'Linde to Invest \$1B in India over 3-5 Yrs'

ET Q&A Global industrial gas company Linde is investing in India to expand its operations in the country. Linde is investing \$1 billion in India over 3-5 years, CEO Rajeev Kumar Lakshminarayana said in an interview.

What are your plans in India? India is a growing economy and we see significant growth coming from India as well as some regional growth in the Indian subcontinent. We are looking to invest \$1 billion in India over 3-5 years to expand our operations in the country and to invest in infrastructure and R&D to support our growth in India. We are also looking to invest in infrastructure and R&D to support our growth in India.

What are your plans in India? India is a growing economy and we see significant growth coming from India as well as some regional growth in the Indian subcontinent. We are looking to invest \$1 billion in India over 3-5 years to expand our operations in the country and to invest in infrastructure and R&D to support our growth in India.

India's green hydrogen economy? India is a growing economy and we see significant growth coming from India as well as some regional growth in the Indian subcontinent. We are looking to invest \$1 billion in India over 3-5 years to expand our operations in the country and to invest in infrastructure and R&D to support our growth in India.

What kind of growth do you think the hydrogen economy is looking for? Hydrogen is the best alternative for hydrogen for the world's energy needs. It is a clean energy source and it is a key component of the energy transition. It is a clean energy source and it is a key component of the energy transition.

How do you see the hydrogen economy in India? India is a growing economy and we see significant growth coming from India as well as some regional growth in the Indian subcontinent. We are looking to invest \$1 billion in India over 3-5 years to expand our operations in the country and to invest in infrastructure and R&D to support our growth in India.
