Dear Sir/Madam,

Sub: Publication of Financial Results for First quarter ended 30.06.2023

Ref: Regulation 47(1)(b) read with Schedule III of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015

Unit: MTAR Technologies Limited

With reference to the subject cited, please find enclosed newspaper clippings published in Financial Express (English) and Surya (Telugu) on 11th August 2023 in respect of financial results for First quarter ended 30.06.2023.

This is for your information and records.

Thanking you.

Yours Faithfully,

For MTAR Technologies Limited

**Shubham Sunil Bagadia
Company Secretary & Compliance Officer**

Reservoir water levels improve, just 6% below last year's record

SANDIP DAS
New Delhi, August 10

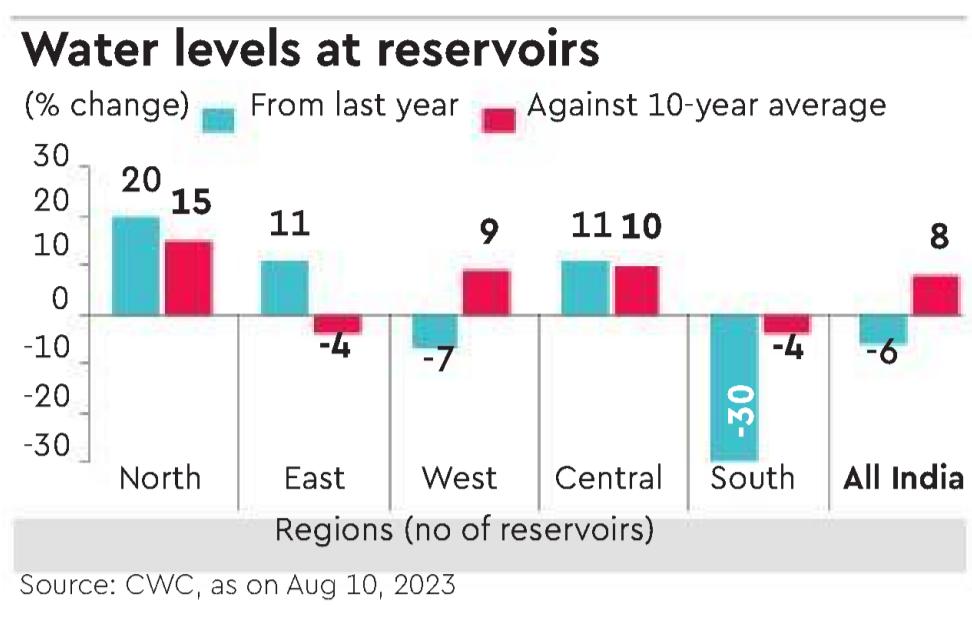

MONSOON RAINS IN the last fortnight have reduced the overall gap in water levels in key reservoirs to just 6% below last year's record level on Thursday from a deficiency of 15% a fortnight ago.

However, water levels at the 40 reservoirs in southern regions are now 30% below last year's level, as against 26% last week.

According to the Central Water Commission (CWC), the water level of the country's 146 reservoirs stood at 109.98 billion cubic metres (bcm) on Thursday — 62% of their combined capacity. A week ago, this was at 56%.

A year ago, the water available in these reservoirs was 117.12 bcm, and the average of the last 10 years was 102 bcm. "Current water level of reservoirs was 94% of the live storage of the corresponding period of last year and 108% of storage of the average of the last 10 years," the CWC said.

It said reservoirs in

Himachal Pradesh, Punjab, Rajasthan, Jharkhand, Odisha, Nagaland, Gujarat, Uttarakhand, Madhya Pradesh, Chhattisgarh and Telangana had better storage (in %) than last year for corresponding period.

West Bengal, Tripura, Bihar, Maharashtra, Uttar Pradesh, Andhra Pradesh, Telangana, Karnataka, Kerala and Tamil Nadu had less water in their reservoirs compared to last year.

The numbers of reservoirs having storage more than last year are 66 and reservoirs hav-

ing storage more than average in the last 10 years are 80," according to a CWC note.

Water levels in major dams in the eastern region, especially in West Bengal, Bihar, Jharkhand and Odisha, have been up 11% above last year's level, however, only 4% less than last 10-year-average level. In these states, a large segment of the crop area is still rainfed.

Northwest and central India regions have received 1.7% and 5% more rainfall, respectively, than the benchmark. On August 1, the overall rainfall in the country was 7% above the benchmark. Rainfall between 96–104% of the LPA is considered 'normal'.

Meanwhile, India Meteorological Department (IMD), in its forecast on Thursday, predicted rainfall over east Uttar Pradesh, Bihar, Sikkim and Arunachal Pradesh during next 4–5 days. However the Met department has stated subdued rainfall activity in the next one week over the rest of the country.

According to the Met department, overall monsoon rains have been at par with the 'normal' benchmark — long period average (LPA) till Thursday.

Currently, east and north-

east and south peninsula regions have rainfall deficiency of 18% and 7% respec-

tively of LPA.

Northwest and central India regions have received 1.7% and 5% more rainfall, respectively, than the benchmark.

On August 1, the overall

rainfall in the country was 7%

above the benchmark. Rainfall

between 96–104% of the LPA

is considered 'normal'.

Sebi proposes to ease norms for borrowings by large firms

PRESS TRUST OF INDIA
Mumbai, August 10

CAPITAL MARKETS REGULATOR Sebi on Thursday proposed to increase the threshold to at least ₹500 crore from the current ₹100 crore for the outstanding long-term borrowings for identifying any entity as 'Large Corporates' (LC).

In addition, it has suggested discarding the requirement of credit rating as a criterion for identifying an entity as LC and abolishing penal provisions for non-compliance with the borrowings rule by the LC, according to a consultation paper.

Under the current rules, large corporates are those that need to have an outstanding long-term borrowing of at least ₹100 crore; a credit rating of AA and above and a target to finance themselves with long-term borrowings (above 1 year).

To deepen the bond market, the capital markets regulator mandated large corporates to meet one-fourth of their financing needs from the debt market.

Sebi has sought comments from the public till August 31 on the proposals

25% of their incremental borrowings through debt securities.

Instead of imposing a fine, it has suggested that in case of shortfall or surplus by way of issuance of debt securities, additional or lower contributions, respectively, to the core Settlement Guarantee Fund (SGF) of the Limited Purpose Clearing Corporation (LPCC) should be made by the LC.

Presently, if at the end of three years, there is a shortfall in the requisite borrowings, a monetary penalty of 0.2% of the shortfall in the borrowed amount is levied.

To ease the manner of computation and simplify the process of reckoning the specified level of borrowing, it has been proposed that the requirement of a specified level of bor-

rowing any LC should be made applicable on an annual basis. Currently, the requirement of mandatory borrowing by an LC in a financial year has to be met over a contiguous block of three years from FY2022 onwards.

Hindalco ties up with Texmaco for aluminium rail wagons

ADITYA BIRLA GROUP flagship Hindalco Industries, and Texmaco Rail & Engineering on Thursday entered into a strategic alliance and announced a ₹200 crore investment to develop and manufacture aluminium rail wagons and coaches that will help the Railways achieve emission goals and boost operating efficiency.

The companies are identifying land in the Eastern region to set up a manufacturing unit and will invest around ₹200 crore, Sudipta Mukherjee, the deputy managing director of Texmaco told PTI.

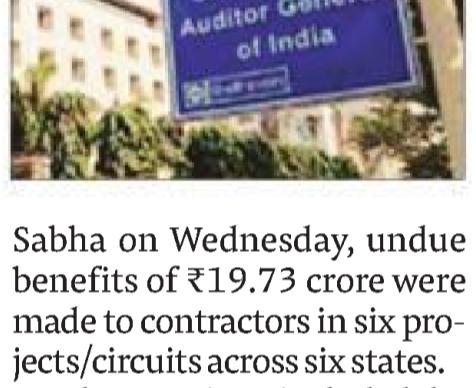

He further said, the partners are considering the Eastern region to set up the plant and hope to commission the same over the next 18–24 months. The Railways has launched 'mission 3,000 mt' with a target of doubling freight capacity to reach 3,000 million tonne by 2027 by augmenting its rolling stock, and help achieve a 45% market share in freight.

CAG: Undue benefits to contractors in Ayodhya development project

HARIKISHAN SHARMA
New Delhi, August 10

THE COMPTROLLER AND Auditor General of India (CAG) has found irregularities, including undue benefits to contractors, in the implementation of the Ayodhya development project in Uttar Pradesh under the Centre's Swadesh Darshan Scheme.

The CAG has conducted a performance audit of the Swadesh Darshan Scheme from its inception in January 2015 to March 2022. According to the performance audit report, which was tabled in the Lok

Pradesh; Heritage Circuit, Telangana; development of Rangpo-Singtam, Sikkim; and Buddhist Circuit, Madhya Pradesh.

Giving a detailed account of the undue benefits made to contractors in the Ayodhya development project, the CAG report noted: "The contractor engaged by the implementing agency viz, Uttar Pradesh Rajkiya Nirman Nigam, was required to submit performance guarantee at the rate of five per cent of the contract price of ₹62.17 crore, which worked out to ₹3.11 crore. However, the contractor submitted a lesser amount of performance guarantee i.e., ₹1.86 crore only,

Sabha on Wednesday, undue benefits of ₹19.73 crore were made to contractors in six projects/circuits across six states. These projects included the one for development of Ayodhya; development of Singherim-Aguda Jail, Goa; Himalayan Circuit, Himachal

garh; development of Rangpo-Singtam, Sikkim; and Buddhist Circuit, Madhya Pradesh.
