The above is an extract of the detailed format of financial results for the guarter and nine months ended December 31, 2022 filed with t Stock Exchange under Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. For the nine months ended December 31, 2022 and in previous years, due to higher raw material cost i.e. sugarcane costs (SAP) fixed by State government and relatively lower sales realization of finished sugar, adverse demand & supply scenario, national - inter market dynamics and other eternal factors, the Company had continuously incurred huge cash losses resulting in complete erosion of it net worth, rendering the Company unable to meet payment obligations towards its lenders as well as to the sugarcane farmers in terms of their respective agreements and understanding. All the production units of the Company are operational and continue to operate at sub optimum levels on year on year basis while consistent efforts have been made for improvement in operational efficiency viz. improvement in sugar recovery, reduction in overheads and reduction in other operational and administrative costs etc. but due to lack of require working capital and no capex being undertaken towards augmentation of distillery units/sugar plants is still adversely impacting the operations. During the nine months and quarter ended December 31,2022, the Company has started crushing for Sugar season 2022 23 in all of its three sugar mills. However, availability of required sugarcane for optimal utilization of production capacities is still challenge on account of aforesaid reasons. In distillery segment, non-commissioning of incineration boilers and other equipments to meet the stringent requirement of Pollution control board is still resulting in curtailed production levels. Further, The Company also expects to receive accrued benefits under the Sugar Industries Promotion policy 2004 for which it is entitled, but presently, the matte is sub-judice.

Recognizing the status of the sugar industry, the state and central governments have taken a number of measures in past to improve the financial health of sugar mills and to support the liquidation of sugarcane arrears by grant of soft loan, fixing minimum support price of sugar, and Ethanol blending program with petrol coupled with long term tendering and fixing remunerative selling price of ethanol etc. A these measures specifically ethanol blending program, have resulted in revival of the sugar industry.
