Company Secretary

SolarWinds Accelerates Shift to SaaS Model for Observability, Monitoring, and ITSM Solutions Through Collaboration with Infosys

Advancing the SaaSification of SolarWinds multi-cloud and hybrid cloud products and platforms

AUSTIN, TEXAS— May 2, 2023—[SolarWinds](#) (NYSE:SWI), a leading provider of simple, powerful, secure observability and IT management software, and [Infosys](#) (NSE, BSE, NYSE:INFY), a global leader in next-generation digital services and consulting, today announced a collaboration to advance the shift of SolarWinds solutions to a new SaaS model. Through this engagement, Infosys will leverage its engineering capabilities to accelerate the SaaSification of SolarWinds products and platforms built to provide customers increased visibility in highly complex hybrid and multi-cloud environments.

This collaboration is a key component of the SolarWinds strategy to offer accessible, highly effective, and value-based solutions built to empower its customers to accelerate their digital transformation efforts—regardless of where they are on their journey to the cloud. SolarWinds recently launched its first fully integrated cloud-native solution with the launch of SolarWinds Observability on October 19, 2022. The new SaaS platform provides unified and comprehensive visibility for today's modern, distributed, hybrid, and multi-cloud IT environments. The collaboration with Infosys will enable SolarWinds to accelerate its own path to SaaSification to continue serving customers whether they are fully on-premises, hybrid, or fully in the cloud.

As more companies move IT systems and business functions from on-premise to the cloud, it has become more important than ever for enterprises to underpin their practices with robust, secure multi-cloud and hybrid cloud solutions. SolarWinds believes this will accelerate its go-to-market strategy by shifting the company's industry-leading on-premises products to SaaS-based models.

SolarWinds chose Infosys to assist in accelerating its SaaSification journey for its rich cloud capabilities and proven success in advancing enterprise cloud journeys. With Infosys Cobalt, SolarWinds gains access to over 35,000 assets and over 300 industry cloud solution blueprints designed to make its transition from on-premises to SaaS seamless.

Sudhakar Ramakrishna, SolarWinds President and CEO, said, "We're excited to work with Infosys to transform our application delivery in a software-as-a-service model. We've already begun moving to our new SaaS model with the launch of our comprehensive SolarWinds Observability offering and we now have a framework to quickly transition our other monitoring and observability solutions across network, infrastructure, systems, database, applications, and ITSM to this new model. With Infosys, we're confident we'll be able to drive more market share with SaaSification."

Rohini Kasturi, SolarWinds Chief Product Officer, said, "Ensuring a smooth customer experience—regardless of where our customers are on their cloud journeys—is vital to our success at SolarWinds. Our collaboration with Infosys will enable us to modernize our customers' operations while improving their

business outcomes. We're excited to take advantage of working with Infosys to further embrace SaaSification."

Anand Swaminathan, EVP, Communications, Media, and Technology for Infosys, said, "Our goal at Infosys is to enable the SaaSification of products and platforms to accelerate digital transformation. With Infosys Cobalt, we are excited to help SolarWinds' successfully navigate their digital transformation journey to deliver on customer expectations and boost revenue."

About SolarWinds

[SolarWinds](#) (NYSE:SWI) is a leading provider of simple, powerful, secure observability and IT management software built to enable customers to accelerate their digital transformation. Our solutions give organizations worldwide—regardless of type, size, or complexity—with a comprehensive and unified view of today's modern, distributed, and hybrid network environments. We continuously engage with IT and service operations professionals, DevOps and SecOps professionals, and database administrators (DBAs) to understand the challenges they face in maintaining high-performing and highly available IT infrastructures, applications, and environments. The insights we gain from them, in places like our [THWACK](#) community, allow us to address customers' needs now and in the future. Our focus on the user and commitment to excellence in end-to-end hybrid IT management has established SolarWinds as a worldwide leader in solutions for observability, IT service management, application performance, and database management. About Infosys

Infosys is a global leader in next-generation digital services and consulting. Over 300,000 of our people work to amplify human potential and create the next opportunity for people, businesses and communities. With over four decades of experience in managing the systems and workings of global enterprises, we expertly steer clients, in more than 50 countries, as they navigate their digital transformation powered by the cloud. We enable them with an AI-powered core, empower the business with agile digital at scale and drive continuous improvement with always-on learning through the transfer of digital skills, expertise, and ideas from our innovation ecosystem. We are deeply committed to being a well-governed, environmentally sustainable organization where diverse talent thrives in an inclusive workplace.

Safe Harbor

Certain statements in this release concerning our future growth prospects, financial expectations and plans for navigating the COVID-19 impact on our employees, clients and stakeholders are forward-looking statements intended to qualify for the 'safe harbor' under the Private Securities Litigation Reform Act of 1995, which involve a number of risks and uncertainties that could cause actual results to differ materially from those in such forward-looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding COVID-19 and the effects of government and other measures seeking to contain its spread, risks related to an economic downturn or recession in India, the United States and other countries around the world, changes in political, business, and economic conditions, fluctuations in earnings, fluctuations in foreign exchange rates, our ability to manage growth, intense competition in IT services including those factors which may affect our cost advantage, wage increases in India and the US, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration,

restrictions on immigration, industry segment concentration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks or system failures, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which Infosys has made strategic investments, withdrawal or expiration of governmental fiscal incentives, political instability and regional conflicts, legal restrictions on raising capital or acquiring companies outside India, unauthorized use of our intellectual property and general economic conditions affecting our industry and the outcome of pending litigation and government investigation. Additional risks that could affect our future operating results are more fully described in our United States Securities and Exchange Commission filings including our Annual Report on Form 20-F for the fiscal year ended March 31, 2022. These filings are available at www.sec.gov/. Infosys may, from time to time, make additional written and oral forward-looking statements, including statements contained in the Company's filings with the Securities and Exchange Commission and our reports to shareholders. The Company does not undertake to update any forward-looking statements that may be made from time to time by or on behalf of the Company unless it is required by law.
