## 3. Significant sales during the festive season and other significant seasons is experienced by our Company. In case, we are unable to cope up with our service during this time, then our revenues and profitability will be affected and have a negative effect on our image and brand.

The sales volume for our business completely depends on the consumer demand. Polished and rough diamonds are generally in significantly high demand during the festival seasons and other significant occasions like Diwali, New Year, Christmas, Valentine's Day and during wedding seasons which occurs in the third and fourth quarter of the fiscal year. Any significant shortfall in sales during this period, would affect our profitability and we would experience adverse effect on our results of operations. While we may stock our products during this period, our fixed costs such as lease rentals, employee salaries, and logistics-related expenses, which form a significant portion of operating costs, are relatively constant throughout the year. Consequently, lower than expected net sales during the third or fourth quarters of the fiscal year or more

pronounced seasonal variations in sales in the future could have a disproportionate impact on our operating results for the fiscal year, or could strain our resources and impair our cash flows. Any slowdown in demand for polished and rough diamonds during the peak seasons or failure by us to accurately anticipate and prepare for such seasonal fluctuations could have a material adverse effect on our business, financial condition and results of operations.

Further, we have limited ability to compensate for shortfalls in our sales or income during such periods by introducing changes in operations and strategies for rest of the year, or to recover from any extensive disruption; for example due to sudden adverse changes in consumer confidence, global pricing of polished and rough diamonds or lower disposable income, etc. As a result of the above, our half yearly financial results may not be comparable or a meaningful indicator of our futuristic performance. Any analysis of our financial results on a quarter-on-quarter basis may be perceived as negative indicator of our growth, which may adversely impact market price of our Equity Shares.

## 4. The non-availability or high cost of quality diamonds may have an adverse effect on our business, results of operations, financial condition and prospects.

Our Company is into the trading business of diamonds. Hence, diamond is the only product sold by our company. The procurement of diamonds in time as well as the authenticity, quality and the price, at which we procure, play an important role in the successful operations of our business. Diamond is the only product that we trade in and is primarily sourced from the domestic market and from reputed suppliers. We typically place our purchase orders for diamonds on a spot basis with limited number of diamond suppliers. However, we and have not entered into any long-term contracts with them. Further, we purchase diamonds on a fixed payment basis; i.e. the price and the credit period is fixed at the time of purchase. Should any of our suppliers cease to be able or willing to continue supplying us with diamonds on terms that are acceptable to us, we may have to find other suppliers. There can be no assurance that such other suppliers will be able to meet our needs or be as reliable or provide diamonds of the same quality at the same prices as our current suppliers. Any disruption of supplies from our current diamond suppliers or a failure to adequately replace them may materially and adversely affect our business, results of operations, financial condition and prospects.

Additional, in the recent years, there has been a significant increase in the cost of rough and polished diamonds, which has resulted in an increase in our operational cost. We cannot assure you that we will be able to procure quality rough and polished diamonds at competitive prices or at all. In addition, if for any reason, our primary suppliers of rough and polished diamonds should curtail or discontinue their delivery to us, in the quantities we need and at prices that are competitive, our ability to meet our material requirements for our operations could be impaired, our delivery schedules could be disrupted and our business and reputation may be adversely affected. Further, any rise in rough and polished diamond prices may cause customers to delay their purchases, thereby adversely affecting our business, operations and financial condition.

## 5. If we are unable to collect our receivables from our clients, our results of operations and cash flows could be adversely affected.

As of December 31, 2021, we had trade receivables of Rs. 4208.77 Lakhs which were outstanding for a period less than six months. Our business depends on our ability to successfully obtain payment from our customer(s) for our products sold to them.

We typically bill and collect on relatively short cycles and maintain provisions against receivables and unbilled services. Actual losses on client balances could differ from those that we currently anticipate and as a result we might need to adjust our provisions. Macroeconomic conditions could also result in financial difficulties, including insolvency or bankruptcy, for our clients, and as a result could cause clients to delay payments to us, request modifications to their payment arrangements that could increase our receivables balance or working capital requirements, or default on their payment obligations to us.

Recovery of our receivables and timely collection of client balances also depends on our ability to complete our contractual commitments and bill and collect our contracted revenues. If we are unable to meet our contractual requirements, we might experience delays in collection of and/or be unable to collect our client balances, and if this occurs, our results of operations and cash flows could be adversely affected. In addition, if we experience an increase in the time to bill and collect for our services, our cash flows could be adversely affected.

Many of these approvals are granted for fixed periods of time and need renewal from time to time. There can be no assurance that the relevant authorities will issue any of such permits or approvals in time or at all. Further, these permits, licenses and approvals are subject to several conditions, and our Company cannot assure that it shall be able to continuously meet such conditions or be able to prove compliance with such conditions to statutory authorities, and this may lead to cancellation, revocation or suspension of relevant permits/ licenses/ approvals. Failure by our Company to renew, maintain or obtain the required permits, licenses or approvals, or cancellation, suspension or revocation of any of the permits, licenses or approvals which may result in the interruption of our Company's operations and may have a material adverse effect on the business. For details please refer to Chapter titled "Government and Other Statutory Approvals" beginning on page no.149 of the Draft Letter of Offer.

As per the leave & license agreement the lease is for a period of 36 months and any non-compliance by us in relation to any term of lease may result in the termination of the leave & license agreement and consequently we have to vacate the said premises. We also cannot assure you that lessor will not terminate the leave & license agreement, which would require us to locate to another premise and may have an adverse effect on our conducting our business operations.

## 9. The company has not registered any of its Trade Mark. The company in future may register it depending on the future requirements. Any delay in making an application and/or granting registration or in obtaining registration could result in loss of brand equity and the company's right to use the said brand.

The company is required to make an application to the Trade Mark Registry, Gujarat to register its brands-"

company name-"Gautam Gems" and logo " <sup>26</sup>". The company has not made application for registration of its trademarks. Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet its capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If we are not able to generate sufficient cash flow, it may adversely affect our business and financial operations. For further details please refer to the section titled "Financial Statements" and chapter titled "Management's Discussion and Analysis of Financial Conditions and Results of Operations" beginning on page no. 57 and page no. 135 respectively, of this Draft Letter of Offer.

### 12. Our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures.

We have not paid any dividends since incorporation. Our future ability to pay dividends will depend on our earnings, financial condition and capital requirements. Dividends distributed by us will attract dividend distribution tax at rates applicable from time to time. There can be no assurance that we will generate sufficient income to cover the operating expenses and pay dividends to the shareholders.

Our ability to pay dividends will also depend on our expansion plans. We may be unable to pay dividends in the near or medium term, and the future dividend policy will depend on the capital requirements and financing arrangements for the business plans, financial condition and results of operations.

### 13. We have entered into certain related party transactions and may continue to do so.

We have entered into related party transactions with our Promoters, its group members/ entities, Directors and other associates. While we believe that all such transactions have been conducted on the arms length basis, however it is difficult to ascertain whether more favorable terms would have been achieved had such transactions been entered with unrelated parties. Furthermore, it is likely that we will continue to enter into related party transactions contained in the financial statements included in this Draft Letter of Offer and, also see the section "Related Party Transactions" beginning on page no. 131 of this Draft Letter of Offer.

### 14. Failure to manage our inventory could have an adverse effect on our net sales, profitability, cash flow and liquidity.

Our results of operations are dependent on our ability to effectively manage our inventory. To effectively manage our inventory, we must be able to accurately estimate customer demand and supply requirements and purchase new inventory accordingly. If our management has misjudged expected customer demand it could adversely impact the results by causing either a shortage of merchandise or an accumulation of excess inventory. Further, if we fail to sell the inventory we manufacture or purchase, we may be required to recycle our inventory, which would have an adverse impact on our income and cash flows.

### 15. Negative Publicity with respect to our products or the industry in which we operate could adversely affect our business, financial condition and results of operations.

Our business is dependent on the trust that our customers have in the quality and authenticity of the rough and polished diamonds we sell to them. Any negative publicity regarding our products, our Company, or Gems and Jewellery industry generally could adversely affect our reputation and our results of operations. Customer preferences could be affected by a variety of issues including non-acceptance of diamonds from specific regions and a decrease in the perceived value and customer satisfaction of the rough and polished diamonds compared to its price.

### 16. Ineffective execution of marketing programs and reduced marketing expenditure could have an adverse effect on our sales.

Being a trader in the diamond industry, our primary factors in determining retailers buying decisions in the wholesale business includes customer confidence, price points for our products, timely delivery of our products, designs together with the level and quality of customer service. The ability to differentiate our products from competitors by its branding, marketing and advertising programs is an important factor in attracting retailers and consumers. As a result, from time to time we will be undertaking brand building exercise and marketing programs to enhance our brand visibility. If these programs are ineffectively executed or the level of support for them is reduced, it could affect our ability to attract customers. Further, we cannot assure you that we will be able to accurately estimate our marketing expenditure for wholesale and or retail operations. In case our marketing expenses are lesser than market standards, our marketing programs may be perceived ineffective. However, if our marketing expenses are higher than the market standards, it may adversely affect our income and results of operations.

### 17. We have not entered into any long-term contracts with any of our customers and orders are not backed-up by a letter of credit facility.

We do not have any long-term contracts with our customers and any change in the buying pattern of the customers could adversely affect the business of our Company. Although we have satisfactory business relations with our customers and have received continued business from them in the past, there is no certainty that the same will continue in the years to come and may affect our profitability.

### 18. Our success depends largely on our senior management and our ability to attract and retain our key personnel.

Our success is dependent on our management team whose loss could seriously impair the ability to continue to manage and expand business efficiently. Our success largely depends on the continued services and performance of our management and other key personnel. The loss of service of the Key Managerial Personnel and other senior management could seriously impair the ability to continue to manage and expand the business efficiently. Further, the loss of any of the senior management or other key personnel may adversely affect the operations, finances and profitability of our Company. Any failure or inability of our Company to efficiently retain and manage its human resources would adversely affect our ability to expand our business.

# 19. We are dependent on our Promoter, our senior management, directors and key personnel of our Company for success whose loss could seriously impair the ability to continue to manage and expand business efficiently.

Our Promoter, Directors, senior management and key managerial personnel collectively have many years of experience in the industry and are difficult to replace. They provide expertise which enables us to make well informed decisions in relation to our business and our future prospects. For further details of our Directors and key managerial personnel, please refer to Section "Our Management" on page 76 of this Draft Letter of Offer. Our success largely depends on the continued services and performance of our management and other key personnel. The loss of service of the Promoters and other senior management could seriously impair the ability to continue to manage and expand the business efficiently.

Further, the loss of any of the senior management or other key personnel may adversely affect the operations, finances and profitability of our Company. Any failure or inability of our Company to efficiently retain and manage its human resources would adversely affect our ability to implement new projects and expand our business.

## 20. We face competition in our business from organized and unorganized players, which may adversely affect our business operation and financial condition.

The diamond trading sector is highly fragmented and competitive. Our Company would not only compete with organized players but also a high percentage of unorganized players at local, national and international levels. Some of them may offer better quality diamonds at competitive prices and may be capable of providing more personalized services to each client due to the smaller number of orders placed with them. Further, these unorganized player offer their services at highly competitive prices having well established presence in their local markets. Aggressive discounting by competitors, including liquidating excess inventory, may also adversely impact our performance in the short term. This is particularly the case for easily comparable prices for rough and polished diamonds, for similar quality diamonds sold through wholesaler, retailers and other traders.

In addition, there are minimal entry barriers in this sector and hence the may also face competition from new entrants. Some of our employees, who have disassociate themselves from the Company, may also compete with our Company.

# 21. Any change in our consumer's likes, preferences or a change in their perception regarding the quality of our products may negatively affect the image and our reputation and in turn affect our revenues and profitability.

The industry in which we operate is highly competitive and where goodwill and reputation are of huge significance. Although we have been in the business of trading rough and polished diamonds, any change in consumer's likes, preferences or a change in their demands regarding the quality and authenticity of our products, may negatively affect the image and reputation of our products and consequently that our Company. Further, such incidences may expose our Company to liabilities and claims, adversely affect our reputation, growth and profitability.

### 22. Delays or defaults in client payments could result in reduction of profits.

The Company regularly commits resources to slew of projects prior to receiving advances or other payments from clients in amounts sufficient to cover expenditures on projects as it has incurred. It may be subject to working capital shortages due to delays or defaults in client payments. If clients default in their payments on a project to which the Company has devoted significant resources or if a project in which it has invested significant resources is delayed, cancelled or does not proceed to completion, it could have an adverse effect on the Company's business, financial condition and results of operations.

### 23. Our Company may require additional capital resources to achieve our expansion plans.

The rate of our expansion will depend to an extent on the availability of adequate debt and equity capital. Further, the actual expenditure incurred may be higher than current estimates owing to but not limited to, implementation delays or cost overruns. We may, therefore, primarily try to meet such cost overruns through our internal generations and in case if the same is not adequate, we may have to raise additional funds by way of additional term debt from banks/ financial institutions and unsecured loans, which may have an adverse effect on our business and results of operations.

### 24. Our Promoter and members of the Promoter Group have significant control over the Company and have the ability to direct our business and affairs; their interests may conflict with your interests as a shareholder.

After the completion of the Issue, our Promoter and the members of the Promoter Group will hold approximately 21.41% of the paid-up equity share capital of our Company assuming full subscription to the Rights Entitlement in the Issue. Our Promoter and the members of the Promoter Group holding Equity Shares in our Company, have undertaken to fully subscribe for their Rights Entitlement. They reserve the right to subscribe for their Rights Entitlement pursuant to any renunciation made by any member of the Promoter Group to another member of the Promoter Group. Such subscription for Equity Shares over and above their Rights Entitlement, if allotted, may result in an increase in their percentage shareholding above their current percentage shareholding. So long as the Promoter has a majority holding, he will be able to elect the entire Board and control most matters affecting us, including the appointment and removal of the officers of our Company, our business strategy and policies and financing. Further, the extent of the Promoter's shareholding in our Company may result in the delay or prevention of a change of management or control of our Company, even if such a transaction may be beneficial to the other shareholders of our Company.

## 25. Our funding requirements and deployment of the issue proceeds are based on management estimates and have not been independently appraised by any bank or financial institution.

Our funding requirements and the deployment of the proceeds of the Issue are based on management estimates and our current business plan. The fund requirements and intended use of proceeds have not been appraised by bank or financial institution and are based on our estimates. In view of the competitive and dynamic nature of our business, we may have to revise our expenditure and fund requirements as a result of variations including in the cost structure, changes in estimates and other external factors, which may not be within the control of our management. This may entail rescheduling, revising or cancelling the planned expenditure and fund requirement and increasing or decreasing the expenditure for a particular purpose from its planned expenditure at the discretion of our Board. In addition, schedule of implementation as described herein are based on management's current expectations and are subject to change due to various factors some of which may not be in our control.

## 26. Our Company's management will have flexibility in utilizing the Net Proceeds. There is no monitoring agency appointed by our Company and the deployment of funds is at the discretion of our Management and our Board of Directors, though it shall be monitored by our Audit Committee.

The deployment of the funds towards the objects of the issue is entirely at the discretion of the Board of Directors and is not subject to monitoring by external independent agency. As per SEBI (ICDR) Regulations, 2018, as amended, appointment of monitoring agency is required only for Issue size above `10,000.00 lakhs. Hence, we have not appointed any monitoring agency to monitor the utilization of Issue proceeds. However, the audit committee of our Board will monitor the utilization of Issue proceeds in terms of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. Further, our Company shall inform about material deviations in the utilization of Net Issue Proceeds to the BSE Limited and shall also simultaneously make the material deviations / adverse comments of the audit committee public. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our financials.

### 27. Any variation in the utilization of the Net Proceeds as disclosed in this Draft Letter of Offer shall be subject to certain compliance requirements, including prior Shareholders' approval.

In accordance with Section 27 of the Companies Act, 2013, we cannot undertake any variation in the utilization of the Net Proceeds as disclosed in this Letter of Offer without obtaining the shareholders' approval through a special resolution. In the event of any such circumstances that requires us to undertake variation in the disclosed utilisation of the Net Proceeds, we may not be able to obtain the Shareholders' approval in a timely manner, or at all. Any delay or inability in obtaining such Shareholders' approval may adversely affect our business or operations. Further, our Promoters or controlling shareholders would be required to provide an exit opportunity to the shareholders who do not agree with our proposal to modify the objects of the Issue as prescribed in the SEBI (ICDR) Regulations. If our shareholders exercise such exit option, our business and financial condition could be adversely affected. Therefore, we may not be able to undertake variation of objects of the Issue to use any unutilized proceeds of the Issue, if any, even if such variation is in the interest of our Company, which may restrict our ability to respond to any change in our business or financial condition, and may adversely affect our business and results of operations.

### 28. Certain data mentioned in this Letter of Offer has not been independently verified.

We have not independently verified data from industry publications contained herein and although we believe these sources to be reliable, we cannot assure that they are complete or reliable. Such data may also be produced on a different basis from comparable information compiled with regard to other countries. Therefore, discussions of matters relating to India and its economy are subject to the limitation that the statistical and other data upon which such discussions are based have not been verified by us and may be incomplete or unreliable.

### **ISSUE SPECIFIC RISKS**

## 29. Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.

The Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and Eligible Equity Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for the dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue. Renouncees may not be able to apply in case of failure in completion of renunciation through off-

market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renouncees prior to the Issue Closing Date. Further in case the Rights Entitlements do not get credited in time, in case of On Market Renunciation, such Renouncee will not be able to apply in this Issue with respect to such Rights Entitlements.

# 30. Any future issuance of the Equity Shares, or convertible securities by our Company may dilute your future shareholding and sales of the Equity Shares by our Promoters or other major shareholders of our Company may adversely affect the trading price of the Equity Shares.

Any future issuance of the Equity Shares, or convertible securities by our Company, including through exercise of employee stock options or restricted stock units may lead to dilution of your shareholding in our Company, adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. Further, any future sales of the Equity Shares by the Promoters and members of our Promoter Group, or other major shareholders of our Company may adversely affect the trading price of the Equity Shares.

### 31. You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares of an Indian company are generally taxable in India. Any gain realized on the sale of listed equity shares on a stock exchange held for more than 12 months will not be subject to long-term capital gains tax in India if Securities Transaction Tax (STT) is paid on the sale transaction and additionally, as stipulated by the Finance Act, 2017, STT had been paid at the time of acquisition of such equity shares, except in the case of such acquisitions where STT could not have been paid, as notified by the GoI under notification no. 43/2017/F. No. 370142/09/2017-TPL on June 5, 2017. However, Finance Act, 2018, taxes such long term capital gains exceeding ₹1 lakh arising from sale of equity shares on or after April 1, 2018. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short-term capital gains tax in India. Capital gains arising from the sale of the Equity Shares may be partially or completely exempt from taxation in India in cases where such exemption is provided under a treaty between India and the country of which the seller is a resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on gains made upon the sale of the Equity Shares.

### 32. You may not receive the Equity Shares that you subscribe in the Issue until fifteen days after the date on which this Issue closes, which will subject you to market risk.

The Equity Shares that you subscribe in the Issue may not be credited to your demat account with the depository participants until approximately 15 days from the Issue Closing Date. You can start trading such Equity Shares only after receipt of the listing and trading approval in respect thereof. We cannot assure you that the Equity Shares allocated to you will be credited to your demat account, or that trading in the Equity Shares will commence within the specified time period, subjecting you to market risk for such period.

## 33. Investors will not have the option of getting the Allotment of Rights Equity Shares in physical form and the Rights Entitlement of Eligible Equity Shareholders holding Equity Shares in physical form ("Physical Shareholders") may lapse in case they fail to furnish the details of their demat account to the Registrar.

In accordance with Regulation 77A of the SEBI ICDR Regulations read with the SEBI Rights Issue Circular, the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialised form only. Accordingly, the Rights Entitlements of the Physical Shareholders shall be credited in a suspense escrow demat account opened by our Company during the Issue Period. The Physical Shareholders are requested to furnish the details of their demat account to the Registrar not later than two Working Days prior to the Issue Closing Date to enable the credit of their Rights Entitlements in their demat accounts at least one day before the Issue Closing Date. The Rights Entitlements of the Physical Shareholders who do not furnish the details of their demat account to the Registrar not later than two Working Days prior to the Issue Closing Date, shall lapse. Further, pursuant to a press release dated December 3, 2018 issued by the SEBI, with effect from April 1, 2019, a transfer of listed Equity Shares cannot be processed unless the Equity Shares are held in dematerialized form (except in case of transmission or transposition of the Equity Shares and except the pending transfers). For details, refer chapter titled "Terms of the Issue – Procedure for Application by Eligible Equity Shareholders holding Equity Shares in physical form" on page 164 of this Draft of Letter of Offer.

#### 34. Applicants to this Issue are not allowed to withdraw their Applications after the Issue Closing Date.

In terms of the SEBI ICDR Regulations, the Applicants in this Issue are not allowed to withdraw their Applications after the Issue Closing Date. The Allotment in this Issue and the credit of such Equity Shares to the Applicant's demat account with its depository participant shall be completed within such period as prescribed under the applicable laws. There is no assurance, however, that material adverse changes in the international or national monetary, financial, political or economic conditions or other events in the nature of force majeure, material adverse changes in our business, results of operation or financial condition, or other events affecting the Applicant's decision to invest in the Issue Shares, would not arise between the Issue Closing Date and the date of Allotment in this Issue. Occurrence of any such events after the Issue Closing Date could also impact the market price of our Equity Shares. The Applicants shall not have the right to withdraw their Applications in the event of any such occurrence. We cannot assure you that the market price of the Equity Shares will not decline below the Issue Price. To the extent the market price for the Equity Shares declines below the Issue Price after the Issue Closing Date, the shareholder will be required to purchase Issue Shares at a price that will be higher than the actual market price of the Equity Shares at that time. Should that occur, the shareholder will suffer an immediate unrealized loss as a result. We may complete the Allotment even if such events may limit the Applicants' ability to sell our Equity Shares after this Issue or cause the trading price of our Equity Shares to decline.

### 35. Investors will be subject to market risks until the Issue Shares credited to their demat accounts are listed and permitted to trade.

Investors can start trading the Issue Shares allotted to them only after they are listed and permitted to trade. Since the Equity Shares are currently traded on the Stock Exchange, investors will be subject to market risk from the date they pay for the Issue Shares to the date when trading approval is granted for them. Further, we cannot assure you that the Issue Shares allocated to an Investor will be credited to the Investor's demat account or that trading in the Equity Shares will commence in a timely manner.

### 36. Your ability to acquire and sell the Issue Shares offered in the Issue is restricted by the distribution, solicitation and transfer restrictions set forth in this Letter of Offer.

No actions have been taken to permit an offering of the Issue Shares in the Issue in any jurisdiction except India. As such, our Issue Shares have not and will not be registered under the U.S. Securities Act, any state securities laws or the law of any jurisdiction other than India. Further, your ability to acquire Issue Shares is restricted by the distribution and solicitation restrictions set forth in this Letter of Offer. For further information, please refer to the chapters entitled '*Notice to Investors'*, '*Other Regulatory and Statutory Disclosures*' and '*Restrictions on Foreign Ownership of Indian Securities*' on pages 11, 151 and 185, respectively. You are required to inform yourself about and observe these restrictions. Our representatives, our agents and us will not be obligated to recognize any acquisition, transfer or resale of the Issue Shares made other than in compliance with applicable law.

### 37. Holders of Equity Shares could be restricted in their ability to exercise pre-emptive rights under Indian law and could thereby suffer future dilution of their ownership position.

Under the Companies Act, any company incorporated in India must offer its holders of equity shares preemptive rights to subscribe and pay for a proportionate number of shares to maintain their existing ownership percentages prior to the issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the shares voted on such resolution, unless our Company has obtained Government approval to issue without such rights. However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without us filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights otherwise available by Indian law to you. To the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, your proportional interests in us would be reduced.

#### 38. Conditions in the Indian securities market may affect the price or liquidity of our Equity Shares.

The Indian securities markets are smaller and more volatile than securities markets in more developed economies. The Indian stock exchanges have, in the past, experienced substantial fluctuations in the prices of listed securities. Prices of listed securities are subject to of volatility linked among other factors to the uncertainty in the global markets and the rising inflationary and interest rate pressures domestically. The governing bodies of the Indian stock exchanges have, from time to time, imposed restrictions on trading in certain securities, limitations on price movements and margin requirements. Future fluctuations or trading restrictions could have a material adverse effect on the price of our Equity Shares.

## 39. The Issue Price of our Rights Equity Shares may not be indicative of the market price of our Equity Shares after the Issue.

The Issue Price of Rights Equity Share may not be indicative of the market price for our Equity Shares after the Issue. The market price of the Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. There can be no assurance that the Investors will be able to sell their Equity Shares at or above the Issue Price. The factors that could affect our share price are:

- (a) quarterly variations in the rate of growth of our financial indicators such as earnings per share;
- (b) changes in revenue or earnings estimates or publication of research reports by analysts;
- (c) speculation in the press or investment community;
- (d) general market conditions; and,
- (e) domestic and international economic, legal and regulatory factors unrelated to our performance.

## 40. There is no guarantee that the Rights Equity Shares issued pursuant to the Issue will be listed on the Stock Exchanges in a timely manner or at all and any trading closures at the Stock Exchanges may adversely affect the trading price of our Equity Shares.

In accordance with Indian law and practice, permission for listing of the Rights Equity Shares will not be granted until after those Rights Equity Shares have been issued and allotted. In addition, we are required to deliver the Letter of Offer to SEBI and the Stock Exchanges under the applicable provisions of the Companies Act and the SEBI ICDR Regulations. The trading approvals shall be granted subject to the submission of all other relevant documents authorizing the issuing of Rights Equity Shares. There could be a failure or delay in listing the Rights Equity Shares on the Stock Exchanges. Any failure or delay in obtaining the approval would restrict investors' ability to dispose of their Equity Shares. Further, a closure of, or trading stoppage on the Stock Exchanges could adversely affect the trading price of the Equity Shares.

#### EXTERNAL RISK FACTORS

### 41. Political instability or changes in the government or government policies could impact the liberalization of the Indian economy.

The performance and growth of our Company is dependent on the health of the Indian economy and more generally the global economy. The economy could be adversely affected by various factors such as political or regulatory action, including adverse changes in liberalization policies, social disturbances, terrorist attacks and other acts of violence or war, natural calamities, interest rates, commodity and energy prices and various other factors. The rate of economic liberalization could change, and specific laws and policies affecting foreign investment, currency exchange rates and other matters affecting investment in India could change as well. As a result, our business and the market price and liquidity of the Equity Shares may be affected by such economic and / or political changes. While the current government is expected to continue the liberalization of India's economic and financial sectors and deregulation policies, there can be no absolute assurance that such policies will be continued. A significant change in India's economic liberalization and deregulation policies could disrupt business and economic conditions in India generally and specifically have an adverse effect on the operations of our Company.

# 42. The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. Terrorist attacks and other acts of violence or war may adversely affect the Indian securities markets. In addition, any deterioration in international relations, especially between India and its neighbouring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years, and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business. Such incidents could also create a

greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

### 43. Financial instability, economic developments and volatility in securities markets in other countries may also cause the price of the Equity Shares to decline.

The Indian economy and its securities markets are influenced by economic developments and volatility in securities markets in other countries. Investors' reactions to developments in one country may have adverse effects on the market price of securities of companies located in other countries, including India. Negative economic developments, such as rising fiscal or trade deficits, or a default on national debt, in other emerging market countries may also affect investor confidence and cause increased volatility in Indian securities markets and indirectly affect the Indian economy in general. Currently, the Russia- Ukraine conflict has resulted in significant increase in a global oil prices which could have a significant impact on inflation and cost of production. Additionally, essential raw materials for the manufacture of various products could be affected globally due to the aforementioned European crisis which could have cascading effect on the Indian economy and the trading price of our Equity Shares.

A loss of investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and the Indian economy in general. Any worldwide financial instability could also have a negative impact on the Indian economy, including the movement of exchange rates and interest rates in India. Any financial disruption could have an adverse effect on our business, future financial performance, shareholders' equity and the price of the Equity Shares.

## 44. Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws and regulations, may adversely affect our business and financial condition.

Our business and financial performance could be adversely affected by unfavorable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations applicable to us and our business. There can be no assurance that the Government of India may not implement new regulations and policies which will require us to obtain approvals and licenses from the Government of India and other regulatory bodies or impose onerous requirements and conditions on our operations. Any such changes and the related uncertainties with respect to the applicability, interpretation and implementation of any amendment to, or change to governing laws, regulation or policy in the jurisdictions in which we operate may have a material adverse effect on our business, financial condition and results of operations. In addition, we may have to incur expenditures to comply with the requirements of any new regulations applicable to us could also subject us to additional liabilities.

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes may adversely affect our business, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy.

The application of various Indian tax laws, rules and regulations to our business, currently or in the future, is subject to interpretation by the applicable taxation authorities. If such tax laws, rules and regulations are amended, new adverse laws, rules or regulations are adopted or current laws are interpreted adversely to our interests, the results could increase our tax payments (prospectively or retrospectively) and / or subject us to penalties. Further, changes in capital gains tax or tax on capital market transactions or sale of shares could affect investor returns. As a result, any such changes or interpretations could have an adverse effect on our business and financial condition.

### 45. General economic conditions in India and globally could adversely affect our business, results of operations and financial condition.

Our business, prospects, results of operations and financial condition depend significantly on worldwide economic conditions and the health of the Indian economy. Various factors may lead to a slowdown in the Indian or world economy which in turn may adversely impact our business, prospects, results of operations and financial condition. Our Company mainly derives revenue from operations in India and the performance and growth of our business is significantly dependent on the performance of the Indian economy. In the past, the Indian economy has been affected by global economic uncertainties, liquidity crisis, domestic policies, global political environment, volatility in interest rates, currency exchange rates, commodity and electricity prices, volatility in inflation rates and various other factors. Accordingly, high rates of inflation in India could increase

our Company's employee costs and decrease our operating margins, which could have an adverse effect on our business, prospects, results of operations and financial condition.

Further the Indian economy is undergoing many changes and it is difficult to predict the impact of certain fundamental economic changes on our business. Conditions outside India, such as a slowdown or recession in the economic growth of other major countries, especially the United States, also have an impact on the growth of the Indian economy. Additionally, an increase in trade deficit, a downgrading in India's sovereign debt rating or a decline in India's foreign exchange reserves could negatively affect interest rates and liquidity, which could adversely affect the Indian economy and our Company's business. A slowdown in the Indian economy could adversely affect the policy of the Government of India towards the industry in which our Company operates, which may in turn, adversely affect our financial condition. A loss of investor confidence in other emerging market economies or any worldwide financial instability may adversely affect the Indian economy, which could materially and adversely affect our business, results of operations and financial condition as well as the market price of the Equity Shares.

# 46. The extent and reliability of Indian infrastructure could adversely affect our Company's results of operations and financial condition. India's physical infrastructure is in a developing phase, as compared to that of many developed nations.

Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could have an adverse effect on our results of operations and financial condition.

### 47. A downgrade in ratings of India, may affect the trading price of the Equity Shares.

Our borrowing costs and our access to the debt capital markets depend significantly on the credit ratings of India. India's sovereign rating is Baa3 with a "stable" outlook (Moody's), BBB– with a "stable" outlook (S&P) and BBB– with a "negative" outlook (Fitch). Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing and the interest rates and other commercial terms at which such financing is available, including raising any overseas additional financing. A downgrading of India's credit ratings may occur, for example, upon a change of government tax or fiscal policy, which are outside our control. This could have an adverse effect on our ability to fund our growth on favourable terms or at all, and consequently adversely affect our business and financial performance and the price of our Equity Shares.

## 48. Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

- The government has reduced import duty for Gold & Silver (from 12.5% to 7.5%) and Platinum & Pallidum (from 12.5% to 10%) to bring down the prices of precious metals in the local market.
- The demonetisation move is encouraging people to use plastic money and debit/ credit cards for buying jewellery. This is goodfor the industry in the long run and will create more transparency.
- The Government would notify a new limit for reporting about transactions in gold and other precious metals and stones to authorities to avoid the parking of black money in bullion.
- The government's announcement on establishing gold spot exchange could help in India's participation in determining gold price in the international market.
- Indian Government made hallmarking mandatory for Gold Jewellery and Artefacts. A period of one year is provided for implementation i.e., till January 2021.
- The Gold Monetisation Scheme was launched in November 2015. This scheme enabled individuals, trusts and mutual funds to deposit gold with banks and earn interest on the same in return.
- As of January 2019, the Reserve Bank of India (RBI) increased the scope of the gold monetization scheme by allowing charitable institutions and Government entities to deposit gold to boost deposits over the coming months.
- In December 2020, All India Gem and Jewellery Domestic Council (GJC) welcomed the decision to make hallmarking compulsory from June 2021 in a phased manner; urged the government to examine the key concerns of the industry for smooth implementation of the initiative.
- Hallmarking of gold jewellery is set to begin from June 15, 2021. In view of the COVID-19 pandemic, the government accepted request of stakeholders to provide jewellers some more time to prepare for implementation and resolve issues. Earlier, the date of implementation was June 01, 2021.
- In December 2020, the Finance Ministry notified that the amendment under Prevention of Money Laundering Act (PMLA), notifying dealers in precious metals and stones, will maintain records of cash transactions worth Rs. 10 lakh (US\$ 13.61 thousand) or more cumulatively with a single customer.

- In December 2020, the Gem and Jewellery Export Promotion Council (GJEPC) urged the government to include in the comprehensive e-commerce policy the EDI (Electronic Data Interchange) connection of postal services with customs, to enable banks to automatically close e-commerce exports against advance credit card payments by foreign purchasers.
- The step would drive for progressive reforms to help the industry fulfill its long-term goal of being the epicenter of global gems & jewellery.
- In June 2021, the US suspended additional tariffs on six countries, including India, that have imposed or are considering equalization levy/ digital services tax one-commerce companies for upto six months. This was done to provide additional time to complete the ongoing multilateral negotiations on international taxation at the Organisation for Economic Co-operation and Development (OECD) and G20.
- The suspension is likely to provide relief to the COVID-hit gems & jewellery sector in India.

#### Road Ahead

In the coming years, growth in gems and jewellery sector would largely be contributed by the development of large retailers/brands. Established brands are guiding the organised market and are opening opportunities to grow. Increasing penetration of organised players provides variety in terms of products and designs. Online sales are expected to account for 1-2% of the fine jewellery segment by 2021-22. Also, the relaxation of restrictions of gold import is likely to provide a fillip to the industry. The improvement in availability along with the reintroduction of low-cost gold metal loans and likely stabilisation of gold prices at lower levels is expected to drive volume growth for jewellers over short to medium term. The demand for jewellery is expected to be significantly supported by the recent positive developments in the industry.

## MANUFACTURING PROCESS FOR OUR ROUGH AND POLISHED DIAMONDS

The process followed by for manufacturing process of our rough and polished diamonds is as below:-

#### **PROCUREMENT OF ROUGH DIAMONDS:**

The basis raw material procured by us is rough diamonds. The purchase of rough diamonds is based on the latest market trends and demand analyzed by our team. After carefully examining them in terms of cut, colour, clarity and carats, we execute the purchase orders.

#### ANALYSIS AND ASSORTMENT:

This is the initial stage of diamond manufacturing process. In this process expert checkers analyses the rough diamond and its characteristics are determined. These characteristics are based on Colour, Clarity, Carat, Cut (the 4 C's). After deciding 4 C's, it is given a grade, which represents overall quality of the rough diamond.

#### PLANNING AND MARKING:

Planning is a crucial step in diamond manufacturing. During this stage, the size and relative value of the cut stones that the rough diamonds will produce is determined. Rough diamonds need to be sorted on the basis of whether they are makeable or not, on the basis of colour, size etc. Non-make-able diamonds then need to be planned so as to reduce wastage and maximize yield.

#### CLEAVING OR SAWING:

Cleaving and sawing are the two different processes that come after the rough diamond is planned and marked. The rough diamond is analysed and sent to either cleaving or sawing department. A rough diamond needs to be broken into parts. This is done through either of the method, i.e. either through Cleaving or Sawing.

Cleaving is done manually with hammer, which split rough diamond into two or more parts. If the diamond needs sawing, then it is sent to sawing department. Laser technology is the latest and most advanced technology for sawing. Laser technology gives very accurate result. Planner rechecks the diamond after this process is complete. Once the planner decides where the diamond should be cut, the diamond is either manually cleaved or sawed.

Sawing can be done with a diamond-coated rotary saw or a laser. Generally, small sized diamonds are signed manually. The rough diamonds which cannot be cleaved are sawed.

#### BRUTING:

Bruting forms the basic face-up outline of a round diamond to prepare it for faceting. During the bruting phase, the diamond being bruted is spun on a rotating lathe while another diamond is forced against it, gradually forming the rounded outline. Essentially, this gives shape to diamond in a way so that maximum yield can be taken.

#### **POLISHING AND GRADING:**

Polishing is the final step in the diamond manufacturing process. This step gives the diamond its brilliant sparkle that is the final look. The polisher is very careful at this process because a small mistake can result into quality loss of the diamond. In this process, the cut and polished diamond is boiled in a solution of hydrochloride and sulphuric acid to remove oil, diamond, powder and dirt. After completion of polishing, the smaller packets are put together in the original packet and sent for final inspection. During the entire process, strict quality control measures are taken and the diamond passes through a computerized network which keeps track of every single diamond. After completing the polishing, polish checker has to check every facets of the stone to finalise the excellent cut grade. From here, the polished diamonds goes to the grading department. Here the 4 C's of diamonds are decided and the appropriate grading is given to the diamonds. The graded parameters are noted down for each diamond.

# Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

# Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, including cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

# Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### ANNEXURE B TO THE AUDITOR'S REPORT.

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial reporting of Gautam Gems Limited ('the Company') as of 31<sup>st</sup> March 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

## Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting, included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's Internal financial controls system over financial reporting.

# Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of the management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

# Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at **31**<sup>st</sup> March **2021**, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

We mitigate risk by structuring our borrowings to achieve a reasonable, competitive cost of funding. There can be no assurance that we will be able to do so on commercially reasonable terms, that our counterparties will perform their obligations, or that these agreements, if entered into, will protect us adequately against interest rate risks.

# Liquidity risk

Adequate and timely cash availability for our operations is the liquidity risk associated with our operations. Our Company's objective is to all time maintain optimum levels of liquidity to meet its cash and collateral requirements. We employee prudent liquidity risk management practices which inter-alia means maintaining sufficient cash and the availability of funding through an adequate amount of committed credit facilities.

# Credit Risk

We are exposed to the risk that our counterparties may not comply with their obligations under a financial instrument or customer contract, leading to a financial loss. We are exposed to credit risk from our operating activities, primarily from trade receivables.

We consider our customers to be creditworthy counterparties, which limits the credit risk, however, there can be no assurance that our counterparties may not default on their obligations, which may adversely affect our business and financial condition.

#### **RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES**

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and FEMA. While the Industrial Policy, 1991, of the Government of India, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. The Union Cabinet, as provided in the Cabinet Press Release dated May 24, 2017, has given its approval for phasing out the FIPB. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment ("FDI") and approval from the Government of India will now be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as the "Department of Industrial Policy and Promotion") ("DPIIT"), Ministry of Finance, Department of Economic Affairs, FIPB section, through a memorandum dated June 5, 2017, has notified the specific ministries handling relevant sectors.

The Government has, from time to time, made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated FDI Policy Circular of 2020 ("**FDI Circular 2020**"), which, with effect from October 15, 2020, consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Circular 2020 will be valid until the DPIIT issues an updated circular.

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict, the relevant notification under Foreign Exchange Management (Non-Debt Instruments) Rules, 2019 will prevail. The payment of inward remittance and reporting requirements are stipulated under the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 issued by RBI The FDI Circular 2020, issued by the DPIIT, consolidates the policy framework in place as on October 15, 2020, and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of RBI, provided that (i) the activities of the investee company falls under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the Takeover Regulations; (ii) the non- resident shareholding is within the sectorial limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI.

No investment under the FDI route (i.e any investment which would result in the investor holding 10% or more of the fully diluted paid-up equity share capital of the Company or any FDI investment for which an approval from the government was taken in the past) will be allowed in the Issue unless such application is accompanied with necessary approval or covered under a pre-existing approval from the government. It will be the sole responsibility of the investors to ensure that the necessary approval or the pre-existing approval from the government is valid in order to make any investment in the Issue.
