Kiya.ai launches India's first-ever Banking Metaverse – Kiyaverse

Mumbai, Ever imagine being able to visit your bank branch virtually (without leaving your home) or conveniently discussing investment plans with an advisor? Well, the day is not far when you will be able to transact, access banking information and avail various banking products from the comfort of your home. Kiya.ai - one of the most innovative digital solutions providers serving financial institutions and governments globally, today announced the launch of India's first-ever Banking Metaverse - Kiyaverse.

Kiyaverse pioneers use cases of merging real-world banking with Metaverse banking through an avatar (virtual humanoid) based interactions. In the first phase, Kiyaverse will allow banks to extend their own

Metaverse for clients, partners, and employees, through services that will include Relationship Manager & Peer Avatars and Robo-advisors. Kiyaverse plans to have tokens as NFTs and support CBDC to enable open finance in a Web3.0 environment. Kiyaverse will interface its Open API connectors with Aggregators, and Gateways to enable a Super-App and Marketplace on the metaverse. With the introduction of Haptics enabled Headsets, Kiyaverse will provide a near real-world interaction using the internet of senses.

Kiya.ai MD and CEO Rajesh Mirjankar said, "While digital banking is functionally interdependent and inclusive, it is all too often seen as being emotionally detached. Metaverse allows

banks to use cutting-edge technology with a human touch which will significantly deepen and personalize customer interaction. Kiyaverse offers meaningful applications in the Metaverse that apply to relevant business use cases in the real world.

It will enable banks to harness the potential of enhanced UX to bring out the best outcomes for data visualization and gamification of processes and procedures. Kiyaverse provides cross-functional multi-experience using personalized avatars across real world, mixed reality & virtual reality environments. Our product roadmap includes integration with CBDC and interoperability with other Metaverses to enable open finance in the Metaverse."

Insuretech platform Policygenius lays off 25% of its workforce

San Francisco, June 3 (IANS) Insuretech platform Policygenius has laid off 25 per cent of its workforce, less than 3 months after raising \$125 million.

Jamison Buck, a life insurance agent at Policygenius, wrote in a LinkedIn post late on Thursday that the company has made the "extremely difficult decision to lay off 25 per cent of its staff."

"I unfortunately was part of that layoff. I want to thank the entire team for the last 19 months. It's now time to search for the next opportunity," wrote Buck.

According to reports, the number of employees affected are around 170.

In a statement to TechCrunch, Jennifer Fitzgerald, CEO and co-

founder of Policygenius, said that as with many companies, the sudden and dramatic shift in the economy has "forced us to adapt our strategy".

"After careful consideration, we announced the difficult and necessary decision to reduce the size of our workforce. With these changes, we remain confident in the future of our company, our continued innovation, and the excellent service we continue to provide our customers every day," she was quoted as saying.

During its Series E funding round in March, Policygenius said that its home and auto insurance business had "grown significantly, with new written premiums having increased more than 6x from 2019 to 2021." Policygenius continues to be the only tech-enabled brokerage and distribution platform to have successfully scaled and diversified across life and home and auto insurance," it had said in a statement.

"The company will use the new capital to continue to invest in the growth of its core businesses of life, disability, home, and auto insurance, as well as new non-exam life insurance offerings and Policygenius Pro.

ation, we announced the difficult and necessary decision to reduce the size of our workforce. With these changes, we remain confident in the future of our company, our continued innovation, and the excellent service we continue to provide our customers every day," she was quoted as saying.

Holiday season boosts travel, hospitality with 357% growth in hiring: Report

New Delhi, June 3 (IANS) As the holiday season has kicked in, the travel and hospitality sector is witnessing a 357 per cent growth in hiring sentiment, breaking the shackles of the pandemic waves last year, according to a report released on Friday.

India showed promising signs of economic recovery in May 2022 with hiring across key sectors witnessing an upward year-on-year trajectory and a stable sequential trend. According to the latest Naukri JobSpeak May '22 Index, the surge in hiring activity stays put as it records over 40 per cent y-o-y growth in May. Retail (+175 per cent), real estate (+141 per cent) and insurance (+126 per cent) were among the top sectors that witnessed a significant y-o-y growth in May 2022. Other key sectors that saw an uptick in hiring trends as compared to last year are BFSI (+104 per cent), education (+86 per cent), auto (+69 per cent), oil and gas (+69 per cent), FMCG (+51 per cent) and IT-Software/

software services (+7 per cent). The demand for talent in metros and non-metros remained steady as all cities indicated a double-digit y-o-y growth in May 2022.

Amongst metros, Delhi (63 per cent) registered the highest y-o-y growth closely followed by Mumbai (+61 per cent), Kolkata (+59 per cent), Chennai (+35 per cent), Pune (+27 per cent), and Hyderabad (+23 per cent) also showed positive y-o-y growth.

Bengaluru, June 3 (IANS) In a breakthrough, researchers at the Indian Institute of Science (IISc) and their collaborators have discovered how next-generation solid-state batteries fail and devised a novel strategy to make these batteries last longer and charge faster.

Solid-state batteries are poised to replace the lithium-ion batteries found in almost every portable electronic device. But on repeated or excessive use, they develop thin filaments

IISc, collaborators come up with novel strategy to make fast-charging solid-state batteries

called 'dendrites' which can short-circuit the batteries and render them useless.

In a new study published in Nature Materials, the researchers have identified the root cause of this dendrite formation - the appearance of microscopic voids in one of the electrodes early on.

They also show that adding a thin layer of certain metals to the electrolyte surface significantly delays dendrite formation, extending the battery's life and enabling it to be charged faster.

Conventional lithium-ion batteries, the kind that you might find in your smartphone or laptop, contain a liquid electrolyte sandwiched between a positively charged electrode (cathode) made of a transition metal (such as iron and cobalt) oxide and a negatively charged electrode (anode) made of graphite. When the battery is charging and discharging (using up power), lithium ions shuttle between the anode and cathode in opposite directions. These batteries have a

major safety issue, the liquid electrolyte can catch fire at high temperatures. Graphite also stores much less charge than metallic lithium.

A promising alternative, therefore, is solid-state batteries that switch out the liquid for a solid ceramic electrolyte and swap graphite with metallic lithium. Ceramic electrolytes perform even better at higher temperatures, which is especially useful in tropical countries like India.

Lithium is also lighter and stores more charge than graphite, which can significantly cut down the battery cost. Unfortunately, when you add lithium, it forms these filaments that grow into the solid electrolyte, and short out the anode and cathode," explains Naga Phani Aetukuri, Assistant Professor in the Solid State and Structural Chemistry Unit (SSCU) and corresponding author of the study.

WESTERN RAILWAY TO RESTORE 5 PAIRS OF TRAINS TO VARIOUS DESTINATIONS

Business Brief

Essar Power enters into pact with ATL to sell transmission asset

Mumbai, Essar Power Limited, India's first private sector independent power producer has entered into a definitive agreement with Adani Transmission Limited to sell one of its two transmission lines for Rs 1,913 crore.

Essar Power Transmission Company Limited (EPTCL) has 465-km transmission lines across three Indian states. The asset transacted is an operational 400 kV inter-state transmission line linking Mahan to Sipat pooling substation. The project operates under the CERC regulated return framework.

During the last three years Essar Power has reduced its debt from a peak level of approximately Rs 30,000 crore to Rs 6,000 crore. Alongside this, Essar Power has been in the process of curating a green balance sheet around renewable energy which is in line with Essar's strategy of investing in future-centric businesses which give a superior rate of return within the ESG framework.

Mr. Kush S, CEO, Essar Power Ltd said, "With this transaction, Essar Power is rebalancing its power portfolio with the twin objective of deleveraging its balance sheets and investing in green and renewable power, thereby furthering its ESG-oriented future growth. Essar Power has a current power generating capacity of 2,070 MW across four plants in India and Canada."

IL&FS gets NCLAT approval for making over Rs 16,000 cr interim payout to creditors

New Delhi, June 3 (IANS) The National Company Law Appellate Tribunal (NCLAT) has directed the new board of Infrastructure Leasing & Financial Services (IL&FS) to make interim payout to creditors after prior approval of the new board, the tribunal said in an order.

The interim distribution shall be confined only to the entities as reflected in "Annexure-6" except those excluded and for the amount of Rs 16,361 crores - Rs 11,296 crore of cash and Rs 5,065 crore of InvT units, the order said.

"With regard to interim distribution, we further direct the new board in addition to compliance of the interim resolution process...only after approval by the new board," the NCLAT order read.

Running companies hurts my heart: Elon Musk

New Delhi, June 3 (IANS) Elon Musk has revealed that he never wanted to become a CEO but he sees no other way to bring technology and design to fruition. After a Twitter user recalled Musk being replaced as CEO of X.com in 2000, he tweeted: "I never wanted to be CEO - just wanted to work on product/technology. Bill Harris sounded like he would be a great CEO, given his Intuit experience, but he was not".

"Running companies hurts my heart, but I don't see any other way to bring technology & design to fruition," Musk added. In 1999, Musk and others founded online bank X.com that laid the foundation stone for online banking transactions. Harris was then-president and CEO of X.com, and left the company in May 2000. The company later merged with Confinity Inc. and was renamed PayPal. In 2002, Musk founded SpaceX and in 2004, he joined electric vehicle manufacturer Tesla Motors.

NOTICE TO SHAREHOLDERS

Sub-Transfer of Equity Shares/ Dividend of the Company to Investor Education & Protection Fund (IEPF) Account

This Notice is published pursuant to the provisions of Section 124(6) of the Companies Act, 2013 read with the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 ("Rules") and any amendment thereto. The Rules, amongst other matters, contain provisions for transfer of all shares in the name of Investor Education & Protection Fund (IEPF) Account in respect of which dividend has not been paid or claimed by the shareholders for seven consecutive years or more. Adhering to the various requirements set out in the Rules, the Company has communicated individually to the concerned shareholders whose shares are liable to be transferred to IEPF Account under the said Rules for taking appropriate action(s).

The Company has uploaded full details of such shareholders and shares due to transfer to IEPF Account on its website at www.symphonylimited.com. Shareholders are requested to refer company website: www.symphonylimited.com to verify the details of un-encashed dividend and the shares liable to be transferred to IEPF Account. Shareholders may take note that both the unclaimed dividend and the shares transferred to IEPF account including all benefits accruing on such shares, if any, can be claimed back by them from IEPF Authority after following the procedure prescribed under the Rules.

The concerned shareholders, holding shares in physical form and whose shares are liable to be transferred to IEPF account, may note that the Company would be issuing new share certificate(s) in lieu of the original shares certificate(s) held by them for the purpose of transfer of shares to IEPF account as per the Rules and upon such issue, the original share certificate(s) which stand registered in their name will stand automatically cancelled and be deemed non-negotiable. The shareholders may further note that the details uploaded by the Company on its website should be regarded and shall be deemed adequate notice in respect of issue of such new share certificate(s) by the Company for the purpose of transfer of shares to IEPF account pursuant to the Rules.

In case the Company does not receive any communication from the concerned shareholders before the due date, as per details given below, or such other dates as may be extended or notified under the said Rules, the Company shall, with a view to complying with the requirements set out in the Rules, transfer the shares to the IEPF account by the due date as per the procedure stipulated in the Rules.

Particulars	Last date to claim unclaimed dividend from the Company	Due date of transfer to IEPF + 30 days
Final Dividend - FY 2014-15	30th September, 2022	27th November, 2022
1st Interim Dividend - FY 2015-16	31st January, 2023	27th February, 2023
2nd Interim Dividend - FY 2015-16	15th February 2023	10th April 2023

For further queries/clarification on the subject matter and request to claim the unpaid/unclaimed dividend(s), the concerned shareholders may contact the Company Registrar and Share Transfer Agent M/s. **Bigshare Services Private Limited** (Unit - Symphony Limited), 6th Floor, Pinnacle Business Park, Next to Ahura Centre, Mahakali Caves Road, Andheri (East), Mumbai, Maharashtra-400093, Phone No. (022) 40430200, E-mail: info@bigshareonline.com, website: www.bigshareonline.com or to the Company on E-mail id: investors@symphonylimited.com
