In this regard, earlier we have informed regarding the measures taken by the Company, complying with all the guidelines, rules and regulations issued by the Central as well as State Government including WHO from time to time basis *vide* letter dated 26 March 2020.

We now wish to furnish the latest updates regarding impact of COVID-19 on the business of the Company as under:

**1. Impact of COVID-19 on the business:-**

KRBL's business is considered an 'Essential Services' as per the Ministry of Home Affairs (MHA). This classification has helped the Company to operate all the Factories optimally during the lockdown period.

At KRBL during the first few days of lockdown due to COVID-19, the curfew was imposed and all operations were completely stopped, we experienced constraints in transportation, availability of labour, logistics etc. in the initial 3-4 days. Thereafter the Government of India allowed production of essential goods which included food. Being an essential food company and simultaneous cooperation from local Administration and Government, we managed to overcome the obstacles and were able to streamline the process.

Further, Company's rice milling and processing units since March 2020 onwards are running at around 70%-80% level as compared to same period last year, which denotes that the impact was not material.

**2. Ability to maintain operations:-**

The Company has taken conscious decision through balance uninterrupted operations and ensuring a safe working environment. To ensure this, majority of the staff have been asked to report to work at their locations. The Company has also made necessary arrangements to ensure that these staff are safe and comfortable at work. The rest of the staff have been asked to work from home.

- **Supply Chain** - There has been no impact because we have sufficient quantities of both Basmati Rice and Paddy along with largest processing and storage facilities in the world.
  - Online sales have also seen significant growth, through all major e-commerce platforms such as Amazon, Flipkart, Grofers, Big Basket, Paytm Mall and several others. Further, we have recently collaborated with up Zomato and Swiggy to expand our reach to the end consumers.
- **Demand** – The Company have witnessed a sudden increase in requirement from the Retail channel because consumers advanced their purchase in the light of the nationwide lockdown. Also due to this, we have seen a quantum rise in volume dispatch, especially in the online channels to the extent of 2 times than the usual. The Modern Retail formats have increased their volumes by almost 75% post-lockdown.

On the other hand with respect to HoReCa (Hotels, Restaurants, and Catering) Segment, there is a considerable amount of loss. But the Company is quite confident that due to pandemic situation, the focus will be more on hygiene and packaged basmati rice will be of greater preference to the consumers.
