Bangalore

Acquired R&T and manufacturing site; enters the Pharmaceutical Business

2001

## Panoli

Acquires manufacturing site from Novartis in Panoli, Gujarat

2000

## Taloja

Manufacturing of the Active Ingredient for Merck begins at Taloja site

1997

## Mahad

First Manufacturing site at Mahad begins operations - Signed a long term supply agreement with Hoescht India

1991

### Overview

- Contract Development & Custom Manufacturing (CDMO) projects in Intermediates and APIs
- World's largest supplier of Gabapentin, API for Neuropathic use
- Developing own Generic Portfolio
- Strong Customer Relationships with Large Global Generic & Innovator Cos.

R&D, Contract, cGMP Kilo Lab -  
Pune

USFDA Approved Site - Panoli

USFDA Approved Site - Bangalore

### Jigani, Bangalore

- Products : API's & Bulk Drug Intermediates
- Accreditations: USFDA, KFDA, TGA, PMDA (Japan) & ISO 9001, ISO 14001, OHSAS 18001
- Offers scale up capabilities and can provide validation and launch quantities under cGMP conditions
- Audited frequently by Innovator companies from US, Europe and Japan
- Debottlenecking completed at two API blocks
- Commissioned a large bio-mass boiler & a co-generation plant

### Panoli, Gujarat

- Products: Bulk Drug Intermediates
- Accreditations: US FDA certified, PMDA (Japan)
- ISO 9001, ISO 14001, OHSAS 18001
- Manufactures cGMP Intermediates & Regulatory starting Materials
- Audited & Approved for supply by Innovator Companies
- Expanded capacity for key starting raw materials
- Expansion of API manufacturing is underway
- Increasing the capacity by putting up another plant for manufacturing of advanced intermediates

### Business in US

- Contract manufacture two large volume molecules, a neuropathic pain reliever and an anti-cholesterol molecule exclusively for a leading US based innovator Company
  - Life-cycle extension and the volumes for both these molecules increased this year and the trend is set to continue for the coming year as well
- Delivered larger volumes for an intermediate to a leading US company for one of their APIs under development

### European Innovator Client

- Long-term contract manufacturing agreement with a European innovator client to exclusively manufacture molecules commercially gaining momentum
  - One of these molecules being an anti-epilepsy drug that is widely used to control seizures and other one is a nootropic drug used for memory enhancement
- These products are expected to grow in the future according to positive indications received from our client

### Business in Japan

- Track record of meeting quality requirements in Japan established
- Several products that have come through R&D have also progressed to the semi-commercial stage
- Successfully delivered a complex molecule to a Japanese innovator company
- Expect a repeat order of two intermediaries going into a new generation API to be launched in Japan

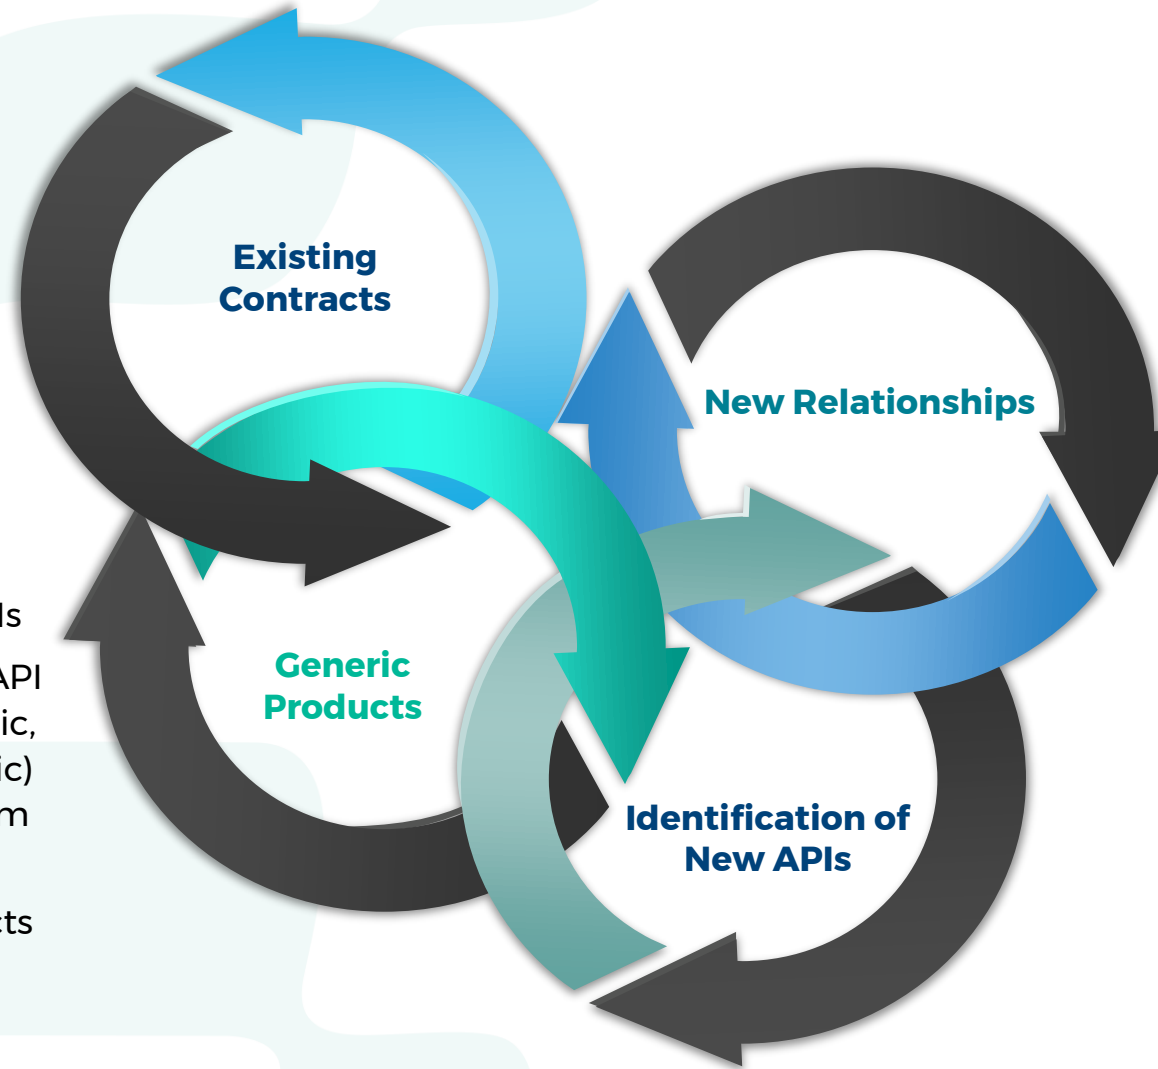

## Future Strategy

### Existing Contracts

- Start with a specific product and expand horizontally
- European Innovator
- USA based Food Ingredient
- Japan - Several contract manufacturing opportunities

### Generic Products

- Gain market share in key APIs
- Three-pronged strategy for API development (already generic, to be generic & future generic) will help build a pipeline from a long-term perspective
- Identified 6 to 8 new products for generic development

### New Relationships

- Added New innovator and biotech customers for early stage molecules for contract development
- Projects in various stages of clinical trials
- Approval process is lengthy & uncertain

### Identifying New APIs

- Plans to file 3-4 DMFs per year
- De-bottlenecked two of our API blocks that manufacture an anti-convulsant drug
- Installed a powder transfer system for automation which has increased the speed of operations and its efficiency

### Overview

- Custom Synthesis and Contract manufacturing of Agrochemicals, Intermediates and Specialty Chemicals
- World's largest supplier of Thiabendazole (TBZ)
- On Patent Molecule Manufacturer
- Strong Relationships with Global Leading Agrochemical Companies
- Strong Japanese Presence

Control Room - Taloja

Agro Chemical Plant - Panoli

Agro Chemical Facility - Taloja

### Taloja, MH

- Products: Crop Protection AIs & Intermediates
- Accreditations : ISO 9001, ISO 14001, OHSAS 18001 & ISO 17025 (GLP)
- Manufactures Fungicides, Insecticides and Intermediates
- The site manufactures on patent active ingredients for innovator companies

### Mahad, MH

- Products: Crop Protection AIs & Intermediates
- Accreditations : ISO 9001, ISO 14001, OHSAS 18001
- Manufactures Intermediates
- Audited frequently by several Fine Chemical and Multinational Companies
- Commissioned a new state-of-the-art plant to manufacture an advanced intermediate for a key herbicide for a global innovator client

## Key Relationships

Thiabendazole

Versatile product used to control mold and other diseases in fruits and vegetables caused due to fungi, as an anti-parasitic to control roundworms and in materials protection

The volumes of a fungicide that is used to control the Oomycete disease in potatoes, tomatoes and mildew in vegetables remained stable last year

Product exclusively for European Innovator Client

On-Patent New Generation Product

Fungicide Exclusively manufacture for a global innovator saw a significant increase in volumes due to better demand

Products predominantly used for controlling broad leaved weeds and for cotton crop treatment. These are high margin niche products and the volumes of both these products have a stable outlook going forward

Two on - Patent products for a Japanese Innovator

Niche plant growth regulator for a leading Japanese company

Product increases coloration of fruits as well as enhances fruit quality by increasing the Citric acid content

Product is used to control a wide range of insects on rape, fruits, and as wood preservative to control termites. We expect the volumes to increase substantially due to the ban on some of the competitor products in the EU

Commercialized a new insecticide

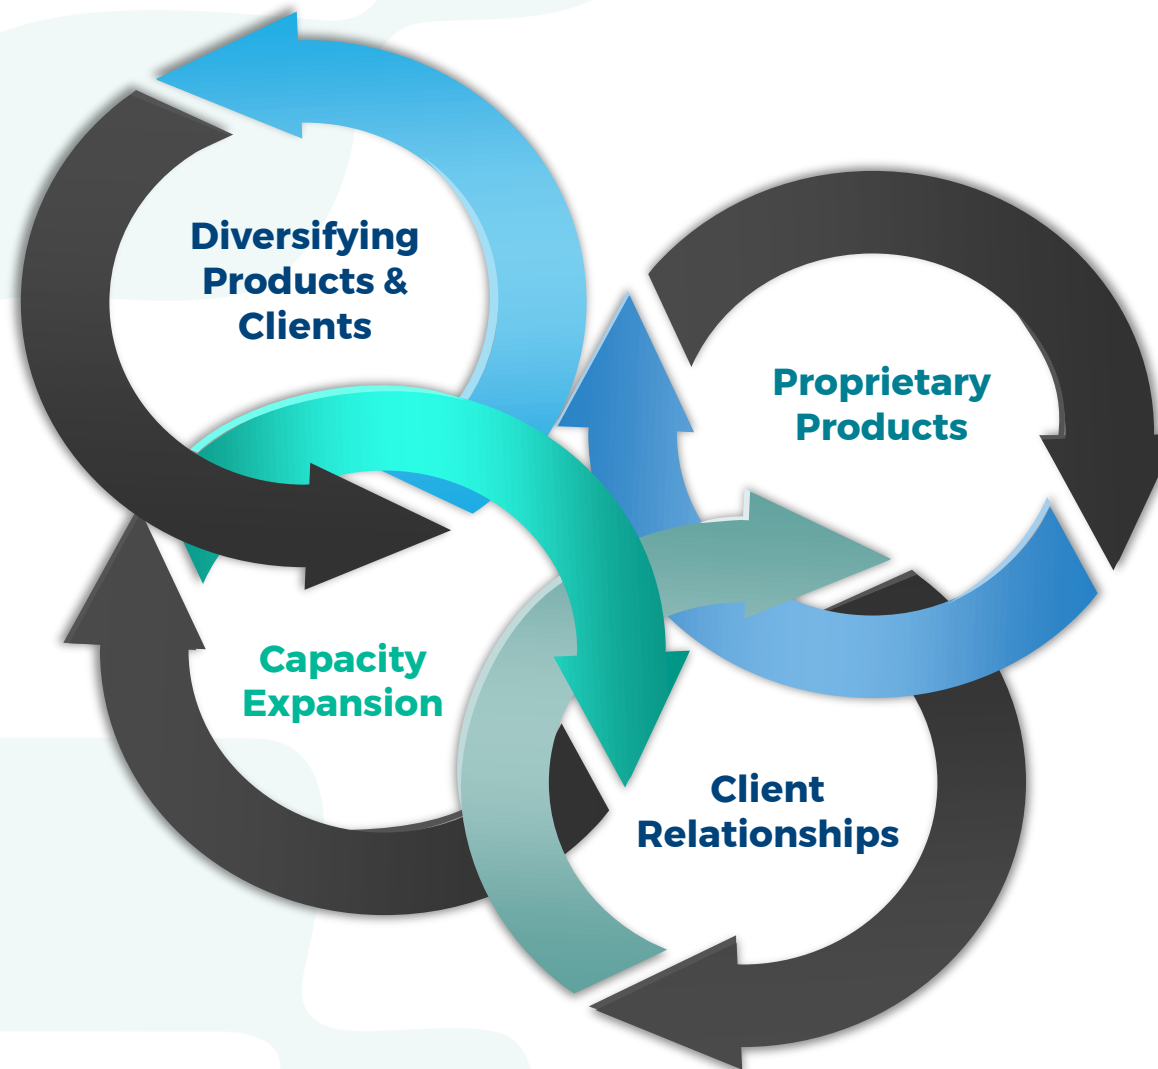

## Future Strategy

### Diversifying Products & Clients

- Several projects have been completed on development and pilot plant level
- Clients - Japanese, European and mid-size Specialty Chemical Companies
- Products - Advanced Intermediates to final Actives and are Herbicides, Fungicides and Insecticides

### Capacity Expansion

- Commissioned a new state-of-the-art plant in Mahad to manufacture an advanced intermediate for a key herbicide for a global innovator client

### Proprietary Products

- Started new initiative to create data for Registration of our own product portfolio in several countries which will add value to our clients by making it easier for them to register products in global markets

### Existing Client Relationships

- Target existing clients for additional molecules in their portfolio
- Focusing on commercializing new molecules for several clients in existing & new markets
- Select new clients based on chemistries to execute on a commercial scale and in-house technologies developed

Research Molecules in various stages of Phase II & III - Building a pipeline for future commercial supplies

## Investments in R&T

## Future Plans

- Commercialize 3-4 DMF's in 2019-20 for our generic API portfolio
- Continue to generate our own IP through Process Patents

## R&T - Benefits Accrued

- Filed 2 DMFs (Dapagliflozin and Empagliflozin) as part of our proprietary portfolio in the pharmaceutical division, one veterinary master file (VMF) and one certificate of suitability (CEP) for Europe
- The VMF is for an antiparasitic active ingredient for veterinary use. The CEP is for Flunarizine which is a migraine prevention medication
- R&T facility in Pune and Development and Launch plant (DLP) in Bangalore delivered several contract development and manufacturing projects successfully
- In efforts to develop DLP further, we have filed a DMF from this site
- Developed a new API using an enzymatic process which is both cost-effective and environmentally-friendly

### Crop Protection

- Developing a versatile product that is used as a micro biocides as well as fungicide. It has a wide range of applications as a preservative in varnishes, adhesives, inks, laundry detergents, stain removers, fabric softeners, leather processing solutions, fluid preservation and in emulsion paints. We hope to scale up and further commercialize the product in the near future
- We are working on developing a commercially viable process for a complex protection product which has recently gone off-patent and is used to control a wide range of diseases by pests on soybean, cereals, fruits and vegetables

### Pharmaceuticals

- Invested significantly in the generic API business both in terms of personnel and manufacturing capabilities. We have strengthened our R&D infrastructure by starting a solid-state chemistry lab that will help us serve our customers better in terms of getting the right polymorphs and particle sizes of API's
- Pre-formulation and formulation development as part of R&T is being evaluated as a long-term strategy to add value to our customers

### Animal Health

- Successfully filed a VMF for an antiparasitic active ingredient used in veterinary medicine in livestock and pets against internal parasites.
- We have developed a process for the preparation of a leading flea and tick medicine

## R&T - Facility Overview

PUNE, MH

- **Provides process research of APIs and intermediates involving multi-step synthesis**
  - Successful track record in developing non-infringing processes and scaling up from lab to kilo to commercialization
- **Supports clients with:**
  - Process Development
  - Analytical Development
  - Product Development
  - Pilot Plant and Scale up Manufacturing
  - Commercial Manufacturing
- **Service the following Industries:**
  - Pharmaceutical (Generics & Custom Manufacturing)
  - Biotech
  - Animal Healthcare
  - Crop Protection, Specialty Chemicals and Biocides
  - Food

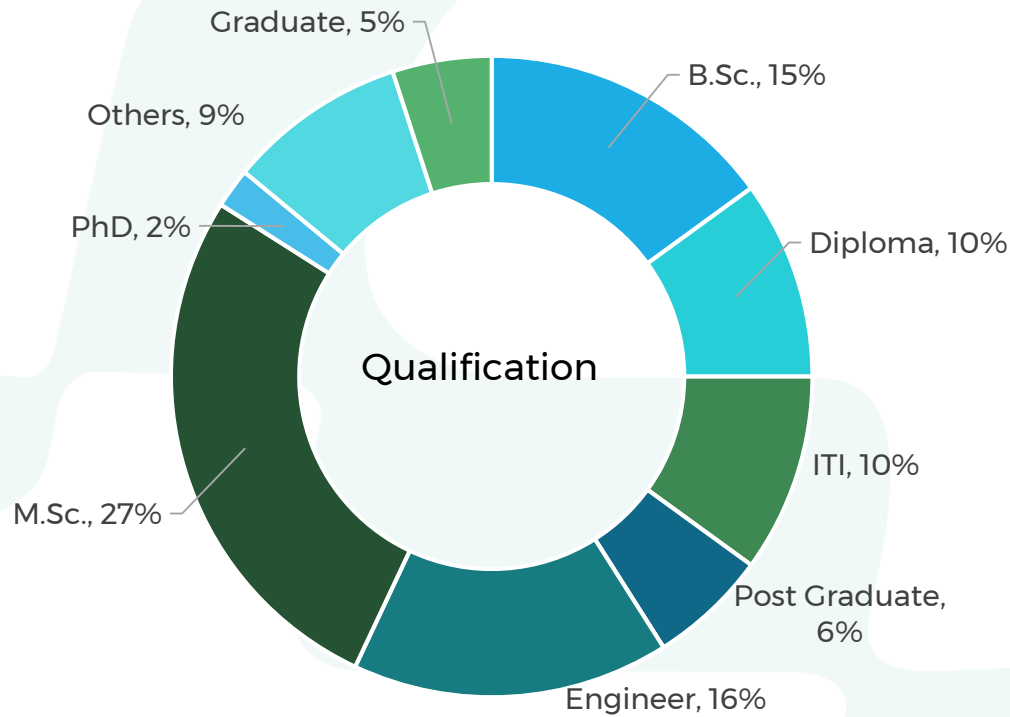

Facilities ensures seamless scale up from Lab to Commercialization

Activities	R&D Pune	Mahad	Bangalore Manufacturing	Panoli	Taloja

Process Development	✓			✓	✓
Process Improvement		✓	✓	✓	✓
Kilogram Laboratories	✓		✓		✓
Pilot Plants			✓		✓
cGMP compliance			✓	✓	

## Human Resources - Our Intellectual Capital

- Experienced workforce working with global Lifesciences companies
- Employees continuously trained through in-house workshops and external programs

Total workforce (as on March 31<sup>st</sup>, 2019) - 2,122

Filed a VMF for an antiparasitic active ingredient used in veterinary medicine for livestock and pets to fight against internal parasites

We plan to commercialise several advanced intermediates for a new generation ectoparasitic API that belongs to the isoxazoline group

Exclusive manufacturing contract of non-antibiotic veterinary drug API that is used to prevent coccidiosis, a disease that threatens newly arrived cattle that often have a compromised immune system

Volumes has been stable

Completed the pilot trials of another Animal Health product for a leading Japanese company

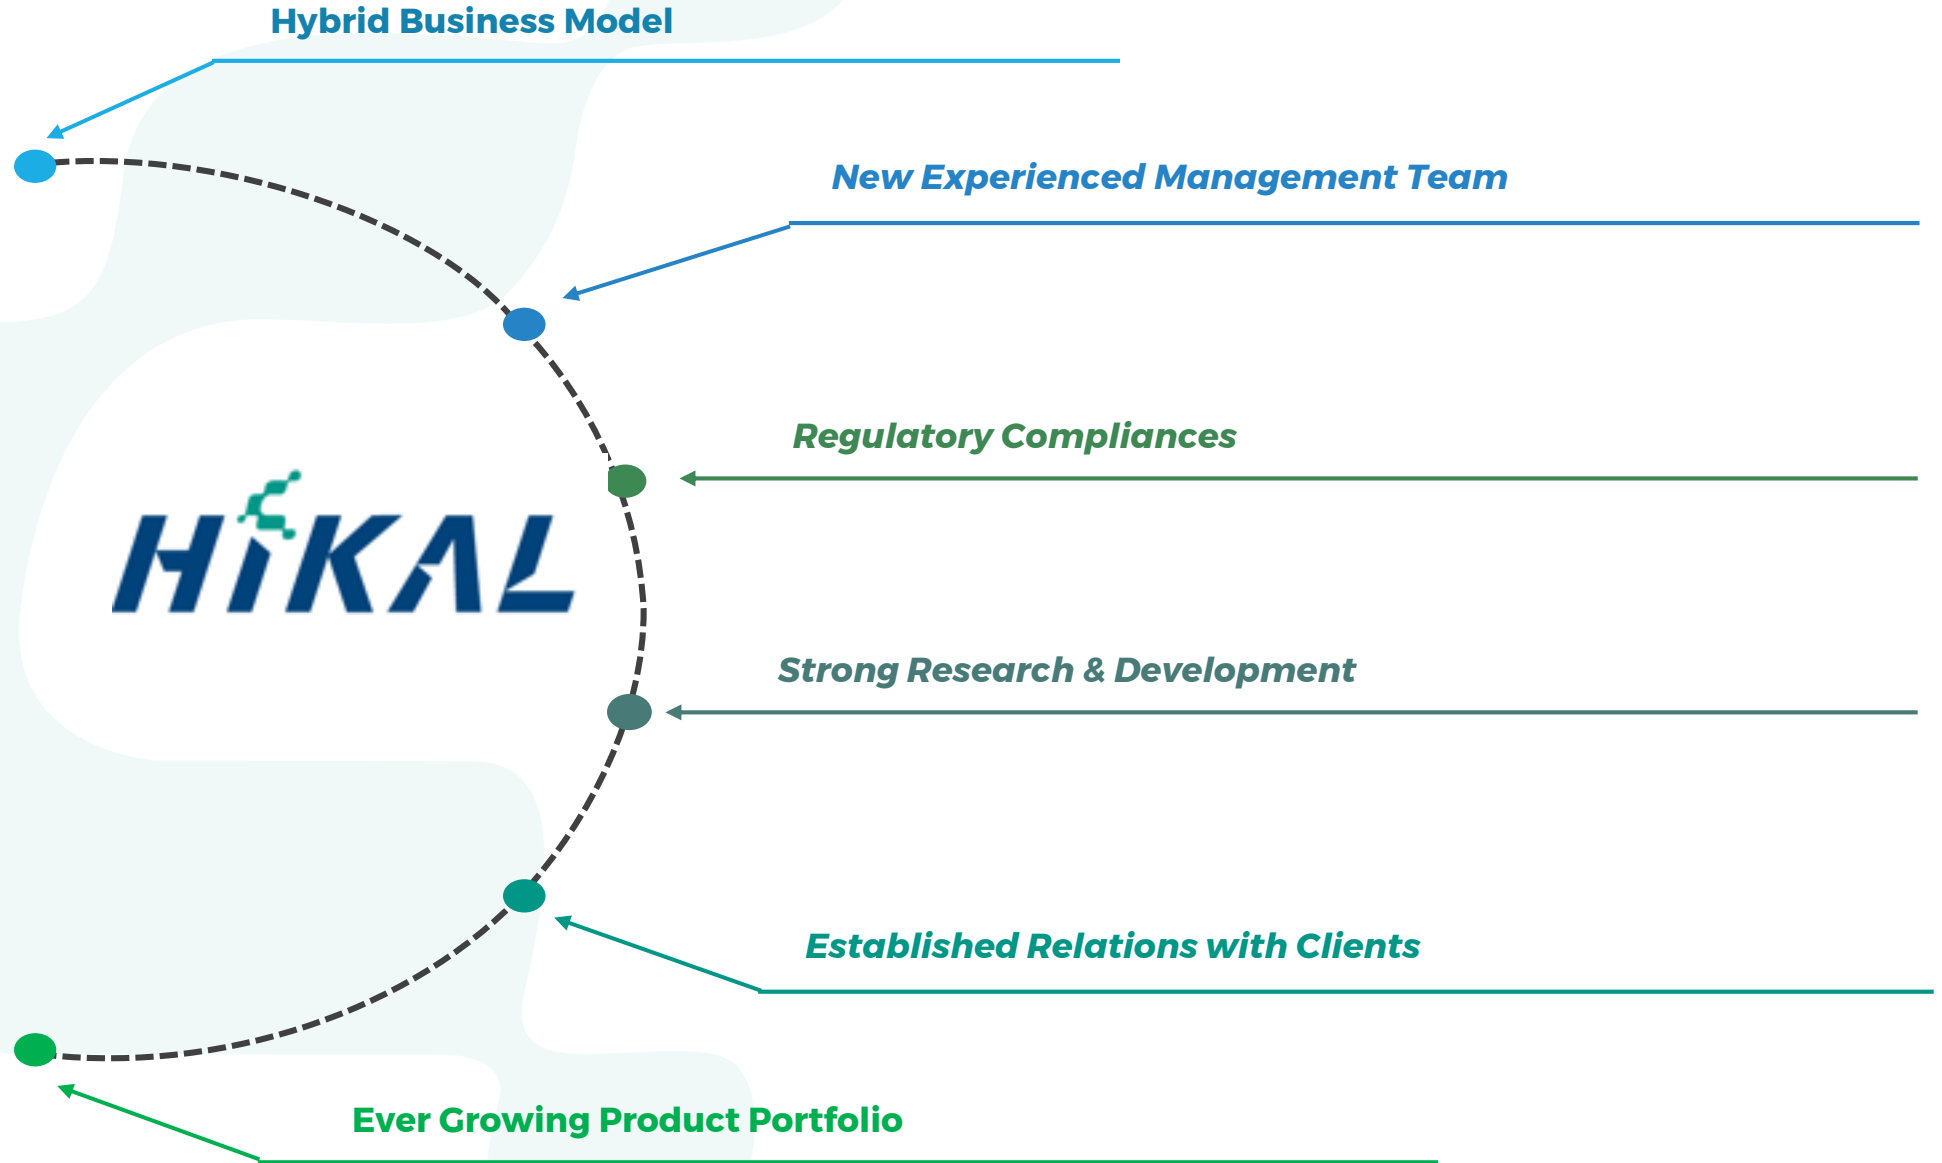

Products are a mix of molecules coming off- patent and new generation molecules

Plan to commercialise several advanced intermediates for a new generation ectoparasitic API that belongs to the isoxazoline group

Last year completed the validation of a niche pain management veterinary drug and plans to file a VMF this year

# Key Strengths

Uniquely positioned to become an integral part of Pharmaceutical and Crop Protection Supply Chain

### Blocks Built

---

- Asset Creation
- Relationships
- Research & Development

### Growth Drivers

---

- Expansion of Product Portfolio
- Increase in Volumes
- Margin Enhancement
