Trade with all major regions down

While imports from China reduced, exports to the US suffered as Trump administration cut off India's duty-free access

SUBHAYAN CHAKRABORTY New Delhi, 28 August

he Covid-19 pandemic that spread across the global from late January, along with sluggish international trade, affected India's major export markets in the previous financial year, latest official data shows.

In 2019-20, India's trade with South Asia, Asean (Association of Southeast Asian Nations), the Gulf nations, China, and North America reduced. This was primarily because export orders and finalised shipments were cancelled in major segments, such as engineering goods, electronics and textiles, in the prime trading months of January to March.

Trade with Asean, which had consistently seen the best growth for exports, sank 10 per cent while the highest fall was seen in trade with South Asia, a market India had high hopes from. Imports from the region had stabilised over the last three years but had been on an upswing since 2018-19 due to Chinese shipments being moved through the region, particularly Vietnam, government estimates say. But the pandemic and India's skirmishes with China along the Ladakh border have restricted the flow.

border, trade with China had gone down as the Donald Trump administration cut off hold off on its plans to raise tariffs on key overall imports from China had reduced due to India's duty-free access to the American market imports from the country.

Trade with the nations of the Gulf Cooperation Council, which includes Bahrain, Kuwait, Oman, Qatar, Saudi Arabia and the United Arab Emirates, took a hit due to the slowing economy of the region.

The United Arab Emirates (UAE) has consistently been India's largest export destination but cheaper goods from competing nations ad eroded that position recently.

As of August, nascent signs of a recovery nave been evident. India's exports contracted 10.2 per cent in July, slightly lower than June's 12.4 per cent fall, as trade of major foreignexchange earners such as petroleum, gems, electronics, and textiles remained subdued. But overall, trade experts say, there may soon be growth in trade.

"Business/order enquiries from almost all major economies like the US, EU, Canada, Japan, South Korea, Australia, and New Zealand have helped in bringing the exports sector to almost 90 per cent of the level in July 2019," said Sharad Kumar Saraf, president of the Federation of Indian Export Organisations (FIEO).

But estimates for the full 2020-21 remain rough as merchandise trade volume are already estimated to have contracted 14 per cent in the first half of 2020, and may see an overall 13 per cent decline in 2020, according to the World Trade Organization (WTO).

3rd-party premium hike delay worries insurers

Next six months will be tough for the industry in terms of loss ratios

Mumbai, 28 August

Non-life insurers are facing a double whammy. While health claims due to coronavirus (Covid-19) are rising fast, the claims from motor segment have also picked up.

Another big worry is hike in the third-party motor insurance premium — supposed to have kicked in from April 1 — that was put on hold by the Insurance Regulatory and Development Authority (Irdai).

There is no clarity if the regulator will hike third-party rates this year. Insurers claim this may result in a negative impact on loss ratio for them in the It was done to give some relief to

motor segment.

"The price increase proposed in the exposure draft was based on data that was available to the committee. So, it's based on past information. That was an increase we needed to cover the price gap. If it doesn't come through soon, it will have some negative impact on the industry. We are hopeful that it comes through," said the chief executive officer (CEO) of a private sector insurance company.

The Irdai, in an exposure draft, had proposed third party premium hikes for FY21. But it soon put the proposed hike on hold, given the spread of the virus and the economic impact. "If the premiums do not go up and the awards increase, it will create a gap. As a result, the industry will see higher loss ratios" **RAKESH JAIN**

CEO. Reliance General Insurance

When the rate increase was proposed, it was based on data of the previous year. Now, the current context has to be brought in and the regulator has to see whether the rate hike it had proposed in the draft should be done now or later, said

policyholders due to the pan-

demic.

"The compensation of third party depend on the court awards. Generally, we have seen a 12.5-15 per cent inflation in the awards given by courts. Hence, if the premiums do not go up and the awards increase, then it will create a gap. As a result, the industry will see higher loss ratios. So, it is very likely that the loss ratios will aggravate,"

said Rakesh Jain, CEO, Reliance third party premiums, industry General Insurance.

"Even last year, hike in third party premium was deferred by three months. So, whatever hike we got last year was for nine months and this year we have not got any hike as of now," Jain

Initially, during April and May, when the country was under rigorous lockdown, motor segment claims fell significantly. But, claims started moving up in the motor segment with lockdown being gradually eased. On the revenue side, renewals have picked up.

Slowly, new car sales are also picking up but are not where they were earlier. So, loss ratio will depend on a lot of things. At the moment, IRDAI will have to take a view on when it wants to allow the rate hike in motor

experts said. "On an overall level, it looks like April and May have been

silent months, as there were hardly any claims in the motor insurance segment. But from June, the claim numbers have seen an uptick. I don't think IRDAI will increase third party premium rates this year given that the claim figures in the motor segment fell due to the lockdown," said Sajja Praveen Chowdary, motor business head, Policybazaar.com

"The own damage claims are now 80-90 per cent of what they used to be. And, average claim size is increasing. So, the claims outgo is more or less equal to what it used to be. But revenue is falling. Next six months will be tough in terms of loss ratios for the industry," Jain added.
