Green bond rush shows global appetite for infra

Continuum Wind Energy's bonds gets \$3 bn pre-order bids in US market

ANUP ROY
Mumbai, 2 February

A day after the Union Budget proposed a substantial capital expenditure push, foreign investors swarmed over a green bond offering from India, indicating a ready stream of money for financing roads, ports, and other infrastructure in the country.

Continuum Wind Energy's bond offering of \$560 million, with an average tenure of 5.1 years, received \$3.2 billion pre-order bids from investors as soon as the issue opened in the US markets. While the initial price guidance was 4.875 per cent, the issue was priced at 4.5 per cent, given the investor interest. The issue was closed the same day it was opened because of the response.

"The response is mainly due to the Budget announcements, where the government showed its willingness to spend big on infrastructure," said a banker involved in the deal. "The global investors want to be part of the action," said the banker, requesting anonymity. Deutsche Bank is the lead

ILLUSTRATION: BINAY SINHA

banker on the transaction. Other banks include Standard Chartered, HSBC, JPMorgan, and Emirates. International Finance Corporation (IFC), the finance arm of the World Bank, is the anchor investor for the deal.

The bonds are rated BB+ by Fitch Ratings and Ba2 by Moody's, which makes it "below investment grade" in ratings parlance. But, there is not much of an investable opportunity for global investors. Bankers say the pipeline for green bonds is robust this year as there is a huge amount

of global liquidity chasing too few investable options. Green bonds from India can easily tap into the demand at a very cheap rate, say bankers.

However, demand for high yield bonds from other sectors have thinned in the international market after the Covid-19 pandemic, bankers say. Sectors such as hospitality and airlines have suffered the most during the pandemic and they will struggle to raise funds globally, say bankers. Infrastructure bonds will fill the vacuum if they promise to stick to the environmental,

social, and corporate governance (ESG) agenda.

The Union government plans to spend ₹5.4 trillion in capital expenditure next year, against ₹4.4 trillion in the current fiscal, Finance Minister Nirmala Sitharaman said in her Budget speech. State governments will spend even more and the Centre has allowed extra ₹2 trillion to states for capital spending. The fiscal deficit for the next year is budgeted at 6.8 per cent of the gross domestic product (GDP), mainly due to the higher capital expenditure, and the government will borrow ₹12 trillion from the domestic market to finance that.

ReNew Power is also in the market to raise \$460 million in green bonds via foreign portfolio investors. The route that ReNew Power is following is a little different from others. It is using an orphan special purpose vehicle (SPV) model in which an FPI raises the bonds to invest back in rupee resources of a domestic company. This is as per the voluntary retention route (VRR) scheme of the Securities Exchange Board of India (Sebi) guidelines.

HDFC profit down 65% to ₹2,925 cr, revenue 42%

Loan approvals for individuals up 32% in Q3

SUBRATA PANDA
Mumbai, 2 February

The country's largest mortgage lender HDFC reported a net profit of ₹2,925.83 crore in the October-December quarter (Q3) of FY21, down 65 per cent compared to a profit of ₹8,372.49 crore in the corresponding period of FY20.

However, the profit figures are not comparable because in Q3 of FY20, it booked a fair-value gain of over ₹9,000 crore due to merger of Gruh Finance with Bandhan Bank.

Also, in the reporting quarter, it booked a profit of ₹157 crore by selling a part of its stake in HDFC Life Insurance to adhere to the regulatory requirements. Hence, in a like-for-like comparison, discounting all other factors, the mortgage lender's net profit was up 27 per cent to ₹3,694 crore, compared to ₹2,908 crore in the year-ago period.

Net interest income (NII) of the lender was up 26 per cent to ₹4,068 crore in Q3 of FY21 compared to ₹3,239.92 crore in Q3 of FY20. It has slowly started reducing the amount of excess liquidity it was carrying, which explains the strong rise in NII. In Q1, it was carrying excess liquidity to the tune of ₹32,000 crore, and in Q2, the figure was 24,800 crore. In Q3, it has been reduced to ₹17,000 crore. Net interest margin at the end of nine months of FY21 was

3.4 per cent. For the lender, loan approvals for individuals in Q3 was higher by 32 per cent compared to the corresponding period of last financial year. Similarly, disbursements were higher by 26 per cent. "The demand for home loans continued to remain strong owing to low interest rates, softer property prices, concessional stamp duty rates in certain states and continued fiscal incentives," the lender said.

Furthermore, it said, December 2020 witnessed the highest ever levels in receipts, approvals and disbursements. It iterated the fact that this is not pent up demand as 91 per cent individual disbursements in Q3 consisted of property deals entered over the past four months. "Growth in home loans was seen in both the affordable housing segment as well as high-end properties," the mortgage lender said.

"In the nine-month period, 80 per cent of the growth in loan book has been in the individual segment and 20 per cent in the non-individual segment. But as much as 137 per cent growth during the

quarter came from individual loans and non-individual loan book degree 37 per cent," said Keki Mistry, vice-chairman and chief executive officer (CEO), HDFC.

As far as asset quality is concerned, its reported gross non-performing loans (NPL) stood at 1.67 per cent. If not for the Supreme Court order on asset classification standstill, its NPL would have risen to 1.91 per cent. This would make individual loan portfolio NPL at 0.98 per cent and non-individual loan portfolio NPL at 4.35 per cent.

Collection efficiency of the lender has improved and is nearing pre-Covid levels. As of December, collection efficiency in the individual loan book stood at 97.6 per cent compared to 96.3 per cent in the September quarter.

In Q3, the lender's expected credit loss is to the tune of ₹594 crore compared to ₹2,995 crore in the year-ago period. However, it is carrying ₹12,342 crore as provision on its books as of December 31. "For Covid, we still continue to carry a provision of ₹959 crore and will in due course reduce provisions," Mistry added.

NHAI to fine companies up to ₹10 crore for major lapses

PRESS TRUST OF INDIA
New Delhi, 2 February

National Highways Authority of India (NHAI) said it has come out with a strict policy to deal with major lapses in structures that provides for a fine up to ₹10 crore for defaulters besides debarment of the firm or personnel for up to three years. The move is aimed at maintaining high-quality standards in highway development.

"In order to deal with the lapses in highway development, NHAI has issued a strict policy to decide penal action against defaulting firms/ personnel if there are any lapses in construction standards of bridges/ structures/approaches to structure etc by the Concessionaires/ Contractors / Consultants," NHAI said in a statement.

The new policy allows NHAI to impose graded penalties that include heavy fines up to ₹10 crore besides debarment and ban on bidding for any future NHAI projects for up to three years.

Graded penal action will be taken against the defaulters in cases of minor lapses, major incidents and major failures resulting in loss of human lives, it said.

"In case of a major lapse leading to loss of human life, a heavy fine up to Rs 10 crore and debarment of the firm/personnel up to 3 years along with rectification by the defaulting Contractors/Concessionaires on their own cost may be imposed," NHAI said.

UPI hits a new high with 2.3 billion transactions worth ₹4.3 trn in Jan

SUBRATA PANDA
Mumbai, 2 February

Continuing an upward trajectory, digital payments in January saw decent growth with Unified Payments Interface (UPI), the flagship payments platform of National Payments Corporation of India (NPCI), touching a new high — both in terms of volume and value.

According to the data released by NPCI for January, UPI recorded 2.3 billion transactions worth ₹4.3 trillion — up 3 per cent both in volume and value terms.

On a year-on-year (YoY) basis, UPI's transaction volume jumped 76.5 per cent, while transaction value jumped nearly 100 per cent. It breached the 2-billion (volume) mark for the fourth straight month.

In December, it had handled 2.23 billion transactions worth ₹4.16 trillion. In November, it processed 2.21 billion transactions worth ₹3.9 trillion.

Launched in 2016, UPI crossed 1 billion transactions for the first time in October 2019. While it took UPI three years to reach 1 billion transactions in a month, the next billion came in under a year. Digital payments, especially UPI, saw increased adoption in

2020 due to the pandemic. Notwithstanding a minor blip in the initial months of the pandemic, where transaction volume and value dipped, the recovery was fast, and NPCI's payment platforms, namely UPI, Immediate Payment Service (IMPS), and others, recorded fresh highs in the following months, assisted by an aversion towards cash and card use by the general population.

In January, IMPS recorded

2.5-per cent decline in transaction count at 346.55 million, compared to 355.69 million transactions in December 2020. The transaction value declined 1.38 per cent in the same period. However, the transaction count recorded 33.5-per cent jump YoY.

Bharat Bill Payment System recorded 27.24 million transactions in January worth ₹4,051.92 crore. It recorded 26.22 million transactions in December at ₹3,962.76 crore.

Similarly, NPCI's National Electronic Toll Collection-operated FASTag recorded 148.56 million transactions worth ₹2,397.84 crore in January. In December 2020, it had reported 138.41 million transactions worth ₹2,303.79 crore, while in November, it had recorded 124.88 million transactions worth ₹2,102.02 crore.
