Building a better tomorrow

Our Company is committed to contribute to the country's holistic development by creating state-of-the-art-infrastructure, generating employment, enhancing wealth and building a better tomorrow.

Our vision is reflected in our spirit to transform the space of surface infrastructure into an enriching customer experience. Our sustainable growth strategy is rooted in 3 P's – People, Planet and Performance.

Our endeavour is to enhance value for our stakeholders through intelligence, innovation and integration.

**We resized our
Balance Sheet to
enhance our long-term
competitiveness**

Dear shareholders,

The FY20-21 marked the completion of 19 years of MEP Infrastructure Developers Limited. Firstly, my sincere gratitude to all our shareholders for your continued trust in our capability, which enables us to reach new heights. We believe that the infrastructure sector is more than building roads and creating corridors of transit. It is about making the wheels of the economy move continuously, shrinking distances and making tomorrow better.

Strategic review and outlook.

Overview

The principal message that one needs to communicate is that the worst appears to be over for India's road building and allied sectors, which could benefit focused long-term players like MEP Infrastructure Developers Limited. Our optimism is derived from our decision to resize our Balance Sheet to enhance long-term competitiveness. The speed with which the Company responded has helped the Company protect its Balance Sheet from extensive impairment on the one hand and capitalise on widening prospects on the other in a challenging FY20-21.

Initiatives

The year under review was marked by the extensive impact of the Covid-19 pandemic. The pandemic affected virtually every segment of India's industry; the road building sector was not an exception. In the road building and tolling sector, there was a decline in labour availability as most preferred to return to their rural home towns and villages; there was a decline in road and highway traffic that affected toll collection.

The twin impact resulted in a mismatch between what had been projected and reality. In a business where project deliveries are strictly mapped leading to capital management discipline, this mismatch disrupted our cash flows.

The Company was faced with two options: wait for the improvement to transpire and thereafter drive the business as usual or realign the business model with speed to remain relevant and viable. The

Company opted for the second option; this responsiveness was driven by the conviction that to be able to finish first, the Company would first need to finish, prompting a corresponding urgency and sensitivity.

The result is that the Company completed the harmonious substitution of four hybrid annuity model (HAM) projects to the new concessionaire during the year under review; these projects were marked by factors largely outside the Company's control and the management took a considered view that in view of the extensive uncertainty, a smaller order book would be safer.

Following this harmonious substitution, the Company finished the year under review with six ongoing projects, strengthening the Company's capacity to address them with timely competence.

Strengthening the business

At MEP Infra, we recognised that harmonious substitution during the last financial year would help protect the business; the Company was faced with the need to grow the business to respond to the widening prospects within India's road building sector.

The Company proposed to create a wider room for sizable net worth infusion for which shareholders' approval was taken. The proposed net worth infusion is expected to achieve the following objectives: resize the Balance Sheet towards a higher role of net worth over debt; strengthen the Company's pre-qualifications to address larger road building projects; strengthen the credit-rating that could potentially moderate the cost of debt. In view of this, we see the proposed net worth infusion as a potential game-changer that is expected to enhance the Company's preparedness to bidding opportunities in the BOT, HAM, EPC and tolling spaces.

Sectoral upside

At MEP Infra, we see the emerging road building agenda for the next decade as the single largest infrastructure opportunity for the country.

The Indian government has made fresh road building its principal national growth agenda, reconciling a number of national priorities: inclusive growth, Make in India, bridging the urban-rural divide and strengthening national logistical efficiency. There is a growing conviction that road building represents an investment offering the largest returns to the biggest number of beneficiaries for the longest time.

During the first phase of the present Central government, the focus was on strengthening the existing road network through lane-widening (from four to six), facilitating a quicker throughput. In the second phase, the government is focusing on new road construction coupled with road widening. This second phase (comprising road building across national and state highways, expressways and district roads) has been secured through large institutionalised programmes with multi-year potential. In view of this, I am convinced that road building represents a growth sector through the coming decade, strengthening prospects for long-term players. Besides, the Indian government is also responding with speed to evolving ground realities. The Finance Minister recently announced the National Monetisation Pipeline comprising of four-year pipeline of the government's brownfield infrastructure assets. Maximum monetisation by FY25 is expected from the road sector where ₹1.6 lakh crore worth national highways of NHAI are identified.

At MEP Infra, we are optimistic that despite a relaxation in the bidding norms that could lead to a larger number of players, there is enough scope for all the players to succeed in. This is on account of a large number of projects being announced by the government that is widening the sectoral opportunity; a focus on Make in India is enhancing the role of Indian players in joint venture alliances; a focus on governance is serving as an effective filter for intending entrants. We are confident that the government's initiatives will only widen the sectoral eco-system by enhancing the availability of talent, capital, technology and equipment providers. Also, the emergence of models within the country are inspiring a number of States to

At MEP Infra, we are attractively placed to capitalise on the sectorial inflection point.

replicate proven approaches and prompt project launches across the country, widening the industry opportunity.

MEP Infra's preparedness

At MEP Infra, we are attractively placed to capitalise on the sectorial inflection point.

One, the Company addresses the widest value chain in its business – from road building (EPC) to road building cum ownership (HAM) to toll management.

Two, the Company enjoys a leadership in the toll management business.

Three, the Company resized its business with speed during the last financial year, enhancing sustainability.

Four, the proposed infusion of net worth will strengthen the Company's credit-rating, initiating a virtuous cycle.

Outlook

We see an upside for good reasons. Going ahead, we see accelerated road building without comprising safety and protection standards. This should translate into a higher throughput and timely completion (after getting the necessary road extension permissions from the concessionaire for reasons related to the pandemic) that revives cash flows, enhancing value for all those related to the sector and our Company.

Our competitive strengths

Rajiv Gandhi Sea link OMT project

Overview

Established in 2002 by the Mumbai-based Mhaiskar family, MEP Infrastructure Developers Ltd is an integrated road infrastructure developer with a leadership position in Toll collection and Operation, Maintenance & Transfer space of road projects in the country.

By the virtue of its thought leadership and successful track record of 19 years, the Company has executed 145 projects across 15 States.

Key strengths

- Integrated structure with in-house capabilities
- One of India's leading players for Tolling and OMT projects
- Experienced management, competent execution team and strong collaborations
- Business diversification with a successful foray into road construction
- Favorably positioned to capitalise on dynamic road sector opportunities

Integrated structure with in-house capabilities

Tendering

The in-house business development team prepares tendering documents for all bids.

The Company's ability to tender appropriately depends significantly on the assessment of the future traffic patterns and the amount of toll to be collected.

Civil construction and maintenance

In-house experts with significant experience for supporting and managing all EPC and maintenance related activities.

In-house equipment and resources availability for implementing routine and major maintenance works.

State-of-the-art equipment such as concrete batching plant, crusher plant, slipform paver etc. for execution of road construction projects.

Survey of traffic and revenue forecasting

The in-house traffic study and revenue forecasting capacity and expertise strengthens the Company's ability to evaluate new projects and tender effectively for toll collection and

OMT contracts.

Forecasting is enhanced through various traffic estimation techniques, maintaining a historical data bank and refreshing the data periodically.

The final revenue model created is discussed and finalised by the senior management for bidding purposes.

Dual responsibility of conducting pre-bidding traffic surveys as well as monitoring loss in revenue on account of non-paying vehicles for ongoing projects.

Financial closure

The finance and operations team of MEP Infra coordinates activities relating to the achievement of financial closure through the mobilization of fund and non-fund based loan facilities from banks and financial institutions.

Operations

The Company has a strong team of 3,577 employees (includes contracted workforce). Besides, MEP possesses civil and technical competencies that cover the entire value chain.

Board of Directors

Mr. Jayant D. Mhaiskar

Chairman & Managing Director

Promoter Director of the Company with over 21 years of experience in the Tolling and Infrastructure industry. With his formidable foresight, MEP Infra continues to benefit from its early-mover advantage in the toll space and now in the hybrid annuity space of road construction where the Company commands a significant market share.

Management discussion and analysis

Global economic review

The global economy reported de-growth of 3.3% in 2020 compared to a growth of 2.9% in 2019, the sharpest contraction since World War II. This steep decline in global economic growth was largely due to the outbreak of the novel coronavirus and

the consequent suspension of economic activities across the world. This led to global supply chain disruptions, resulting in a de-growth in some of the largest global economies.

Consequently, global FDI reported a significant decline from \$1.5 trillion in 2019 to \$859 billion in 2020, the lowest since the 1990s and more than 30% below the investment trough that followed the 2008-09 global financial meltdown.

United States: The country witnessed a GDP de-growth of 3.4% in 2020 compared to a growth of 2.3% in 2019.

China: The country's Gross Domestic Product grew 2.3% in 2020 compared to 6.1% in 2019 despite being the epicentre of the outbreak of the novel coronavirus.

United Kingdom: Britain's GDP shrank 9.9% in 2020 compared to 1.4% growth in 2019, 2x the annual contraction recorded in the aftermath of the global meltdown in 2009.

Japan: Japan witnessed a contraction of 4.8% in 2020, the first instance of a contraction since 2009. (Source: CNN,

Indian economic review

The Indian economy passed through one of the volatile periods in living memory in FY20-21.

At the start of 2020, India was among five largest global economies; its economic growth rate was the fastest among major economies (save China); its market size at 1.38 billion was the second largest in the world; its rural population of the under-consumed was the largest in the world.

The Indian government announced a complete lockdown in public movement and economic activity from the fourth week of March 2020. As economic activity came to a grinding halt, the lockdown had a devastating impact on an already-slipping economy as 1.38 billion Indians were required to stay indoors - one of the most stringent lockdowns enforced in the world.

The outbreak of the novel coronavirus and the consequent suspension of economic activities due to the pandemic-induced

lockdown, coupled with muted consumer sentiment and investments, had a severe impact on the Indian economy during the first quarter of the year under review. The Indian economy de-grew 23.9% in the first quarter of FY20-21, the sharpest de-growth experienced by the country since the index was prepared.

The Indian and state governments selectively lifted controls on movement, public gatherings and events from June 2020 onwards, each stage of lockdown relaxation linked to corresponding economic recovery. Interestingly, as controls relaxed what the country observed was a new normal: individuals were encouraged to work from home; inter-city business travel was replaced by virtual engagement; a greater premium was placed on the ownership of personal mobility modes (cars and two-wheelers); there was a sharp increase in home purchase following the need

to accommodate an additional room for home working.

The result is that India's relief consumption, following the lifting of social distancing controls, translated into a full-blown economic recovery. A number of sectors in India - real estate, steel, cement, home building products and consumer durables, among others - reported unprecedented growth. India de-grew at a relatively improved 7.5% in the July-September quarter and reported 0.4% growth in the October-December quarter and a 1.6% growth in the last quarter of the year under review.

The result is that India's GDP contracted 7.3% during FY20-21, largely on account of the sharp depreciation of the first two quarters. This sharp Indian recovery - one of the most decisive among major economies - validated India's robust long-term consumption potential.

Indian infrastructure sector overview

The infrastructure sector is a key growth driver of India's economy. This sector is responsible for strengthening the country's prosperity and enjoys government priority.

As per the information by the Department for Promotion of Industry and Internal Trade (DPIIT), FDI in the construction development sector and construction

activities stood at USD 26.08 billion and USD 24.72 billion respectively between April 2000 and March 2021. In FY20-21, infrastructure accounted for 13% of the total FDI inflow of USD 81.72 billion.

The Central government proposed the setting up of National Infrastructure Pipeline (NIP) in 2019, due to which

infrastructure projects rose to 7,400 in 2021 with ~217 projects worth ₹1.1 lakh crore. Sectors such as roads, urban development, railways and energy accounted for approximately 71% of the projected infrastructure investments. Nearly 42% of the projects in the NIP are under implementation, indicating that construction is already in the processes.

Another 19% is under a development stage, while a huge amount of 31% is still in the conceptual stage.

The government allocated ₹60,241 crore for road works and ₹57,350 crore for the

national highways in the Union Budget 2021-22. Moreover, the government plans to construct 8,500 kilometers road by March 2022. An additional 11,000 kilometers of national highway corridors

will be completed by this time frame.

Besides, the Indian government announced an outlay of ₹1.18 lakh crore for the Ministry of Road Transport and Highways. (Source: IBEF, Mordor Intelligence)

Indian roads sector overview

India has the second-largest road network in the world, with a total span of 6.4 million kilometres (km). This road network transports 64.5% of all goods in the country with 90% of India's total passenger traffic using the road network to commute. Transportation through road has increased gradually over the years with improvement taking place in connectivity between cities, towns and villages in the country. One of the major growth drivers for this sector is the sale of automobiles and fast growth of movement of freight by roads.

The national highways constitute 2% of the total road network but carry more than two-fifths of the total Indian traffic.

NHAI accomplished the construction of 3,951 kilometers of national highways in FY20-21, which is one of the highest

highway constructions achieved in a financial year. Moreover, the government aims to construct 23 new national highways by 2025. The pace of construction as noticed in the last few years has witnessed a steady growth with the combined length of these highways standing at 7,800 kilometers. Moreover, the country has a well-established framework for Public-Private-Partnerships (PPP) in the highway sector. India was ranked at the first spot in PPP operational maturity and further, was also designated as a developed market for PPPs.

Under the Bharatmala Pariyojana, the government awarded a project worth ₹5.35 lakh crore including construction of more than 13,000 kilometers of roads worth ₹3.3 lakh crore. The Ministry of Road Transport & Highways announced that

it achieved a milestone by constructing 13,298 kilometers of National Highways, with the construction of 37 kilometers per day in FY20-21. The government has given the utmost priority to infrastructure development and has set a target of road construction worth ₹15 lakh crore in the

Government initiatives

- The Government of India allocated ~\$1.4 trillion towards the infrastructure sector, which is to be invested until 2025.
- A target of 40 kilometers per day construction of roads and highways has been set for the days to come.
- The NHAI decided to deploy Network Survey Vehicle (NSV) in April 2021 for the improvement in quality of the national highways. Using NSV to carry out road

condition survey on the national highways was made necessary for certifying completion of the project and every six months thereafter.

- NHAI planned to award projects worth around ₹2.25 lakh crore in the FY20-21, as against projects worth ₹1.71 lakh crore actually awarded during this time span. Furthermore, in terms of road construction, the organisation surpassed the 4,500-kilometers target, with the NHAI

awarding 141 projects totaling 4,788 kilometers in length in FY20-21.

- The Union Minister of Road Transport and Highways, Mr. Nitin Gadkari made an announcement of a large financial relief package, releasing ₹8,000 crore to meet the working capital requirements of the contractors.

(Source: IBEF, InvestIndia, Financial Express)

Budgetary provisions

- At a cost of ₹18,000 crore, a new scheme will be launched to support the augmentation of public bus transport services. This will facilitate the deployment of innovative PPP models in order to enable private sector players to finance, acquire, operate and maintain more than 20,000 buses.

- The Finance Minister announced an outlay of ₹1.18 lakh crore for the Ministry of Road Transport and Highways, which includes the highest ever capital outlay worth ₹1,08,230 crores.

- To expedite highway projects, additional fund sources are being tapped with a private investment of ₹30,000 crore being

envisaged in 2021-22 through hybrid annuity mode (HAM) and build-operate-transfer (BOT) projects.

- The NHAI has monetised two bundles of TOT (toll-operate-transfer), which comprises nine projects each with length of 681 kilometers and 566 kilometers, while receiving a bid amount worth ₹9,681 crore

and ₹5,011 crore, respectively.

- The government plans to award another 8,500 kilometers, completing an

additional 11,000 kilometers of national highway corridors by March 2022. The flagship projects to be accelerated include the Delhi-Mumbai Expressway; while

for the Bengaluru-Chennai Expressway, construction will begin in FY21-22.

Bharatmala Pariyojana

The Bharatmala Pariyojana envisions the development of ~26,000 kilometers length of economic corridors, which along with the Golden Quadrilateral (GQ) and North-South and East-West (NS-EW) Corridors are anticipated to carry majority of the freight traffic on roads. Moreover, nearly 8,000 kilometers of inter corridors and 7,500 kilometers of feeder routes were identified

for improving effectiveness of economic corridors, GQ and NS-EW Corridors. The programme envisages the development of ring roads/bypasses and elevated corridors to reduce the traffic passing through the cities and further, improve the logistic efficiency. 28 cities have been identified for Ring Roads with 125 choke points and 66 congestion points being identified for their

improvements. Furthermore, in order to reduce congestion on proposed corridors, reduce logistics costs of freight movements and enhance logistic efficiency, 35 locations have been identified for the development of multimodal logistics parks. (Source: MoRTH Annual Report)

Hybrid Annuity Model (HAM) and Engineering Procurement and Construction (EPC)

The execution of hybrid annuity model (HAM) projects is the preferred mode of awarding by the NHAI and is majorly on schedule with about 60% of projects, covering 3,200 kilometers of roads, completed on time. Introduced in January 2016, more than 40% of roads have been awarded by NHAI under the HAM model over the past five years. Moving ahead,

approximately 50% of the awarding by NHAI is expected to be through HAM. Therefore, the understanding of their execution performance is essential.

Out of the 5,400 kilometers roads analysed, 1400 kilometers are operational, with a large portion of these completed six months ahead of schedule, while only a

few faced moderate delays. This execution was supported by the timely availability of land and approvals. It is expected that an additional 1,800 kilometers of roads, which are in advanced stages of construction, will be completed on time in the near term. (Source: Livemint, Crisil Ratings)

Toll collection

The total toll collection on national highways is estimated to have reached ₹34,000 crore in FY20-21. Toll collections witnessed a major increase on account of rise in movement of both passenger and commercial vehicles, which has increased significantly over the last three months, surpassing the pre-Covid-19 levels.

FASTag accounted for almost ₹100 crore per day out of the total toll collections in India. The toll collections in India in June 2021 had increased to ₹2,576.28 crore, 21% higher than ₹2,125.16 crore collected in May 2021.

In FY21-22, the traffic is expected to rise by

5% and the WPI linked toll rates by 3-4%, resulting in an overall increase of 14-15% in the toll collections on a low base in FY20-21. (Source: Livemint, ICRA)

Build Operate and Transfer (BOT)

As investors' interest in pure public-private-partnership (PPP) projects increases, the share of which in the new awards have declined massively for almost a decade and has drawn to a blank in the last two years. The National Highways Authority of India (NHAI) plans to award around 450 kilometers highway stretch through the build-operate-transfer (BOT) model in FY21-22.

Moreover, in what could be considered as a revival of public private partnership (PPP) in the highway sector, private developers have offered a premium for two projects tendered recently by the National Highways Authority of India on build, operate and transfer (BOT) basis, which is a mode of private funding for national highways that are lying unused for almost ten years now. The projects in question

are six-laning of Panagarh-Palsit (67.75 kilometers) at a capital cost of ₹2,021 crore and six-laning of Palsit-Dankuni with a total span of 63.8 kilometers, requiring a capital cost of ₹2,193 crore. Both of these projects are in West Bengal and a part of the Bharatmala Pariyojana. (Source: Business Today, Financial Express)

Toll Operate and Transfer

Under the Toll Operate and Transfer (TOT) model, operational highway projects are given on a long-term lease (15-30 years) to the private entities on a long-term concession basis against an upfront payment. During the concession period, the operator collects user fee on the stretches based on the prescribed rates by NHAI in order to recoup their investment but the operator has to operate and maintain these stretches. A minimum of

six companies have submitted bids to take the long-term lease of an estimated 160 kilometers highway stretch offered by the NHAI against such upfront payment through the toll-operate-transfer (TOT) route. Moreover, under the fifth round of TOT, the NHAI has offered a 20-year lease period for two bundles with a total length of 159.5 kilometers.

The National Highways Authority of India (NHA) is anticipated to offer 32 projects,

which are 1,500 kilometers in construction size under the Toll-Operate-Transfer (TOT) model in FY21-22 as it provides a fresh monetisation plan. Keeping in mind the impact of the second wave of Covid-19, the projects on offer would be decided on a case-by-case basis. (Source: Construction Week Online, Business Standard)

Electronic Toll Collection (ETC)

The road transport and highways ministry placed major focus on expediting the process of making a complete transition to electronic toll collection (ETC) in a bid to rationalise toll rates. This will increase transparency about the valuation of highway projects, while gaining traction from potential investors. The government has made the implementation of FASTag mandatory. FASTag is an electronic toll collection device that is attached on the windshield of a vehicle across all national

highways to modernise and increase efficiency.

FASTag has been responsible for approximately ₹100 crore of toll collection per day in the country. The implementation of FASTag has witnessed growth of 20% in terms of electronic toll collection transactions, while 27% in terms of collection of user fee. Moreover, the implementation of this has also resulted in reduction of waiting time at National Highways Fee Plazas significantly, which

has enhanced user experience. The electronic toll collection through FASTag is operational at 780 active toll plazas across India.

With an estimated 3.48 crore users, FASTag penetration is at nearly 96% across the country with many toll plazas having 99% penetration. As per an estimate, FASTag saves ~₹20,000 crore per year on fuel, which further saves precious foreign exchange and helps the environment. (Source: Livemint, The Hindu Business Line)

Growth drivers

Rising urbanisation: India's total population is anticipated to rise from 1.38 billion in 2020 to 1.52 billion by the year 2036. A major portion of this rise is expected to come from urban areas that are expected to rise from 35% to 39% during this time span.

National infrastructure pipeline: The National Infrastructure Pipeline (NIP) contributed to rise in the number of infrastructure projects. The number witnessed a growth to 7,400 in 2021 from 6,835 and 217 projects worth ₹1.1 lakh crore.

Rural roads: An allocation of ~₹80,000 crore was made by the Government of India to upgrade 1.25 lakh kilometers of rural roads between the time spanning

2019-20 and 2024-25 under Phase-III of the Pradhan Mantri Gram Sadak Yojana, out of which ₹53,000 crore would be provided by the Central government. Since 2014, approximately 2 lakh kilometres of new roads were built across the rural India at a rate of ~109 kilometres per day.

Highways: With support from the government, India's constructed national highways in FY21 stood at 13,298 kilometers, witnessing a rise as against 10,240 kilometers constructed in FY19-20. This is expected to rise further with the increase driving the infrastructure development sector.

FDI inflows: FDI inflows in construction development sector and infrastructure activities sector stood at USD 26.08

billion and USD 24.72 billion, respectively, between the time spanning April 2000 and March 2021.

Smart Cities Mission: As of June 23, 2021, ₹40,622 crore had been released by the central government for the Smart Cities Mission, out of which ₹27,862 crore (69%) was utilised.

Increasing road traffic: Road transport accounts for nearly 60% of the freight traffic and 87% of passenger traffic in the country.

Governmental focus: The Government aims to construct an additional 11,000 kilometers of national highways by March 2022. (Source: IBEF, Mordor Intelligence, Statista, The Wire, Indian Express)

PERFORMANCE OF THE COMPANY

The year under review was marked by the extensive impact of the Covid-19 pandemic. The pandemic affected virtually every segment of India's industry; the road building sector was not an exception. In the road building and tolling sector, there was a decline in labour availability as most preferred to return to their rural home towns; there was a decline in roads and highways traffic that affected toll collection. In a business where project deliveries are strictly mapped leading to capital management discipline, this mismatch disrupted cash flows.

On Standalone basis, revenue from operations and other income for the financial year under review were ₹ 39,170.49 Lakhs (Previous Year: ₹ 1,40,394.82 Lakhs) year registering a decrease of ₹ 1,01,224.33 Lakhs. During the year under review, the loss before tax was ₹ 12,823.00 Lakhs (Previous Year: ₹ 18,547.81 Lakhs) and the loss after tax was ₹ 22,209.20 Lakhs (Previous Year: ₹ 14,067.25 Lakhs).

On Consolidated basis, revenue from operations and other income for the financial year under review were ₹ 1,28,923.32 Lakhs (Previous Year: ₹ 2,19,612.67 Lakhs) registering a decrease of ₹ 90,689.35 Lakhs. The loss before tax was ₹ 3,433.79 Lakhs (Previous Year: ₹ 8,323.21 Lakhs) and the loss after tax was ₹ 6,066.42 Lakhs (Previous Year: ₹ 12,610.34 Lakhs).

DIVIDEND

Your Directors do not recommend any dividend for the financial year under review.

TRANSFER TO RESERVES

Your Company has not transferred any amount of profits to reserves for the financial year 2020-21.

SHARE CAPITAL

During the year under review, there was no change in the Paid-up Equity Share Capital of the Company and it remained at ₹ 1,83,44,60,510/- (divided into 18,34,46,051 equity shares of ₹ 10/- each).

OPERATIONS

❖ HYBRID ANNUITY MODE (HAM) PROJECTS

This Financial year has been the year of Covid19 Pandemic and this has had far reaching impact with huge loss of human life, disruption of business due to stringent measures adopted by the Government viz. strict lock down and travel restrictions which has not only affected the business houses but the Economy also had to take a major hit on the growth aspect.

It is needless to mention that the operations of your Company was also affected. Your Company after dwelling upon faced with two options: wait for the improvement to transpire and thereafter drive the business as usual or realign the business model with speed to remain relevant and viable. The company opted for the second; this responsiveness was driven by the conviction.

The result is that the Company completed Harmonious Substitution of the four hybrid annuity model (HAM) projects to a new concessionaire during the year under review; these projects were marked by factors largely outside the company's control and the management took a considered view that in view of the extensive uncertainty, a smaller project book would be safer. The company opted out from these projects with no Balance Sheet impairment that could possibly affect the company's competitiveness.

Your Company (as the Lead Member) with Long Jian Road and Bridge Company Limited (Longjian), a Chinese Company was awarded the following HAM Projects under the said Consortium:

Project	Authority	In the State of	Scope of the Project	SPV for the Project
Ausa Chakur	NHAI	Maharashtra	Four-lane of Ausa Chakur section of NH 361 (Km. 55.8 - 114.3)	MEP Longjian ACR Private Limited
Chakur Loha	NHAI	Maharashtra	Four-lane of Chakur Loha section of NH 361 (Km. 114.6 - 187.8)	MEP Longjian CLR Private Limited
Loha Waranga	NHAI	Maharashtra	Four-lane of Loha Waranga section of NH 361 (Km. 187.8 - 224.4)	MEP Longjian Loha Waranga Road Private Limited
Vadape Thane	NHAI	Maharashtra	Eight-laning of existing Four-lane of NH-3 (new NH-848) (Km. 539.2 - 563)	MEP Longjian VTR Private Limited

Your Company's Consortium Member viz. Longjian anticipated policy hurdles to participate or continue in projects as investors and/or consortium partners and accordingly expressed their inability to infuse their share (49%) in the Equity Contribution in the four HAM SPV's. On our request, as per the terms of Contract Agreement (CA), NHAI, Yes Bank Limited (the Lender) and our SPVs have entered into an Endorsement Agreement for a Harmonious Substitution as under:

Project	Nominated Company
Ausa Chakur	Gangamai Kalyan ACR Private Limited, (a Joint Venture between Gangamai Industries & Construction Limited and Kalyan Toll Infrastructure Limited).
Chakur Loha	Chakur Loha Nanded Highways Private Limited, (SPV formed by M/s Kalyan Toll Infrastructure Limited).
Loha Waranga	Loha Nanded Waranga Highways Private Limited, (SPV formed by M/s Kalyan Toll Infrastructure Limited).
Vadape Thane	MSRDC Infrastructure Private Limited

Your Company had to overcome challenges for completion of HAM Projects, due to issues in land acquisition and various clearances such as Environmental, Railways and Forest Clearances. Apart from this, there were also challenges of shifting utilities, religious structures and encroachments. Owing to this and due to situation beyond the control of your Company. Your Company's SPVs viz. MEP Sanjose Talaja Mahuva Toll Road Private Limited and MEP Sanjose Mahuva Kagavadar Toll Road Private Limited have surrendered their Project(s) to National Highways Authority of India (NHAI) pursuant to Notice(s) by NHAI. The said Notice(s) were challenged by your Company vide an appeal before the division Bench of Hon'ble High Court of Delhi. The Hon'ble Court vide its Order dated 25th May, 2021 has directed NHAI to consider the conciliation request of the Company in a fair manner in accordance with law. In line with the Court Order, NHAI have agreed to take up the matter with Conciliation Committee of Independent Expert-3 (CCIE-3) and your Company expects a speedy decision from the CCIE-3 in favour of your Company.

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on standalone financial statements.

EMPHASIS OF MATTER

1. We draw attention to note no 5 to the accompanying financial results which states that considering the Long-term business outlook and future growth plans of the MEP Group, Management is of the opinion that the losses in subsidiary companies namely MEP Nagzari Toll Road Private Limited, MEP IRDP Solapur Toll Road Private Limited, and MEP Chennai Bypass Toll Road Private Limited and MEP Hyderabad-Bangalore Toll Road Private Limited, MEP Longjian ACR Private Limited, MEP Longjian CLR Private Limited and MEP Longjian LWR Private Limited, and losses due to termination of HAM projects in its jointly controlled entities namely MEP Sanjose Talaja Mahuva Road Private Limited and MEP Sanjose Mahuva Kagavadar Road Private Limited are temporary in nature and overall going concern of the business is not adversely affected. In view of the above, there is no diminution in the value of Investment and advances given are fully recoverable.
2. We draw attention to note no 46 to the accompanying financials which states that the company lodged and accounted for the claim amounting to ₹ 7,491.94 lakhs with South Delhi Municipal Corporation (SDMC) pertaining to the half year ended September 30, 2019 with respect to revenue loss on account of passing of commercial vehicles through free lanes at 13 major border entry points of Delhi.

The high-level committee was constituted, to quantify the claims and give its recommendations on the same, however the high-level committee and the commissioner SDMC did not approve the claims. The Company approached the honorable high court of New Delhi for relief and the matter is sub-judice.

Considering the facts of the case the company is confident about recovery of these claims recognised, as such and hence no provision against the said claims have been made in the books of accounts.

3. We draw attention to note no 45 wherein company has recognised claims filed with various authorities amounting to ₹ 1,181.64 lakhs on account of nationwide lockdown due to COVID Pandemic for the period April 01, 2020 till March 31, 2021.
4. We draw attention to note no 14 wherein company has also recognised claims filed with various authorities amounting to ₹ 10,664.58 lakhs (including COVID Claims) up to March 31, 2021 based on the contractual provisions of the agreements with various authorities. The company is confident about recovery of these claims recognised.

Our opinion is not modified in respect of above.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report:

INFORMATION OTHER THAN THE STANDALONE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

MANAGEMENT'S RESPONSIBILITY FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, (changes in equity and cash flows of the Company in accordance

with IND AS and the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance,

but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider

quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure "A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

- I) As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.
 - d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

- e) On the basis of the written representations received from the directors as on 31st March, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2021 from being appointed as a director in terms of Section 164 (2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- II) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company does not have any pending litigations which would impact on its financial position as per information and explanation provided by Company's Management.
 - ii. The Company does not have any long-term contracts including derivative contracts for which there are any material foreseeable losses.

iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

- III) With respect to the matter to be included in the Auditors' Report under Section 197(16) of the Act:

In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.

TO THE INDEPENDENT AUDITORS' REPORT ON STANDALONE FINANCIAL STATEMENTS OF MEP INFRASTRUCTURE DEVELOPERS LIMITED

(Referred to in paragraph I under the heading "Report on Other Legal and Regulatory Requirements" of our report of even date)

- i.
 - a) The Company has maintained proper records showing full particulars including quantitative details and location of property, plant and equipment for the year.
 - b) The Company has regular program of physical verification of its fixed assets by which all fixed assets are verified in a phased manner over a period of two years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the company and the nature of its assets. Pursuant to the program, certain fixed assets were physically verified during the year and no material discrepancies were found.
 - c) According to the information and explanations given to us, the title deeds of immovable properties, as disclosed in Note 3 to the standalone financial statements, are held in the name of the Company.
- ii. As per the information and explanations given to us, the inventories have been physically verified by the management at reasonable intervals during the year and no material discrepancies has been noticed on such verification.
- iii. During the year the company has granted unsecured loans to eight companies covered in the register maintained under Section 189 of the Act; and with respect to the same:
 - a) In our opinion and according to the information and explanations given to us, the terms and conditions of the loan are not, prima facie, prejudicial to the company's interest.
 - b) In respect of the loans granted to the companies listed in the register maintained under section 189 of the Act, there is no principal amount due for payment during the year and the borrowers shall repay the principal amount as stipulated in the agreement. However, there is no stipulation of schedule for payment of interest and hence we are unable to make comment on regularity of payment of interest.
 - c) According to the information and explanations given to us, there is no amount of loan granted to the companies listed in the register maintained under section 189 of the Act, which are overdue and outstanding for more than ninety days. However, in absence of stipulation of schedule for payment of interest, we are unable to comment as to whether there is any amount which is overdue for more than 90 days and whether reasonable steps have been taken by the Company for recovery of the principal amount and interest.
- iv. In our opinion and according to the information and explanations given to us and based on the audit procedures conducted by us, the Company has complied with the provisions of Section 185 and 186 of the Act, with respect to unsecured loans granted, guarantees provided and investments made by the Company. The Company has not given any security under Section 185 and 186 of the Act.
- v. In our opinion and according to the information and explanations given to us, the company has not accepted any deposits as per the directives issued by the Reserve Bank of India and the provisions of sections 73 to 76 of the Act and the rules framed. Accordingly, paragraph 3(v) of the order is not applicable to the company.
- vi. We have broadly reviewed the books of account maintained by the company pursuant to the rules prescribed by the Central Government for the maintenance of cost records under section 148(1) of the Act, and are of the opinion that prima facie, the specified accounts and records have been made and maintained. We have not, however, made a detailed examination of the records.
- vii.
 - a) According to the information and explanations given to us and, on the basis of our examination of the records of the company, that the Company is generally regular in payment of undisputed statutory dues including Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service Tax, Goods and Service Tax, Duty of Customs, Duty of Excise, Value Added Tax, Cess and other statutory dues with the appropriate authorities. According to the information and explanation given to us, the company did not have any dues on account of wealth tax, duty of customs, duty of excise.

On the basis of examination of the relevant records and according to the information and explanations given to us, no undisputed amounts payable in respect of Employees' State insurance, Value Added Tax, Goods and Service Tax, Duty of Customs, Duty of Excise and Cess were outstanding, as at March 31 2021 for a period of more than six months from the date they became payable except for amounts relating to Goods and Service Tax is ₹ 194.25 Lakhs.
 - b) According to the information and explanation given to us, there are no dues of income tax sales- tax, wealth tax, service tax, duty of customs, duty of excise, value added tax and cess which have not been deposited on account on any dispute.
- viii. In our opinion and according to the information and explanation given to us, the company has defaulted in repayments of dues from financial institutions and banks during the year. The details of loans overdue as on March 31, 2021 are given in the table below. The company does not have any loans or borrowings from the Government, and has not issued any debentures during the year.

TO THE INDEPENDENT AUDITORS' REPORT ON STANDALONE IND AS FINANCIAL STATEMENTS OF MEP INFRASTRUCTURE DEVELOPERS LIMITED

(Referred to in paragraph 1 (f) under 'Report on Other Legal and Regulatory Requirements' of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **MEP INFRASTRUCTURE DEVELOPERS LIMITED** ("the Company") as of March 31, 2021 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing issued by the ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Standalone Financial Statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as of March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Notes to Financial Statements for the year ended March 31, 2021

1 CORPORATE INFORMATION

MEP Infrastructure Developers Limited (Formerly known as MEP Infrastructure Developers Private Limited) ('MEPIDL' or 'the Company') having its registered office at B1-406, boomerang, Chandivali Farm Road, Near Chandivali Studio, Andheri (E), Mumbai-400072, was incorporated on August 8, 2002 vide certificate of incorporation No L45200MH2002PLC136779 issued by the Registrar of Companies, Maharashtra, Mumbai.

The Company's equity shares are listed on Bombay Stock Exchange (BSE) and National Stock Exchange (NSE) with effect from 6 May, 2015. The Company is into the business of collection of toll and construction of roads along with other ancillary activities such as road repairs and maintenance of flyovers, roads and allied structures.

2 STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of preparation

These financial statements of the Company for the year ended March 31, 2021 along with comparative financial information for the year March 31, 2020 have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ('Act') read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act.

The financial statements of the Company for the year ended 31st March 2021 were approved for issue in accordance with the resolution of the Board of Directors on 30 June, 2021.

Historical Cost Convention

The financial statements have been prepared on a historical cost basis, except for the following:

- certain financial assets and liabilities that are measured at fair value;
- assets held for sale – measured at fair value less cost to sell;
- defined benefit plans – plan assets measured at fair value

Current non-current classification

All assets and liabilities have been classified as current or noncurrent as per the Company's operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of business and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current – noncurrent classification of assets and liabilities.

2.2 Functional and presentation currency

These standalone financial statements are presented in Indian rupees, which is the Company's functional currency. All amounts have been rounded to the nearest lakhs, unless otherwise indicated.

2.3 Critical accounting judgements and key sources of estimation uncertainty

The preparation of financial statements in accordance with Ind AS requires use of estimates and assumptions for some items, which might have an effect on their recognition and measurement in the (standalone) balance sheet and (standalone) statement of profit and loss. The actual amounts realised may differ from these estimates.

Estimates and assumptions are required in particular for:

a) Property, plant and equipment :

Determination of the estimated useful lives of tangible assets and the assessment as to which components of the cost may be capitalized. Useful lives of tangible assets are based on the life prescribed in Schedule II of the Companies Act, 2013. In cases, where the useful lives are different from that prescribed in Schedule II, they are based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers' warranties and maintenance support. Assumptions also need to be made, when the Company assesses, whether an asset may be capitalised and which components of the cost of the asset may be capitalised.

Notes to Financial Statements

for the year ended March 31, 2021

b) Recognition and measurement of defined benefit obligations :

The obligation arising from defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation and vested future benefits and life expectancy. The discount rate is determined based on the prevailing market yields of Indian Government Securities as at the Balance Sheet Date for the estimated term of the obligations.

c) Recognition of deferred tax assets :

A deferred tax asset is recognised for all the deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised. The management is reasonably certain that taxable profits will be available to absorb carried forward losses while recognising deferred tax assets.

d) Recognition and measurement of other provisions :

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a future date may therefore vary from the figure included in other provisions.

e) Discounting of long-term financial instruments :

All financial instruments are required to be measured at fair value on initial recognition. In case of financial instruments which are required to subsequently measured at amortised cost, interest is accrued using the effective interest method.

2.4 Measurement of fair values

The Company's accounting policies and disclosures require the measurement of fair values for financial instruments. When measuring the fair value of a financial asset or a financial liability, fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Company recognises transfers due to change between levels of the fair value hierarchy at the end of the reporting period.

2.5 Significant accounting policies

i) Property, Plant and Equipment

a) Recognition and measurement

Property, Plant and Equipment are stated at cost, less accumulated depreciation and impairment losses, if any. Cost comprises the purchase price, any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management and the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located, the obligation for which an entity incurs, either when the item is acquired or as a consequence of having used the item during a particular period for purposes other than to produce inventories during that period.

Income and expenses related to the incidental operations, not necessary to bring the item to the location and condition necessary for it to be capable of operating in the manner intended by management, are recognised in profit or loss.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment. Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

b) Depreciation / amortization

Depreciation is provided on a pro-rata basis on the written down value method over the estimated useful life of the assets. Depreciation on addition/deletion of fixed assets during the year is provided on pro-rata basis from / to the date of addition/deletion. Fixed assets costing up to ₹ 5,000 individually are fully depreciated in the year of purchase.

Useful life of the asset is taken, as specified in Schedule II of the Companies Act, 2013

Depreciation method, useful lives and residual values are reviewed at each financial year end and adjusted if appropriate

Notes to Financial Statements for the year ended March 31, 2021

c) Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

d) Impairment of fixed assets

The carrying values of assets at each balance sheet date are reviewed for impairment if any indication of impairment exists.

If the carrying amount of the assets exceed the estimated recoverable amount, an impairment is recognized for such excess amount. The impairment loss is recognized as an expense in the Statement of Profit and Loss, unless the asset is carried at revalued amount, in which case any impairment loss of the revalued asset is treated as a revaluation decrease to the extent a revaluation reserve is available for that asset.

The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor.

When there is indication that an impairment loss recognized for an asset (other than a revalued asset) in earlier accounting periods no longer exists or may have decreased, such Reversal of impairment loss is recognized in the Statement of Profit and Loss, to the extent the amount was previously charged to the Statement of Profit and Loss. In case of revalued assets such Reversal is not recognized.

e) Dereognition

The carrying amount of an item of property, plant and equipment is derecognised on disposal or when no future economic benefits are expected from its use or disposal. The consequential gain or loss is measured as the difference between the net disposal proceeds and the carrying amount of the item and is recognised in the Statement of Profit and Loss.

ii) Intangible assets

Toll Collection Rights

a) Recognition and Measurement

Toll collection rights are stated at cost, less accumulated amortisation and impairment losses. Cost includes:

Contractual Upfront / monthly /fortnightly payments towards acquisition of Toll collection rights.

b) Amortisation

Intangible assets i.e. toll collection rights are amortised over the tenure of the respective toll collection contract.

c) Dereognition

The carrying amount of an intangible asset is derecognised on disposal or when no future economic benefits are expected from its use or disposal.

iii) Inventories

Construction materials, components, stores, spares and tools

They are valued at lower of cost and net realisable value. Cost is determined on weighted average basis and comprise all cost of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventory to their present location and condition.

iv) Borrowing cost

Borrowing costs are interest and other costs related to borrowing which the Company incurs in connection with the borrowing of funds and is measured with reference to the effective interest rate applicable to the respective borrowing. Borrowing costs include interest costs measured at Effective Interest Rate (EIR) and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Ancillary borrowing costs are amortised over the tenure of the loan.

Notes to Financial Statements

for the year ended March 31, 2021

Borrowing costs that are attributable to acquisition or construction of qualifying assets are capitalized as a part of cost of such assets till the time the asset is ready for its intended use. A qualifying assets is the one that necessarily takes substantial period of time to get ready for intended use. Other borrowing costs are recorded as an expense in the year in which they are incurred. Ancillary borrowing costs are amortised over the tenure of the loan.

v) Investment in associates, joint venture and subsidiaries

a) Recognition & Measurement

Investments in Subsidiaries, Associates and Joint Ventures are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount.

On disposal of investments in subsidiaries, associates and joint venture, the difference between net disposal proceeds and the carrying amounts are recognized in the Statement of Profit and Loss.

vi) Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

A Financial assets

Classification

The Company shall classify financial assets as subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset

Initial recognition and measurement

Financial assets are recognised when the Company becomes a party to a contract that gives rise to a financial asset of one entity or equity instrument of another entity. Financial assets are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets, other than those designated as fair value through profit or loss (FVTPL), are added to or deducted from the fair value of the financial assets, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets at FVTPL are recognised immediately in statement of profit and loss.

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss.

Debt instruments at FVOCI

A 'debt instrument' is measured at the Fair value through other comprehensive income (FVOCI) if both the following conditions are met:

- a) The asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Notes to Financial Statements for the year ended March 31, 2021

For assets classified as subsequently measured at FVOCI, interest revenue, expected credit losses, and foreign exchange gains or losses are recognised in profit or loss. Other gains and losses on remeasurement to fair value are recognised in OCI. On derecognition, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss.

Debt instrument at fair value through profit and loss (FVTPL)

Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVOCI, is classified as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

Equity investments

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company decides to classify the same either as at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

- The rights to receive cash flows from the financial asset have expired
- The Company has transferred substantially all the risks and rewards of the financial asset or
- The Company has neither transferred nor retained substantially all the risks and rewards of the financial asset, but has transferred control of the financial asset.

Impairment of financial assets

The Company applies expected credit loss (ECL) model for measurement and recognition of loss allowance on the following:

- i. Trade receivables
- ii. Financial assets measured at amortized cost (other than trade receivables)

In case of trade receivables, the Company follows a simplified approach wherein an amount equal to lifetime ECL is measured and recognized as loss allowance

In case of other assets (listed as ii above), the Company determines if there has been a significant increase in credit risk of the financial asset since initial recognition. If the credit risk of such assets has not increased significantly, an amount equal to 12-month ECL is measured and recognized as loss allowance. However, if credit risk has increased significantly, an amount equal to lifetime ECL is measured and recognized as loss allowance.

Subsequently, if the credit quality of the financial asset improves such that there is no longer a significant increase in credit risk since initial recognition, the Company reverts to recognizing impairment loss allowance based on 12-month ECL.

As a practical expedient, the Company uses a provision matrix to measure lifetime ECL on its portfolio of trade receivables. The provision matrix is prepared based on historically observed default rates over the expected life of trade receivables and is adjusted for forward-looking estimates. At each reporting date, the historically observed default rates and changes in the forward-looking estimates are updated.

ECL allowance recognised (or reversed) during the period is recognized as income/ expense in the Statement of Profit and Loss under the head 'Other expenses'.

Notes to Financial Statements

for the year ended March 31, 2021

B Financial liabilities

Financial instruments with a contractual obligation to deliver cash or another financial assets is recognised as financial liability by the Company.

Classification

The Company classifies all financial liabilities as subsequently measured at amortised cost, except for financial liabilities at fair value through profit or loss. Such liabilities, including derivatives that are liabilities, shall be subsequently measured at fair value.

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings or payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable and incremental transaction cost.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and financial guarantee contracts.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Foreign currency transactions

Transactions in foreign currencies are translated into the respective functional currencies of the Company at the exchange rates at the date of the transaction or at an average rate if the average rate approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Exchange differences are recognised in profit or loss.

vii) Leases

On 30 March 2019, the Ministry of Corporate Affairs ("MCA") through the Companies (Indian Accounting Standards) Amendment Rules, 2019 and the Companies (Indian Accounting Standards) Second Amendment Rules, has notified Ind AS 116 Leases which replaces the existing lease standard, Ind AS 17 leases and other interpretations.

Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lease accounting model for lessees.

Effective from 1 April 2019 ('the date of transition'), the Company has applied Ind AS 116 using the modified prospective approach, under which the right-of-use asset is equals to lease liability on 1 April 2019. Accordingly, the comparative information is not restated – i.e. it is presented, as previously reported, under Ind AS 17. Additionally, the disclosure requirements in Ind AS 116 have not generally been applied to comparative information.

Notes to Financial Statements for the year ended March 31, 2021

On transition to Ind AS 116, the Company elected to apply the practical expedient to grandfather the assessment of which transactions are leases. The Company has applied Ind AS 116 only to contracts that were previously identified as leases under Ind AS 17. Therefore, the definition of a lease under Ind AS 116 was applied only to contracts entered into or changed on or after 1 April 2019.

As a lessee

The company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, company's incremental borrowing rate. Generally, the company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- Fixed payments, including in-substance fixed payments;
- Variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- Amounts expected to be payable under a residual value guarantee; and
- The exercise price under a purchase option that the company is reasonably certain to exercise, lease payments in an optional renewal period if the company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the company is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the company's estimate of the amount expected to be payable under a residual value guarantee, or if company changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The company presents right-of-use assets that do not meet the definition of investment property in 'property, plant and equipment' and lease liabilities in 'loans and borrowings' in the statement of financial position.

Short-term leases and leases of low-value assets

The company has elected not to recognise right-of-use assets and lease liabilities for short term leases of real estate properties that have a lease term of 12 months. The company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

Under IND AS 17

Leases of property, plant and equipment where the group, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the group as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease.

Notes to Financial Statements

for the year ended March 31, 2021

viii) Trade Receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost, less provision for impairment.

ix) Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above.

x) Provisions, contingent liabilities

A provision is recognized when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Further, long term provisions are determined by discounting the expected future cash flows specific to the liability. The unwinding of the discount is recognised as finance cost. A provision for onerous contracts is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognises any impairment loss on the assets associated with that contract.

Disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources embodying economic benefits or the amount of such obligation cannot be measured reliably. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources embodying economic benefits is remote, no provision or disclosure is made.

xi) Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services.

Revenue is measured based on the transaction price as specified in the contract with the customer. It excludes taxes or other amounts collected from customers in its capacity as an agent.

Revenue from Construction Contracts

Revenue, where the performance obligation is satisfied over time, is recognised in proportion to the stage of completion of the contract. The stage of completion of project is determined by the proportion that contract cost incurred for work performed upto the balance sheet date bear to the estimated total contract costs.

Contract revenue is recognised only to the extent of contract costs incurred that are likely to be recoverable. Contract costs are recognised as an expense in the statement of profit and loss in the accounting periods in which the work to which they relate is performed. An expected loss on a contract is recognised immediately in the Statement of Profit and Loss.

The Company recognises revenue using input method that is based on Company's efforts or inputs to the satisfaction of a performance obligation relative to the total expected inputs to the satisfaction of that performance obligation. Contract revenue recognised at an amount which is higher than its right to consideration (i.e. right to invoice) from customer is recorded as unbilled revenue under other current assets.

Contract revenue includes the initial amount agreed in the contract plus any variations in contract work and claims payments, to the extent that it is probable that they will result in revenue and can be measured reliably. The Company recognises bonus/ incentive revenue on early completion of the project when it is highly probable that it will result in revenue.

Notes to Financial Statements for the year ended March 31, 2021

Contract balances

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer e.g. unbilled revenue. If the Company performs its obligations by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset i.e. unbilled revenue is recognised for the earned consideration that is conditional. The contract assets are transferred to receivables when the rights become unconditional. This usually occurs when the Company issues an invoice to the Customer.

Trade receivables

A receivable represents the Company's right to an amount of consideration that is unconditional i.e. only the passage of time is required before payment of consideration is due.

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. Contract liabilities are recognised as revenue when the Company performs under the contract.

The accounting policies for the specific revenue streams of the Company as summarised below:

Toll collection

Revenue from toll collection is recognised at point in time when services are rendered (on actual collections of toll) However in certain cases, where advance money is received from customer, revenue is recognised on an accrual basis, where the performance obligation is satisfied over time.

Claims recognised to the extent that it is probable that they will result in revenue, they are capable of being reliably measured and it is not unreasonable to expect ultimate collection.

Road repair and maintenance

Revenue from road repair and maintenance work is recognised when the services are rendered and there are no uncertainties involved to its ultimate realisation.

Other income

- Interest income is recognized on a time proportion basis taking into account the amount outstanding and the effective rate of interest.
- Dividend income is recognised in profit or loss on the date on which the Company's right to receive payment is established.

xii) Retirement and other employee benefits

a) Short term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages etc. and the expected cost of ex-gratia are recognized in the period in which the employee renders the related service. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

b) Post Employment Employee Benefits

Retirement benefits to employees comprise payments to government provident funds, gratuity fund and Employees State Insurance.

Defined contribution plans

The Company's contribution to defined contributions plans such as Provident Fund, Employee State Insurance and Maharashtra Labour Welfare Fund are recognised in the Statement of Profit and Loss in the year when the contributions to the respective funds are due. There are no other obligations other than the contribution payable to the respective Funds.

Notes to Financial Statements

for the year ended March 31, 2021

Defined benefit plans

Gratuity liability is defined benefit obligation. The Company's net obligation in respect of the gratuity benefit scheme is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value.

The present value of the obligation under such defined benefit plan is determined based on actuarial valuation by an independent actuary, using the projected unit credit method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan, are based on the market yields on Government securities as at the Balance Sheet date.

Remeasurement of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised immediately in Other Comprehensive Income. Net interest expense (income) on the net defined liability (assets) is computed by applying the discount rate, used to measure the net defined liability (asset), to the net defined liability (asset) at the start of the financial year after taking into account any changes as a result of contribution and benefit payments during the year. Net interest expense and other expenses related to defined benefit plans are recognised in Statement of Profit and Loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in Statement of Profit and Loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

Actuarial gains/losses are recognized in the other comprehensive income.

xiii) Income taxes

Tax expense comprises of current and deferred tax. It is recognised in the statement of profit and loss except to the extent that it relates to an item recognised directly in equity or in Other Comprehensive Income.

Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with Income Tax Act, 1961. Deferred income tax reflects the impact of current year timing differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes and reversal of timing differences of earlier years.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves. Unrecognized deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

Deferred tax asset / liabilities in respect of on temporary differences which originate and reverse during the tax holiday period are not recognised. Deferred tax assets / liabilities in respect of temporary differences that originate during the tax holiday period but reverse after the tax holiday period are recognised. The tax effect is calculated on the accumulated timing differences at the year-end based on the tax rates and laws enacted or substantially enacted on the balance sheet date.

Notes to Financial Statements for the year ended March 31, 2021

Minimum alternate tax credit is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. Such asset is reviewed at each balance sheet date and the carrying amount of the MAT credit is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

xiv) Earnings Per Share

a) Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to equity share holders of the Company
- by the weighted average number of equity shares outstanding during the financial year

b) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM) of the Company. The CODM is responsible for allocating resources and assessing performance of the operating segments of the Company.

xv) Recent Accounting Pronouncements

Ministry of Corporate Affairs "MCA" notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from April 01, 2021. MCA issued notifications dated 24th March, 2021 to amend Schedule III to the Companies Act, 2013 to enhance the disclosures required to be made by the Company in its financial statements. These amendments are applicable to the Company for the financial year starting 1st April, 2021.

The company offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority.

Significant management judgement is required in determining provision for income tax, deferred income tax liabilities and recoverability of deferred income tax assets. The recoverability of deferred income tax assets is based on estimates of taxable income in which the relevant entity operates and the period over which deferred income tax assets will be recovered.

NOTE 32 – FINANCIAL RISK MANAGEMENT

The Company has exposure to the following risks arising from financial instruments:

- Credit risk;
- Liquidity risk; and
- Market risk

Risk management framework

The Company's board of directors is primarily responsible to develop and monitor Company's Risk Management framework. The Company has a risk management policy in place.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

i. Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations.

The Company follows a 'simplified approach' (i.e. based on lifetime ECL) for recognition of impairment loss allowance on trade receivables. For the purpose of measuring lifetime ECL allowance for trade receivables, the Company estimates irrecoverable amounts based on the ageing of the receivable balances and historical experience. Receivable balances and deposit balances are monitored on a monthly basis with the result that the Company's exposure to bad debts is not considered to be material.

The Company has no significant concentrations of credit risk. It has policies in place to ensure that sale transactions are made to customers with an appropriate credit history.

The Company does not have any credit risk outside India.

Impairment

The ageing of trade and other receivables that were not impaired was as follows.

	₹ in lakhs	
	Carrying amount	
	March 31, 2021	March 31, 2020
Neither past due nor impaired	–	102.40
Past due 1–30 days	188.65	–
Past due 31–90 days	3,190.00	893.67
Past due 91–120 days	–	169.52
Past due 121–180 days	–	730.67
Past due 181–360 days	1,157.17	2,323.30
More than 360 days	2,066.17	1,098.48
	6,601.99	5,318.04

Management believes that the unimpaired amounts that are past due by more than 30 days are still recoverable in full, based on historical payment behaviour and extensive analysis of customer credit risk.

Further, the top 10 customers of the Company in the EPC segment contributes to 99.89% of the trade receivables during the year ended March 31, 2021.

Cash equivalents & Other bank balances/deposits

The Company held cash equivalents and other bank balances/deposits of ₹ 3,837.22 lakhs at March 31, 2021 (March 31, 2020 : ₹ 5,805.90 lakhs). The cash equivalents and other bank balances/deposits are held with banks with good credit ratings.

Notes to Financial Statements as at March 31, 2021

Loans and advances

The loans and advances (including security deposits) have been to parties which are generally regular in making payments and hence the Company does not expect significant impairment losses on its current profile of outstanding advances.

ii. Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time, or at a reasonable price. The Company's treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related such risk are overseen by senior management. Management monitors the Company's net liquidity position through rolling forecasts on the basis of expected cash flows.

iii. Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates, interest rates will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

iii (a). Currency risk:

The risk that the value of a financial instrument will fluctuate because of changes in foreign exchange rates. The functional currency of the Company is Indian Rupees ("₹"). Company does not have any foreign currency transaction apart from investment of AED 1,500 made in subsidiary company (MEPIDL Enterprises LLC). Accordingly, the Company is not significantly exposed to any foreign currency risk.

iii (b). Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates.

Exposure to interest rate risk

The Company's interest rate risk arises from borrowings. Borrowings taken and issued at fixed and floating rates exposes the Company to fair value and cash flow interest rate risk. The interest rate profile of the Company's interest-bearing financial instruments as reported to the management of the Company is as follows.

	₹ in lakhs	
	March 31, 2021	March 31, 2020
Fixed-rate instruments		
Financial assets	6,501.84	14,097.68

Financial assets	-	-
Financial liabilities	(28,945.05)	(36,548.84)
	(28,945.05)	(36,548.84)
Total	(24,820.81)	(25,425.90)

Notes to Financial Statements

as at March 31, 2021

The Company does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

Cash flow sensitivity analysis for variable-rate instruments

A reasonably possible change of 100 basis points in interest rates at the reporting date would have increased (decreased) profit before tax by the amounts shown below. This analysis assumes that all other variables, remain constant.

₹ in lakhs

	Profit or loss	
	100 bp increase	100 bp decrease
March 31, 2021		
Variable-rate instruments	(289.45)	289.45
Cash flow sensitivity (net)	(289.45)	289.45
March 31, 2020		
Variable-rate instruments	(365.49)	365.49
Cash flow sensitivity (net)	(365.49)	365.49

The risk estimates provided assume a parallel shift of 100 basis points interest rate across all yield curves. This calculation also assumes that the change occurs at the balance sheet date and has been calculated based on risk exposures outstanding as at that date. The period end balances are not necessarily representative of the average debt outstanding during the period.

iv. Capital Management

For the purpose of the Company's capital management, capital includes issued capital and other equity reserves. The primary objective of the Company's Capital Management is to maximise shareholders value. The Company manages its capital structure and makes adjustments in the light of changes in economic environment and the requirements of the financial covenants.

The Company monitors capital using Adjusted net debt to equity ratio. For this purpose, adjusted net debt is defined as total debt less cash and bank balances

The principal actuarial assumptions used for estimating the Company's benefit obligations are set out below (on a weighted average basis):

Particulars	₹ in lakhs	
	As at March 31, 2021	As at March 31, 2020
Rate of increase in salaries	6.00%	6.00%
Discount rate	4.35%	5.20%
Expected average remaining service lives of the employees	2.23	2.23

Notes:

1. Discount rate

The discount rate is based on the prevailing market yields of Indian government securities for the estimated term of the obligations.

2. Salary escalation rate

The estimates of future salary increases considered takes into account the inflation, seniority, promotion and other relevant factors.

3. Assumptions regarding future mortality experience are set in accordance with the statistics published by the Life Insurance Corporation of India.

Sensitivity of the defined benefit obligation :

Particulars	Change in Assumption	₹ in lakhs	
		Effect on Gratuity Obligation	
		As at March 31, 2021	As at March 31, 2020
Discount rate	Minus 50 basis points	9.19	8.56
	Plus 50 basis points	(8.87)	(8.31)
Rate of increase in salaries	Minus 50 basis points	(7.67)	(7.09)
	Plus 50 basis points	7.73	7.14

The above sensitivity analyses have been calculated to show the movement in defined benefit obligation in isolation and assuming there are no other changes in market conditions at the reporting date. In practice, generally it does not occur. When we change one variable, it affects to others in calculating the sensitivity, project unit credit method at the end of the reporting period has been applied.

BASIS FOR OPINION

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013 (the Act). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical / independence requirements that are relevant to our audit of Consolidated Financial Statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for opinion on the consolidated financial statements.

EMPHASIS OF MATTER

We draw attention to the following notes to the accompanying consolidated financial statements

- a) We draw attention to note no 51 to the accompanying financial results, wherein group has recognised claims filed with various authorities amounting to ₹ 46,016.86 lakhs on account of nationwide lockdown due to COVID Pandemic for the period March 01, 2021 till March 31, 2021.
- b) We draw attention to note no 15 to the accompanying financial results, wherein company has recognised claims filed with various authorities amounting to ₹ 58,166.11 lakhs (including COVID claims & excluding SDMC claims as point (e) below) up to March 31, 2021 based on the contractual provisions of the agreements with various authorities. The company is confident about recovery of these claims recognised.
- c) We draw attention to note no 45 to the accompanying financial results, where it is mentioned that one of the subsidiary company has preferred claims with National Highway Authority of India (the Authority), aggregating to ₹ 33,973.75 lakhs plus interest thereon on account of Toll Evasion and Force Majeure issues arising from non-compliance of the Concession Agreement by Authority. However, the Company's subsidiary has not recognized the claims in the financial statements pending final approval from the Authority. Also, the Subsidiary Company has not recognized contractual obligations to pay to the Authority, a sum of ₹ 13,123.19 lakhs for the period from November 1, 2014 to April 08, 2016. The approval by NHAI of the claims made by the company, based on the assessment of the Independent Engineer appointed by it, is pending and hence no provision for the unpaid amount is considered necessary till March 2021.
- d) We draw attention to note no 46 to the accompanying financial results, where it is mentioned that the Toll collection activity of MEP Hyderabad Bangalore Toll Road Private Limited; was suspended by authority on February 27, 2019. Subsequently on May 27, 2019 the authority unilaterally issued termination notice. Consequently, the net provision relating to major repairs maintenance amounting ₹ 5,783 lakhs (on which deferred tax ₹ 1,344.46 included in tax expenses) and the intangible assets amounting to ₹ 33,070.95 lakhs and the concession fees payable to Authority amounting ₹ 51,079.31 lakhs (on which deferred tax amounting ₹ 2,754.30 lakhs) and also Fixed Assets written off amounting to ₹ 1,162.26 lakhs are reversed during the period ended March 2020. However, aggrieved by the decision of the authority, the subsidiary Company filed a writ petition before Hon'ble High court of New Delhi and the matter is sub judice and under its arbitration.

- e) We draw attention to note no 50 to the accompanying financial results which states that the company lodged and accounted for the claim amounting to ₹ 7,491.94 lakhs with South Delhi Municipal Corporation (SDMC) pertaining to the half year ended September 30, 2019 with respect to revenue loss on account of passing of commercial vehicles through free lanes at 13 major border entry points of Delhi.

The high-level committee was constituted, to quantify the claims and give its recommendations on the same, however the high-level committee and the commissioner SDMC did not approve the claims. The Company approached the honorable high court of New Delhi for relief and the matter is sub-judice.

Considering the facts of the case the company is confident about recovery of these claims recognised, as such and hence no provision against the said claims have been made in the books of accounts.

- f) Some of the HAM SPV's received share application money from holding Company in FY 2019-20, shares of which could not be allotted due to lack of permission from the NHAI for equity infusion from Indian Subsidiary of the Chinese partner.

Our opinion is not modified in respect of above matters.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

2.	<p>Recoverability of claim receivables from Government Authorities:</p> <p>As a part of concession agreement with authority for various projects such as Toll Collection projects, Build-Operate-Transfer ("BOT") and Operate-Maintain-Transfer ("OMT"), the company is entitled to claim revenue loss or operating cost due to closure of tolls for various reasons, change of scope etc. as per terms of agreement during the entire tenure. Consequently, the group has recorded claim receivables from authority amounting to ₹ 65,268.55 lakhs as at March 2021.</p> <p>The assessment of recoverability of the receivables requires management to make judgement and estimate to assess the uncertainty regarding claims recoverable from authority. The assessment process is considering inter alia history of amounts claimed, documentation process and requirements, potential litigation or arbitration proceedings.</p> <p>Refer to Note No 15 of the Consolidated Financial Statements.</p>	<p>We assessed management's estimate regarding recoverability of the claim receivables from authorities. Our work included, but was not limited to the following procedures:</p> <ul style="list-style-type: none"> • Verified the concession agreement, with respect to nature of force majeure event and obligation of authority to reimburse the claims made by the company. • Reviewed management's assessment of the recoverability of the claims, the policy of credit losses including the history of amounts claimed as against amounts accepted and reimbursed from various contracts at the group level. • Discussed with management with respect to the estimates of timing of collection from the authorities; and relied on the workings prepared by the company forming basis for the claims filed with the authority. • Although the management is making reasonable efforts to recover the claims, given the nature of the receivables, the delay in the settlement of claims receivables is inevitable. <p>(Refer point 1 and 2 of Emphasis of Matter)</p>

INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Holding Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, compare with the financial statements of the subsidiary audited by the other auditors, to the extent it relates to these entities and, in doing so, place reliance on the work of the other auditors and consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. Other information so far as it relates to the subsidiary is traced from its financial statements audited by the other auditors.

When we read other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and describe actions applicable in the applicable laws and regulations.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance, including comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the Ind AS and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate or cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within

the Group to express an opinion on the consolidated financial statements, of which we are the independent auditors. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entity included in the consolidated financial statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

OTHER MATTERS

- a) We did not audit the financial results of 13 subsidiaries (refer Annexure A) included in the consolidated audited financial results, whose financial results reflect total assets of ₹ 31,626.03 lakhs as at March 31, 2021, total revenues of ₹ (536.51) lakhs and ₹ 15,047.85 Lakhs, total net profit/(loss) after tax of ₹ 1,277.26 Lakhs and ₹ 7045.97 Lakhs and total comprehensive profit/(loss) of ₹ 1,278.91 Lakhs and ₹ 7,041.50 Lakhs, for the quarter ended March 31, 2021 and for the period from April 01, 2020 to March 31, 2021 respectively, as considered in the consolidated audited financial results. TO THE INDEPENDENT AUDITOR'S REPORT ON CONSOLIDATED FINANCIAL STATEMENTS OF MEP INFRASTRUCTURE DEVELOPERS LIMITED.

(Referred to in paragraph I (f) under 'Report on Other Legal and Regulatory Requirements' of our report of even date to the members of MEP Infrastructure Developers Limited on the Consolidated Financial Statements for the year ended March 31, 2021)

REPORT ON THE INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 ("THE ACT")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2021, we have audited the internal financial controls over financial reporting of MEP Infrastructure Developers Limited (hereinafter referred to as the "Company") and its subsidiary companies, (the Holding Company and its subsidiaries together referred to as "the Group") and its associate companies and jointly controlled entities, which are companies incorporated in India, as of that date.

In respect of a jointly controlled entity incorporated in India, whose financial statements and other information was not available for the year ended March 31, 2021 and hence no report on internal financial controls over financial reporting under section 143(3)(i) of the Act is available, and accordingly the possible effects of the same on our reporting on internal financial controls over financial reporting have not been considered.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The respective Board of Directors of the Holding Company and its subsidiary companies associate company and jointly controlled entities incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company and its subsidiary companies, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing issued by the ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the other matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Consolidated Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Consolidated Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Consolidated Financial Statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, the Holding Company and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

We have considered the matter described and reported above in determining the nature, timing and extent of audit tests applied in our audit of the 31 March 2021 consolidated financial statements of the Company.

OTHER MATTERS

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to a subsidiary company; associates and jointly controlled entities, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies.

This report does not include report on Internal Financial Control of one jointly controlled entity and one subsidiary. As informed to us, there were no significant financial transactions during the financial year 2020-2021 in that entity.

Our opinion is not modified in respect of the above matter.

Notes forming part of the Consolidated Financial Statements

for the year ended March 31, 2021

NOTE 1

1 General information

MEP Infrastructure Developers Limited (Formerly known as MEP Infrastructure Developers Private Limited) ('MEPIDL' or 'the Group') having its registered office at B1-406, boomerang, Chandivali Farm Road, Near Chandivali Studio, Andheri (E), Mumbai-400072, was incorporated on August 8, 2002 vide certificate of incorporation No L45200MH2002PLC136779 issued by the Registrar of Companies, Maharashtra, Mumbai. It is the ultimate holding Group/Parent Group in the MEP Group of Companies.

The Company's equity shares are listed on Bombay Stock Exchange (BSE) and National Stock Exchange (NSE) with effect from 6 May, 2015. The Group, its subsidiaries, associates and jointly controlled entities (collectively referred to as 'the Group') are into the business of collection of toll and construction of roads along with other ancilliary activities such as road repairs and maintenance of flyovers, roads and allied structures.

These consolidated financial statements comprise the Group and its subsidiaries (collectively the 'Group' and individually 'Group companies').

2 Basis of preparation

These consolidated financial statements of the Group for the year ended March 31, 2021 along with comparative financial information for the year March 31, 2020 have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ('Act') read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016

The Consolidated Financial Statements comprises of MEP Infrastructure Developers Limited and its subsidiaries, being the entities that it controls. Controls are assessed in accordance with the requirement of Ind AS-110- Consolidated Financial Statements.

The financial statements of the Group for the year ended 31st March 2021 were approved for issue in accordance with the resolution of the Board of Directors on 30 June 2021.

Historical Cost Convention

The financial statements have been prepared on a historical cost basis, except for the following:

- certain financial assets and liabilities that is measured at fair value;
- assets held for sale – measured at fair value less cost to sell;
- defined benefit plans – plan assets measured at fair value; and

Current and Non-current classification

All assets and liabilities have been classified as current or non-current as per the Group's operating cycle and other criteria set out in the Schedule III of the Companies Act, 2013. Based on the nature of business and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Group has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

3 Functional and presentation currency

These consolidated financial statements are presented in Indian rupees, which is the Group's functional currency. All amounts have been rounded to the nearest lakhs, unless otherwise indicated

4 Critical accounting judgements and key sources of estimation uncertainty

The preparation of financial statements in accordance with Ind AS requires use of estimates and assumptions for some items, which might have an effect on their recognition and measurement in the consolidated balance sheet and Consolidated statement of profit and loss. The actual amounts realised may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively. Estimates and assumptions are required in particular for:

a) Determining extent of control :

The assessment as to whether the Group exercises control, joint control or significant influence over the companies in which it holds less than 100 percent voting rights.

Notes forming part of the Consolidated Financial Statements

for the year ended March 31, 2021

The Group makes assumptions, when assessing whether it exercises control, joint control or significant influence over companies in which it holds less than 100 percent of the voting rights. These assumptions are made based on the contractual rights with the other shareholders, relevant facts and circumstances which indicate that the Group has power over the potential subsidiary or that joint control exists. Changes to contractual arrangements or facts and circumstances are monitored and are evaluated to determine whether they have a potential impact on the assessment as to whether the Group is exercising control over its investment.

b) Property, plant and equipment :

Determination of the estimated useful lives and residual value of tangible assets are based on the life prescribed in the Schedule II of the Companies Act, 2013.

c) Recognition and measurement of defined benefit obligations :

The obligation arising from defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation and vested future benefits and life expectancy. The discount rate is determined based on the prevailing market yields of Indian Government Securities as at the balance sheet date for the estimated term of the obligation.

d) Recognition of deferred tax assets :

A deferred tax asset is recognised for all the deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised. The management is reasonably certain that taxable profits will be available to absorb carried forward losses while recognising deferred tax assets.

e) Recognition and measurement of other provisions :

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a future date may therefore vary from the figure included in other provisions.

f) Discounting of long-term financial instruments :

All financial instruments are required to be measured at fair value on initial recognition. In case of financial instruments which are required to subsequently measured at amortised cost, interest is accrued using the effective interest method.

5 Measurement of fair values

The Group's accounting policies and disclosures require the measurement of fair values for financial instruments. When measuring the fair value of a financial asset or a financial liability, fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Group recognises transfers due to change between levels of the fair value hierarchy at the end of the reporting period.

Statement of significant accounting policies

l) Basis of consolidation

i) Business combinations

The Group accounts for business combinations using the acquisition method when control is transferred to the Group. The consideration transferred in the acquisition is generally measured at fair value, as are the identifiable net assets acquired. Any goodwill that arises is tested annually for impairment. Any gain on a bargain purchase is recognised in equity under the head 'Capital reserve'. Transaction costs are expensed as incurred, except if related to the issue of debt or equity securities.

The consideration transferred does not include amounts related to the settlement of pre-existing relationships. Such amounts are generally recognised in profit or loss.

Notes forming part of the Consolidated Financial Statements

for the year ended March 31, 2021

Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not remeasured and settlement is accounted for within equity. Otherwise, subsequent changes in the fair value of the contingent consideration are recognised in profit or loss.

ii) Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

Principles of Consolidation

- a) The consolidated financial statements of the Group and its subsidiaries are combined on a line-by-line basis by adding the book values of like items of assets, liabilities, income and expenses after fully eliminating intra-Group balances and intra-Group transactions and resultant unrealized profits or losses, net of deferred tax in accordance with the Indian Accounting Standard - 110 'Consolidated Financial Statements'.
- b) The difference between the proceeds from disposal of investment in a subsidiary and the proportionate carrying amount of its assets less liabilities as of the date of disposal is recognised in the Consolidated Statement of Profit and Loss as the profit or loss on disposal of investments in subsidiaries.
- c) Non Controlling Interest's share of net profit of consolidated subsidiaries for the period is identified and adjusted against the income of the Group in order to arrive at the net income attributable to the equity shareholders of the Group.

Non-controlling interest's share of the net assets of consolidated subsidiaries is identified and presented in the consolidated Balance Sheet as a separate item from liabilities and the shareholder's equity.

- d) As far as possible, the consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented in the same manner as the Group's standalone financial statements.
- e) The excess of cost to the Group of its investments in the subsidiary companies over its share of equity of the subsidiary companies at the dates on which the investments in the subsidiary companies were made, is recognised as 'Goodwill' being an asset in the consolidated financial statements and is tested for impairment on annual basis. On the other hand, where the share of equity in the subsidiary companies as on the date of investment is in excess of cost of investments of the Group, it is recognised as 'Capital Reserve' and shown under the head 'Reserves Et Surplus', in the consolidated financial statements. The 'Goodwill' / 'Capital Reserve' is determined separately for each subsidiary Group and such amounts are not set off between different entities.
- f) Changes in ownership interests: The Group treats transactions with non-controlling interests that do not result in loss of control as transactions with equity owners of the Group. For purchases from non-controlling interests, the difference between fair value of any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in other equity. The share of non-controlling interest is restricted to the extent of contractual obligation of the Group.

When the Group ceases to consolidate or equity account for an investment because of loss of control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in profit or loss. This fair value becomes the initial carrying amount for the purpose of subsequently accounting for the retained interest as an associate, joint venture or financial asset.

iii) Investment in associates and joint ventures

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

Notes forming part of the Consolidated Financial Statements

for the year ended March 31, 2021

The Group's investments in its associate and joint venture are accounted for using the equity method. Under the equity method, the investment in an associate or a joint venture is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associate or joint venture since the acquisition date.

The statement of profit and loss reflects the Group's share of the results of operations of the associate or joint venture. Any change in Other Comprehensive Income of those investees is presented as part of the Group's Other Comprehensive Income.

When the Group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the Group and its joint ventures and associates are eliminated to the extent of the Group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the Group.

The financial statements of the subsidiaries, joint ventures and associates used for purpose of consolidation are drawn upto the same reporting date as that of the parent Group i.e. year ending 31st March.

II) Property, Plant and Equipment

- i) Items of property, plant and equipment are stated at cost, less accumulated depreciation and impairment losses, if any. Cost comprises
 - a) the purchase price including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates,
 - b) any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management and
 - c) the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located, the obligation for which an entity incurs.

Income and expenses related to the incidental operations, not necessary to bring the item to the location and condition necessary for it to be capable of operating in the manner intended by management, are recognised in profit or loss.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

Capital work-in-progress in respect of assets which are not ready for their intended use are carried at cost, comprising of direct costs, related incidental expenses and attributable interest if any.

ii) Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to statement of profit and loss during the reporting period in which they are incurred.

iii) Depreciation / amortization

Depreciation is provided on a pro-rata basis on the written down value method over the estimated useful life of the assets. Depreciation on addition/deletion of fixed assets during the year is provided on pro-rata basis from / to the date of addition/deletion. Fixed assets costing up to ₹ 5,000 individually are fully depreciated in the year of purchase.

Useful life of the asset is taken, as specified in Schedule II of the Companies Act, 2013.

Depreciation method, useful lives and residual values are reviewed at each financial year end and adjusted if appropriate.

iv) Impairment of fixed assets

The carrying values of assets at each balance sheet date are reviewed for impairment if any indication of impairment exists.

If the carrying amount of the assets exceed the estimated recoverable amount, an impairment is recognized for such excess amount. The impairment loss is recognized as an expense in the Statement of Profit and Loss, unless the asset is carried at revalued amount, in which case any impairment loss of the revalued asset is treated as a revaluation decrease to the extent a revaluation reserve is available for that asset.

The recoverable amount is the greater of the asset's fair value less cost of disposal and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor.

When there is indication that an impairment loss recognized for an asset (other than a revalued asset) in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognized in the Statement of Profit and Loss, to the extent that the carrying amount after such reversal does not exceed the carrying amount that would have been determined had there been no impairment. In case of revalued assets such reversal is not recognized.

v) Derecognition

The carrying amount of an item of property, plant and equipment is derecognised on disposal or when no future economic benefits are expected from its use or disposal. The consequential gain or loss is measured as the difference between the net disposal proceeds and the carrying amount of the item and is recognised in the Statement of Profit and Loss.

Notes forming part of the Consolidated Financial Statements

for the year ended March 31, 2021

IV) Intangible assets

Goodwill on consolidation

Goodwill on acquisitions of subsidiaries is included in intangible assets. Goodwill is not amortised but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or Groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose. The units or Groups of units are identified at the lowest level at which goodwill is monitored for internal management purposes, which in our case are the operating segments

Toll Collection Rights

Recognition and Measurement

Toll collection rights are stated at cost, less accumulated amortisation and impairment losses. Cost includes:

Contractual Upfront / monthly /fortnightly payments towards acquisition.

Amortisation

Intangible assets i.e. toll collection rights are amortised over the tenure of the respective toll collection contract

Dereognition

The carrying amount of an intangible asset is derecognised on disposal or when no future economic benefits are expected from its use or disposal.

V) Borrowing Cost

Borrowing costs are interest and other costs related to borrowing that the Group incurs in connection with the borrowing of funds and is measured with reference to the effective interest rate applicable to the respective borrowing. Borrowing costs include interest costs measured at Effective Interest Rate and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Ancillary borrowing costs are amortised over the tenure of the loan.

Borrowing costs that are attributable to acquisition or construction of qualifying assets are capitalized as a part of cost of such assets till the time the asset is ready for its intended use. A qualifying assets is the one that necessarily takes substantial period of time to get ready for intended use. Other borrowing costs are recorded as an expense in the Profit and loss account in the year in which they are incurred.

VI) Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments also include derivative contracts such as foreign currency foreign exchange forward contracts, interest rate swaps and currency options; and embedded derivatives in the host contract.

Financial Assets

i) Classification

The Group shall classify financial assets as subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

ii) Initial recognition and measurement

Financial assets are recognised when the Group becomes a party to a contract that gives rise to a financial asset of one entity or equity instrument of another entity. Financial assets are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets, other than those designated as fair value through profit or loss (FVTPL), are added to or deducted from the fair value of the financial assets, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets at FVTPL are recognised immediately in statement of profit and loss.

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

Notes forming part of the Consolidated Financial Statements

for the year ended March 31, 2021

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss.

Debt instruments at FVOCI

A 'debt instrument' is measured at the Fair value through other comprehensive income(FVOCI) if both the following conditions are met:

- a) The asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

For assets classified as subsequently measured at FVOCI, interest revenue, expected credit losses, and foreign exchange gains or losses are recognised in profit or loss. Other gains and losses on remeasurement to fair value are recognised in Other Comprehensive Income. On derecognition, the cumulative gain or loss previously recognised in Other Comprehensive Income is reclassified from equity to profit or loss

Debt instrument at fair value through profit and loss (FVTPL)

Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVOCI, is classified as at FVTPL. Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

iii) Equity investments

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Group decides to classify the same either as at FVOCI or FVTPL. The Group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the Other Comprehensive Income. There is no recycling of the amounts from Other Comprehensive Income to profit and loss, even on sale of investment. However, the Group may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

iv) Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Group of similar financial assets) is primarily derecognised (i.e. removed from the Group's consolidated balance sheet) when:

- The rights to receive cash flows from the financial asset have expired
- The Group has transferred substantially all the risks and rewards of the financial asset or
- The Group has neither transferred nor retained substantially all the risks and rewards of the financial asset, but has transferred control of the financial asset.

v) Impairment of financial assets

Impairment of financial assets

The Group applies expected credit loss (ECL) model for measurement and recognition of loss allowance on the following:

- i. Trade receivables
- ii. Financial assets measured at amortized cost (other than trade receivables)

In case of trade receivables, the Group follows a simplified approach wherein an amount equal to lifetime ECL is measured and recognized as loss allowance

In case of other assets (listed as ii above), the Group determines if there has been a significant increase in credit risk of the financial asset since initial recognition. If the credit risk of such assets has not increased significantly, an amount equal to 12-month ECL is measured and recognized as loss allowance. However, if credit risk has increased significantly, an amount equal to lifetime ECL is measured and recognized as loss allowance.

Notes forming part of the Consolidated Financial Statements

for the year ended March 31, 2021

Subsequently, if the credit quality of the financial asset improves such that there is no longer a significant increase in credit risk since initial recognition, the Group reverts to recognizing impairment loss allowance based on 12-month ECL.

As a practical expedient, the Group uses a provision matrix to measure lifetime ECL on its portfolio of trade receivables. The provision matrix is prepared based on historically observed default rates over the expected life of trade receivables and is adjusted for forward-looking estimates. At each reporting date, the historically observed default rates and changes in the forward-looking estimates are updated.

ECL allowance recognised (or reversed) during the period is recognized as income/ expense in the Statement of Profit and Loss under the head 'Other expenses'.

Financial liabilities

Financial instruments with a contractual obligation to deliver cash or another financial assets is recognised as financial liability by the Group.

i) Classification

The Group classifies all financial liabilities as subsequently measured at amortised cost, except for financial liabilities at fair value through profit or loss. Such liabilities, including derivatives that are liabilities, shall be subsequently measured at fair value.

ii) Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable and incremental transaction cost.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the Effective Interest Rate. The Effective Interest Rate amortisation is included as finance costs in the statement of profit and loss.

The Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and financial guarantee contracts.

iii) Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Foreign currency transactions

Transactions in foreign currencies are translated into the respective functional currencies of the Group at the exchange rates at the date of the transaction or at an average rate if the average rate approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Exchange differences are recognised in profit or loss.

VII) Leases

On 30 March 2019, the Ministry of Corporate Affairs ("MCA") through the Companies (Indian Accounting Standards) Amendment Rules, 2019 and the Companies (Indian Accounting Standards) Second Amendment Rules, has notified Ind AS 116 Leases which replaces the existing lease standard, Ind AS 17 leases and other interpretations.

Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lease accounting model for lessees.

Notes forming part of the Consolidated Financial Statements

for the year ended March 31, 2021

Effective from 1 April 2019 ('the date of transition'), the Company has applied Ind AS 116 using the modified prospective approach, under which the right-of-use asset is equal to lease liability on 1 April 2019. Accordingly, the comparative information is not restated – i.e. it is presented, as previously reported, under Ind AS 17. Additionally, the disclosure requirements in Ind AS 116 have not generally been applied to comparative information.

On transition to Ind AS 116, the Group elected to apply the practical expedient to grandfather the assessment of which transactions are leases. The Company has applied Ind AS 116 only to contracts that were previously identified as leases under Ind AS 17. Therefore, the definition of a lease under Ind AS 116 was applied only to contracts entered into or changed on or after 1 April 2019.

As a lessee – Group

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, company's incremental borrowing rate. Generally, the company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- Fixed payments, including in-substance fixed payments;
- Variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- Amounts expected to be payable under a residual value guarantee; and
- The exercise price under a purchase option that the company is reasonably certain to exercise, lease payments in an optional renewal period if the company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the company is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the company's estimate of the amount expected to be payable under a residual value guarantee, or if company changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The company presents right-of-use assets that do not meet the definition of investment property in 'property, plant and equipment' and lease liabilities in 'loans and borrowings' in the statement of financial position.

Short-term leases and leases of low-value assets

The company has elected not to recognise right-of-use assets and lease liabilities for short term leases of real estate properties that have a lease term of 12 months. The company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

Under IND AS 17

Leases of property, plant and equipment where the Group, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Notes forming part of the Consolidated Financial Statements

for the year ended March 31, 2021

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Group as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease.

The Company has no leases or any contract containing lease accordingly, no disclosure has been made on the same.

VIII) Trade Receivables:

Trade receivables are amounts due from customers and related parties from the rendering of services in the ordinary course of business. Trade receivables are recognised initially at fair value except for short-term receivable where the recognition of interest is immaterial and subsequently measured at amortised cost using effective interest method less an allowance for impairment. An estimate for impairment is made when collection of the entire amount is no longer probable or when payments are delayed. The Group maintains an allowance for impairment to provide for impairment of trade receivables. Impairment allowances and related trade receivables are written off when determined as not collectable.

Non derivative financial assets- service concession arrangements

The Group recognises a financial asset arising from a service concession arrangement when it has an unconditional contractual right to receive cash or other financial asset from the grantor of the concession for the construction or upgrade service provided.

Such financial assets are measured at fair value upon initial recognition and classified as trade receivables. Subsequent to initial recognition, such assets are measured at amortized cost.

IX) Inventories:

Construction materials, components, stores, spares and tools

These are valued at lower of cost or net realisable value. Cost is determined on weighted average basis and comprise all cost of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventory to their present location and condition.

X) Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above.

XI) Provisions and contingent liabilities

A provision is recognized when the Group has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Further, long term provisions are determined by discounting the expected future cash flows specific to the liability. The unwinding of the discount is recognised as finance cost. A provision for onerous contracts is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Group recognises any impairment loss on the assets associated with that contract.

Disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources embodying economic benefits or the amount of such obligation cannot be measured reliably. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources embodying economic benefits is remote, no provision or disclosure is made.

XII) Revenue from operations

1) Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group assesses promises in the contract that are separate performance obligations to which a portion of transaction price is allocated.

Revenue is measured based on the transaction price as specified in the contract with the customer. It excludes taxes or other amounts collected from customers in its capacity as an agent.

Notes forming part of the Consolidated Financial Statements

for the year ended March 31, 2021

2) Revenue from Construction Contracts

Revenue, where the performance obligation is satisfied over time, is recognised in proportion to the stage of completion of the contract. The stage of completion of project is determined by the proportion that contract cost incurred for work performed upto the balance sheet date bear to the estimated total contract costs.

Contract revenue is recognised only to the extent of contract costs incurred that are likely to be recoverable. Contract costs are recognised as an expense in the statement of profit and loss in the accounting periods in which the work to which they relate is performed. An expected loss on a contract is recognised immediately in the Statement of Profit and Loss.

The Group recognises revenue using input method that is based on Group's efforts or inputs to the satisfaction of a performance obligation relative to the total expected inputs to the satisfaction of that performance obligation. Contract revenue recognised at an amount which is higher than its right to consideration (i.e. right to invoice) from customer is recorded as unbilled revenue under other current assets.

Contract revenue includes the initial amount agreed in the contract plus any variations in contract work and claims payments, to the extent that it is probable that they will result in revenue and can be measured reliably. The Group recognises bonus/ incentive revenue on early completion of the project when it is highly probable that it will result in revenue.

3) Contract balances

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer e.g. unbilled revenue. If the Group performs its obligations by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset i.e. unbilled revenue is recognised for the earned consideration that is conditional. The contract assets are transferred to receivables when the rights become unconditional. This usually occurs when the Group issues an invoice to the Customer.

Trade receivables

A receivable represents the Group's right to an amount of consideration that is unconditional i.e. only the passage of time is required before payment of consideration is due.

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. Contract liabilities are recognised as revenue when the Group performs under the contract.

The accounting policies for the specific revenue streams of the Group as summarised below:

4) Toll collection

Revenue from toll collection is recognised at point in time when services are rendered (on actual collections of toll) However in certain cases, where advance money is received from customer, revenue is recognised on an accrual basis, where the performance obligation is satisfied over time.

Claims recognised to the extent that it is probable that they will result in revenue, they are capable of being reliably measured and it is not unreasonable to expect ultimate collection.

5) Road repair and maintenance

Revenue from road repair and maintenance work is recognised when the services are rendered and there are no uncertainties involved to its ultimate realisation.

6) Other income

- Interest income is recognized on a time proportion basis taking into account the amount outstanding and the effective rate of interest.
- Dividend income is recognised in profit or loss on the date on which the Group's right to receive payment is established.

Notes forming part of the Consolidated Financial Statements

for the year ended March 31, 2021

Revenue from Service concession Agreements

Contract revenue and contract cost associated with the construction of road are recognised as revenue and expenses respectively by reference to the stage of completion of the projects at the balance sheet date. The stage of completion of project is determined by the proportion that contract cost incurred for work performed upto the balance sheet date bear to the estimated total contract costs. Where the outcome of the construction cannot be estimated reliably, revenue is recognised to the extent of the construction costs incurred if it is probable that they will be recoverable.

If total cost is estimated to exceed total contract revenue, the Group provides for foreseeable loss. Contract revenue earned in excess of billing has been reflected as unbilled revenue and billing in excess of contract revenue has been reflected as unearned revenue.

XIII) Retirement and other employee benefits

i) Short term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages etc. and the expected cost of ex-gratia are recognized in the period in which the employee renders the related service. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

ii) Post Employment Employee Benefits

Retirement benefits to employees comprise payments to government provident funds, gratuity fund and Employees State Insurance.

Defined contribution plans

The Group's / Group's contribution to defined contributions plans such as Provident Fund, Employee State Insurance and Maharashtra Labour Welfare Fund are recognised in the consolidated Statement of Profit and Loss in the year when the contributions to the respective funds are due. There are no other obligations other than the contribution payable to the respective funds.

Defined benefit plans

Gratuity liability is defined benefit obligation and is provided for on the basis of an actuarial valuation on projected unit credit method made at the end of each financial year.

The Group's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, This amount is discounted to determine its present value.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. When the calculation results in a potential asset for the Group, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan ('the asset ceiling').

Remeasurement of the net defined benefit liability, which comprise actuarial gains and losses, and the effect of the asset ceiling (if any, excluding interest), are recognised immediately in Other Comprehensive Income. Net interest expense (income) on the net defined liability (assets) is computed by applying the discount rate, used to measure the net defined liability (asset), to the net defined liability (asset) at the start of the financial year after taking into account any changes as a result of contribution and benefit payments during the year. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in profit or loss. The Group recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

Actuarial gains/losses are recognized in the other comprehensive income.

XIV) Income taxes

Tax expense comprises of current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in Other Comprehensive Income.

Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with Income Tax Act, 1961. Deferred income tax reflects the impact of current year timing differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes and reversal of timing differences of earlier years.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves. Unrecognized deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

Deferred tax asset / liabilities in respect of on temporary differences which originate and reverse during the tax holiday period are not recognised. Deferred tax assets / liabilities in respect of temporary differences that originate during the tax holiday period but reverse after the tax holiday period are recognised. The tax effect is calculated on the accumulated timing differences at the year-end based on the tax rates and laws enacted or substantially enacted on the balance sheet date.

Minimum alternate tax credit is recognized as an asset only when and to the extent there is convincing evidence that the Group will pay normal income tax during the specified period. Such asset is reviewed at each balance sheet date and the carrying amount of the MAT credit is written down to the extent there is no longer a convincing evidence to the effect that the Group will pay normal income tax during the specified period.

XV) Earnings Per Share

Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to equity shareholders of the Group
- by the weighted average number of equity shares outstanding during the financial year

Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

XVI) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM) of the Group. The CODM is responsible for allocating resources and assessing performance of the operating segments of the Group.

XVII) Recent Accounting Pronouncements

i) Standards issued but not yet effective

The Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from April 1, 2021.

MCA issued notifications dated 24th March, 2021 to amend Schedule III to the Companies Act, 2013 to enhance the disclosures required to be made by the Company in its financial statements. These amendments are applicable to the Company for the financial year starting 1st April, 2021.

NOTE 3A

Impairment review

Impairment testing for cash generating unit (CGU) containing goodwill

The goodwill at each CGU level is tested for impairment at least annually and when events occur or changes in circumstances indicate that the recoverable amount is less than its carrying value. The recoverable amount is based on a value-in-use calculation using the discounted cash flow method. The value-in-use calculation is made using pre-tax Budgeted EBITDA projections based on the Management forecasts of the contract tenure (after considering the relevant long-term growth rate). Remaining contract tenure is in the range of 6 to 13 years given the term of the contract signed with the government authorities. No terminal value is included as these cash flows exceeding their carrying value. The methods used to determine recoverable amounts have remained consistent with the prior year.

Goodwill acquired through business combinations with indefinite lives has been allocated to to the following CGU's:

₹ in lakhs

Name of the Entities	As at March 31, 2021	As at March 31, 2020
MEP Infrastructure Private Limited	1,012.30	1,012.30
Baramati Tollways Private Limited	1,605.27	1,605.27
Total	2,617.57	2,617.57

The keys assumptions used in value-in-use calculation are reviewed annually as part of management's budgeting and strategic planning cycles. These estimates may differ from actual results. The values assigned to each of the key assumptions reflect the Management's past experience as their assessment of future trends, and are consistent with external / internal sources of information.

Based on the above assumptions and analysis, during the year ended 31 March 2021, Group recorded impairment charge of ₹ Nil (31 March 2020 : ₹ 0.48 lakhs). No impairment was identified for any of the CGU as at 31 March 2021 as the recoverable value of the CGU exceeded the carrying value.

Notes forming part of the Consolidated Financial Statements

as at March 31, 2021

The company offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority.

Significant management judgement is required in determining provision for income tax, deferred income tax assets and liabilities and recoverability of deferred income tax assets. The recoverability of deferred income tax assets is based on estimates of taxable income and the period over which deferred income tax assets will be recovered. Any changes in future taxable income would impact the recoverability of deferred tax assets.

As at 31 March 2021, undistributed earning of subsidiaries and joint ventures amounted to ₹ 9,767.64 lakhs (March 31 2020: ₹ 12,496.14 lakhs) The corresponding deferred tax liability of ₹ 1,988.69 lakhs. (March 31 2020: ₹ 2,544.21 lakhs.) was not recognised because the Company controls the dividend policy of its subsidiaries and is able to veto the payment of dividends of its jointly controlled entities (i.e. the Company controls the timing of reversal of the related taxable temporary differences and management is satisfied that they will not reverse in the foreseeable future.)

v. Tax losses carried forward

Deferred tax assets have not been recognised in respect of the following items, because it is not probable that future taxable profit will be available against which the Group can use the benefits therefrom:

Notes forming part of the Consolidated Financial Statements

as at March 31, 2021

B. Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- Credit risk;
- Liquidity risk; and
- Interest rate risk

i. Risk management framework

The Company's board of directors is primarily responsible to develop and monitor Company's Risk Management framework. The Company has a risk management policies in place.

The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

ii. Market risk

- Market risk: the risk that changes in market prices – such as foreign exchange rates, interest rates will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.
- Currency risk: the risk that the value of a financial instrument will fluctuate because of changes in foreign exchange rates. Since company does not have any foreign exchange transactions, it is not exposed to this risk.

iii. Credit risk

Credit risk is the risk of financial loss to the company if a customer or counterparty to a financial instrument fails to meet its contractual obligations.

The Company follows a 'simplified approach' (i.e. based on lifetime ECL) for recognition of impairment loss allowance on trade receivables. For the purpose of measuring lifetime ECL allowance for trade receivables, the Company estimates irrecoverable amounts based on the ageing of the receivable balances and historical experience. Receivable balances and deposit balances are monitored on a monthly basis with the result that the Company's exposure to bad debts is not considered to be material.

The Group has no significant concentrations of credit risk. The Company does not have any credit risk outside India.

Impairment

The ageing of trade and other receivables that were not impaired was as follows:

	Carrying amount (in INR lakhs)	
	March 31, 2021	March 31, 2020
Neither past due nor impaired	0.22	-
Past due 1-30 days	-	140.07
Past due 31-90 days	3,497.43	732.32
Past due 91-120 days	-	151.97
Past due 121-180 days	-	226.86
Past due 181-360 days	1,306.75	2,324.97
More than 360 days	1,988.63	424.80
Carrying amount of receivables	6,793.03	4,001.00

Notes forming part of the Consolidated Financial Statements

as at March 31, 2021

Management believes that the unimpaired amounts that are past due by more than 30 days are still recoverable in full, based on historical payment behaviour and extensive analysis of customer credit risk.

Further, the Top 5 customers of the Group in the EPC segment contributes to more than 93% of the trade receivables during the year ended 31 March 2021.

Cash equivalents, other Bank Balance and Deposits

The Company held cash equivalents and other bank balances and deposit of ₹ 5,792.10 lakhs at March 31, 2021 (March 31, 2020: ₹ 10,337.04 lakhs). The cash equivalents and other bank balance and deposits are held with bank counterparties with good credit ratings.

Loans and advances

The loans and advances (including security deposits) have been to parties which are generally regular in making payments and hence the group does not expect significant impairment losses on its current profile of outstanding advances.

iv. Liquidity risk

Liquidity risk is defined as the risk that the group will not be able to settle or meet its obligations on time, or at a reasonable price. The group's treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related such risk are overseen by senior management. Management monitors the group's net liquidity position through rolling forecasts on the basis of expected cash flows.

v. Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of the financial instruments will fluctuate because of changes in market interest rates. In order to optimize the Group's position with regards to interest income and interest expenses and to manage the interest rate risk, treasury performs a comprehensive corporate interest rate risk management by balancing the proportion of fixed rate and floating rate financial instruments in its total portfolio

Notes forming part of the Consolidated Financial Statements

as at March 31, 2021

Exposure to interest rate risk

Group's interest rate risk arises from borrowings. Borrowings taken and issued at fixed and floating rates which exposes Group to fair value and cashflow interest rate risk. The interest rate profile of the Group's interest-bearing financial instruments as reported to the management of the Group is as follows.

	₹ in lakhs	
	March 31, 2021	March 31, 2020
Fixed-rate instruments		
Financial assets	41,249.91	49,710.80
Financial liabilities	(2,446.30)	(3,114.39)
	38,803.59	46,596.41
Variable-rate instruments		
Financial assets	-	-
Financial liabilities	(226,008.87)	(239,106.04)
	(226,008.87)	(239,106.04)
Total	(187,205.27)	(192,509.63)

The Company does not account for any fixed rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss

Cash flow sensitivity analysis for variable-rate instruments

A reasonably possible change of 100 basis points in interest rates at the reporting date would have increased (decreased) profit before tax by the amounts shown below. This analysis assumes that all other variables, remain constant.

	Profit or loss	
	100 bp increase	100 bp decrease
March 31, 2021		
Variable-rate instruments	(2,260.09)	2,260.09
Cash flow sensitivity (net)	(2,260.09)	2,260.09
March 31, 2020		
Variable-rate instruments	(2,391.06)	2,391.06
Cash flow sensitivity (net)	(2,391.06)	2,391.06

The risk estimates provided assume a parallel shift of 100 basis points interest rate across all yield curves. This calculation also assumes that the change occurs at the balance sheet date and has been calculated based on risk exposures outstanding as at that date. The period end balances are not necessarily representative of the average debt outstanding during the period.

NOTE 35 – CAPITAL MANAGEMENT

For the purpose of the Group's capital management, capital includes issued capital and other equity reserves. The primary objective of the Group's Capital Management is to maximise shareholders value. The Group manages its capital structure and makes adjustments in the light of changes in economic environment and the requirements of the financial covenants.

Notes forming part of the Consolidated Financial Statements

as at March 31, 2021

The Group monitors capital using Adjusted net debt to equity ratio. For this purpose, adjusted net debt is defined as total debt less cash and bank balances.

Notes forming part of the Consolidated Financial Statements

as at March 31, 2021

The principal actuarial assumptions used for estimating the Company's benefit obligations are set out below (on a weighted average basis):

Particulars	₹ in lakhs	
	As at March 31, 2021	As at March 31, 2020
Rate of increase in salaries	6.00%	6.00%
Discount rate	4.35%	5.20%
Expected average remaining service life of the employees	1.44 to 2.71	1.87 to 2.57

Notes:

- The discount rate is based on the prevailing market yields of Indian government securities for the estimated term of the obligations.
- Salary escalation rate
The estimates of future salary increases considered takes into account the inflation, seniority, promotion and other relevant factors.
- Assumptions regarding future mortality experience are set in accordance with the statistics published by the Life Insurance Corporation of India.

Sensitivity of the defined benefit obligation :

Particulars	Change in Assumption	₹ in lakhs	
		Effect of Gratuity Obligation	
		As at March 31, 2021	As at March 31, 2020
Discount rate	Minus 50 basis points	15.52	15.51
	Plus 50 basis points	(15.00)	(15.09)
Salary Escalation Rate	Minus 50 basis points	(13.43)	(13.33)
	Plus 50 basis points	13.55	13.49

The above sensitivity analyses have been calculated to show the movement in defined benefit obligation in isolation and assuming there are no other changes in market conditions at the reporting date. In practice, generally it does not occur. When we change one variable, it affects to others. In calculating the sensitivity, project unit credit method at the end of the reporting period has been applied.

The Company makes payment of liabilities from its cash and cash equivalent balances whenever liability arises.

NOTE 40 – DISCLOSURE ON IND-AS 116 LEASES

Effective April 1, 2019, the Company has adopted Ind AS 116 'Leases', applied to all leases contracts existing on April 1, 2019 using the modified retrospective method along with the transition option to recognise Right-To-Use asset (ROU) at an amount equal to the lease liability.

In the Statement of profit and loss for the current year, the nature of expenses in respect of operating leases has changed from lease rent in previous periods to depreciation cost for the right-to-use asset and finance costs for interest accrued on lease liability.

The effect of depreciation and interest related to Right Of Use Asset and Lease Liability are reflected in the the Statement of Profit and Loss under the heading "Depreciation and Amortisation Expense" and "Finance costs" respectively.

Following are the changes in the carrying value of right of use assets for the year ended 31 March, 2021:

(d) Remaining performance obligations

In case of revenue from Road repair and maintenance, the Group applies the practical expedient in paragraph 121 of Ind AS 115 and does not disclose information about remaining performance obligations where the Company has a right to consideration from customer in an amount that corresponds directly with the value to the customer of the Company's performance completed to date. Accordingly, the Group recognises revenue by an amount to which the Company has a right to invoice.

Unsatisfied (or partially satisfied) performance obligations are subject to variability due to several factors such as terminations, changes in scope of contracts, periodic revalidations of the estimates, economic factors (changes in currency rates, tax laws etc). The aggregate value of transaction price allocated to unsatisfied (or partially satisfied) performance obligations is ₹ 1,42,289.73 lakhs out of which 100% is expected to be recognised as revenue in the next year and the balance thereafter.

NOTE 45 – CLAIMS

One of the Company's subsidiary company has preferred claims with the Authority, aggregating ₹ 33,973.75 lakhs plus interest on account of Toll Evasion and Force Majeure issues arising from non-compliance of the Concession Agreement by Authority. The Company's subsidiary has not recognised the claims in the financial statements pending final approval from Authority. Under the orders of the Hon'ble High Court of Delhi, both the Company and Authority were directed to amicably settle the disputes. As a part of the amicable settlement, Independent Engineer has evaluated the claims made by the Company from time to time. However, final settlement on the same is yet to conclude. The estimated loss during the corresponding period as assessed by the Independent Engineer appointed by the Authority is much higher than the claims submitted to Authority. Hence, the Company's subsidiary has not recognised amount payable to Authority aggregating ₹ Nil for the year ended 31 March 2021 (₹ Nil for the year ended 31 March 2020) in addition to the sum of ₹ 13,123.19 lakhs for the period from 01 November 2014 to 8 April 2016. As part of the settlement, the Company, has handed over the Project Facilities and the Toll Plaza's to the NHAI from April 09, 2016. The Settlement of claims will be dealt as per the provisions of the Concession Agreement, and the matter is currently under arbitration.

NOTE 46 – EXCEPTIONAL ITEMS

The exceptional items includes profit of ₹ 6,063.80 lakhs on account of Harmonious substitution of the Hybrid Annuity projects in the 3 subsidiary Companies. The exceptional items also includes loss of ₹ 12,986.98 lakhs on account of impairment of assets in 2 of the Jointly controlled entities.

The Toll collection activity of One of the Company's subsidiary was suspended by authority on 27th February 2019. Subsequently on 27th May 2019 the authority unilaterally issued termination notice. Consequently, the net provision relating to major repairs maintenance amounting ₹ 5,783.00 lakhs (on which deferred tax ₹ 1,344.46 included in tax expenses) and the intangible assets amounting to ₹ 33,070.95 lakhs and the concession fees payable to Authority amounting ₹ 51,079.31 lakhs (on which deferred tax amounting ₹ 2,754.30 lakhs) and also Fixed Assets written off amounting to ₹ 1,162.26 lakhs are reversed during the period ended March 2020. However aggrieved by the decision of the authority, the subsidiary Company filed a writ petition before Hon'ble High court of New Delhi and the matter is sub judice and is under arbitration.

NOTE 47 – DOMESTIC TRANSFER PRICING

The Indian Finance Bill, 2012 had sought to bring in certain class of domestic transactions in the ambit of the transfer pricing regulations with effect of 1 April, 2012. The Company's/Group's management is of the opinion that its domestic transactions with associated enterprises are at arm's length so that appropriate legislation will not have an impact on the financial statements, particularly on the amount of tax expense and that of provision for taxation. The Company/Group does not have any international transactions during the year.
