- iii. Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020**, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

Due to some ongoing technical glitch with the XBRL filing software the Company couldn't generate the XML file on time which in turn caused delay in filing of the Form AOC-XBRL.
The Company passed an Ordinary Resolution instead of Special Resolution for appointment of Manaklal Agarwal as an Independent Director of the Company as prescribed under Regulation 25 (2A) of SEBI (LODR), regulations 2015. However, to fully capitalise on this corridor and explore additional export avenues, the upcoming budget needs to introduce measures that go beyond this initiative. Aligning with the nation's developmental goals, the budget should focus on enhancing trade agreements, streamlining export procedures, and providing financial incentives to exporters. The materialisation of Free Trade Agreements (FTAs) with key markets can further open up new opportunities for the industry.

➤ INDIAN ECONOMIC SCENARIO & OUTLOOK

India's electronics sector has experienced rapid growth, reaching USD 155 billion in FY23. Production nearly doubled from USD 48 billion in FY17 to USD 101 billion in FY23, driven primarily by mobile phones, which now constitute 43% of total electronics production. India has significantly reduced its reliance on smartphone imports, now manufacturing 99% domestically.

Initiatives like Make in India and Digital India, improved infrastructure and ease of doing business, supported by various incentives, have stimulated domestic manufacturing and attracted foreign investments. Despite these strides, India's electronics market remains relatively moderate, accounting for only 4% of the global market, which has so far focused primarily on assembly, with limited capabilities in design and component manufacturing.

The outlook for India's electronics manufacturing industry is promising, with projections aiming to reach US\$ 540 billion by 2025, showing a significant increase from the US\$ 215 billion demand in FY19. The market has demonstrated steady growth during years indicating a robust 14% Compound Annual Growth Rate (CAGR) between 2016 and 2019 and 16.6% CAGR Growth between FY19-FY25. Further, the electronics system Design and Manufacturing market is forecasted to achieve US\$ 220 billion by FY25. Notably, key products within the Electronics & Telecommunications Development (ESDM) sector, including IT/OA, industrial electronics, and automotive electronics, have shown the highest CAGR. The import and export data portray a dynamic trade scenario, showcasing imports of electronic goods amounting to US\$ 73.46 billion and exports totaling US\$ 22.68 billion during the previous fiscal year (FY23). The growth trajectory extends to specific sectors, with smartphone shipments reaching 168 million units in CY 2021. Likewise, 5G device shipments are anticipated to surge by 129% year-on-year. The electronics design segment, is poised to constitute 27% of the total ESDM market size by FY25. With a firm commitment, India aims to achieve US\$ 300 billion worth of electronics manufacturing and exports totaling USD 120 billion by 2025-26.

➤ **OPPORTUNITIES & THREATS**

Opportunities:

As the world continues to grapple with uncertainties tied to inflation and supply chain disruptions, the consumer electronics industry is navigating challenging, even uncharted waters. Throughout 2023, the industry has witnessed shifts in consumer preferences post-pandemic, the remarkable ascent of generative AI and increased integration of the connected world and internet of things

Looking to 2024, a significant paradigm shift is on the horizon. The rapid adoption of new technologies has started to uncover digital delayers, highlighting the need for enterprise-wide transformation in the consumer electronics and white goods sectors.

Some other opportunities in the Electronics Industry includes:

- Servers and mainframes: Sales of servers and mainframes are expected to increase by 19% year-over-year.

Threats:

In 2024 and beyond, the consumer electronics and appliance manufacturing industry faces a host of challenges that are keeping everyone on their toes. Supply chain disruptions continue to pose significant challenges, with semiconductor shortages causing widespread production delays. Economic uncertainties, like inflation and recession fears, are squeezing consumer wallets and company profits alike. On top of that, the push for sustainability is stronger than ever, with new regulations on e-waste reminding us that even our gadgets need to be green.

Having this in mind and combining it with the aforementioned challenges that the consumer electronics industry is facing, it becomes obvious where most consumer electronics companies are standing today:

- Disruptions in the consumer electronics supply chain cause stockouts, which break the perception of reliable availability and damage the perception of both retailers and consumer electronics companies.
- Issues caused by labor shortages harm production and, in some cases, service quality which further impacts the perceived ability of companies to deliver as promised.
- Inflation that is increasing beyond what is seen as "normal" is breaking the promise of a fair deal.

**INDEPENDENT AUDITOR'S REPORT
To The Members M/S. MYSTIC ELECTRONICS LIMITED**

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of **M/S. MYSTIC ELECTRONICS LIMITED** ("the Company"), which comprises the Balance Sheet as at March 31, 2024, the Statement of Profit and Loss (including a statement of Other Comprehensive Income), the Cash Flow Statement, and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ('Ind AS') and other accounting principles generally accepted in India, of the state of affairs of the company as at March 31, 2024, its Loss, (including a statement of other comprehensive Income), its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information Other than the Financial Statements and Auditor's Report Thereon

- The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the company's Annual Report but does not include the financial statements and our auditor's report thereon.
- The Other Information to the extent not made available to us as of the date of the signing this report is expected to be made available to us after the date of this Auditors Report.
- Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated.
- When we read the other information, if we conclude that there is material misstatement therein, we are required to communicate the matter to those charged with Governance.

Managements and Board of Director's Responsibilities for the Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act, with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, Cash Flows and changes in equity of the Company in accordance with the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules 2015, as amended, and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; design, implementation and maintenance of adequate internal financial controls, that are operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Audit ('SA's) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, specified under section 143(10) of the act, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation;
- Obtain sufficient appropriate audit evidence regarding the financial statements of the company to express an opinion on the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationship and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore, the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

We have audited the internal financial controls with reference to financial statements of **M/S MYSTIC ELECTRONICS LIMITED** ("the Company") as at March 31, 2024, in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibilities for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial reporting.

**NOTES ATTACHED TO AND FORMING PART OF THE FINANCIAL STATEMENTS
AS ON AND FOR THE YEAR ENDED ON MARCH 31, 2023**

Note 1 : Basis of accounting and preparation of Financial Statements

a) Company Overview

Mystic Electronics Limited ("the Company") is engaged primarily in the business of trading in Electronic Products and other related activities. The Company is a public limited Company incorporated and domiciled in India having its registered office at 401/A, Pearl Arcade, Opp. P. K. Jewellers, Dawood Baugh Lane, Off. J. P. Road, Andheri (West), Mumbai - 400 058. The Company is listed on BSE Limited (BSE).

b) Basis of Accounting

The Financial Statements of the Company have been prepared in accordance with the Indian Accounting Standards (Ind AS) to comply with the Section 133 of the Companies Act, 2013 ("the 2013 Act"), and the relevant provisions, rules and amendments, as applicable. The Financial Statements have been prepared on accrual basis under the historical cost convention except certain assets measured at fair value.

c) Functional and Presentation Currency

These financial statements are presented in Indian rupees, which is the functional currency of the Company. All financial information presented in Indian rupees has been rounded to the nearest rupees as per the requirement of Schedule III, unless otherwise stated.

d) Use of Estimates and Judgements

The preparation of financial statements in conformity with Ind AS requires management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported revenue and expenses during the year. The Management believes that the estimates used in preparation of the Financial Statements are prudent and reasonable. Significant estimates used by the management in the preparation of these financial statements include project revenue, project cost, saleable area, economic useful lives of fixed assets, accrual of allowance for bad and doubtful receivables, loans and advances and current and deferred taxes. Differences between the actual results and the estimates are recognised in the periods in which the results are known / materialise.

e) Property, Plant and Equipment & Depreciation

i. Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses, if any. The cost of an item of property, plant and equipment comprises:

- its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates.
- any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Property, plant and equipment are derecognised from financial statement, either on disposal or when no economic benefits are expected from its use or disposal. The gain or loss arising from disposal of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of Property, plant and equipment recognised in the statement of profit and loss account in the year of occurrence.

ii. Subsequent expenditure

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting year in which they are incurred.

iii. Depreciation

Depreciation is being provided on written down value method on the basis of systematic allocation of the depreciable amount of the assets over its useful life as stated in Schedule II of the Companies Act, 2013.

Depreciation on assets sold, discarded or scrapped, is provided up to the date on which the said asset is sold, discarded or scrapped.

In respect of an asset for which impairment loss is recognized, depreciation is provided on the revised carrying amount of the assets.

f) Intangible Assets –Recognition and measurement

Items of Intangible Assets are measured at cost less accumulated amortisation and impairment losses, if any. The cost of intangible assets comprises:

- its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates; and

- any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

i. Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

ii. Amortisation

Intangible assets are amortised over their estimated useful life on Straight Line Method.

g) Impairment of Assets

Intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

h) Investments

Long term investments are stated at cost. However, provision for diminution is made to recognise any decline, other than temporary, in the value of long term investments.

Current investments are stated at the fair value.

i) Measurement at fair values

The Company measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability or

- In the absence of a principal market, in the most advantageous market for the asset or liability

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For the purpose of fair value disclosures, the Company has determined classes of assets & liabilities on the basis of the nature, characteristics and the risks of the asset or liability and the level of the fair value hierarchy as explained above.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

j) Financial Instrument

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets include Trade receivable, loan to body corporate, loan to employees, security deposits, Investments and other eligible current and non-current assets.

Financial liabilities include Loans, trade payable and eligible current and non-current liabilities.

Offsetting financial instruments - Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the group or the counterparty.

k) Inventories

- i. The cost of inventories comprises all cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Inventories are valued at cost or net realizable value, whichever is lower on the basis of first in first out method or specific identification, as the case may be.
- ii. Finished stock are valued at lower of cost or net realizable value on the basis of actual identified units.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

l) Revenue Recognition

In respect of Sales

Sales are recognised when goods are supplied and significant risk and reward of the ownership in the goods are transferred to the buyer as per the terms of contract and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of the goods. Sales are inclusive of duty and net of returns, trade discounts, rebates and GST.

In respect of interest income

Interest income is accounted on an accrual basis at interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

In respect of Dividend income

Dividend income including share of profit in LLP is recognized when the right to receive the payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

m) Taxation

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Company operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised, or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

n) Employee Benefits

i. Short term employee benefits

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

ii. Post-employment benefits

Long-term employee benefits The Company's net obligation in respect of long term employee benefit is the amount of future benefit that employees have earned in return of their service in the current and prior periods. The benefit is discounted to determine its present value. Re-measurement are recognized in Statement of Profit & Loss in the period in which they arise.

o) Cash and Cash equivalent

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

p) Earnings per share

Basic earnings per share is computed by dividing the profit / (loss) after tax by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed by dividing the profit / (loss) after tax as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on conversion of all dilutive potential equity shares.

q) Provisions and Contingent liabilities

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are discounted to their present value and are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates.

Contingent liabilities are disclosed in the Notes. Contingent liabilities are disclosed for

- i. possible obligations which will be confirmed only by future events not wholly within the control of the Company or
- ii. present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are not recognised in the Financial Statements.

r) Segment Reporting

The company is primarily in the business of trading in Agriculture Products and related activities. Further most of the business conducted is within the geographical boundaries of India.

In view of the above, in the opinion of the management and based on the organizational and internal reporting structure, the company's business activities as described above are subject to similar risks and returns. Further, since the business activities undertaken by the company are substantiating within India, in the opinion of the management, the business environment in India is considered to have similar risks and returns. Consequently, the company's business activities primarily represent a single business segment and the company's operations in India represent a single geographical segment.

s) Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains/(losses).

Where the terms of a financial liability are renegotiated and the entity issues equity instruments to a creditor to extinguish all or part of the liability (debt for equity swap), a gain or loss is recognised in profit or loss, which is measured as the difference between the carrying amount of the financial liability and the fair value of the equity instruments issued.

Borrowings are classified as current liabilities unless the group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

t) Trade and Other Payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 15 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

u) Trade Receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment / doubtful debts.

v) Government Grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received, and the Company will comply with all attached conditions.

Government grants relating to income are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets and presented within other income.

w) Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

x) Business Combinations

Business combinations involving entities or businesses under common control shall be accounted for using the pooling of interest's method.

The consideration for the business combination may consist of securities, cash or other assets. Securities shall be recorded at nominal value. In determining the value of the consideration, assets other than cash shall be considered at their fair values.

The balance of the retained earnings appearing in the financial statements of the transferor is aggregated with the corresponding balance appearing in the financial statements of the transferee. Alternatively, it is transferred to General Reserve, if any.

The identity of the reserves shall be preserved and shall appear in the financial statements of the transferee in the same form in which they appeared in the financial statements of the transferor.
