Brokerage upgrades lift Zee

The stock may see a further re-rating if the firm sticks to its pledge on free cash flow and corporate governance

RAM PRASAD SAHU
Mumbai, 19 August

The Zee Entertainment Enterprises (ZEE) stock has gained over 13 per cent after brokerages upgraded it on the back of improved disclosures, reconstitution of the board, and management commentary on free cash-flow generation.

WEAK NEAR-TERM OUTLOOK

ON THE RISE

In addition to the upgrades, a favourable judgment by the Bombay High Court on a YES Bank petition seeking to enforce personal guarantees against ZEE's promoters boosted the sentiment.

The other positive is an improvement on the operating front. While the company reported a 66 per cent fall in domestic advertising revenues in the quarter, given weak corporate spending, it believes the trend is reversing with advertisers gradually coming back, led by the FMCG sector.

A key trigger has been improved disclosures by the company, which include quarterly balance sheets, performance metrics for Zee5, and the strengthening of corporate governance policies.

Unlike advertising, domestic subscription revenues posted growth of 6 per cent year-on-year (YoY) on a higher base, led by subscription sales from its over-the-top (OTT) application, Zee5.

While the company will continue to invest in its digital assets, it will be an uphill task to breakeven at the operating level and gain scale. Zee5 accounts for 7 per cent of its operating revenue currently.

Though operating costs came down as there was limited new content in the first two months of the quarter, flattish employee expenses, purchase of licensed content, and home-based content creation offset the drop in programming costs.

In complex tax matters, opt for videoconferencing

Make an elaborate submission as well to eliminate ambiguity

BINDISHA SARANG

Facing a tax official, whether for assessment, appeal or any other tax administration-related issue, can be intimidating.

According to Naveen Wadhwa, deputy general manager, Taxmann, "Faceless assessment is meant to eliminate physical interface between the taxpayer and the assessing officer (AO) during the assessment proceedings.

HOW FACELESS ASSESSMENT WILL WORK

- The National e-Assessment Centre (NeAC) will issue notice/communication to the assessee via email
■ The assessee will have to reply, via the e-filing portal, within 15 days of its receipt
■ The centre will assign the case to an assessment unit and a technical unit for review
■ NeAC will collect review details and send it to the Regional Electronic Assessment Centre, which will examine and draft the assessment order
■ The assessee will be given a chance to defend his case

The National e-Assessment Centre will act as the main gateway for communication between taxpayers and the tax authorities. Says Kapil Rana, founder and chairman, HostBooks: "Regular AOs will no longer have the power to conduct surveys and search.

Taxpayers will be selected for assessment and other procedures through a system that uses data analytics, artificial intelligence, and machine learning.

Act and the Benami Property Act are also excluded.

Exceptions can be made in cases where the assessee feels the need for a personal hearing. Says Wadhwa: "An assessee may request for a personal hearing to make oral submissions or present his case."

YOUR MONEY

The objective of faceless assessment is to make the tax administration objective, transparent, and corruption-free.

Sometimes, it is easier to explain a matter face-to-face than over email, especially for people not well-versed in English.

BEEFING UP RATIOS

SBI moves to boost capital via tier-II bonds

BLOOMBERG 19 August

State Bank of India priced the country's biggest offering of local-currency tier-II bonds yet as the lender boosts its capital buffers amid the worsening financial health of domestic companies.

India's largest bank looks to raise ₹8,931 crore (\$1.19 billion) through 15-year bonds that comply with Basel III capital

norms, according to a person familiar with the matter. The notes carry a coupon of 6.8 per cent, the lowest pricing on such debt issued by any lender since the country

started implementing the stringent capital norms in 2013, the data compiled by Bloomberg shows. The lender is selling the bonds at a time when India's banking sector is saddled with the world's worst debt pile and needs to beef up capital ratios in anticipation of more sourced loans as the coronavirus batters businesses and leaves millions jobless.

cut its loan-growth target to 8 per cent from 10 per cent for the year started April 1, and said it will be cautious on boosting credit. The tier-II notes, rated AAA, have a call option at the end of 10 years and every year thereafter, the person said, asking not to be identified as the details are private.

L&T Finance weighs ₹3,367-cr rights issue

L&T Finance Holdings is exploring a plan to raise around \$450 million (₹3,367.5 crore) through a rights issue, people familiar with the matter said.
