MANAGEMENT DISCUSSION & ANALYSIS REPORT

Industry Structure and Development

Business Environment

The global economy is passing through recessionary phase and is having direct impact on the Indian economy which is on a slow down mode. This has resulted into business activities and overall economic momentum continued to remain flat across the major part of 2019. Several indicators suggested stabilising manufacturing and services activities. Financial conditions seemed to improve, following moves to increase monetary policy accommodation and reduced trade policy tensions. However, stress continued across economies,

The outbreak of COVID-19 resulted in rise of many uncertainties totally unseen in past few decades. Right from supply-chain disruptions, plunge in commodity prices, specially oil, substantial dip in capital expenditures to decline in travel, leisure, hospitality and decline in durable purchases, will push global demand and GDP into a tailspin. The adverse effects of COVID-19 are likely to push the global GDP from 2.9% in 2019 to negative territory of 3%. Resulting into growth of around 4% in the financial year 2019-20. And Indian economy likely to be contracted by 7% to 10%

Table 1: Growth in real GDP and GVA, India

Particulars	FY2017	FY2018	FY2019	FY2020
Real GDP Growth	8.3%	7.0%	6.1%	4.2%
Real GVA Growth	8.0%	6.6%	6.0%	3.9%

Industry Updates

Non-banking Financial Companies (NBFC) sector in India has undergone a significant transformation over the past few years. It plays a significant role in the growth of the Indian financial system. Its main objective is to serve the underserved segment of the Indian economy such as MSME, microfinance and other retail segments. Besides, it also plays a critical role in the development of core infrastructure, transport, employment generation, wealth creation, economic development of the weaker sections in India.

The NBFCs have been significantly leveraging the technology to reinvent traditional business model. It has been developing several analytics-based platform to put in place effective risk management framework and focus on high-quality assets. It has further forayed into the deeper pockets of India and supported the nation's financial inclusion programme.

The Budgets of July 2019 and February 2020 clearly indicated the increasing importance of this segment in boosting the economy and bringing in positivity in the investor fraternity. Some of the key measures include:

- ◆ Under the SARFAESI Act, 2002, the eligible limit for debt recovery has been proposed to be reduced from ₹ 5 billion to asset size of ₹ 1 billion or loan size from existing ₹ 10 million to ₹ 5 million.
- ◆ Amendment has been proposed Under the Factoring Regulation Act, 2011 to enable the NBFCs to extend invoice financing to the micro, small and medium enterprises (MSMEs) through the Trade Receivables Discounting System (TReDS), thereby enhancing their economic and financial sustainability.

The economic slowdown in 2019-20 kept the financial markets jittery. The concerns on fiscal slippage, rising geopolitical tensions and weakness in the overall economic activity put further pressure on the business growth of lenders, including NBFCs. The outbreak of Covid-19 led to further uncertainties, while NBFCs were already facing liquidity challenges and increasing NPAs. As per Crisil estimates, NBFCs (including HFCs) are expected to post an AUM growth of 6-8% in 2019-20, as compared to 13% in FY19. NBFCs with large retail portfolio are expected to do well owing to their derisked portfolio and better liquidity. On the Non-performing asset (NPA) front, the GNPA ratio for NBFC sector rose marginally from 6.1% as on March, 2019 to 6.3% as on September, 2019. These delinquencies are expected to rise by another 30 to 150 basis points (bps) by March, 2020 (Source: CRISIL). The NNPA ratio stood at a steady 3.4% as on both the periods (Source: RBI).

As a part of COVID-19 relief measures, the RBI offered moratorium to the borrowers. It further relaxed the bad loan classification period from 90 days to 180 and advised NBFCs to maintain adequate provisioning. The six month moratorium

on term loan repayments given by RBI will not result in any revenue (Interest income) loss for lending banks and NBFCs as borrowers opting for deferment will either have to extend their tenure else increase the quantum of EMIs.

Opportunities

Reports from the World Bank indicate that Non Banking Financial Institutions act as critical pillars contributing to macroeconomic stability and sustained economic growth and prosperity, due to their ability to finance firms and individuals at a reasonable cost, reduce volatility by providing multiple sources to finance and park funds and enable creation of a competitive environment characterized by a diverse array of products. This has been proven time and again in developed markets.

Non-Banking Finance Companies (NBFCs) continue to play a critical role in making financial Services accessible to a wider set of India's population and are emerging as strong intermediaries in the retail finance space. Going forward, one should expect NBFCs to further Strengthen their presence in retail finance and grow at a reasonably healthy pace.

Phasing out of lockdown and impact of the liquidity measures will give a tremendous bounce back opportunities to the NBFC. Moreover, with changes in norms of MSME identification, there will be a larger credit demand expected from this segment. Besides, increasing preference of fintech and retailisation of loans, especially to the tier II and tier III cities will keep evolving as opportunity zones for the industry.

Threats

The biggest challenge before NBFCs is that they are facing stiff competition from banks and financial institutions, due to their ability to raise low cost funds which enables them to provide funds at much cheaper rate. More stringent capital adequacy norms have been stipulated by RBI for NBFCs which is making difficult for them to give cheaper finance.

On the flip side, weak credit profiling of borrowers amid a gradual economic recovery remains one of the biggest threat. Beyond the immediate liquidity challenges, the key challenge for the NBFCs would be to prevent a sharp deterioration in the delinquency levels subsequent to the expiry of the moratorium period. While the lockdown may be gradually removed, the impact on the businesses of the self-employed and SME borrowers is likely to be severe. Besides, sharp decline in government revenue receipts due to the extended lockdown and growth slowdown, coupled with rising need for fiscal support, will throw a spanner in the works of both the Union and State Government finances. The combined fiscal deficit of both the Union and State Governments may reach 12% of GDP in FY21. This can raise the risks of a subsequent ratings outlook downgrade, given the mix of low growth and rising deficit.

Segment-wise or product-wise performance of the Company

The Company is a Non Banking Finance Company (NBFC). It is engaged in the business of financing which is the only segment in the Company. Hence, the results for the year under review pertain to only financing activity.

The Company's total Revenue from Operations during the year were Rs. 420.64 Lakhs and the net profit/loss after tax is Rs. (5231.88) Lakhs as against Rs. 1028.83 Lakhs and Rs. 246.61 lakhs respectively in the previous year.

Outlook

The likely duration, intensity and spread of the coronavirus has brought in increased uncertainty to the global and domestic economic outlook. There has been an impact of imports from China on domestic supply chains, the duration of which remains uncertain. Macro policy responses have been unprecedented in scale and scope and will cushion the near-term shock, with a strong focus on India-made products and services. The path back to normality, after the health crisis subsides, is likely to be slow. India's economic growth has the potential to bounce back once the COVID-19 pandemic settles. This is due to the inward-looking nature of the economy with low, albeit increasing, linkages with other markets and dependence on domestic consumption.

Risks and concerns

The Company recognizes that risk is an integral and unavoidable component of business and is committed to managing the risk in a proactive and effective manner. The Company is a NBFC Company registered under RBI and categorized as loan Company. In today's challenging and competitive environment, strategies for mitigating inherent risks in accomplishing the growth plans of the Company are imperative. The common risks for the Company are financial risks, credit risk, liquidity risk, market risk etc.

Risk mitigation is also an exercise aiming to reduce the loss or injury arising out of various risk exposures. The Company adopts a systematic approach to mitigate risks associated with accomplishment of objectives, operations, revenues and regulations. The Company believes that this would ensure mitigating risks proactively and help to achieve stated objectives.

The NBFC industry in general faces the risk of re-entry and new entry of players and existence of several unorganized regional players increasing the competition which mainly affects the asset quality. This is further characterized by captive NBFCs floated by other business houses. The ever existing systemic and delinquency risks and fluctuations in interest rates and risk weight make the companies more vulnerable. Deployment of funds in sensitive and volatile sectors increases the risk exposure while concentration risk increases dependency.

Internal Control Systems and their adequacy

Internal Control measures and systems are established to ensure the correctness of the transactions and safe guarding of the assets. The Management ensures adherence to all internal control policies and procedures as well as compliance with regulatory guidelines. Against the said liability the Company, considering the disputed nature of claim and unlawful invocation of Corporate Guarantee made a provision of Rs. 7798.91 Lakhs, which resulted in non-recognition of the claim to the extent of Rs. 17,820.89 Lakhs. This in our opinion is not accordance with Indian Accounting Standards and generally accepted accounting principles. Accordingly, the loss for the year is understated and the reserves are overstated by Rs. 17,820.89 Lakhs.

Note no 32 of the standalone Ind AS financial statements regarding exposures to Mahendra Investment Advisors Private Limited (MIAPL) in the form of Inter Corporate deposits (ICD's) and interest receivable aggregating to Rs. 4,359.37 Lakhs. In view of the negative networth in the standalone Ind AS's latest financial statements of MIAPL, we are unable to comment on the recovery of amounts due from MIAPL.
- c. Note no 28 (ii) of the standalone Ind AS financial statements regarding the investments in equity shares of a Company held in Gati Limited pledged as security for the credit facilities availed by Gati Infrastructure Private Limited (GIPL) on receipt of letter of comfort from Amrit Jal Ventures Private Limited. The lenders of GIPL have invoked the pledge. However, the same were disclosed as "Investments" as at March 31, 2020 for the reasons stated in the said note. Considering the uncertainty relating to recoverability of the said investment, we are unable to comment on the impact if any on the loss for the year and reserves and carrying value of investments at this stage.
- d. Note no 28(iii) of the standalone Ind AS financial statements regarding the investments in equity shares of the Company held in Gati Limited pledged for the facilities availed by Amrit Jal Ventures Private Limited (AJVPL). Our objectives are to obtain reasonable assurance about whether the standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Re: TCI Finance Limited**Annexure B to the Independent Auditors' report**

(Referred to in paragraph '2.f' under 'Report on Other Legal and Regulatory Requirements' section of our report to the members of TCI Finance Limited of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of TCI Finance Limited ("the Company") as of March 31, 2020 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone Ind AS financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods

TCI FINANCE LTD.

are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Qualified Opinion

According to the information and explanations given to us and based on our audit, the following material weakness have been identified in the operating effectiveness of the Company's internal financial controls over financial reporting as at March 31, 2020:

- a. The Company's internal financial controls system over estimation of diminution in the carrying value of investments and accrual of potential obligation in case of an overseas subsidiary was not operating effectively which could potentially result in misstatement in the financial statements by way of Company not providing for adjustments/provisions, if any, that may be required.

A 'material weakness' is a deficiency, or a combination of deficiencies, in internal financial control over financial reporting, such that there is a reasonable possibility that a material misstatement of the Company's annual or interim financial statements will not be prevented or detected on a timely basis.

In our opinion, the Company has, in all material respects, maintained adequate internal financial controls over financial reporting as of March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India, and except for the possible effects of the material weakness described above on the achievement of the objectives of the control criteria, the Company's internal financial controls over financial reporting were operating effectively as of March 31, 2020.

Explanatory paragraph

We also have audited, in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India, as specified under Section 143(10) of the Act, the standalone Ind AS financial statements of the Company, which comprise the Balance Sheet as at March 31, 2020, and the related Statement of Profit and Loss, the Statement of Changes in Equity and the Statement of Cash Flows Statement for the year then ended, and a summary of significant accounting policies and other explanatory information. These material weaknesses were considered in determining the nature, timing, and extent of audit tests applied in our audit of the March 31, 2020 standalone Ind AS financial statements of the Company and this report affects our report dated May 30, 2020, on which we have expressed a qualified opinion on those standalone Ind AS financial statements.

The Company is a "Loan company" engaged in the business of Non Banking Financial Institution as defined in section 45I(a) of the Reserve Bank of India Act, 1934.</p>
2	<p>Summary of Significant accounting policies</p>
2.1	<p>Preparation of financial statements</p>
2.1.1	<p>Basis for preparation</p> <p>The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time). The financial statements have been prepared under the historical cost convention, as modified by the application of fair value measurements required or allowed by relevant Accounting Standards. Accounting policies have been consistently applied to all periods presented, unless otherwise stated.</p> <p>The preparation of financial statements requires the use of certain critical accounting estimates and assumptions that affect the reported amount of assets, liabilities, revenues and expenses and the disclosed amount of contingent liabilities. Areas involving higher degree of judgement or complexity, or areas where assumptions are significant to the company are discussed in Note 2.2 - Use of estimates and judgements and Estimation uncertainty.</p> <p>The financial statements are presented in Indian Rupees (INR) and all values are rounded to the nearest Lakhs, except when otherwise indicated.</p> <p>The standalone financial statements were authorised for issue by the Company's Board of Directors at its meeting held on July 31, 2020.</p>
2.1.2	<p>Presentation of financial statements</p> <p>The financial statements of the Company are presented as per Schedule III (Division III) of the Companies Act, 2013 applicable to NBFCs, as notified by the Ministry of Corporate Affairs (MCA). Financial assets and financial liabilities are generally reported on a gross basis except when, there is an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event and the parties intend to settle on a net basis in the following circumstances:</p> <ol style="list-style-type: none"> i. The normal course of business ii. The event of default iii. The event of insolvency or bankruptcy of the Company and/or its counterparties
2.1.3	<p>Statement of compliance</p> <p>These standalone financial statements of the Company have been prepared in accordance with Indian Accounting Standards as per the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under Section 133 of the Companies Act, 2013 and the other relevant provisions of the Act.</p>
2.1.4	<p>Functional and presentation currency</p> <p>These financial statements are presented in Indian Rupees ('INR' or 'Rs.') which is also the Company's functional currency.</p>
2.1.5	<p>Basis of measurement</p> <p>The financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair values.</p>
2.1.6	<p>Measurement of fair values</p> <p>A number of Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. The Company has established policies and procedures with respect to the measurement of fair values. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:</p>

- Level 1: Quoted prices (unadjusted) in active markets for identical assets and liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

2.2 Use of estimates and judgements and Estimation uncertainty

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of the Company's accounting policies and the reported amounts of assets, liabilities, income, expenses and the disclosures of contingent assets and liabilities. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively. The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were issued. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Following are areas that involved a higher degree of estimate and judgement or complexity in determining the carrying amount of some assets and liabilities.

2.2.1 Effective Interest Rate (EIR) Method

"The Company recognizes interest income / expense using a rate of return that represents the best estimate of a constant rate of return" over the expected life of the loans given / taken. This estimation, by nature, requires an element of judgement regarding the expected behaviour and life-cycle of the instruments, as well as expected changes to other fee income/expense that are integral parts of the instrument."

2.2.2 Impairment of Financial Assets

The measurement of impairment losses on loan assets and commitments, requires judgement, in estimating the amount and timing of future cash flows and recoverability of collateral values while determining the impairment losses and assessing a significant increase in credit risk.

The Company's Expected Credit Loss (ECL) calculation is the output of a complex model with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL model that are considered accounting judgements and estimates include:

- The Company's criteria for assessing if there has been a significant increase in credit risk
- The segmentation of financial assets when their ECL is assessed on a collective basis
- Development of ECL model, including The various formulae and the choice of inputs

2.2.3 Provisions and other contingent liabilities

The reliable measure of the estimates and judgements pertaining to litigations and the regulatory proceedings in the ordinary course" of the Company's business are disclosed as contingent liabilities. "Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances."

2.3 First-time adoption of Ind AS – mandatory exceptions and optional exemptions

The Company has prepared the opening balance sheet as per Ind AS as of 1st April 2018 ("the transition date") by recognising all assets and liabilities whose recognition is required by Ind AS, not recognising items of assets or liabilities which are not permitted by Ind AS, by reclassifying items from Previous GAAP to Ind AS as required under Ind AS, and applying Ind AS in measurement of recognised assets and liabilities. However, this principle is subject to certain exceptions and certain optional exemptions availed by the Company as mentioned below:

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in Statement of profit and loss.</p>
2.8.2	<p>Classification and Subsequent measurement of financial assets-</p> <p>On initial recognition, a financial asset is classified as measured at</p> <ul style="list-style-type: none">- Amortised cost;- FVOCI - debt instruments;- FVOCI - equity instruments;- FVTPL <p>Amortised cost -</p> <p>The Company's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios being the level at which they are managed. Notes forming part of the Standalone IND AS Financial Statements for the year ended March 31, 2020*(All amounts in Rs Lakhs, except share data and where otherwise stated)***Subsequent measurement of financial assets**

Financial assets at amortised cost are subsequently measured at amortised cost using effective interest method. The amortised cost is reduced by impairment losses. Interest income and impairment losses are recognised in Statement of profit and loss. Any gain and loss on derecognition is recognised in Statement of profit and loss.

Debt investment at FVOCI are subsequently measured at fair value. Interest income under effective interest method, foreign exchange gains and losses and impairment are recognised in Statement of profit and loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to Statement of profit and loss.

For equity investments, the Company makes an election on an instrument-by-instrument basis to designate equity investments as measured at FVOCI. These elected investments are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the reserves. The cumulative gain or loss is not reclassified to Statement of profit and loss on disposal of the investments. These investments in equity are not held for trading. Instead, they are held for strategic purpose. Dividend income received on such equity investments are recognised in Statement of profit and loss.

Equity investments that are not designated as measured at FVOCI are designated as measured at FVTPL and subsequent changes in fair value are recognised in Statement of profit and loss. Financial assets at FVTPL are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in Statement of profit and loss.

2.8.3 Financial liabilities and equity instruments:**Classification as debt or equity -**

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments -

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by Company are recognised at the proceeds received. Transaction costs of an equity transaction are recognised as a deduction from equity.

Financial liabilities -

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-fortrading or it is a derivative or it is designated as such on initial recognition. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in Statement of profit and loss. Any gain or loss on derecognition is also recognised in Statement of profit and loss.

Financial guarantee contracts:

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

Financial guarantee contracts issued by the Company are initially measured at their fair values and, if not designated as at FVTPL, are subsequently measured at the higher of:

- the amount of loss allowance determined in accordance with impairment requirements of Ind AS 109 - Financial Instruments; and
- the amount initially recognised less, when appropriate, the cumulative amount of income recognised in accordance with the principles of Ind AS 18 - Revenue.

2.8.4	<p>Derecognition</p> <p>Financial assets</p> <p>The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset. If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.</p> <p>Financial liabilities</p> <p>A financial liability is derecognised when the obligation in respect of the liability is discharged, cancelled or expires. The difference between the carrying value of the financial liability and the consideration paid is recognised in Statement of profit and loss.</p>
2.8.5	<p>Offsetting</p> <p>Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.</p>
2.8.6	<p>Impairment of financial instruments</p> <p>Equity instruments are not subject to impairment under Ind AS 109. The Company recognises lifetime expected credit losses (ECL) when there has been a significant increase in credit risk since initial recognition and when the financial instrument is credit impaired. If the credit risk on the financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12 month ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition. 12 month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.</p> <p>The Company recognises lifetime ECL for other financial assets. The expected credit losses on these financial assets are estimated using a provision matrix based on the Company's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate. Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets. For debt securities at FVOCI, the loss allowance is recognised in OCI and carrying amount of the financial asset is not reduced in the balance sheet.</p>
2.8.7	<p>Write offs -</p> <p>The gross carrying amount of a financial asset is written off when there is no realistic prospect of further recovery. This is generally the case when the Company determines that the debtor/ borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities under the Company's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in Statement of profit and loss.</p>

2.9.1	<p>Short-term employee benefits</p> <p>Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the</p>

	<p>amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.</p>
2.9.2	<p>Gratuity -</p> <p>The Company's liability towards gratuity scheme is determined by independent actuaries, using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation. Past services are recognised at the earlier of the plan amendment / curtailment and recognition of related restructuring costs/ termination benefits.</p> <p>The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of profit and loss.</p> <p>Remeasurement gains/losses -</p> <p>Remeasurement of defined benefit plans, comprising of actuarial gains / losses, return on plan assets excluding interest income are recognised immediately in the balance sheet with corresponding debit or credit to Other Comprehensive Income (OCI). Remeasurements are not reclassified to Statement of profit and loss in the subsequent period. Remeasurement gains or losses on long-term compensated absences that are classified as other long-term benefits are recognised in Statement of profit and loss.</p>
2.10	<p>Finance costs :</p> <p>Finance costs include interest expense computed by applying the effective interest rate on respective financial instruments measured at Amortised cost - bank term loans, non-convertible debentures, fixed deposits mobilised, commercial papers, subordinated debts and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Finance costs are charged to the Statement of profit and loss.</p>
2.11	<p>Taxation:</p> <p>Income tax expense comprises of current tax and deferred tax. It is recognised in Statement of profit and loss except to the extent that it relates to an item recognised directly in equity or in other comprehensive income.</p>
2.11.1	<p>Current Tax: Current tax comprises amount of tax payable in respect of the taxable income or loss for the year determined in accordance with Income Tax Act, 1961 and any adjustment to the tax payable or receivable in respect of previous years. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.</p>
2.11.2	<p>Deferred Taxes: Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases.</p> <p>Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequence that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.</p> <p>Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary difference could be utilized. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.</p>
2.12	<p>Impairment of assets other than financial assets :</p> <p>The Company reviews the carrying amounts of its tangible and intangible assets at the end of each reporting period, to determine whether there is any indication that those assets have impaired. If any such indication exists,</p>

2.13	<p>the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Recoverable amount is determined for an individual asset, unless the asset does not generate cash flows that are largely independent of those from other assets or company of assets.</p> <p>Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pretax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted. If the recoverable amount of an asset (or cashgenerating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount.</p> <p>When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount such that the increased carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had been recognised for the asset (or cashgenerating unit) in prior years. The reversal of an impairment loss is recognised in Statement of profit and loss.</p> <p>Provisions :</p> <p>Provisions are recognised when there is a present obligation as a result of a past event, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate.</p> <p>The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.</p> <p>Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.</p>
2.14	<p>Earnings Per Share:</p> <p>Basic earnings per equity share is computed by dividing the net profit for the year attributable to the Equity Shareholders by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, sub-division of shares etc. that have changed the number of equity shares outstanding, without a corresponding change in resources. Diluted earnings per share is computed by dividing the net profit for the year, adjusted for the effects of dilutive potential equity shares, attributable to the Equity Shareholders by the weighted average number of the equity shares and dilutive potential equity shares outstanding during the year except where the results are anti-dilutive.</p>

However, the amount previously transferred to the general reserve can be utilised only in accordance with the specific requirements of Companies Act, 2013

- 27** Inter-Company loans/deposits given by the Company are on the basis that one of the main objects of the Company is to lend and is categorised as Loan Company. Accordingly, the Company has been advised that Section 186 of the Companies Act, 2013 is not applicable to the Company.
- 28 Investments - Sale of pledged shares by lenders**
- (i) During the year 2015-2016, the Company took a loan of Rs.500.00 Lakhs from Godavari Commercial Services Private Limited (Godavari) on the security of 10,00,000 equity shares of Gati Limited held by the Company. These shares re-pledged by Godavari with a third party, with the consent of the Company. The said shares were invoked by the third party in the year 2016-2017 on default by Godavari without there being any default by the Company. The Company took necessary legal recourse for restoration of the pledged shares and in terms of the settlement arrived at, Godavari agreed to restore the said invoked shares. During the year, Godavari restored 33,000 shares and balance 9,67,000 shares were yet to be restored. In view of the settlement agreement and further litigation raised by the Company, the said 9,67,000 equity shares in Gati Limited have been continued to be disclosed as "Investments"
- (ii) During the year 2015-2016, the Company has pledged 1,580,000 shares of Gati Limited held by the Company as Investments in favour of IDFC Bank Limited (IDFC) for facilities availed by M/s Gati Infrastructure Private Limited (GIPL) on receipt of Letter of Comfort from M/s Amrit Jal Ventures Private Limited (AJVPL) being the holding company of GIPL. The said shares were invoked by IDFC in the year 2016-2017 due to default made by GIPL. The Company also has taken necessary legal recourse for the restoration of the invoked shares. GIPL, AJVPL and the Company entered into a tripartite agreement for restoration such invoked shares to the Company. However, such restoration will take place only after GIPL repays all its dues to term loan lenders. Since GIPL is earning cash profits, the invoked 1,580,000 equity shares in Gati Limited have been continued to be disclosed as "Investments"
- (iii) During the year 2014-2015, the Company has pledged 805,000 equity shares of Gati Limited held by the Company as Investments in favour of IFCI Ventures Limited (IFCIV) for facilities availed by M/s Amrit Jal Ventures Private Limited (AJVPL). AJVPL had repaid the said loan, the Company had made request to IFCIV for release of pledged shares. However, during the year ended March 31, 2018, IFCIV invoked the said shares and transferred the same to Green India Ventures Fund (GIVF) for certain dues payable by AJVPL. The Company has taken necessary legal recourse for the restoration of the invoked shares. In view of the above, the invoked 805,000 equity shares in Gati Limited have been continued to be disclosed as "Investments".
- (iv) During the year under report, two lenders of the Company have sold 274,820 equity shares of Gati Limited held by the Company as Investments. Loss, being the difference between the Fair Value as at March 31, 2019 and on the date of sale – Rs. 121.77 Lakhs has been recognised and included in the Loss on Sale of Investments in Statement of Profit and Loss.
- 29** a) The Company has various exposures to Amrit Jal Ventures Pvt Ltd (AJVPL) in the form of investment in Equity Shares of AJVPL – Fair Value as at March 31, 2019 - Rs. 627.86 Lakhs (Gross Value of Investment – Rs. 1,500 Lakhs), investments in Optionally Convertible Debentures issued by AJVPL – Rs. 2,349.28 Lakhs, Inter Corporate Deposit (including tax deducted at source by AJVPL on interest but not remitted to the authorities) – Rs. 1,401.03 Lakhs and Interest accrued in 2018-19 – Rs. 242.94 Lakhs. Aggregate carrying value of exposures – Rs. 4,621.11 Lakhs. A Case has been filed by one of the Financial Creditors against AJVPL before NCLT, Hyderabad which has been admitted but appeal is pending before NCLAT, Delhi. In view of the adverse developments in AJVPL, management was expecting that the chances of recovery of these balances are remote. In view of the same, management made a provision for these balances. Further, no interest was recognised for year ended March 31, 2020 on such inter corporate loans and on Optionally Convertible Debentures

- b) Further, the Company in the earlier years, has given Corporate Guarantees to the lenders of AJVPL and it's wholly owned subsidiary – Gati Bhasmey Pvt Limited – aggregating to Rs. 31,336.71 Lakhs. During 2019 – 20, certain lenders of these entities have invoked the Guarantees and raised claims on the Company aggregating to Rs. 25,619.80 Lakhs. The Company has fair valued these claims and recognised an estimated amount of Rs. 7,798.91 Lakhs as it's liability as at March 31, 2020.

30 Liability for sale of shares of other entities given as guarantee for the loans availed by the Company:

During the year 2018 – 19, the Company availed borrowings from two lenders and by way of an amendment loan agreement, arranged the certain shares held by Mahendra Kumar Agarwal & son HUF and Manish Agarwal Benefit Trust (Guarantors) as an additional security for the said borrowings. The said lenders, due to defaults by Company have sold these shares and recovered their respective dues fully. As a result of this sale of shares given as an additional security, the Company has recognised the Fair Value of shares sold on the date of sale as interest free amount payable to said Guarantors – Rs. 246.69 Lakhs.

- 31 The Company has not recognised interest cost amounting to Rs. 35.55 Lakhs relating to the fourth quarter as there are some legal cases on the lenders. Management has decided not to recognise interest on those borrowings till the pending cases are crystallised.

32 Exposures to Mahendra Investment Advisors Private Limited (MIAPL):

As at March 31, 2020, the Company is having a carrying value of advances given to MIAPL Rs. 4,184.52 Lakhs. These advances include the fair value of 31,79,385 equity shares in Gati Limited held by the Company, invoked by the lenders of MIAPL given as guarantee by the Company. Fair Value of the said shares invoked by the lenders of MIAPL, as on the date of invocation aggregating to Rs. 2,379.13 Lakhs. The Company recognised the difference between the Fair Value of the said shares as on March 31, 2019 and the date of sale aggregating to Rs. 388.52 as loss and included the same in Loss on Sale of Investments in the Statement of Profit and Loss. Further the Company has interest receivable aggregating to Rs. 174.85 Lakhs as on March 31, 2020. Out of the said interest receivable, the Company could realise an amount of Rs. 109 Lakhs subsequent to March 31, 2020.

Management of the Company is expecting to recover the above said balances in it's entirety and is of the opinion that no provision is warranted at this moment.

- 33 **Going Concern** : During the year ended on March 31, 2020, the Company has incurred a loss of Rs. 8,059.28 Lakhs and as at March 31, 2020, the Company was having a negative networth of Rs. 4,307.71 Lakhs. Due to adverse developments in the entities to whom the company has advanced loans / given guarantees / investments made, the Company had incurred these losses and adversely affect the future income from operations. These factors substantially affected the operations of the Company and indicated uncertainties relating to the going concern status of the Company. Management of the Company is in the process of identifying various alternatives / new areas to venture into for reviving the company. In view of the same, financial statements of the company have been prepared on going concern basis.

c. Sensitivity analysis

Description of Risk Exposures

Valuations are performed on certain basic set of pre-determined assumptions which may vary over time. Thus, the Company is exposed to various risks in providing the above benefit which are as follows:

Interest Rate Risk: The plan exposes the Company to the risk of fall in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of liability (as shown in financial statements).

Liquidity Risk: This is the risk that the Company is not able to meet the short term benefit payouts. This may arise due to non availability of enough cash/cash equivalent to meet the liabilities or holding of illiquid assets not being sold in time.

Salary Escalation Risk: The present value of the above benefit plan is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase in salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.

Demographic Risk: The company has used certain mortality and attrition assumptions in valuation of the liability. The Company is exposed to the risk of actual experience turning out to be worse compared to the assumption.

Regulatory Risk: Gratuity benefit is paid in accordance with the requirements of the Payment of Gratuity Act, 1972 (as amended from time to time). There is a risk of change in regulations requiring higher gratuity payouts (for example, increase in the maximum liability on gratuity of ₹ 10 Lakhs).

Asset Liability Mismatching or Market Risk: The duration of the liability is longer compared to duration of assets exposing the company to market risks for volatilities/fall in interest rate.

Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate, expected salary increase and mortality. The sensitivity analysis below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

Off-setting of balances: Nil**ii. Impairment of financial assets**

The Company applies the simplified approach to providing for expected credit losses prescribed by Ind AS 109, which permits the use of the lifetime expected loss provision for trade advances. The Company has computed expected credit losses based on a provision matrix which uses historical credit loss experience of the Company.

The ECL allowance is based on the credit losses expected to arise over the life of the asset (the lifetime expected credit loss), unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12 months' expected credit loss).

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is the portion of Lifetime ECL that represent the ECLs that result from default events on a financial instrument that are possible within the 12 months after the reporting date. "Both Lifetime ECLs and 12-month ECLs are calculated on either an individual basis or a collective basis, depending on the nature of the underlying portfolio of financial instruments. The Company has grouped its loan portfolio into Business Loans, Secured loans for new vehicles, Secured loans for used vehicles and Equipment Finance Loans and large borrowers with exposure over Rs. 1 crore.

The Company has established a policy to perform an assessment, at the end of each reporting period, of whether a financial instrument's credit risk has increased significantly since initial recognition, by considering the change in the risk of default occurring over the remaining life of the financial instrument. The Company does the assessment of significant increase in credit risk at a borrower level. If a borrower has various facilities having different past due status, then the highest days past due (DPD) is considered to be applicable for all the facilities of that borrower.

Based on the above, the Company categorises its loans into Stage 1, Stage 2 and Stage 3 as described below:

Stage 1: All exposures where there has not been a significant increase in credit risk since initial recognition or that has low credit risk at the reporting date and that are not credit impaired upon origination are classified under this stage. The company classifies all standard advances and advances upto 30 days default under this category. Stage 1 loans also include facilities where the credit risk has improved and the loan has been reclassified from Stage 2.

Stage 2: All exposures where there has been a significant increase in credit risk since initial recognition but are not credit impaired are classified under this stage. 30 Days Past Due is considered as significant increase in credit risk.

Stage 3: All exposures assessed as credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of that asset have occurred are classified in this stage. For exposures that have become credit impaired, a lifetime ECL is recognised and interest revenue is calculated by applying the effective interest rate to the amortised cost (net of provision) rather than the gross carrying amount. 90 Days Past Due is considered as default for classifying a financial instrument as credit impaired. If an event (for eg. any natural calamity) warrants a provision higher than as mandated under ECL methodology, the Company may classify the financial asset in Stage 3 accordingly.

Particulars	Notes	Year ended March 31, 2019

a) Impact on recognition of Investments as per the fair valuation	6	5,307.71
b) Impact on recognition of corporate guarantee	6	(6,720.69)

Material adjustments on adoption of Ind AS are explained below:**1) Impact on recognition of profit on sale of investments**

Under the previous GAAP, the company has valued the investments at cost or market value which ever is lower. However, as per Ind AS, the investments were fair valued. Under previous GAAP, The profit or loss recognised in the statement of loss is the difference between the sale value and cost recognised in books. As per IND AS, the profit recognised the difference between the fair value as at the previous reporting period and sale value.

Both under previous GAAP and Ind AS, the Company recognised costs related to its post- employment defined benefit plan on an actuarial basis. Under previous GAAP, the entire cost, including actuarial gains and losses are charged to the statement of profit and loss. Under Ind AS, re-measurements comprising of actuarial gains and losses are recognise dimmediately in the balace sheet with a corresponding debit or credit to retained earnings through OCI. Thus, the employee benefits cost is reduced by such amount with a corresponding adjustment on defined benefit plans has been recognised in the OCI.

Investments in listed equity shares were fair valued as per the market price and investments in unlisted equity shares were valued based on the valuation techniques for which the lowest level of inputs that is significant to the fair value measurement is unobservable as at the reporting date in Ind AS financial statements.

4) Other financial liabilities

The Company has recognised the liability of the corporate guarantee given to the lenders of the group entities.
