Press Release

Blowout in Gas Well of Oil India Limited at Baghjan, Tinsukia

21st July 2020

Environmental Impact Assessment

- **Environmental Impact Assessment by M/s ERM:** Impact Assessment study prior to Capping of well has been completed. Next phase of study to be conducted post Capping operation.
- **TERI Study on Air Quality & Noise Level:** TERI team has commenced sample collection for air quality and noise level measurement from today.
- **TERI study on Bioremediation of Sludge:** Site preparation prior to bio remediation in high land areas along the roadside from Kaliapani Bridge to Baghjan village is in progress.
- **CSIR-NEIST Seismological Study:** Recording is in progress for seismological study in the vicinity of Baghjan-5 well.
- **IIT- Guwahati Study on Thermal Mapping & Sonic Measurement:** Measurement of sound level for study by IIT-G was conducted in the areas as advised by District Administration. Measurement was carried out yesterday in and around 000-3000 metres of blowout well – Baghjan Revenue village/Dighaltarang Revenue village, Notun Gaoan, Magui Motapung Beel and Limbuguri (TE) area. Data collection for the study is in progress.

Preparation for Capping the Well

- **Excavation of Ramps and Cellar:** Excavation of Ramps and Cellar (EDC: 19-07-2020) completed. Installation of side shuttering and de-watering of the Ramp and Cellar (EDC: 21-07-2020): Side shutters and mats have been made ready. The Ramps, Cellar area and Work areas have been made ready. Constant water umbrella, dewatering of the ramp / cellar area and civil works are being carried out to provide a safe working space for the personnel. Work on the wellhead for retrieval of 7 1/16” spool commenced and three studs were opened. All the equipment have been tested and are in place.
- **Blockade by Villagers:** Local villagers have blocked the approach road to site since this morning hampering movement of crew to site to begin work on time.

Relief and Rehabilitation

- **Survey for Damage Assessment:** Survey for assessment of damage for compensation in both Tinsukia and Doomdooma Circle is in progress. Total numbers of family surveyed till 20.07.2020 in Doomdooma Circle is **596** and in Tinsukia Circle is **1208**. Total number of family surveyed till 20.07.2020 both combined in Doomdooma and Tinsukia circle is **1804**.

Law and Order/Bandhs/Blockades etc.

- **The approach road via Plastic Park to Baghjan blowout well is being blocked by protesters.**
- **Forceful stoppage of Oil/Gas Wells of Baghjan EPS:** 14 numbers of oil & gas wells under Baghjan EPS are shut in since 07-07-2020.
- **Blockades in Drilling and Workover Locations Continue:** Blockade at two drilling locations and three workover locations still continues since the beginning of June, 2020.

Impact on Oil/Gas Production due to Protests

- Due to stoppage/blockades, there was production loss of 420 MT of Crude Oil and 1.52 MMSCM of Natural Gas as reported on 20-07-2020. Operations were disrupted in 13 Oil wells & 05 gas wells. Cumulative production loss since 27th May, 2020 due to bandhs and blockades: 15247 MT Crude oil, 32.73 MMSCM of natural gas.
