Airtel expands its network footprint in Solapur District under its rural enhancement project

Densifies its network across 1100 villages by deploying additional sites for seamless connectivity

Solapur, March 04, 2024: Bharti Airtel, one of India's leading telecommunications service providers, today announced that it has deployed additional sites in Solapur district to densify its network.

The Solapur network enhancement project was undertaken across 1100 villages covering a 27 Lac population base. Customers in the tehsils of Akkalkot, Barshi, Karmala, Madha, Malshiras, Mangalvedhe, Mohol, Pandharpur and Sangole under the Solapur district will directly benefit from this network enhancement. The expansion will enable seamless access to high-speed connectivity that will ensure reliable mobile network for work, study and entertainment in rural Solapur. In this year alone, Airtel has doubled down on its commitment to the state and has invested additional capex to enhance its network connectivity for seamless experience on 4G, 5G, Broadband and Fiber.

To expand coverage in rural villages in the state and to bring customers to enjoy the power of high-speed connectivity, the rural enhancement project covers nine districts of Maharashtra including Ahmednagar, Sambhaji Nagar, Bid, Jalgaon, Nashik, Solapur, Nanded, Jalna and Buldana.

Airtel has been running this rural enhancement project nationally and will augment network connectivity across 60,000 villages in the country by 2024. Maharashtra has been one of the big focus markets for the company and with this initiative, the company will augment its network coverage across 5000 villages covering the entire state.

With the aim of stepping up network capacity and taking services deeper into rural and unconnected areas. Airtel has also enhanced its fiber presence in the state by deploying additional capacities. The addition of fresh fiber capacity will support the growth of demand for high-speed data services in this region.

Airtel's network umbrella in the region now covers all key urban, semi urban and rural areas including highways, tourist destinations and trade centres.

About Airtel

Headquartered in India, Airtel is a global communications solutions provider with over five hundred million customers in 17 countries across South Asia and Africa. The company ranks amongst the top three mobile operators globally and its networks cover over two billion people. Airtel is India's largest integrated communications solutions provider and the second-largest mobile operator in Africa. Airtel's retail portfolio includes high-speed 4G/5G mobile broadband and Airtel Xstream Fiber that promises speeds up to 1 Gbps with convergence across linear and on-demand entertainment, streaming services spanning music and video, digital payments and financial services. For enterprise customers, Airtel offers a gamut of solutions that includes secure connectivity, cloud and data centre services, cyber security, IoT, Ad Tech and CPaaS (Airtel IQ).
