STEPS TO ENCOURAGE GREEN BONDS ISSUE MOOTED States should use fiscal 'sweet spot' to step up capex: RBI

PRASANTA SAHU New Delhi, January 16

WITH THE FISCAL health of the states rebounding to pre-pandemic level aided by buoyant revenues, consolidation prudent expenditure management, a Reserve Bank of India report on Monday said states should maintain capital expenditure planning rather than treating them as "residuals and first steps" for cutbacks to meet budgeting targets.

Capital spending by states saw a robust 31.7% growth on year at ₹5.89 trillion in FY22. Strong growth in tax and non-tax revenues, coupled with the advancement of payment by the Centre of tax devolution and GST compensation, provided the required fiscal space to accelerate capex. The consolidated capex of the states is budgeted to grow by 38.4% on year to ₹8.19 trillion in FY23, but given the trend till November, this target may be missed by a wide margin.

The combined capex of eighteen states whose finances were reviewed by RBI was just 7.7% on year at ₹2.41 trillion in April-November of the current fiscal. These states had budgeted a capex of ₹6.3 trillion for FY23, an increase of close to 40% over the

STATES' FINANCES

STATES' FINANCES (Growth % y-o-y, April-November)

FY23 actuals. "It is worthwhile to consider creating a capex buffer fund during good times when revenue flows are strong so as to smoothen and maintain expenditure quality and flows through the economic cycle," according to the RBI's report titled "State Finances: A Study of Budgets of 2022-23".

In the pandemic-hit FY21, states' consolidated gross fiscal

CAPEX BY ALL STATES

Source: RBI report on state finances 'BE'

STATES' FINANCES (Growth % y-o-y, April-November)

deficit (GFD) rose to 4.1% of GDP, the highest level since FY05. However, the spike was short-lived and a reversion to consolidation was crafted in FY22 taking the GFD down to 2.8%, as against the Budget estimate (BE) of 3.5% and revised estimate (RE) of 3.7% for the year. This correction was brought about by higher-than-expected growth in both tax and non-tax

revenues. For FY23, the states' aggregate GFD is set at 3.4%, but it will likely undershoot given by the trends so far, analysts say.

While states' debt is budgeted to rise to 29.5% of GDP in FY23 as against 31.1% in FY21, it is still higher than the 20% recommended by NK Singh led FRM Review Committee in 2018, warranting prioritisation of debt consolidation. The undershooting of budgetary targets for key deficit indicators has enabled states to reduce their outstanding liabilities. These developments have extended into FY23 so far.

A coincident indicator of this sustained improvement, the RBI said, is that market borrowings are much lower than in the indicative calendar due to comfortable cash flow positions of the states, boosted by the timely payment of GST compensation by the Centre (May and November 2022) and release of two advance instalments of tax devolution (August and November 2022). "The states need to take advantage of this 'sweet spot' by building up fiscal buffers and stepping up capex," the RBI report said. The RBI also reported suggested climate-incentivised borrowing ceilings for states to encourage them to issue green bonds.

Recession in the West to impact us after June: Rane

FE BUREAU Pune, January 16

UNION MINISTER For micro, small and medium enterprises Narayan Rane on Monday said the government was keeping a close watch on the global recessionary trends and all efforts would be made to minimise its impact in the country so that people do not face hardships.

The minister said many developed countries were to face recession and indications were that this was expected to hit India after June.

With 50% of the population expected to live in urban areas, there would be a lot of investments needed to meet the demand of the growing urban population but the government would not be able to do this on its own and would need private investment and support from

multilateral funding institutions, the minister said. The minister was speaking at a media interaction after inaugurating the first G-20 Infrastructure Working Group (IWG) meeting under India's G20 Presidency in Pune.

The government was focusing on attracting investments and generating employment, Rane said. India was on its way to becoming the fifth largest economy in the world and Prime Minister Narendra Modi would

Tur mandir prices rise above MSP as diseases, rain hit crop

SANDIP DAS New Delhi, January 16

MANDI PRICES Of tur dal is currently ruling 10% above the minimum support price (MSP) of ₹6,600 a quintal for 2022-23 crop season (July-June), given the decline in production caused by recent rains and wilt diseases reported from key growing region of Karnataka.

Traders say that mandir prices are expected to rise further next month, considered as peak arrival month for tur. Officials said recent rains and wilt disease have caused crop loss in Kalaburagi district which is known as the tur dal bowl of Karnataka along with Bidar and Yadgir.

According to a trader in Latur, Maharashtra, a hub of tur trade, mandir prices are expected to rise to around ₹7,400-₹7,500 per quintal in the next couple of weeks. Sources told FE that in anticipation of a production loss in range of 10%-12%, the government has decided to import a million tonne (MT) of tur in 2023-24 through private trade

IEPFA moots simpler refund process

FE BUREAU New Delhi, January 16

TO SIMPLIFY and expedite claims settlement, the Investor Education and Protection Fund Authority (IEPFA) has proposed an overhaul of the refund process, including a real-time online interface with the firm and the claimant, as well as limitation period.

The move comes at a time when there is a huge backlog of unclaimed shares with the authority. The IEPF Fund had ₹56.85 billion in balance during the current fiscal till November 30 with 1.17 billion unclaimed shares. A total of 0.105 million e-form IEPF were filed on NCFE-21 System from 2016-17 till November 30, and 64,674 applications were settled. Under the current process, the claim filed to the authority needs to be first verified by the companies.
