Integrated Manufacturing Unit in Gujarat

20 States & Union Territories ~ Presence

Kaka Industries is a house of brands. It has various brands to cater to the requirements of the customers in different categories and prices.

House of Brands

Premium quality & affordable High Volume Low Speed (HVLS) fans

High range product in hollow PVC profile with premium quality

Low range hollow PVC
Profile - Affordable product

High brand product in UPVC window with premium quality

Low range UPVC window, Affordable product

The ultimate PVC roofing solution for humid and coastal environments

Tailored for perfect compatibility with PVC sheets

Chairman / Managing Director

Mr. Rajesh Gondaliya

With 22+ years of experience, has steadfastly led Kaka Industries Ltd to achieve record production levels while maintaining core values.

His commitment to growth and stability in dynamic market conditions has solidified KAKA as a prominent brand in the PVC & UPVC industry.

His leadership has been marked by a strong commitment to both growth and stability, effectively navigating through various market fluctuations & challenges.

Through strategic vision and tactical management, Mr. Rajesh Gondaliya has created a phenomenal growth path for the distinct manufacturing and distribution operations of exceptional PVC, uPVC, and WPC solutions for domestic and commercial applications.

Key Management

Mr. Bhavin Gondaliya

Executive & Whole Time Director

- Bhavin Gondaliya is the youngest yet potentially prominent representative of the Kaka Industries Limited and is dedicated to the companys' growth.
- He has hands-on experience on the factory floor and complete knowledge of the production processes.
- With a background in commerce, he has made his fair share of contributions to cost minimization and revenue enhancement.

Mr. Chintan Bodar

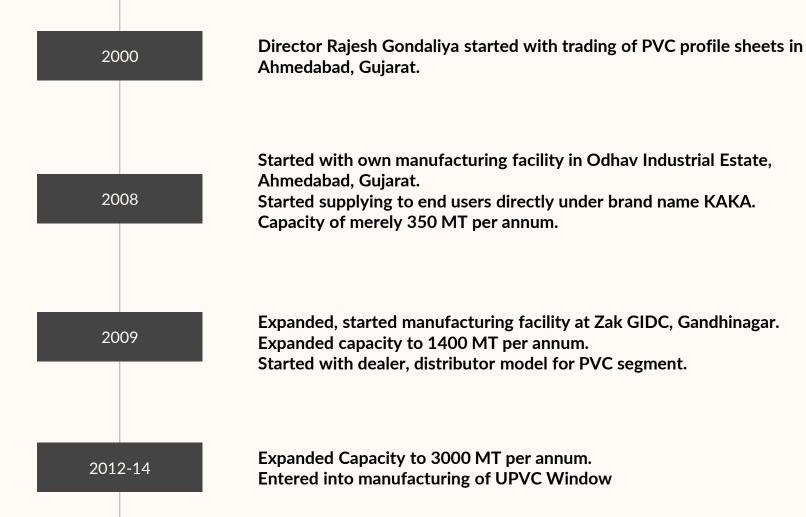

Chief Financial Officer

- Mr. Chintan Bodar is a highly experienced CFO with a commerce background and boasts 13+ years of experience in financial management.
- He is a CA by profession and plays a central role in driving cost minimization, revenue enhancement & the overall financial performance underpinning Kaka Industries Ltd.'s success.
- He is not just the financial backbone of the company but also involved in handling investor relations and was instrumental in leading the company to a successful IPO.

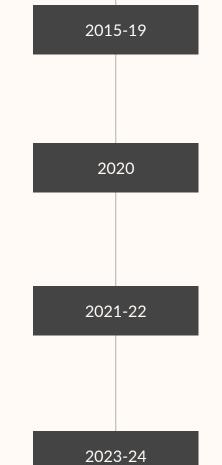

Entered into manufacturing of WPC Solid Sheet (Solid foam-board Sheet) Incorporated Kaka Industries Limited and shifted business from proprietorship concern to company.

Started with Depot at Gagilapur, Hyderabad to cater demand in South India. Acquired the profile sheet machinery setup of our Group Company, Kaka Engineering Private Limited and started manufacturing profile sheets in the same year itself.

Started Depot in Surat & Ghaziabad, Uttar Pradesh. Kaka formed a partnership firm, namely, Shri Rang Energy Efficient which has been considered as a Joint Venture.

Increased capacity of PVC Profile to 30,689 MT from 15,425 MT in the new Lasundra Plant.

Added new products in the portfolio – SPC Flooring, HVLS Fans & more.

Business Overview

Product Segmentation

PVC Profile

Polyvinyl chloride (PVC) Profile is used in end-products such as furniture, Wall panel, Ceiling Panel, Decorative Product, Doors, Partition etc.

WPC Solid Profile & Sheet

Wood plastic composite (WPC) Solid Profile is used mainly for making doors, door frames and furniture.

UPVC Door & Window Profile

Unplasticized Polyvinyl Chloride (UPVC), is a low conductor of heat & an energy efficient product. It has low maintenance & is known for its' durability & customizable options.

KAKA PVC PROFILE

Going Green With PVC

DESIGN FLEXIBILITY

PVC allows for a wide range of design possibilities, which can lead to innovative and space-saving furniture designs, further enhancing resource efficiency.

REDUCED DEFORESTATION

PVC furniture eliminates the need for cutting down trees to produce wooden furniture. This helps in the conservation of forests, which play avital maintain in biodiversity and climate change.

RESISTANCE TO PESTS & DECAY

PVC furniture is not susceptible to pests, rot, or decay, eliminating the need for chemical treatments or preservatives often used in wooden furniture.

RESOURCE CONSERVATION

PVC is a synthetic material made from readily available raw materials. Its production consumes fewer natural resources compared to the logging and processing of wood.

LONGEVITY

PVC furniture is often more durable and weather-resistant than wooden furniture. This longevity means less frequent replacement, reducing overall consumption and waste.

The use of PVC (polyvinyl chloride)
furniture as a replacement for wooden
furniture can indeed contribute to
sustainability & environmental protection
in several ways:

REDUCED CARBON FOOTPRINT

PVC production can have a lower carbon footprint compared to wood processing and transportation, especially when wood comes from distant sources.

RECYCLABILITY

PVC can be recycled, and some manufacturers offer recycled PVC options. Recycling PVC reduces the demand for new PVC production and minimizes waste in landfills.

KAKA PVC PROFILE

Why Kaka Industries?

Extensive network of dealers covering major parts of India

300+

Dealers

20 States & Union Territories in India

3 Depots -> Telangana, Uttar Pradesh & Gujarat

INVESTOR PRESENTATION CONTROL OF THE PROPERTY OF THE PROPERTY

Way Forward

- Undertake marketing initiatives to increase the visibility in the market & create a strong brand recall.
- Hire additional sales & marketing team focused primarily on penetrating the untapped market.

- Gradually shift existing manufacturing operations (phase-wise) from the existing three facilities to the new 49,000 sq. meters. facility.
- New Plant & Machinery will be more automated to reduce human intervention and decrease the scope of human error leading to higher efficiency and production output.

Expand domestic presence in existing & new markets

- Focus on current markets in increase the customer base.
- Tap new market to increase geographical reach.

Ramping up production of new products

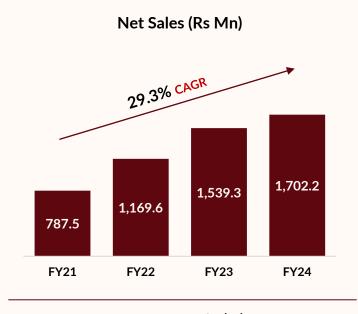

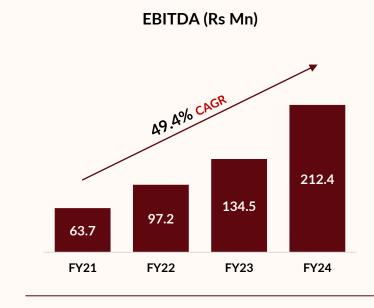

- PVC Laminates
- Roofing Solutions
- Panels
- WPC Louvers
- · Charcoal Panels
