FM asks insurers, states to speed up settlement

The PMJJBY and PMSBY were launched in 2015 to provide life and accidental insurance covers, respectively, of ₹2 lakh each to beneficiaries for an annual premium of only ₹330 and ₹12, respectively. As of May 5, total enrolment stood at 23.37 crore under the PMSBY and 10.33 crore under the PMJJBY.

During a review of the Pradhan Mantri Garib Kalyan Package (PMGK) Insurance Scheme for health workers fighting the pandemic, the minister observed that only 419 claims amounting to ₹209.5 crore have been paid so far under this scheme (deposited in the account of their nominees).

To tackle the issue of delay on part of states in sending documents, Sitharaman said a new system has been put in place whereby a simple certificate from the district magistrate and endorsed by the nodal state health authority will be sufficient to process these claims.

Sitharaman also stressed the importance of streamlining the process and documentation requirements under the schemes so that the claims are disbursed speedily, the finance minister said in a statement.

Historic deal to tax big MNCs; minimum global tax of 15%

US President Joe Biden's administration gave the stalled talks fresh impetus by proposing a minimum global corporation tax rate of 15%, above the level in countries such as Ireland but below the lowest level in the G7.

Germany and France also welcomed the agreement, although French finance minister Bruno Le Maire said he would fight for a higher global minimum corporate tax rate than 15%, which he described as a "starting point".

German finance minister Olaf Scholz said the deal was "bad news for tax havens around the world".

"Companies will no longer be in a position to dodge their tax obligations by booking their profits in the lowest-tax countries," he added.

Irish finance minister Paschal Donohoe, whose country is potentially a big loser with its 12.5% tax rate, said any global deal also needed to take account of smaller nations.

Sunak said the deal was a "huge prize" for taxpayers, but it was too soon to know how much money it would raise for Britain.

The agreement does not make clear exactly which businesses will be covered by the rules, referring only to "the largest and most profitable multinational enterprises".

European countries have feared that a business such as Amazon could slip through the net as it reports lower profit margins than most other well-known technology companies.

have begun easing restrictions in June.

Suraksha Realty seeks week for new bid; NBCC submits plan

The CoC had rejected the bids of Suraksha Realty and NBCC in the second round held in May-June 2019. The matter reached the National Company Law Appellate Tribunal (NCLAT) and then the Supreme Court. In November 2019, the Supreme Court directed the completion of JIL insolvency process within 90 days and ordered that the revised bids to be invited only from NBCC and Suraksha group.

In December 2019, the CoC, approved the resolution plan of NBCC with a 97.36% vote in favour during the third round of the bidding process. Later in March 2020, NBCC had got an approval from the NCLAT to acquire JIL. Homebuyers' claim amounting to ₹13,364 crore and lenders' claims worth ₹9,783 crore were admitted last year. However, the order was challenged before the NCLAT and later in the Supreme Court, which in March this year ordered that fresh bids should be invited only from NBCC and Suraksha. The apex court had also directed that resolution process be completed in 45 days, which lapsed on May 8 and an application has been filed to extend the timeline for finding a buyer for JIL.

GST collection above ₹1 lakh cr

While the amount borrowed under the RBI-enabled mechanism last year was ₹1.1 lakh crore — there was still a shortfall, ₹60,000-₹70,000 crore by one estimate — the idea is to borrow some ₹1.58 lakh crore in 2021-22.

The revenues of May 2021 were 65% higher than that in the same month last year, which belonged to transactions in April 2020, which witnessed a complete nationwide lockdown.

Of the May mop-up, Central GST were ₹17,592 crore, state GST ₹22,653 crore and I-GST ₹53,199 crore (including ₹26,002 crore collected on import of goods) and cess proceeds of ₹9,265 crore (including ₹868 crore collected on import of goods). "During the month, revenues from import of goods was 56% higher and the revenues from domestic transaction (including import of services) are 69% higher than the revenues from these sources during the same month last year," the finance ministry said.

"This (May mop-up) is despite the fact that most of the states have been under strict lockdown due to the pandemic. In addition, while the taxpayers with turnover above ₹5 crore had to file their returns by June 4, which they would have otherwise filed by May 20, smaller taxpayers with turnover less than ₹5 crore still have time till first week of July to file the returns without any late fee and interest and the revenue from these taxpayers is deferred till then," the ministry added.

upon the category they fall under, have to appoint chief compliance officer, grievance officer, nodal contact person, etc. While some other firms like Facebook, LinkedIn, Google, WhatsApp, Koo, Sharechat, etc, have complied, Twitter has not done so. Twitter has been categorised as a significant social media intermediary.

Meity's letter sent on Saturday mentions that it has written two similar letters to Twitter in the past — on May 26 and May 28 — seeking compliance of the rules, but did not receive a satisfactory response. "Meity is dismayed to note that your responses to the ministry's letter neither address the clarifications sought by the ministry nor indicates full compliance with the Rules," the letter has stated.

Non-compliance with the rules can lead social media firms like Twitter to lose exemption from liability as provided under Section 79 of the IT Act. The consequences of losing such cover and non-compliance of any part of the rules empowers the government to initiate criminal action against the company concerned under Rule 7. This new rule, which is a new insertion, deals with the non-observance of the rules, and states, "Where an intermediary fails to observe these rules, the provisions of sub-section (1) of Section 79 of the Act shall not be applicable to such intermediary and the intermediary shall be liable for punishment under any law for the time being in force, including the provisions of the Act and the Indian Penal Code."

Even before the new IT rules came into force, the government and Twitter have been at loggerheads over the latter not complying with a direction of removing 'manipulated media' tag from some tweets of BJP leaders on an alleged Congress toolkit used to target the Centre over its Covid-19 handling.

Following a visit by the Delhi Police officials to its offices to apparently serve a notice regarding investigation in the matter, Twitter on May 27 through a statement had raised concerns about its compliance officer being made criminally liable for content on the platform, the requirements for proactive monitoring and the blanket authority to seek information about its users. It said this represents dangerous overreach that is inconsistent with open, democratic principles. However, the government strongly rebutted Twitter's allegations and accused it of undermining the country's laws that aim at protecting it from criminal liability. The government had also accused Twitter of trying to dictate terms to it.

Noida leads in office space uptake, pips Gurgaon

Elaborating on the changing market preferences of companies in NCR, Aggarwal said, "When you look at Delhi, it has smaller offices, which are usually front offices, anywhere between 20,000 and 30,000 sq ft. It makes a lot of sense for enterprises to move into either Gurgaon or Noida. Traditionally they moved into Gurgaon, closer to the Delhi border. Now they are moving into Noida as they find Grade-A+ buildings with half the cost from Delhi."

Aggarwal agrees that cost arbitrage and same facilities at cheaper rates is a very good combination, but what Noida lacks compared to Gurgaon is large corporate clients. "Movement from Gurgaon to Noida has been very insignificant because firms in Gurgaon have much larger spaces for back offices, KPOs and software development centre. To move, say 1-2.50 sq ft, it takes a lot of diligence on talent movement, cost amortisations and many other critical factors," he pointed out.

Overall, the NCR market

Curbs eased in Delhi, other states too unlock

The UP government has allowed shops and markets outside the containment zones to open for five days a week. With this, the number of districts where the restrictions have eased as the count of active cases has fallen below the 600-mark has reached 67 of the 75 districts.

In Delhi, the Metro will operate at 50% capacity and markets and malls will open on an odd-even basis from June 7, CM Arvind Kejriwal said on Saturday. The lockdown in Delhi, which was to end at 5 AM on Monday, will be extended further but several relaxations will be allowed. Government and private offices will be allowed to reopen with 50% attendance.

Almost all states and Union Territories have extended the curbs which they first started imposing in mid-April as the second wave hit the country, though a few

Microsoft wins US antitrust okay for \$16-bn purchase of Nuance

REUTERS June 5

MICROSOFT CORP HAS won US antitrust approval for its deal to buy artificial intelligence and speech technology company Nuance Communications Inc, according to a filing made by Nuance to the government.

The \$16-billion deal, which was announced in April, came after the companies partnered in 2019 to automate healthcare administrative work, such as documentation.

Nuance said in a filing to the US Securities and Exchange Commission on Friday that the deadline for the US government to object to the deal had expired on June 1.

That expiration "satisfies one of the conditions to the closing of the merger," the company said in the filing.

A spokesperson for Microsoft said in a statement that the deal was undergoing regulatory reviews in other jurisdictions and was intended to close at the end of 2021.

Microsoft says error led to no matching Bing images for Tiananmen 'tank man'

REUTERS June 5

MICROSOFT CORP ON Friday blamed "accidental human error" for its Bing search engine not showing image results for the query "tank man" in the United States and elsewhere after users raised concerns about possible censorship around the Tiananmen Square crackdown anniversary.

Users, including in the United Kingdom, Germany and Singapore, reported Friday that when they performed the search Bing returned the message, "There are no results for tank man." David Greene, civil liberties director at the non-profit Electronic Frontier Foundation, said that content moderation was impossible to do perfectly and "egregious mistakes are made all the time."

But he said it could be more sinister: "At worst, this was purposeful suppression at the request of a powerful state."

Police officers at Victoria Park in Hong Kong on June 4, the 32nd anniversary of the 1989 crackdown on pro-democracy demonstrators at Beijing's Tiananmen Square

Hours after Microsoft acknowledged the issue, the "tank man" search returned only pictures of tanks elsewhere in the world. "Tank man" is often used to describe a unidentified person famously pictured standing before tanks in China's Tiananmen Square during pro-democracy demonstrations in June 1989.
