RECORDS

Monumental success is not merely about reaching new heights but shattering previous boundaries and redefining what is possible. It embodies the epitome of human potential, where individuals or entities

transcend conventional limits to achieve extraordinary feats. Such achievements become landmarks in history, inspiring generations and setting new benchmarks for excellence.

Mountains symbolise trust and truthfulness, strength and stillness, constancy and courage. In this publication, we have drawn our inspiration from the mountains, and paid our humble homage to the world's highest mountains.

Mount Everest, the world's highest mountain

While storms can flatten structures and cyclones can destroy cities,
they cannot do anything to mountains.

Mountains remain unmoved and unaffected. From one peak to another,
they continue to rise higher and higher.

And as they rise, they emerge stronger.

We also faced a severe man-made storm recently – one that would have
destroyed most businesses.

But, under the visionary leadership of our Chairman, we remained
unyielding and unputdownable like a mountain.

We kept building inner strength by:

our unceasing
commitment to
governance and
compliance

our unwavering
focus on
sustainability and
Impact creation

our unending
endeavour to
trust and
transparency

With untiring learning we made the biggest comeback in the
history of corporate India with our strongest performance ever.

We continue to rise higher and higher, and emerge

THE ADANI PORTFOLIO OF COMPANIES

Portfolio of Progress

At the heart of this Portfolio of Progress is a journey of evolution over the years. Like the ascending peaks of a mountain range, we have grown every year – not only on the strength of our business performance, but equally and importantly, through our steadfast commitment to environmental, social and governance practices underpinned by a culture of transparency.

The Adani portfolio of companies, headquartered in Ahmedabad, India, has been founded and promoted by the visionary industrialist Mr Gautam Adani. The operations of the portfolio commenced in 1988 with commodity trading business under the flagship company Adani Enterprises Limited (previously Adani Exports Limited).

The Adani portfolio of companies today stands amongst India's largest and fastest-growing diversified business portfolios spanning transport, logistics, energy and utility, materials, metals, mining and various B2C sectors. The portfolio comprises eleven publicly-traded companies, including four investment grade (IG)-rated businesses, and is India's sole Infrastructure Investment Grade bond issuer.

Vision

To be a world-class leader in businesses that enrich lives and contribute to nations in building infrastructure through sustainable value creation.

Core Philosophy

The Adani portfolio of companies is guided by the philosophy of 'Growth with Goodness', which emphasises sustainable and responsible development aligned with national priorities. To this end, ambitious ESG targets, with a focus on decarbonisation, have been set.

In one of the largest commitments of its kind globally, a significant USD 100 billion investment has been earmarked for a green transition and transport by 2030. This includes building Integrated Green Hydrogen Ecosystem encompassing three giga factories to develop 10 GW solar panels, 5 GW wind turbines and 5 GW hydrogen electrolyzers and expanding the portfolio of Adani renewables to 50 GW. Five major companies – Adani Ports, Adani Green Energy, Adani Energy Solutions, ACC and Ambuja – have committed to achieving net zero by 2050. Furthermore, a pledge has been made at WEF's 1t.org to plant 100 million trees by 2030.

The Adani Foundation, currently touching over 9.1 million lives, is positioned to address the critical needs of New India in areas like health, nutrition, education, basic sanitation, women's livelihood and skills development.

ABOUT SANGHI INDUSTRIES LIMITED

Leveraging Synergies. Fortifying Position.

Sanghi Industries Limited (SIL), now part of Ambuja Cements and operating under the umbrella of the prestigious Adani Group, is well-positioned to fortify its standing as one of India's most cost-efficient cement manufacturers and multiply the value it generates for all its stakeholders.

The Company has already established itself as a prominent cement manufacturer in India. Headquartered in Ahmedabad, Gujarat, it possesses India's largest integrated single-location cement and clinker unit by capacity in Sanghipuram. Due to the integrated nature of its operations, including a captive jetty and power plant, the Company is considered as possibly the country's lowest-cost cement producer.

With cutting-edge manufacturing techniques, stringent quality control measures, and sustainable practices, the Company specialises in the manufacturing of high-quality Ordinary Portland Cement (OPC), Pozzolana Portland Cement (PPC), and Pozzolana Slag Cement (PSC), and serve individual home builders and professional construction companies across western, central, and southern India. In addition to this, it possesses one of the nation's largest reserves of 'Superior' grade marine limestone.

Its fully automated plant in Kutch, Gujarat, with capacities for 6.6 MMTPA clinker and 6.1 MMTPA cement, includes a 143 MW captive power plant, positioning it as a leader in the industry.

OFFERINGS

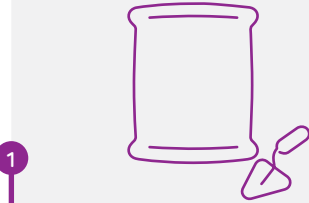

Producing the Highest-grade Cement

Leveraging the high quality of mineral reserves, manufacturing prowess, and industry experience, the Company manufactures superior-grade cement at one of the lowest costs of production. As a result of the consistent delivery of high-quality products, it has emerged as the preferred choice of partner for all.

What Enables the Company to Produce the Highest-quality Cement

Product Portfolio

Ordinary Portland Cement (OPC 53 & OPC 43)

OPC is ideal for general construction purposes, providing durability and high-strength

Features

- Narrow particle size distribution for high-strength development at all stages
- Low heat of hydration ensures crack-free construction
- Low C3A content reduces material degradation and chances of early cracking
- Low chloride content prevents corrosion
- Low alkali content increases setting time and improves compressive strength

Usage

Widely used for construction of high-rise buildings, dams, bridges, flyovers, pavements, commercial and industrial complexes. In addition to this, it is also used for making grouts and mortars.

2

Portland Pozzolana Cement (PPC)

PPC is suited for use in harsh construction conditions. This is an eco-friendly product and conforms to the IS 1489 (Part I):1991, Portland Pozzolana Cement Standards.

Features

- Increased long term strength
- Low heat of hydration ensures crack-free construction
- Corrosion resistance
- Increased workability and reduced water demand
- Low water permeability
- Improved surface finish

Usage

Preferred choice for masonry mortars, plastering and RCC work in residential construction due to its low heat hydration. It is also used in mass construction works like dykes, sewage pipes, dams, marine and hydraulic structures, among others.

3

Portland Slag Cement (PSC)

PSC is suitable for use in concrete, either as a separate component or blended with cement. This product conforms to the IS 455: Portland Slag Cement Standards. It offers long-lasting construction in saline and sulphated land.

Features

- Improves the properties of fresh concrete
- Increases concrete strength and elastic modulus
- Reduces permeability and inhibits corrosion
- Improves resistance to alkali-aggregate reaction
- Reduces heat and cracking in mass concrete
- Increases life cycle of structure

Usage

Used in almost all concrete applications like concrete roads, pavements, flyovers, pile foundations, mass concrete works like dams, marine constructions, precast – prestressed concrete and concrete pipes and blocks.

The Master Supply/ Service Agreement (MSA)

Post the acquisition, the Company has entered into a Master Supply Agreement and Master Service Agreement (collectively referred to as "MSA") with Ambuja and ACC.

The MSA covers the purchase/sale of raw materials, spare parts, and availing/rendering of services. Under the MSA, ACL and ACC will bulk purchase clinker and cement produced by the Company, which will be sold under the Ambuja/ACC brand.

- ⊙ The Company expects to improve its capacity utilisation to around 80% and become EBITDA positive, leading to an improvement in operating cash flow

- ⊙ This arrangement is expected to alleviate the financial constraints faced by the Company and benefit all stakeholders, including creditors, governments, shareholders, and employees

MESSAGE FROM CHAIRMAN

Dear Shareholders,

As we reflect on the FY 2023-24, I am delighted to address you with a sense of pride and accomplishment. This year has been transformative, challenging us to re-evaluate our approach to business and synergies holistically. We reinforced our commitment to fuel India's growth by increasing our footprint through inclusion of Sanghi Industries Limited (SIL) as a part of Ambuja Cements and Adani portfolio, which significantly propels us towards fulfilling our goal.

The Master Supply Agreement (MSA) between SIL and Ambuja Cements resulting from the acquisition is anticipated to serve as a primary growth catalyst for SIL in the foreseeable future. This strategic alliance is poised to elevate SIL's capacity utilisation to approximately 80%, bringing it on par with the Group's capacity, a substantial increase from the meagre 25% previously."

To New Beginnings

The Adani Group has remained focused in its commitment to fostering the growth trajectory of India, endeavouring to bolster efforts aimed at realising the nation's ambition of attaining a USD 5 trillion economy. In alignment with the government's concerted initiatives toward infrastructural development, SIL will unlock value by exclusively supplying to Ambuja and ACC, mitigating the demand volatility that SIL has historically encountered.

The persistent working capital constraints experienced by SIL have been effectively addressed through the infusion of funds from Ambuja Cements, enabling substantial deleveraging of SIL's debt-laden balance sheet through the repayment of high-interest-bearing secured debts. Furthermore, Ambuja Cements and ACC will provide advance payments for SIL's cement, alleviating liquidity challenges faced by SIL.

The Master Supply Agreement (MSA) between SIL and Ambuja

Cements resulting from the acquisition is anticipated to serve as a primary growth catalyst for SIL in the foreseeable future. This strategic alliance is poised to elevate SIL's capacity utilisation to approximately 80%, bringing it on par with the Group's capacity, a substantial increase from the meagre 25% previously. Additionally, the MSA is projected to reverse SIL's EBITDA trajectory, transitioning from a negative 32% for half-year ended September 30, 2023 to a projected 9%.

Echoing the ethos of the Adani Group, SIL is committed to aligning its Environmental, Social, and Governance (ESG) goals with those of the Group, contributing to the fulfilment of the nation's priorities.

As an integral part of Ambuja Cements, a leading player in the cement industry, we are steadfast in our commitment to conducting operations responsibly, with an unwavering focus on sustainability and innovation. Our dedication to sustainability is exemplified through the introduction of environmentally responsible products and our steadfast adherence to sustainable business practices. FROM THE CEO'S DESK

Dear Shareholders,

New beginnings are often regarded as the start of something great. The story of Sanghi Industries Limited (SIL) echoes the exact same sentiment. The acquisition of the Company by Ambuja Cements has opened a world of new possibilities to strive and chart a sustainable growth story.

SIL truly established itself as a respectable player in the cement industry, with its moats ranging from its vast industry experience, to possessing one of the largest limestone reserves, to achieving perhaps the lowest cost of cement manufacturing in the country. However, its potential as a cement supplier was muted, contrary to the premium brands in the market.

The injection of funds from Ambuja Cements has not only alleviated our liquidity concerns but also empowered us to retire high interest secured debts, thereby fortifying our Balance Sheet. Moreover, these resources have been instrumental in addressing our immediate working capital requirements, positioning us favourably for expansion initiatives.

Ready for Take-off

Year in Review

During the year, we recorded revenues of ₹ 821 crore compared to ₹ 928 crore in the previous year, a decrease of 12%. Our EBITDA stood at a negative ₹ (58) crore compared to ₹ 6 crore in the previous year; we suffered losses of ₹ (449) crore, compared to ₹ (326) crore in the previous year. Our total cement sales were recorded at 1.72 million tonnes compared to 1.69 million tonnes in the previous year. The underlying reason responsible for the decline in performance is the ineffective utilisation of our capacities and capabilities.

Way Forward

With the recent acquisition, our Company has experienced a substantial enhancement in our market position, setting the stage for accelerated growth in the foreseeable future. The injection of funds from Ambuja Cements has not only alleviated our liquidity concerns but also empowered us to retire high interest secured debts, thereby fortifying our Balance Sheet. Moreover, these resources have been instrumental in addressing our immediate working capital requirements, positioning us favourably for expansion initiatives. This strategic move has not only solidified our current

We place significant emphasis on initiatives aimed at curbing Greenhouse Gas (GHG) emissions, tackling climate change, managing air emissions and waste in alignment with circular economy principles, ensuring responsible water sourcing, preserving biodiversity, and upholding the highest standards of Corporate Social Responsibility (CSR). These efforts underscore our firm belief in the importance of sustainable development and our resolve to make meaningful contributions towards a greener and more equitable future.

standing but has also laid a robust foundation for scaling up our operations in the coming years.

As a proud member of Ambuja Cements, renowned for its leadership in the cement industry, we are unwavering in our commitment to conducting our business operations responsibly, with a sharp focus on sustainability and innovation. Our dedication to this cause is evident through our introduction of eco-friendly product lines and our steadfast adherence to sustainable business practices.

We place significant emphasis on initiatives aimed at curbing Greenhouse Gas (GHG) emissions, tackling climate change, managing air emissions and waste in alignment with circular economy principles, ensuring responsible water sourcing, preserving biodiversity, and upholding the highest standards of Corporate Social Responsibility (CSR). These efforts underscore our firm belief in the importance of sustainable development and our resolve to make meaningful contributions towards a greener and more equitable future.

Being part of Ambuja Cements has opened up new avenues for our Company to excel and achieve levels of success that were previously beyond our reach. The Master Supply Agreement (MSA) forged as part of this acquisition is poised to become the cornerstone of our strategy for delivering superior performance. By ramping up our capacity utilisation to approximately 80%, in line with Ambuja's standards, compared to a mere 25% prior to the acquisition, we anticipate a substantial surge in our production volumes. This, coupled with the anticipated increase in sales volumes, is expected to have a cascading effect on our EBITDA, projecting a remarkable turnaround from a negative 32% for half-year ended September 30, 2023 to a projected 9%. These figures underscore the transformative impact of the acquisition on our operational efficiency and financial performance, positioning us for sustained growth and profitability in the years ahead.

Sustainable Approach

At SIL, we recognise the profound importance of Environmental, Social, and Governance (ESG) principles in driving sustainable business practices. Our commitment to ESG is unwavering, as we understand its pivotal role in fostering long-term value creation and stakeholder trust. Moving forward, we remain dedicated to upholding the highest standards across all facets of ESG. From environmental stewardship to social responsibility and corporate governance, we will continue to prioritise initiatives that positively impact our planet, communities, and organisational integrity. Our journey towards comprehensive ESG excellence is ongoing, and we are steadfast in our resolve to continually improve and innovate in this crucial domain.

Postface

I want to take the opportunity to reaffirm to all the stakeholders that we will leverage the synergies of Adani, Ambuja Cements and ACC and will take it to the next level. On behalf of the Board of Directors, I want to thank everyone for your trust in the Company for all these years. We are certain that this is just the beginning of the greater things to come.

Earnings

During the year under review, the Company reported losses of ₹ (449) crore, compared to ₹ (326) crore in the previous year, which could largely be pinned on the underutilisation of its existing capacities.

Assets

The Company's reported total assets amounted to ₹ 3,628 crore with current assets representing 10.75% of the total assets during the review period.

Cash Flow

Pre-acquisition, it had been dealing with cash flow challenges, largely due to longer payment terms and low-capacity utilisation. Net cash used in operations during FY 2023-24 was ₹ 243 crore, mainly due to payment to suppliers.

However, as a result of the MSA in the current scenario, it will receive monthly advance payment for all the orders, which in turn, will help meet its working capital requirements to ensure smooth functioning and improve capacity utilisation.

OPPORTUNITIES

Trends Shaping the Industry

The Indian economy continues to demonstrate resilience, amid strong global headwinds stemming from intensifying geo-political tensions and trade disruptions.

India's continued outperformance vis-à-vis major global economies reflect the economy's structural strength and ability to absorb external shocks, propelled by strong private consumption, increased public investments, and favourable government policies. This, in turn, bodes well for the country's cement sector, with an expected 11% year-on-year growth in consumption for FY 2023-24.

Accelerated Economic Momentum

Currently, India is ranked as the 5th largest economy, with an estimated GDP of USD 3.7 trillion. This achievement was made possible due to the Company's substantive and incremental economic and structural reforms, that has helped to make economy more competitive, efficient and resilient.

With the aim of achieving a USD 5 trillion economy, the Government has been continuously investing in enhancing the nation's infrastructure to facilitate growth, which is anticipated to stimulate demand in the cement industry. A decade ago, India held the position of the 10th largest economy globally, boasting a GDP of USD 1.9 trillion at prevailing market rates. Currently, it ranks as the 5th largest economy, with an estimated GDP of USD 3.7 trillion for the fiscal year 2024, despite the challenges posed by the pandemic and the pre-existing macroeconomic imbalances and deficiencies within the financial sector.

Housing Sector Continues to Grow

Demand growth @ CAGR of 8-9%
Supply growth @ CAGR of 6-7%

The idea of home ownership, especially in the post-COVID scenario, is driving the growth of the housing sector in urban and rural India, which remains the principal consumer of cement in the country. The real estate industry saw record sales of residential properties in terms of both volumes and value in 2023. A growing housing sector, which typically accounts for 60% to 65% of India's cement consumption will continue to remain the key demand driver over the foreseeable future. In the Union Budget 2024,

the Government has allocated ₹ 11,11,111 crore for safe housing and other allied infrastructure development. Infrastructure-led investments and mass residential projects will continue to keep India's future cement demand strong.

Key Growth Drivers

Population

India, with a population of 1.44 billion people, remains one of the most populous countries in the world, driving continuous demand for housing units. Further, the country's lion's share of the population falls in the working-age category, boosting the prospects of the real estate industry.

Urbanisation

Between 2022 and 2047, India's urban population is projected to increase by 328 million, driving the demand for urban dwellings as well as increased infrastructure developments.

Growing Consumer Spending

Per-capita GDP in India is expected to double from less than USD 2,500 in 2022 to nearly USD 4,000 by 2028, with nearly two in three citizens likely to reach middle-class status within the next 25 years.

SIL's Positioning

In line with the Group's goal of contributing towards the nation's holistic development, SIL is continuously channelling investments to foster its growth. The Company is actively embracing digitalisation to optimise operations and bolster profitability. Recognising the increasing

significance of the environmental footprint of cement production, SIL is significantly expanding its capabilities in alternative energy generation, minimising the use of finite resources, and promoting the well-being of communities in proximity to its operational areas.

STRATEGIC OBJECTIVES

Chartered Path for Sustainable Growth

Post its acquisition, the Company has chartered a path for sustainable long-term growth; it plans to achieve this by adopting the strategic priorities of Ambuja Cement. The acquisition places the Company favourably to ascend on its recovery path and play an integral part in driving the growth of Adani Cement by taking strides against these strategic priorities.

1

Accelerating Growth

As part of Ambuja Cements, the Company has been able to resolve the elevated liquidity issue through the repayment of high-interest-bearing secured debts and address the working capital needs of the daily business. This has significantly strengthened its balance sheet and placed it in a position to expand its capacities. Additionally, Ambuja Cements, with the added capacities of SIL, is poised to expand its market presence, strengthen its product portfolio, and reinforce its position as a leader in the construction materials sector. It will also propel the Adani Cement towards its objective of fulfilling its goal of 140 MTPA of cement manufacturing capacity by 2028 way ahead of time.

2

Leading in Sustainability and Innovation

The Company is committed to conducting its operations responsibly, prioritising sustainability and innovation. This commitment is validated by the Company's environmentally responsible products and dedication to conducting business sustainably and inclusively. Its focus areas include reducing GHG emissions, addressing climate change, managing air emissions and waste in adherence to circular economy principles, responsible water sourcing, safeguarding biodiversity, and upholding Corporate Social Responsibility standards, among others.

3

Delivering Superior Performance

The MSA (Master Sale/ Supply Agreement) will be the major proponent of delivering superior performance. It is expected to significantly increase its capacity utilisation to ~80% compared to a mere 28% in FY 2024, which in turn, will result in significantly higher volumes.

MANUFACTURING EXCELLENCE

Building a Strong Manufacturing Base

Integrated Manufacturing Unit

The Company boasts one of India's largest single-location cement plants. Its fully integrated facility, equipped with multi-fuel technology, encompasses captive amenities such as captive mines, a thermal power plant, an all-weather port, and sea terminals in Gujarat and Mumbai. Besides this, due to the integrated nature of its operations, it has possibly one of the lowest costs of production in the country.

Capacity Expansion

The Company is in the process of aggressively adding new capacity and in the process of commissioning a new clinker unit that will increase its total clinker production capabilities by 4 MTPA.

Capacity Utilisation

The Company's capacity utilisation for the year under review was only 28%. However, due to the MSA, it is expected to shoot up significantly and reach ~80% levels, which is at par with the Adani Cement over the foreseeable future.

Raw Material Security

The Company proudly owns one of the largest limestone reserves in India, featuring 'A grade' marine limestone reserves of approximately 1 billion metric tonnes. The key attributes include:

- High mineral-grade limestone with a purity level exceeding 90%
- Implementation of eco-friendly surface mining practices
- Utilisation of a 3 km long conveyor belt for raw material transportation from mines to the plant, ensuring near-zero dusting and substantial fuel savings
- Adherence to best mining practices, including round-the-clock live monitoring of mining activities
- Recognition through various awards for best mining operations and practices from the Indian Bureau of Mines and Directorate General of Mines Safety consecutively for multiple years

Efficiency Improvement

Striving to emerge as the most cost-competitive cement manufacturer in India, the Company consistently invests in lowering the clinker factor, improving energy efficiency, optimising raw material and fuel combinations, diversifying power sources, and increasing the utilisation of alternative fuels and raw materials in the Company's production processes. Various measures have been taken to improve productivity and reduce energy consumption across operations. The mill internals have undergone modifications aimed at enhancing productivity and lowering energy usage. Inefficient coolers have been replaced to decrease thermal

energy consumption. Initiatives focused on improving reliability have been undertaken, leading to increased overall productivity and efficiency. Energy-intensive transportation equipment has been replaced with more efficient modes of material movement, further contributing to energy savings. Moreover, grinding aids have been optimised for maximum efficiency and productivity. Mills and kilns are now operated through automated processes using emerging technology, which has resulted in consistent operations and improved specific energy consumption levels. These combined efforts reflect a commitment to sustainable and efficient practices.

MANUFACTURING EXCELLENCE

Product Quality Management

Emphasising efficiency and precision, the Company's operations are driven by automated processes. Rigorous quality checks are conducted at every stage to ensure the superior quality of its products. The Company's commitment to consistency extends to the use of stackers and reclaimers for the uniform homogenisation of each raw material.

- Automated processes for enhanced operational efficiency
- Stringent quality checks implemented at all stages
- Utilisation of stackers and reclaimers to achieve uniform homogenisation of raw materials
- Central manufacturing process controls to orchestrate seamless production workflows
- NABL (National Accreditation Board for Testing and Calibration Laboratories) accredited physical and chemical testing labs to uphold rigorous quality standards
- Accreditation by BIS and BS-EN (British standard)

implementations of English language versions of European standards), standards, highlighting the Company's commitment to industry benchmarks and excellence

Mining

SIL's integrated cement plants are directly linked to exclusive limestone mines, ensuring a secure supply of essential raw materials. The Company is implementing various measures to optimise and improve mine operations across different areas:

- **Diesel Usage:** Proposed measures involve optimising operations through the utilisation of alternative fuels, improving lead and gradient optimisation, and enhancing productivity. Strategies also include incorporating electric pumps, negotiating contracts, and minimising stock rehandling by optimising the truck fleet.
- **Electrical Energy:** Efforts to enhance electrical efficiency include reducing crusher idling time, optimising office lighting with solar solutions, and replacing HPSV (High Pressure Sodium Vapour) metal lights with energy-efficient LEDs. The Company also concentrate on optimising dewatering pump operations through the use of energy-efficient alternatives.
- **Explosives Management:** In its explosive operations, the Company adopts innovative practices such as using stemming plugs, spacers, decking methods, and plastic bottles. Focus is also on optimising drilling and

blasting patterns, exploring cost-effective explosives, minimising hole diameter, and improving fragmentation, all while integrating low-cost Nonel solutions.

- **Maintenance and Spare Parts:** The Company optimises procurement by sourcing hoses, spares, and lube oil from non-OEM suppliers. Utilising used oil for top-ups and implementing cost-effective in-house solutions contribute to operational efficiency. Its focus on

increasing tire life and achieving lubrication savings enhances mining KPIs.

- **Efficiency improvements:** The Company has identified and is deploying on a regular basis across the process.
- **Miscellaneous:** The Company has successfully eliminated land tax and implemented optimisation strategies for general and other expenses, enhancing overall financial efficiency.

TECHNOLOGY FOCUS

Innovation at the Forefront

The Company places immense focus on innovation, and that has translated into the quality of its products, which are considered one of the best in the industry. As part of Ambuja Cements, the Company will now amplify its thrust on research and innovation to improve its products and increase overall efficiencies.

Ambuja Knowledge Centre (AKC)

ACL has established Ambuja Knowledge Centres (AKCs) across 18 sites in India, serving as knowledge-sharing hubs for architects and engineers. These centres focus on educating construction professionals about sustainable construction, advanced materials, and techniques. The Company will look to leverage the AKC platform and actively promote and educate professionals through various physical and virtual knowledge-sharing activities.

Digitalisation

As strong proponents of digitalisation, the Company recognises its pivotal role in fostering sustainable business growth. The Company has initiated the integration of various digital techniques into its core business operations, including sales, logistics, material management, manufacturing, control systems, and technology operations. With a well-defined digital transformation strategy, the Company aims to revolutionise these processes, optimising resource allocation for sustainable business growth while ensuring compliance with regulatory requirements. Its digital transformation endeavours align with Industry 4.0, and substantial investments underscore its dedication to enhancing its position in the Indian cement manufacturing sector.

Improving Supply Chain Efficiency through Digital Transformation

The Company's focus on supply chain transformation revolves around strategic investments in

automated logistics infrastructure and process automation. It is in the process of deploying hardware and software solutions, including integrating Push API with SAP ERP, to optimise its extensive supply chain network. The real-time AI-enabled tracking platform, supported by analytics and machine learning, provides actionable insights derived from track and trace data. Ongoing efforts are directed towards expanding GPS coverage, minimising warehouse diversion, and reducing logistics costs. The Company's goal is to address data gaps and automate all operations currently managed by the operations team, ensuring the long-term sustainability of this transformative supply chain.

Aligning SIL's Cybersecurity with the Group standards

The Company is focused on aligning with the IEC 62443 standard and Adani Operational Technology (OT) security guidelines to ensure robust protection of its business. Implementing operational technology network

segmentation is crucial in blocking unauthorised access to sensitive data and devices. Its strategy includes segregating IT and OT networks, adhering to IEC (International Electrotechnical Commission) 62443 standards, and complying with various cybersecurity measures like DLP (Data Loss Prevention), SIEM (Security Information and Event Management), Proxy, and MFA (Multi-Factor Authentication). Recently, Sanghipuram underwent a thorough compliance audit, validating the effectiveness of its security measures and alignment with industry standards. This proactive approach underscores the Company's commitment to data protection and operational integrity, positioning it as cybersecurity resilient.

ENVIRONMENT

Taking Strides towards a Greener Future

The Company's extensive Environment Management System complements policies, procedures, and practices with industry-leading standards, enabling it to proactively tackle climate risks, reduce waste generation, and promote recycling. The Company actively endorses the integration of climate change measures into national policies, underscoring its commitment to broader environmental initiatives and sustainable practices.

Climate and Emissions Management

The Company is committed to reducing its Scope 1 and Scope 2 greenhouse gas (GHG) emissions through various projects and initiatives. To meet these objectives, it has implemented a range of measures, including transitioning to alternative fuels, reducing clinker factor, increasing blended cement production, enhancing energy efficiency, deploying waste heat recovery systems, and embracing automation technologies. By actively pursuing these strategies, the Company strives to minimise its environmental footprint and contribute to a more sustainable future.

GHG Emissions

The Company monitors and reports CO₂ emissions in its integrated manufacturing unit. The direct GHG emissions of the plant almost entirely consists of CO₂. The contribution of other non-CO₂ GHG emissions is negligible.

Scope 1

It covers direct emissions from the chemical process of cement manufacturing, fuel combustion in kiln, combustion of fuels for power generation, and on-site vehicle movement within premises, among others.

Scope 2

It covers emissions associated with purchased electricity from grid.

Details of GHG Emissions

ENVIRONMENT

Energy Management

Reducing the energy footprint remains a constant focus across all the businesses, recognising energy consumption as a key indicator. The operations depend on a combination of energy sources, including fossil fuels, alternate fuels, renewable energy, and Waste Heat Recovery Systems (WHRS). A meticulous tracking of energy consumption is maintained across facilities and equipment, aiding in mapping consumption patterns and structures. This enables the Company to prioritise and implement energy conservation initiatives effectively.

Specific Thermal Energy Consumption

(kCal/kg of clinker produced)

Other Air Emissions

In addition to greenhouse gas emissions, the combustion of fuel in operations generates air pollutants like nitrogen oxides (NOx) and sulfur oxides (SOx), contributing to the environmental impact of the industry. Furthermore, the business contributes particulate emissions due to fuel combustion and vehicle movement.

Water Management

Water is a key focus area and a vital component of SIL's sustainable development plan. Limited water is used for cooling, dust suppression, and human consumption. Central to its effective water stewardship is a continuous focus on monitoring

and measuring key water-related factors, including withdrawal, consumption, recycling, and final disposal. Through water stewardship efforts, the Company aims to contribute to a more sustainable future where access to clean, safe, and abundant water is assured for generations to come.

ENVIRONMENT

Waste Co-processed

The Company is using alternate fuel resources and has made significant investments in upgrading its pre-processing and co-processing infrastructure, transforming highly diverse waste streams into a homogeneous mix suitable for co-processing in cement kilns. This process converts waste into an alternative resource, reducing reliance on traditional fossil fuels, conserving natural resources, and cutting greenhouse gas emissions.

Waste Management

The Company upholds the integrity of its products by ensuring they are free from hazardous and toxic chemicals, demonstrating its commitment to responsible manufacturing. This dedication is reinforced by its certification under ISO 14001:2015, which covers its entire cement manufacturing operations. Within the Company's environmental management system, it has established comprehensive waste management guidelines, covering identification, segregation, collection, recycling, and responsible disposal.

Embracing the principles of the 6R framework, including Rethink, Reduce, Reuse, Recycle, Refuse, and Repair, guides its waste management practices, aiming to minimise waste generation and maximise resource efficiency. Through regular awareness sessions, the Company empowers its employees to fulfil their roles

and responsibilities in waste management, fostering a culture of environmental consciousness. Its commitment to continuous improvement is demonstrated by its monthly monitoring of waste data, enabling it to identify areas for enhancement and implement targeted strategies to further enhance its environmental performance.

Biodiversity Management

The Company's manufacturing sites are deliberately situated away from specific biodiversity zones, World Heritage sites, and IUCN (International Union for Conservation of Nature) category I-IV protected areas, in alignment with its group policy. It pledges to refrain from establishing new sites or explorations within these protected areas. The limestone used is responsibly sourced from captive mines near the plants, utilising surface miners to eliminate drilling and blasting. Located in the Kutch District, one of the most underdeveloped areas

in the country characterised by desert landscapes and extreme weather, the plant has initiated transformative measures. This includes the construction of three check dams for rainwater harvesting, aiming to combat perennial drought and enhance the surrounding ecosystem. Through planned microhabitat development, perennial water sources have been created, fostering tree plantation activities and the establishment of nurseries. Additionally, the planting of fast-growing trees contributes to the rapid development of natural shade in the area.

Responsible Mining

The Company possesses surface mines. Surface mine operations include surface milling (windrowing) and direct crushing to desired sizes. This eliminates drilling-blasting and primary crushing, which helps reduce atmospheric pollution and ground vibrations. The area of the mining lease is free from any habitation, therefore, no rehabilitation and resettlement is involved. To minimise the release of particulate matter at site, the plantation is carried out along the haul roadside. At the end of mining operations, most of the area will be used as rainwater storage. However, at present, all the pits are working pits. Primary reason for choosing this method of mining closure is that Kutch is one of the most arid and barren areas of the country and groundwater is very limited. Therefore, it is more feasible to use the closed mine for water conservation and groundwater recharge.

Environment Compliance

The Company can affirm that it is 100% compliant with all applicable environmental laws, regulations, and guidelines in India, including the Water (Prevention and Control of Pollution) Act, the Air (Prevention and Control of Pollution) Act, and the Environment Protection Act, along with their respective rules.

The Company's commitment includes providing flexible working hours and emphasising work-life balance. The Company conducts regular health check-ups, offers comprehensive health insurance and childcare facilities, and celebrates significant events. To address workplace stress, the Company also supports mental and emotional well-being through various initiatives.

Diversity and Inclusion

The Company places a strong emphasis on inclusivity and diversity within its people practices. It deeply values and supports all employees, fostering a workplace environment that is both respectful and intellectually stimulating. By prioritising being an equal opportunity employer, the Company can attract, retain, and develop new talent effectively, thereby enhancing its ability to serve customers and communities with unwavering dedication. In addition to this, the Company upholds a 'zero tolerance' policy

against workplace discrimination and harassment. It aligns closely with laws and internal directives to ensure a safe and respectful work environment for all. The Company's robust diversity, equity, and inclusion policy serves as the foundation of its dynamic and innovative workplace culture. The Company is dedicated to fostering a robust safety culture within the Ambuja family, striving towards the attainment of 'Zero Harm'. Safety remains the utmost priority at all times, with the aim of leading the industry in both health and safety outcomes. The overarching goal is to cultivate workplaces that are free from incidents and injuries. The Company emphasises the execution of work in a 'safer' manner, believing that everyone holds the potential to champion change in safety practices with the right mindset.

The Journey towards Achieving this Objective is Guided by Six Pillars

- Leadership Commitment and Governance
- System and Process for Strategic Safety Performance
- Safe Execution Strategy
- Training and Capability Building
- System Assurance, including Technological Intervention
- Safety Engagements under #SafetyCulture and Reward and Recognition at various levels

Management Discussion and Analysis

Prelude

Sanghi Industries Limited (SIL), part of Ambuja Cements Limited and the diversified Adani Group, is among India's leading cement companies. Its 6.1 MTPA capacity integrated cement plant located in Gujarat, is one of the largest single-location cement plants in India.

Equipped with multi-fuel technology SIL's fully integrated plant includes captive facilities viz. a 143 MW power plant, all-weather port, and sea terminal to cater to the demands of its markets. The Company also possesses one of the largest limestone reserves in the country. Due to the high quality of its mineral reserves and advanced manufacturing technology, the Company is able to produce a superior grade of cement while maintaining the lowest cost of production. Its commitment to positive transformation has resulted in converting the arid landscape of the nearby area into a green and clean zone.

Management Discussion and Analysis

Economic Scenario and Outlook

Despite multiple challenges, the global economy showed exemplary resilience and reported stronger-than-expected growth during the second half of CY 2024, led by the United States and several other emerging and developing economies. India remained an outlier and reported an estimated 7.6% growth in FY 2023-24, driven by robust performance broadly across all economic sectors. The construction sector reported an impressive 10.6% growth, owing to the Indian Government's continuous investment in augmenting the country's infrastructure and heightened project execution activities.

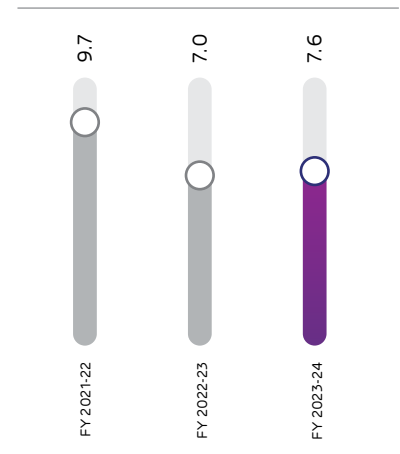

The Government of India continued its focus on infrastructure spending to create a multiplier effect on economic growth and job creation and to stimulate private

consumption and investment spending. The ₹ 11.11 lakhs crore allocated in the Interim Budget FY 2024-25 will focus on creating three important economic corridors (energy, mineral and cement corridor, port connectivity corridor, and high traffic density corridor) to enable multi-modal connectivity under the PM Gati Shakti scheme, expansion of metro railways and Nammo Bharat in large cities, expansion and development of new airports, initiation of projects for port connectivity, tourism infrastructure and amenities on Indian islands, among others.

These initiatives are in sync with the Prime Minister's vision of Viksit Bharat by 2047. Furthermore, the Interim Budget FY 2024-25 has also targeted building two crore houses under the PM Awas Yojana

(Grameen) (rural housing scheme) in the next five years and proposed a housing scheme for the country's vast middle-class population.

Cement Capacity Addition the Highest in over a Decade in FY 2024 (MTPA)

Source: CRISIL MI&A Research

The Indian cement industry, the second-largest producer globally, stands out for its energy efficiency, resource conservation, social responsibility, and environmental consciousness. Embracing green, clean, and sustainable practices has been a longstanding commitment of the cement industry. In FY 2022-23, the Indian cement market reached a substantial size of 397 MTPA, buoyed by robust growth in the housing sector and ongoing investments in infrastructure development. The industry is likely to grow by an impressive 9% to 10% during FY 2023-24 and reach a total volume of 425 to 430 MTPA.

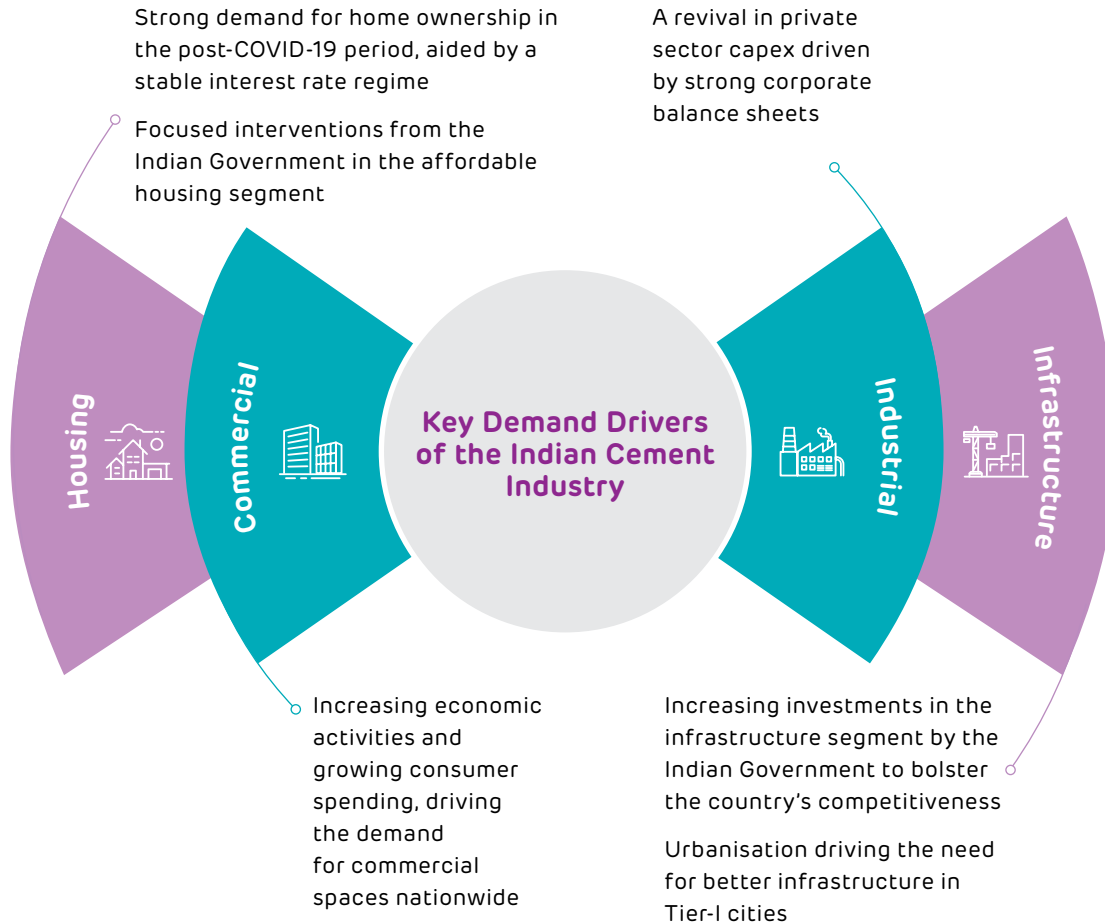

Sector-wise Share of Cement Consumption (%)

Outlook

As the country prepares for rapid economic growth and urbanisation, there is a rising demand for robust infrastructure and contemporary living spaces. Upliftment of Tier-II cities and rural areas is also fuelling the need for housing, transportation networks, healthcare facilities, and educational institutions. Additionally, the surge in commercial and industrial activities is boosting demand for commercial spaces. With this positive outlook, the Indian cement sector anticipates demand increasing by 8-9% in FY 2024-25. It also foresees 150-160 MTPA in capacity additions over the next five years, utilising organic expansion strategies.

Management Discussion and Analysis

Business Review

Sustainable Development

Increasing its coastal footprint under the umbrella of Ambuja Cements, the Company will increase its existing capacity to 15 MTPA across the West Coast markets with the states of Gujarat, Maharashtra, Karnataka, and Kerala at a very competitive cost based on its strength of low-cost clinker. This additional capacity is

targeted to be commissioned by FY 2025-26. Sustainability is at the core of SIL's strategic framework that emphasises circular economy, climate, energy, and environmental stewardship. The Company's proactive measures include reducing clinker factor, optimising energy consumption, and integrating alternate fuels into

its cement production process. The Company strives to expand its utilisation of renewable energy sources and implement innovative waste heat recovery systems (WHRS) to bolster its green energy footprint. In addition, SIL focuses on making a lasting impact on the community by uplifting marginalised communities.

A. Circular Economy

The Company is dedicated to transforming its practices and operations towards a circular approach. The Company strategises to utilise clean energy sources like WHRS, undertake best water management practices, incorporate alternative fuels, and locally source raw materials to ensure responsible manufacturing. Additionally, SIL implemented a 'closed loop' system within its production processes, where materials and resources are recovered and reused, leading to reduced unnecessary waste.

B. Climate and Energy

The Company has pledged to decrease its Scope 1 and Scope 2 greenhouse gas (GHG) emissions through diverse projects and initiatives. To

achieve these goals, it has adopted various measures such as shifting to alternative fuels, lowering clinker factor, boosting blended cement production, improving energy efficiency, installing WHRS, and embracing automation technologies. In addition to greenhouse gas (GHG) emissions, the combustion of fuel in operations generates air pollutants like nitrogen oxides (NO_x), sulphur oxides (SO_x), and particulate matter contributing to the environmental impact of the industry.

The Company is in the constant process of reducing its carbon footprint and promoting a sustainable future. In addition to this, reducing the energy footprint is a consistent priority, with a recognition of energy consumption as a crucial indicator. The operations rely on a mix of energy sources encompassing fossil

fuels, alternative fuels, renewable energy, and WHRS. The Company maintains a detailed monitoring of energy consumption across its facilities and equipment, which helps in analysing consumption patterns and structures. This approach enables the Company to prioritise and implement energy conservation initiatives.

C. Environment

The Company has a comprehensive environmental management system that aligns with the policies, procedures, and practices of the parent company Ambuja Cements Limited. This approach enables SIL to proactively address climate risks, minimise waste generation, and advocate for recycling. The Company supports incorporating climate change strategies, reaffirming its dedication to progressive environmental endeavours and sustainable practices.

On a Path to Recovery

The Company's shareholders have approved in its special EGM held on February 08, 2024 for related party transactions (RPTs) with Adani Enterprises Limited (AEL), Ambuja Cements Limited (ACL), and/or its wholly owned unlisted subsidiaries. ACL, the holding company currently, owns 60.44% equity shares of Sanghi Industries Limited. These transactions are expected to exceed the applicable materiality thresholds.

To ensure transparency and compliance, the Company follows a specific process for validating RPTs. The Audit Committee, consisting of independent directors, reviews and approves the transactions based on relevant information provided by the management, as required by the law. The committee ensures that the transactions are conducted on an arms' length basis and in the ordinary course of business.

Furthermore, the Company sought an arms' length opinion regarding these transactions from a reputable firm of Chartered Accountants based in Mumbai.

Approved RPTs with AEL and ACL

Acquisition of Solid Fuels: The Company faced operational complexities, including issues related to the terms of delivery, delayed supply, and quality problems when acquiring solid fuels from third-party sources. To address these challenges, AEL, an entity under common control, agreed to supply coal of superior and consistent quality, with efficient and improved logistics, at an arms' length price. As a

result, the Company entered into a transaction with AEL to purchase solid fuels (specifically coal) used for manufacturing clinker and also in captive thermal power plants. The consistent supply of superior quality solid fuels from AEL to the Company (SIL) is expected to be in the best interest of all stakeholders involved.

Purchase of Fly Ash: Given the proximity of fly ash availability to the plant, it is financially prudent to purchase fly ash from AEL, considering the cost savings associated with reduced logistics expenses. The purchase of fly ash from AEL will be at the prevailing market price.

Shared Business Services: AEL provides shared business services to all Adani Group Companies. The Company will avail of these services from AEL to ensure administrative convenience, cost-effectiveness, and robust financial control.

Overall, the proposed transactions and shared business services with AEL are aimed at improving operational efficiency, ensuring consistent fuel quality, reducing logistics costs, and enhancing financial control, thereby benefiting the Company as a whole and its stakeholders.

Cement and Clinker: The price will be based on the manufacturing plant's cost of production (excluding interest and depreciation) of the previous quarter, with a 10% markup. ACL would purchase bulk clinker and cement from the Company.

Sale/Purchase of Raw Materials and Spare Parts: The price will be determined based on either the replacement cost at the manufacturing company's location, considering the market price, or the manufacturing company's landed cost plus a carrying cost of 10% per annum for the holding

Management Discussion and Analysis

period. The quantity would be based on the need.

Availing/Rendering of services:

Each company will reimburse the actual expenses incurred on its behalf by other the entity. This will create a positive impact on the liquidity of the Company. Assurance of bulk purchases ensures that the Company will not face liquidity challenges and can meet overheads and working capital requirements resulting in smooth business operations for the benefit of all stakeholders.

These transactions with Ambuja Cements aim to achieve several benefits for the Company, including:

- Synergies and economies of scale, optimising capacity utilisation, and reducing operational and administrative costs
- Strengthening business sustainability, including environmental sustainability and conservation of natural resources
- Optimising the cost to serve the market and achieving higher ESG (Environmental, Social, and Governance) standards
- Optimum utilisation of plant installed capacity as due to various reasons, including financial constraints, the Company has been operating at around 25% utilisation of its installed capacity

Master Supply Agreement and Master Service Agreement

Post-acquisition by ACL, the Company has entered into a Master Supply Agreement and Master

Service Agreement (collectively referred to as 'MSA') with Ambuja Cements Limited and ACC.

The MSA covers the purchase/sale of raw materials, spare parts, and availing/rendering of services. Under the MSA, ACL and ACC will bulk purchase clinker and cement produced by the Company, which will be sold under the Ambuja/ACC brand.

Expected Benefits

- The Company expects to improve its capacity utilisation to around 80% and become EBITDA positive, leading to an improvement in operating cash flow.
- This arrangement is expected to alleviate the financial

constraints faced by the Company and benefit all stakeholders, including creditors, governments, shareholders, and employees.

Overall, these related party transactions (RPTs) are aimed at optimising the Company's operations, improving financial stability, and enhancing the overall interest of all stakeholders.

- **Financial Constraint Elimination:** The Company expects that these transactions with ACL and ACC will alleviate any financial constraints that it may face in the future
- **Positive Impact on EBITDA:** The EBITDA of the Company was negative (32%) during the half-year ended on September

30, 2023. However, with the transactions undertaken/ proposed with ACL and ACC, the EBITDA is anticipated to become positive, estimating around 9%. Furthermore, the Company's turnover is expected to increase to approximately ₹ 2,000 crore, resulting in an EBITDA of about ₹ 180 crore.

▪ **Availing Financial Assistance:**

Given the current scenario and the liquidity crunch faced by the Company, ACL has already provided a long-term unsecured loan (Inter-Corporate Deposit, 'ICD') of ₹ 2,081 crore at an 8% interest rate. The Company utilised this loan to repay existing secured debts bearing an average interest rate of about 18% and for working capital requirements. ACL, the parent company, will provide additional financial assistance of up to ₹ 500 crore through an unsecured loan (ICD) in one or more tranches. This additional funding will be used to meet working capital requirements, plant balancing and refurbishment, IT upgradation, initiatives towards ESG, and other general corporate purposes. An interest rate of 8% p.a. will be charged on the provided ICD, aligning with the prevailing market yield rate.

Overall, these RPTs and the financial assistance provided by AEL and ACL are expected to significantly benefit the Company's financial stability, positively impact its EBITDA, and address its liquidity requirements for various purposes in line with market standards

Quality Management

The Company's operations prioritise efficiency and precision through automation. SIL conducts thorough quality checks at every stage to ensure top-notch product quality. The Company employs stackers and reclaimers for the homogenisation of raw materials. Additionally, it employs central manufacturing process controls for seamless production workflows. SIL's NABL-accredited labs uphold rigorous quality standards, complemented by accreditations from the Bureau of Indian Standards (BIS) and BS-EN, showcasing its commitment to industry benchmarks and overarching excellence.

Certifications

- **ISO 9001:2015** (Quality management systems)
- **ISO 14001:2015** (Environmental management systems)

- **ISO/IEC 17025:2017** (National Accreditation Board for Testing and Calibration Laboratories' accreditation for chemical and mechanical testing)

Management Discussion and Analysis

Digitalisation and Cybersecurity

SIL acknowledges the crucial role of digitalisation in driving sustainable business expansion. Over time, the Company has systematically incorporated diverse digital techniques across its key business functions, spanning sales, logistics, material management, manufacturing, control systems, and technology operations. Guided by a clear digital transformation strategy, the Company aims to overhaul these processes, efficiently allocating resources for sustainable growth while maintaining regulatory compliance. SIL's digital initiatives align with Industry 4.0 principles, and significant investments underscore its commitment to advancing the Company's position in the Indian cement manufacturing industry.

In addition, the Company prioritises adherence to the highest levels of security guidelines to safeguard its business effectively. Operational technology network segmentation prevents unauthorised access to sensitive data and devices. SIL's strategy involves segregating information and operational technology networks and implementing cybersecurity measures such as data loss

prevention, security information and event management, proxy, and multi-factor authentication (MFA). Recently, Sanghipuram underwent a comprehensive compliance audit, affirming the effectiveness of the Company's security measures and their alignment with industry standards.

Internal Control Systems and Adequacy

SIL's management is accountable for establishing and upholding internal financial controls following the criteria set forth by the Company and considering the essential components of internal control. SIL's responsibilities encompass the design, execution, and upkeep of sufficient internal financial controls that function effectively to ensure its business' orderly and efficient operation. This approach includes adhering to policies, safeguarding assets, preventing and detecting frauds and errors, maintaining accurate and complete accounting records, and promptly generating reliable financial information as required

under the Companies Act, 2013. The Company maintains comprehensive internal financial control systems across its business operations, statutory compliance, and financial reporting. Additionally, SIL's internal audit

focuses on evaluating the operational effectiveness of the internal financial control system, providing objective assurance to the Board and Audit Committee regarding its adequacy and efficiency.

Human Resources

The Company aims to enhance individual capabilities to meet and exceed the organisation's current and future goals. The Company aims to create an environment that drives every member of the Adani Parivar towards success by unlocking their full potential, blending growth and achievement for collective success.

Improving Employee Experience

Recognising the pivotal role of employee experience, the Company invests in initiatives to enhance workplace engagement, collaboration, and fulfilment. Through

feedback mechanisms, surveys, and regular communication channels, the Company listens to its workforce to address their needs and expectations, fostering an environment where employees thrive personally and professionally.

HR Technology

Embracing technological advancements in human resource (HR) management, the Company implements cutting-edge solutions to streamline processes and boost efficiency. The Company aims to ensure optimal performance and a digitally integrated, agile infrastructure by empowering employees with user-friendly tools.

Fostering a Performance and Merit-Based Culture

The Company maintains a commitment to fostering a high-performance, meritocratic culture. The Company's performance management system (PMS) emphasises regular feedback, goal alignment, and recognition of achievements, supported by digital tools for goal tracking and evaluation. SIL celebrates employee accomplishments through a robust rewards and recognition programme, encouraging consistent excellence.

Management Discussion and Analysis

Adopting an Agile Approach

In today's fast-paced business environment, agility is vital for success. The Company embraces an agile way of working to enhance responsiveness to market changes, customer needs, and internal dynamics. Cross-functional collaborations, iterative processes, and continuous improvement are central to the Company's agile approach, ensuring adaptive, innovative teams are ready to navigate challenges and seize opportunities.

Improving Industrial Relations

Positive industrial relations are fundamental to the Company's

organisational ethos. SIL maintains an open-door policy and effective communication channels, with regular employee forums and committees facilitating transparent dialogue and prompt resolution of concerns. The Company aspires to foster a workplace where trust, collaboration, and inclusivity thrive.

Enhancing Diversity and Inclusion

Building on its past successes, the Company remains firmly committed to diversity and inclusion. Informed by data, SIL strives to create a workforce reflecting the richness of its

communities, fostering innovation, creativity, and collaboration through diverse perspectives. The Company believes that a diverse and inclusive workplace is a source of strength and essential for achieving its business objectives.

Community Development under the Aegis of Adani Foundation

Since its inception in 1996, the Adani Foundation, the community outreach arm of the Adani Group, has maintained a deep-seated commitment to strategic social investments aimed at fostering sustainable outcomes nationwide. The Adani Foundation's initiatives, focusing on critical areas such as education, health, livelihoods, skill development, and community infrastructure, align with national priorities and UN SDGs. Recognised for its innovative problem-solving approach, the Adani Foundation challenges norms and embraces novel solutions to ensure lasting impact. The Company is wholly committed to ensuring that it is aligned with the Foundation's philosophy and priorities and implements the same with communities in and around its operations.

Risk Management

The Company adheres to the highest standards of risk management practices to ensure the integrity and resilience of its operations. The Company's approach to risk management encompasses thorough identification, assessment, and mitigation of potential risks across all aspects of its business. By leveraging comprehensive risk assessment methodologies, the Company proactively identifies and analyses internal and external risks that may impact the organisation.

Key Risks and their Mitigation

Key Risks	Description	Mitigation
Maintaining Market Position in a Dynamic Industry Environment	The Indian cement industry's ever-evolving diverse landscape poses inherent risks to the Company's market position, heightened by ongoing capacity additions and consolidations.	The Company aims to counter these risks through strategically expanding its cement and clinker production capacities. Additionally, proactive efforts in brand equity enhancement through innovation and digitisation ensure resilience against competitive and profitability challenges.
Compliance with Changes Regulatory Landscape	Regulatory changes, driven by shifts in climate and environmental concerns, are occurring rapidly worldwide. Failure to comply with these new standards poses a high degree of complexity, potentially impacting the reputation and financial standing of the Company.	The Company employed transformation, upgradation, and modification tools to address these challenges. It has initiated various projects across its operations to control pollution and adhere to new emission standards (for dust, SOx, and NOx) set by the Ministry of Environment and Forest and Climate Change (MoEFCC). This proactive approach ensures regulatory compliance and positions the Company as a responsible steward of the environment.
Fuel and Raw Material Security Challenges	The cement industry, known for its capital, energy, and raw-material intensity, grapples with significant challenges in ensuring fuel and raw material security. Operating expenses hinge on energy and raw material costs, necessitating an uninterrupted supply for business continuity. Challenges arise from the Mines and Minerals (Development and Regulation) Act's notification, mandating mining lease renewals and grants through auctions, leading to fierce competition.	The Company employs a comprehensive strategy to address these challenges. It optimises the fuel mix for fuel security, enhances plant efficiency, and increases alternative fuel utilisation. Procuring raw materials, including coal, limestones, and fly ash, at an economical cost and suitable quality is crucial for production efficiency. The Company's risk on this front gets mitigated owing to its long-term mining lease for limestone, a key raw material for a cement company, and its substantial limestone reserves for many years.

Management Discussion and Analysis

Key Risks	Description	Mitigation
Cybersecurity Threats	SIL's strategic integration of digitisation and emerging technologies, spanning artificial intelligence (AI), the Internet of Things (IoT), and blockchain, brings forth avenues for its progress and introduces new risks. The rapid pace of technological evolution presents both opportunities and potential security challenges.	<p>The Company proactively addresses the potential security risks associated with learning language models (LLMs) and social media platforms. It has implemented immediate measures to safeguard confidential information, including identifying and blocking data leakage sites that threaten the Company's network. Simultaneously, plans are in motion to establish a secure and monitored environment dedicated to using artificial intelligence tools.</p> <p>Creating a secure business environment involves the implementation of backup procedures and firewalls. Regular system upgrades and monitoring adhere to the latest security standards. The Company's commitment to cybersecurity extends to the periodic update of policies and procedures, ensuring alignment with the evolving threat landscape. Users are consistently educated on policy adherence, eliminating risks, and contributing to a secure digital workspace at SIL.</p>
Health and Safety Priorities	Health and safety are fundamental for business sustainability, demanding teamwork and commitment at all levels. In the pursuit of zero harm, the Company is undergoing evaluations and is focused on improving frontline safety and leadership presence.	The Company systematically reviews systems, processes, and procedures, addressing identified gaps. Initiatives like 'Unchaai Kendra' and Life Saving Safety Rules (LSSR) enhance awareness and prevent mishaps, contributing to a safer working environment onsite and offsite. Regular dynamic risk assessments help the Company to stay ahead of challenges, driving continuous progress towards 'zero harm.'
Climate Risk	The Company is conscious of the risks posed by climate change – physical risks as well as transitional risks. In physical risks, the Company considers acute and chronic risks. Acute risks are in the form of flooding, droughts, cyclones, etc., and chronic risks include water stress, heat stress, etc. In transition risk, the Company considers regulatory, technology, market, and reputation risks. The impacts of the risk can be in the form of supply chain disruptions, power outages, threats to plants and personnel, productivity, and many more.	The Company has a well-established climate governance consisting of policies and committees. Climate-related metrics and targets are defined, and performance is monitored regularly. The structures are designed to withstand severe conditions. Emergency plans are in place to address the risks. Regular training and drills are conducted to ensure that everyone is familiar with emergency procedures.

Key Risks	Description	Mitigation
Natural Resources	<p>The cement industry predominantly relies on natural resources such as limestone, coal, and minerals. Ensuring an uninterrupted flow of these essential materials while maintaining optimal cost and quality standards is imperative for sustaining seamless business operations.</p>	<p>To mitigate risks associated with natural resources, the Company is investing in improving its operational efficiencies for better resource utilisation. The Company is also actively undertaking several initiatives to conserve, reuse, and recycle resources wherever possible. These initiatives include efforts to improve the clinker factor and thermal substitution rate (TSR), among others.</p> <p>Additionally, the Company is investing in renewable energy and WHRS systems to minimise its reliance on non-renewable sources. To ensure the availability of key raw materials, the Company is also investing in coal and limestone mines. Through these measures, SIL aims to enhance sustainability, reduce environmental impact, and ensure a more resilient supply chain.</p>
Energy Security	<p>Energy security is a critical factor for the Company, as it heavily influences the operations and overall production costs.</p> <p>The Company faces substantial risks associated with energy expenses, constituting a significant portion of its overall production costs. Given the energy-intensive nature of cement production, particularly during kilning and grinding processes, managing energy costs effectively is paramount.</p>	<p>The Company recognises the importance of safeguarding against the risk of energy price inflation, and one strategy it employs is diversifying fuel sources, which includes leveraging alternative fuels. This approach helps mitigate the impact of fluctuating energy prices and promotes sustainability by reducing reliance on conventional fossil fuels.</p> <p>Moreover, the Company evaluates various energy procurement options to ensure optimal cost-effectiveness and reliability. The Company is committed to enhancing energy efficiency across its operations by implementing innovative technologies and sustainable practices. By proactively managing its energy resources, the Company aims to bolster operational resilience and sustain competitiveness in the dynamic cement industry landscape.</p>
Project Execution	<p>Project execution is critical, considering the company's vision to reach 140 MTPA by FY 2027-28. In line with this target, the company is already executing large-scale projects at multiple sites. To ensure timely completion, with utmost safety and quality and all within budget, is of utmost priority for the business.</p>	<p>The Company is leveraging group synergies by aligning with the Adani Group's project management company which has demonstrable experience and expertise in executing large-scale projects. Budgetary concerns, an important factor in project execution, are mitigated by a robust cashflow through internal accruals. The Company is executing its ongoing projects through EPC mode, for which it is partnering with the only the most reputed and regarded suppliers in the world. The Company is aligning its internal processes with an objective of simplifying, standardisation, and skill enhancement to achieve maximum speed and scale – the Projects team's 5S mantra.</p>

Committees of Board

As required under the Act and the SEBI Listing Regulations, the Company has constituted various Statutory Committees. As on March 31, 2024, the Board has constituted the following statutory committees.

Statutory Committees:

- Audit Committee
- Nomination and Remuneration Committee
- Stakeholders Relationship Committee
- Risk Management Committee
- Corporate Social Responsibility Committee

Details of all the committees such as terms of reference, composition, and meetings held during the year under review are disclosed in the Corporate Governance Report, which forms part of this Annual Report.

Number of meetings of the Board

The Board met 11 (Eleven) times during the year under review. The intervening gap between the meetings did not exceed 120 days, as prescribed under the Act and SEBI Listing Regulations. The details of board meetings and the attendance of the Directors are provided in the Corporate Governance Report, which forms part of this Annual Report.

Independent Directors' Meeting

The Independent Directors met on March 26, 2024, without the attendance of Non-Independent Directors and members of the management. The Independent Directors reviewed the performance of Non-Independent Directors, the Committees and the Board as a whole along

with the performance of the Chairman of your Company, taking into account the views of Executive Director and Non-Executive Directors and assessed the quality, quantity and timeliness of flow of information between the management and the Board that is necessary for the Board to effectively and reasonably perform their duties. The Independent Directors were satisfied with the overall performance of the Board as a whole.

Board Evaluation

The Nomination and Remuneration Committee has devised criteria for evaluation of the performance of the Board as a whole, committees, chairperson and individual directors. As a step towards better governance practice, for the financial year ended March 31, 2024, the Company has engaged an independent external agency "Talentonic HR Solutions Private Limited" ("Talentonic") for facilitating Board evaluation. The evaluation process focused on Board dynamics and softer aspects and involved independent discussions with all Board members. A detailed Board effectiveness assessment questionnaire was developed based on the criteria and framework adopted by the Board. The CEO of Talentonic has conducted one-to-one virtual meetings with all the board members on five key themes i.e., Fiduciary Role of the Board, Board involvement in strategy, quality of Board discussions, Board leadership and organisation health and talent and Board Structure & Capability. The outcomes of the evaluation process were presented to the Independent Director Meeting, Nomination & Remuneration Committee and the Board and further actions were agreed upon.

The results of the evaluation showed high level of commitment and engagement of Board, its various committees and senior leadership. The recommendations arising from the evaluation process were discussed at the Independent Directors' meeting, NRC meeting and Board meeting held on March 26, 2024. The suggestions were considered by the Board to optimise the effectiveness and functioning of the Board and its committees.

Board Familiarisation and Training Programme

The Board is regularly updated on changes in statutory provisions, as applicable to the Company. The Board is also updated on the operations, key trends and risk universe applicable to the Company's business. These updates help the Directors in keeping abreast of key changes and its impact on the Company. An annual strategy retreat is conducted by the Company where the Board provides its inputs on the business strategy and long-

term sustainable growth for the Company. Additionally, the Directors also participate in various programmes / meetings where subject matter experts apprise the Directors on key global trends. The details of such programmes are provided in the Corporate Governance Report, which forms part of this Annual Report.

SECRETARIAL AUDIT REPORT

FOR THE FINANCIAL YEAR ENDED ON MARCH 31, 2024

[Pursuant to section 204(1) of the Companies Act, 2013 and Rule 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,
SANGHI INDUSTRIES LIMITED
CIN: L18209TG1985PLC005581
Sanghi Nagar, P.O. Hayatnagar,
Tq. Ranga Reddy, Dist. Hyderabad,
Telangana – 501 511.

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **SANGHI INDUSTRIES LIMITED** (hereinafter called the Company). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

Based on our verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorised representatives whether electronically or otherwise during the conduct of secretarial audit; we hereby report that in our opinion, the Company has, during the audit period covering the financial year ended on March 31, 2024 generally complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on March 31, 2024 and made available to us, according to the provisions of:

- i. The Companies Act, 2013 (the Act) and the Rules made there under;
- ii. The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the Rules made there under;
- iii. The Depositories Act, 1996 and the Regulations and Bye-laws framed there under;
- iv. Foreign Exchange Management Act, 1999 and the Rules and Regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings- Not applicable to the extent of Overseas Direct Investment and External Commercial Borrowings as there were no reportable events during the financial year under review;
- v. The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):

 - (c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018- Not applicable during the year under review;

- (d) The Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021- Not applicable during the year under review;
- (e) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act, 2013 and dealing with client – Till, January 8, 2024 the Company was having In-House electronic connectivity with National Securities Depository Limited (NSDL) & Central Depository Services (India) Limited (CDSL) for Share Transfer Registry Work. With effect from January 9, 2024 the Company has appointed Link Intime India Private Limited as its Registrar and Share Transfer Agent (RTA);
- (f) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2021- Not applicable during the year under review;
- (g) The Securities and Exchange Board of India (Buy Back of Securities) Regulations, 2018 - Not applicable during the year under review;
- (h) The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015;
- (i) The Securities and Exchange Board of India (Issue and Listing of Non-Convertible Securities) Regulations, 2021- As there is no fresh issue of any Listed Non-Convertible security during the year, the said provisions are not applicable in the reporting year.

We have also examined compliance with the applicable Standards / Clauses / Regulations of the following:

- i. Secretarial Standards issued by The Institute of Company Secretaries of India (ICSI) and made effective from time to time.
- ii. The Uniform Listing Agreement entered into by the Company with National Stock Exchange of India Limited (NSE) and BSE Limited (BSE).

During the Audit period under review, the Company has generally complied with provisions of the applicable Act, Rules, Regulations, Guidelines, Standards etc. as mentioned above.

We further report that:

Having regard to the Compliance system prevailing in the Company and on examination of relevant documents and records in pursuance thereof on test - check basis, the Company has generally complied with the material aspects of the following laws specifically applicable to the Company being engaged in the Cement Industry:

1. The Atomic Energy Act, 1962 read with Atomic Energy (Radiation Protection) Rules, 2004;
2. Indian Boiler Act, 1923 read with Gujarat Boiler Rules, 1966;
3. The Petroleum Act, 1934;
4. Mines Act, 1952;
5. The Mines and Mineral (Development and Regulations) Amendment Act, 2015;
6. Mineral Conservation and Development (Amendment) Rules, 2016;
7. Explosive Rules, 2008;
8. Ammonium Nitrate Rules, 2012;
9. Mineral (Auction) Rules, 2015;
10. The Minerals (Evidence of Mineral Contents) Rules, 2015;
11. Hazardous Waste (Management, Handling & Transboundary Movement) Rules, 2008;
12. Bio-Medical Waste (Manufacturing and Handling) Rules, 2008.

We further report that:

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors including Woman Independent Director. The changes in the composition of the Board that took place during the year under review were carried out in compliance of the provisions of the Act.

Adequate notice is given to all Directors to schedule the Board Meetings and Committee Meetings, agenda and detailed notes on agenda were sent at least seven days in advance. Further, Independent Director(s) were present at Board Meetings which were called at a shorter notice

to transact business which were considered urgent by the management in compliance of Section 173(3) of the Act. A system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

Decisions at the meetings of Board of Directors and Committees of the Company were carried unanimously. We were informed that there were no dissenting views of the members on any of the matters during the year that were required to be captured and recorded as part of the minutes.

We further report that:

Based on the review of compliance mechanism established by the Company, the information provided by the Company, its officers and authorised representatives during the conduct of the audit and compliance certificate placed before the Board Meeting, we are of the opinion of that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable general laws, rules, regulations and guidelines.

We further report that:

The Compliance by the Company of the applicable financial laws like Direct and Indirect Tax laws, has not been reviewed in this Audit since the same have been subject to the review by the Statutory Auditors and other designated professionals.

We further report that:

Environment and Pollution Control

The Company has established centralised Environmental Management Cell (EMC) for environment management and vigorously pursued its goal of sustainable development through exacting standard in environmental conservation, emission control, promotion of alternative fuel & raw materials and waste management. The Company has been certified with ISO:14001 standard since 2004.

The Company has installed state of the art air pollution control systems like ESP, Bag house with membrane technology, Fugitive emission control systems like Dust extraction & dust suppression system in all required locations. The Company has also explored possibility to upgrade existing pollution control equipment's on the ground of present technology advancement and implement accordingly. The Company has concreting of internal roads, truck parking area and plant floors and carried out massive plantation in the entire complex. The Company has provided Clinker storage and state of the art loading system. The mining activities are being carried out by eco-friendly surface miner. The Company is committed for CO² emissions abatement and implemented series of project for the same.

The Company has implemented series of measures for environment and pollution control. Some of the measures implemented during the year are:

- Enhancement in alternative fuel & raw material in manufacturing process.
- Real time monitoring of emission data through online continuous emission monitoring system.
- Enhancement of composite cement mix to enhance fly ash utilisation.
- Regular carbon footprint analysis for green-house gas emission reduction.
- Massive plantation in the plant & colonies.
- Internal Water audit has been carried out for optimisation of water consumption in all the units & increased the efficiency of cooling tower.
- Internal Energy audit has been carried out for the optimisation of plant process, energy conservation & enhancing the efficiency of compressors, blowers etc.

Conservation of Energy, Technology Absorption

(a) Conservation of Energy

- (i) **The steps taken or impact on conservation of energy;**
- **All Locations** Process optimisation in Clinker and Cement plant as far as concern to quality & energy.
 - **All Locations** Optimisation of compressors by arresting air leakages & loading & unloading pressures.
 - **All Locations** Optimisation of Bag filters by adjusting the inlet damper without affecting the operation & dust emission.
 - **All Locations** Optimisation of Bag filters purging air by installation of DP transmitter
 - **All Locations** Minimise the false air across Preheaters, Raw mill & Coal mills in Clinker unit.
 - **All Locations** Installation of LED lights in place of conventional lights in different locations in plant.
 - **All Locations** Installation of LED lights in place of conventional lights in plant, colonies, street lights etc.
 - **All Locations** To avoid the idle running of transport equipment of additive, Limestone & coal circuits.
 - **All Locations** Installation of LT VFD in different sections to save maximum energy.

(a) Conservation of Energy**CU - Clinker unit, CU-1 - Clinker unit-1, CU-2 - Clinker unit-2, GU - Grinding unit, TPP - Thermal Power Plant**

- **CU-1** Coal mill-2 feed chute modification done to reduce reject, increase TPH & save power.
- **CU-1** Installation of occupancy sensors in offices & electrical sub-stations for ON-OFF of power supply.
- **CU-1** Raw Coal Feeder replaced by modified rotary air lock to increase coal mill efficiency & reduce power
- **CU-1** Installation of rotary air lock at firing screw discharge for improve coal firing efficiency.
- **CU-1** Efficiency improvement in WHRS by modification of Alkali bypass Boiler circuit.
- **CU-2** Raw Mill Bag house running in DP mode to reduced air consumption & filter bag life enhanced.
- **CU-2** Preheater down comer duct 5 no's expansion joint changed to reduce specific heat and power.
- **CU-2** Pressure drop reduced across cooler fan inlet by removing inlet damper.
- **CU-2** New refractory installed with increased thickness (refractory thickness increased from 220 mm to 250 mm) which reduce shell radiation and improve heat losses.
- **CU-2** Additive weigh feeder hopper discharge chute modified which minimised jamming problem and improved material flow-ability.
- **CU-2** Both 4th stage cyclone new dip-tube installed which reduces return dust loss and reduces Specific heat.
- **CU-2** Alkali Bag house running in DP mode to reduce air consumption and improve filter bag life.
- **CU-2** With in-house modification, installed HRB bearing cooling system which reduced stoppage of HRB and increased life of bearing and increased equipment reliability.
- **CU-2** Coal mill Dam-ring height increased by 20 mm which reduced mill vibration.
- **CU-2** Coal mill auto start and auto stop logic created to avoid idle running which reduces specific power consumption.
- **CU-2** With in-house modification, new blower with purging air system installed in Coal dosing RAL which reduced jamming frequency and manpower engagement.
- **CU-2** Coal feeding system auto stop logic with minimum current to avoid idle running.
- **CU-2** SS liner installed in additive chutes which reduced jamming frequency.
- **CU-2** SS liner installed in Raw Mill Inlet chute which reduced jamming frequency and increased availability of Mill.
- **CU-2** Stand by additive feeding arrangement made for additive feeding.
- **CU-2** Alkali dust handling Dumper Carrier body modified to reduce dust emission
- **CU-** Clinker unit, CU-1 - Clinker unit-1, CU-2 - Clinker unit-2, GU - Grinding unit, TPP - Thermal Power Plant

(a) Conservation of Energy

- **CU-2** CLT extraction auto logic created for sequential gate opening to avoid heaping in side silo and reduces quality variation.
- **CU-2** CLT circuit, Deep Pan conveyor PG gate operation with its upper limit applied to reduce spillage of material due to flushing.
- **CU-2** CLT circuit, belt conveyor replaced with diverting gate to improve operational efficiency.
- **CU-2** Raw Mill section all 06 rollers sealing arrangement modified to reduce false air ingress.
- **CU-2** Raw Mill circuit, 332 BC-3 belt skirt extended near chute area to reduce dust emission.
- **CU-2** RMH circuit, 121 BC-5 belt discharge chute angle changed to reduce frequent chute jamming tendency.
- **CU-2** RMH circuit, 232 BC-3 belt discharge chute angle changed to reduce frequent chute jamming tendency.
- **CU-2** Two additional air blaster installed in ABC inlet to reduce snowman formation tendency.
- **CU-2** Cooler hydraulic room exhaust fan installed to reduce room temperature and ambient air recirculation.
- **CU-2** Limestone hopper additional air blaster installed to reduce jamming tendency.
- **CU-2** Liquid AFR system additional 2 firing point installed at calciner to improve firing efficiency.
- **CU-2** Raw Mill bag house circuit, DCS logic
 - Interlock provided to stop the rotary air lock when the load of corresponding chain conveyor increases. This avoid material spillage and overload tripping of circuit.
 - **CU-2** Alkali bag house circuit, DCS logic interlock provided to stop the rotary air lock when the load of corresponding chain conveyor increases. This avoid material spillage and overload tripping of circuit.
 - **CU-2** Cooler ESP circuit, DCS logic interlock provided to stop the rotary air lock when the load of corresponding chain conveyor increases. This avoid material spillage and overload tripping of circuit.
- **CU-2** In coal mill bag house, modified rupture disk installed with the facility of alarm in case of rupture disc failure.
- **CU-2** Kiln outlet Tip-casting refractory application modified to enhance refractory life.
- **CU-2** Pressure drop reduced across cooler fan inlet by removing inlet damper.
- **CU-2** Bag house & Alkali ESP PCC APFC (Automatic power factor controller) commissioning done.
- **CU-2** Coal mill circuit was running continuously after stopping mill & Reclaimer. Optimisation done in the transport circuit.

(a) Conservation of Energy

- **CU-2** CLT area 2 nos. 37 KW Bag filter fans were running continuously after stopping of DPC. Optimisation done in the same circuit.
- TPP-1 APH tubes cleaning & replacement done to avoid false air in the circuit.
- TPP-1 ESP area heavy leakages arrested to avoid false air in the circuit & reduce load of ID fan.
- TPP-1 ESP retrofitting to be improve the dust collection.
- TPP- 1 condenser cleaning to improve the condenser efficiency.
- TPP -1 Cooling tower retrofitting to improve the cooling performance and increasing the turbine efficiency.
- TPP – 1 coal feeder replacement to avoid the breakdown and improve the availability.
- TPP -2 APH tube replacement for improving the boiler efficiency (2 to 3 %).
- TPP-2 Flue gas duct bellows replacement to reducing air ingress. Improve the boiler efficiency and reduce the auxiliary power consumption.
- TPP – 2 coal feeder replacement to avoid the breakdown and improve the availability.
- **GU** Packing plant under rated motors power connection changed from delta to star to save power.
- **GU** Minimise idle running of the equipment and there by conserving the energy in cement manufacturing process.
- **GU** Clinker factor reduction increased usage of fly-ash in manufacturing of PPC. Usage of slag in composite cement and replacing chemical gypsum instead mineral are under continuous observation without affecting quality of cement.
- QC Increased use of Dry Fly Ash in PPC to reduce Clinker factor.
- QC Increased production of PPC and Blended Cement to reduce CO² emission.
- QC Increased Slag % in Portland Slag Cement.

(ii) The steps taken by the Company for utilising alternate sources of energy;

- Provided advance feeding system for liquid alternative fuel system in Line-2.
- Obtained regular permission for co processing of different types of hazardous & non-hazardous waste in fifth three categories under Hazardous & Other Waste (Management & Trans-boundary Movement) Rules.
- Achieved 2.40% Thermal Substitution Rate (TSR) during the year.
- To be installed solar power source up to 20 MW or utilising our existing solar plant at Khavda.
- To be installed wind power source up to 20MW in Sanghipuram location.

iii) The capital investment on energy conservation equipment's

Nil

(b) Technology absorption**(i) The efforts made towards technology absorption;**

- The MIS Cell & Energy Steering Committee is working on energy accounting and conservation program by handling issues associated with it.
- The Company strives to implement latest technologies for energy efficiency, alternative resources & minimise adverse impact on environment.

(b) Technology absorption	
	<ul style="list-style-type: none"> ▪ The regular energy audit is carried out by the third party to identify the area for improvement.
	<ul style="list-style-type: none"> ▪ Participation in National / International seminar
(ii) The benefits derived like product improvement, cost reduction, product development or import substitution	Product improvement, cost reduction, product development & import substitution
(iii) In case of imported technology (imported during the last three years reckoned from the beginning of the financial year:-	State of the art technology
a) The details of technology imported;	NA
b) The year of import;	NA
c) Whether the technology been fully absorbed;	NA
d) If not fully absorbed, areas where absorption has not taken place, and the reasons thereof;	NA
(c) Research and Development	
(i) Specific areas in which R&D carried out by the Company	<ul style="list-style-type: none"> ▪ Safety enhancement
	<ul style="list-style-type: none"> ▪ Improvement in existing production process ▪ Energy conservation. ▪ Pollution Control ▪ Alternative Fuel and Raw Material ▪ Water conservation ▪ Improvement in slump retention of OPC ▪ Use of TPP fly ash & bed ash in raw mix. ▪ Alternative of Laterite.
(ii) Benefits derived as result of the above R&D	<ul style="list-style-type: none"> ▪ All Locations Reduction in specific water consumption. ▪ QC Slump retention improved ▪ QC Proper Disposal of waste and conservation of Natural resources ▪ CU Clinker quality improvement by raw mix optimisation. ▪ CU Reduction in specific clay consumption. ▪ CU Improvement in clinker factor by adding high ash coal. ▪ CU Development of rain water harvesting reservoir. ▪ Mines Installation of Lighting Transformers (Power supply midpoint zero 110-0-110) in lighting system to enhance the electrical safety.

(c) Research and Development

- **CU-2** Raw mill Feeding Belt 332BC2 & BC3 Permanent Magnet Fixed to reduced frequently operation of Diverter and reduced mill stoppages.
- **CU-2** Earthing provided at all Flange of coal conveying lines to Prevent short circuit and fire in Coal mill area.
- **GU** Enhance fly ash addition in PPC.
- **GU** Mineral Gypsum replaced by Chemical Gypsum after successful trails.
- **GU** Conversion of weigh feeder DC motors to AC motors to ease maintenance & avoid breakdown.
- **TPP-1** Replacement of sonic soot blowers with steam soot blowers to reduce APH chocking.
- **TPP-1** Remnant life assessment of L1 boiler. Testing of all pressure parts of boiler for healthy and safe operation.

(iii) Future Plan of Action

- **All Locations** – 220 KV Overhead line renovation jobs to avoid blackout.
- **All Locations** – Relay coordination of CU, GU & TPP to avoid blackout.
- **Mines** overhead line to replace with overhead cable to avoid unwanted stoppage in monsoon.
- **Mines** Installation of high mast towers 08 nos. in Mines pit to improve the illumination.
- **CU-1** Up gradation of main PLC with advance version to avoid unwanted stoppages.
- **CU-1** Installation of Turbo Blower ILC & C-2 firing.
- **CU-1** Replacement of Pond Ash by using waste material of Iron Industries i.e. iron sludge & iron oxide in Raw Mix.
- **CU-1** Replacement of DC motor to AC motor at raw mill hopper.
- **CU-1** Reduction in transmission line losses by replacement of old phase conductor.
- **CU-1** Up-gradation of Cooler ESP to maintain dust emission norms.

During the year, the Board of Directors accepted all recommendations of the Committees of the Board, which were statutory in nature and required to be recommended by the Committee and approved by the Board of Directors. Hence, the Company is in compliance of condition of clause 10 (j) of schedule V of the SEBI Listing Regulations.

Meeting of Independent Directors:

The Independent Directors meet at least once in a year, without the presence of Executive Directors or Management representatives. They also have separate meeting(s) with the Chairman of the Board, to discuss issues and concerns, if any. The Independent Directors met one time during the FY 2023-24, on March 26, 2024. The Independent Directors inter alia discuss the issues arising out of the Committee Meetings and Board discussion including the quality, quantity and timely flow of information between the Company Management and the Board that is necessary for the Board to effectively and reasonably perform its duties. In addition to these formal meetings, interactions outside the Board Meetings also take place between the Chairman and Independent Directors.

The Company appointed an Independent external agency "Talentonic HR Solutions Private Limited" ("Talentonic") for carrying out performance evaluation of Individual Directors including Chairperson, Committees of the Board and the Board as a whole.

Mr. Deepak Dhawan, Chief Executive Officer of "Talentonic" conducted the One-O-One meetings with all the Directors of the Company and prepared a detailed performance evaluation report of Individual Directors, Chairperson, Committees and the Board as a whole and placed before the meeting of Independent Directors and the same was discussed at length at their meeting.

The Independent Directors appreciated the initiative taken by the Management of the Company for opting to conduct the Evaluation of Performance of Individual Directors, Committees and the Board as a whole from Independent external agency in a professional manner and they were satisfied with the overall functioning of the committees and the Board as a whole.

Further, Statutory Auditors also have independent access to the members of the Audit Committee to discuss internal audit effectiveness, control environment and their general feedback. The Independent Directors also have access to Secretarial Auditor, Cost Auditor and the management for discussions and questions, if any.

Directors' Induction and Familiarisation

The Board Familiarisation Programme comprises of the following:

- Induction Programme for Directors including Non-Executive Directors
- Immersion sessions on business and functions; and
- Strategy sessions

All new directors are taken through a detailed induction and familiarisation program when they join the Board of the Company. The induction program is an exhaustive one that covers the history and culture of Adani portfolio of Companies, background of the Company and its growth, various milestones in the Company's existence since its incorporation, the present structure and an overview of the businesses and functions.

Deep dives and immersion sessions are conducted by senior executives on their respective functions. Key aspects that are covered in these sessions include:

- Industry / market trends
- Company's operations including those of major subsidiaries
- Growth Strategy
- ESG Strategy and performance

As part of familiarisation program, the Company conducts Directors' Engagement Series where the Board is apprised about critical topics such as global trends in the domain of ESG, Capital Market, Risk Management, Credit Profile, Financial Controls beside general awareness about other Adani portfolio companies and key developments. During the year 1 (One) such events were conducted on 23rd and 24th February 2024. Each event has a minimum of two sessions of two hours each followed by Q&A session of one hour. Site visits are also organised during one or two such events. The details of familiarisation program is available on the website of the Company at www.sanghiment.com

Apart from the above, the Company also organises an annual strategy meet with the Board to deliberate on various topics related to strategic planning, progress of ongoing strategic initiatives, risks to strategy execution and the need for new strategic programs to achieve the Company's long-term objectives. This serves the dual purpose of providing the Board members a platform to

bring their expertise to various strategic initiatives, while also providing an opportunity for them to understand detailed aspects of execution and challenges relating to the specific theme.

In summary, through above events/meetings, members of the Board get a comprehensive and balanced perspective on the strategic issues facing the Company, the competitive differentiation being pursued by the Company, and an overview of the execution plan. In addition, this event allows the members of the Board to interact closely with the senior leadership of the Company.

Remuneration Policy:

The Remuneration Policy of the Company is directed towards rewarding performance, based on review of achievements on a periodic basis. The Company endeavors to attract, retain, develop and motivate the high-caliber executives and to incentivise them to develop and implement the Group's Strategy, thereby enhancing the business value and maintain a high-performance workforce. The Policy ensures that the level and composition of remuneration of the Directors is optimum.

i) Remuneration to Non-Executive Directors:

The Company is not making any payment to its Non Executive Directors except sitting fees to Independent Directors for attending the Board and Committee Meetings of the Company. The details of sitting fees paid to the Independent Directors as mentioned in Note No. 39 (f) of the Financial Statements forming part of this Annual Report.

ii) Performance Evaluation Criteria for Independent Directors:

The performance evaluation criteria for Independent Directors are determined by the Nomination and Remuneration Committee. An indicative list of factors that may be evaluated include participation and contribution by a Director, commitment, effective deployment of knowledge and expertise, effective management of relationship with stakeholders, integrity and maintenance of confidentiality and independence of behaviour and judgement.

During the year under review the Company appointed an Independent external agency "Talentonic HR Solutions Private Limited" ("Talentonic") for carrying out performance evaluation of Individual Directors including Chairperson, Committees of the Board and the Board as a whole.

Mr. Deepak Dhawan, Chief Executive Officer of “Talentonic” conducted the One-O-One meetings with all the Directors of the Company and prepared a detailed performance evaluation report of Individual Directors, Chairperson, Committees and the Board as a whole and placed before the meeting of Independent Directors and the same was discussed at length at their meeting.

iii) Remuneration to Executive Directors:

The remuneration of the Executive Directors is recommended by the Nomination and Remuneration Committee to the Board based on criteria such as industry benchmarks, the Company’s performance vis-à-vis the industry, responsibilities shouldered, performance/track record, macro-economic review on remuneration packages of heads of other organisations. The pay structure of Executive Directors has appropriate success and sustainability metrics built in. On the recommendation of the Nomination and Remuneration Committee, the remuneration paid/payable by way of salary, perquisites and allowances (fixed component), incentive and/or commission (variable components), to its Executive Directors within the limits prescribed under the Act is approved by the Board of Directors and by the Members in the General Meeting.

After takeover of the Company by Ambuja Cements Limited, Adani Group entity, there is change in management and control and thereafter the Company is not making any payment of remuneration to the new Executive Director. The details of Remuneration paid to the erstwhile Executive Directors are mentioned in the Note 39 (f) of the Financial Statements forming part of the Annual Report.

The Executive Directors are not being paid sitting fees for attending meetings of the Board of Directors and its Committee.

iv) Directors and Officers Insurance Policy:

The Company has taken the Directors’ and Officers’ Insurance Policy which covers the Directors, officers or equivalents. The Company has provided insurance cover in respect of legal actions under the Directors and Officers Policy.

Details of Remuneration:

i) Non-Executive Directors:

There is no sitting fee paid to Non-Executive Director except Independent Directors.

Independent Auditor's Report

TO THE MEMBERS OF
SANGHI INDUSTRIES LIMITED

Report on the Audit of Financial Statements

Opinion

We have audited the accompanying Financial Statements of Sanghi Industries Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flow for the year then ended and notes to the Financial Statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Financial Statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, its loss including other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Financial Statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Financial Statements of the current period. These matters were addressed in the context of our audit of the Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matter described below to be the key audit matters to be communicated in our report. For the matter below, our description of how our audit addressed the matter is provided in that context.

Sr No.	Key Audit Matter	Description of Key Audit Matter	How Key Audit Matter was Addressed in our Audit
1.	Property, Plant and Equipment	Property, plant and equipment requires the management to exercise significant judgment in relation to the estimate of depreciable lives of the assets considering the technical factors which may affect the useful life expectancy of the assets and therefore could have a material impact on the depreciation expense for the year. The management reviews the estimated depreciable lives and the residual value of property, plant and equipment annually.	Our audit procedures in relation to the depreciable life of Property, Plant and Equipment include: Testing the key controls over the management's judgment in relation to the accounting estimates of the depreciable lives of property, plant and equipment. Benchmarking the useful life of plant & machinery by comparing the peers in the cement industry. Placing the reliance on the technical report of Chartered Engineer for complexity involved in the residual value of plant & machinery. Review of the internal assessment done by the management and independent opinion obtained by the management. Assessment of appropriateness of disclosures provided in the Financial Statements. Based on the above procedures performed, estimation for determination of useful lives and residual value of property, plant and equipment is considered to be adequate and reasonable.

Sr No.	Key Audit Matter	Description of Key Audit Matter	How Key Audit Matter was Addressed in our Audit
2.	Litigation & claims	<p>There are a number of litigations pending before various forums against the Company and the management's judgment is required for estimating the amount to be disclosed as contingent liability.</p> <p>We identified this as a key audit matter because the estimates on which these amounts are based involve a significant degree of management judgment in interpreting the cases and it may be subject to management bias.</p>	<p>We have obtained an understanding of the Company's internal instructions and procedures in respect of estimation and disclosure of litigations & claims and adopted the following audit procedures:</p> <ul style="list-style-type: none"> ▪ understood and tested the design and operating effectiveness of controls as established by the management for obtaining all relevant information for pending litigation cases; ▪ discussed with the management regarding any material developments thereto and latest status of legal matters; ▪ read various correspondences and related documents pertaining to litigation cases and relevant external legal opinions obtained by the management and performed substantive procedures on calculations supporting the disclosure of contingent liabilities; ▪ examined management's judgements and assessments in respect of whether provisions are required; ▪ considered the management assessments of those matters that are not disclosed as contingent liability since the probability of material outflow is considered to be remote; ▪ reviewed the adequacy and completeness of disclosures. <p>Based on the above procedures performed, the estimation and disclosures of litigations and claim are considered to be adequate and reasonable.</p>

Information Other than the Financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the Corporate Governance Report, and the information included in the Directors' Report including Annexures, Management Discussion and Analysis, Business Responsibility and Sustainability Report and other company related information (but does not include the Financial Statements and our auditor's report thereon).

Our opinion on the Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the

work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the

Company and for preventing and detecting frauds and other irregularities; selection and application of the appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section

143(3)(i) of the Act we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that

were of most significance in the audit of the Financial Statements of current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

The Financial Statements of the Company for the year ended March 31, 2023 were audited by us & predecessor joint auditor of the Company, where they had expressed an unmodified opinion vide their report dated May 17, 2023 on such financial statements.

Our opinion is not modified in respect of above matter.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, and on the basis of such checks of books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid financial statements comply with the Indian Accounting Standards specified under section 133 of the

Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended.

- (e) On the basis of written representations received from the directors as on March 31, 2024 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2024, from being appointed as a director in terms of section 164(2) of the Act.
- (f) With respect to the adequacy of the internal financial controls with reference to the Financial Statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to financial statements.
- (g) With respect to the other matters to be included in the Auditors' Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act read with Schedule V of the Act.

- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rules 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us and as represented by the management:
 - i) The Company has disclosed the impact of pending litigations on its financial position in its financial statements as referred to in Note 37 to the financial statements.
 - ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company for the year ended March 31, 2024.
 - iv) (a) Management has represented to us that, to the best of its knowledge and belief, no funds have been advanced

- or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (b) Management has represented to us that, to the best of its knowledge and belief, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (c) Based on our audit procedure conducted that are considered reasonable and appropriate in the circumstances, nothing has come to our attention that cause us to believe

that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

- v) The Company has not declared or paid any dividend during the current year.
- vi) Based on our examination which included test checks, the Company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with.

As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable from April 01, 2023, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirements for record retention is not applicable for the financial year ended March 31, 2024.

to the Independent Auditor's report of even date on the Financial Statements of Sanghi Industries Limited

(Referred to in paragraph 1 under the heading of "Report on other legal and regulatory requirements" section of our report of even date)

- i) In respect of its Property, Plant and Equipment and Intangible Assets:
 - a) (A) The Company has maintained proper records showing full particulars including quantitative details and situation of Property, Plant and Equipment and relevant details of right-of-use assets on the basis of available information.
 - (B) The Company does not have Intangible Assets, therefore reporting under this clause is not applicable.
 - b) As explained to us, Property, Plant & Equipment and right-of-use assets have been physically verified by the management in a phased periodical manner, which in our opinion is reasonable, having regard to the size of the Company and nature of its assets. According to the information and explanations given to us, no material discrepancies were noticed on such physical verification.
 - c) According to the information and explanations given to us and the records examined by us, title deeds in respect of immovable properties disclosed as Property, Plant & Equipment (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee) in the financial statements are held in the name of the Company as at the balance sheet date.
 - d) According to information and explanations given to us and books of accounts and records examined by us, Company has not revalued its Property, Plant and Equipment (including Right of Use assets) during the year. The Company does not have Intangible Assets during the year. Accordingly, reporting under clause 3(i) d of the Order is not applicable.
 - e) According to information & explanations and representation given to us by the management, no proceedings have been initiated or are pending against the Company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.
- ii) a) As explained to us and on the basis of records examined by us, in our opinion, physical verification of the inventories has been conducted at reasonable intervals by the management and having regard to the size and nature of business of the Company and nature of its inventory, the coverage and procedures of such verification by the management is appropriate. As explained to us and on the basis of the records examined by us, the value of the discrepancies noticed on physical verification by management did not exceed 10% or more in aggregate for each class of inventory.
- b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, during the year, Company was having sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks or financial institutions on the basis of security of current assets, however in the month of December 2023, company has liquidated its working capital loans and at present, company is not having any sanctioned working limit. In our opinion and according to the information and explanations given to us, quarterly returns and statements, comprising stock statements, book debt statements, Trade payable and statements on ageing analysis of the debtors/other receivables filed by the Company with such banks or financial institutions are in agreement with the unaudited books of account of the Company except, as disclosed below for material variation. (also refer note 50 to the financial statements)

Annexure "B"

to the Independent Auditor's report of even date on the Financial Statements of Sanghi Industries Limited

(Referred to in paragraph 2 (f) under 'Report on Other Legal and Regulatory Requirements' of our report of even date)

Report on the Internal Financial Controls with reference to the aforesaid financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to the financial statements of Sanghi Industries Limited ("the Company") as of March 31, 2024 in conjunction with our audit of the Financial Statements of the Company for the year ended 2024.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ("Guidance Note") issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to Financial Statement based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing as specified under Section 143(10) of the Act, to the extent applicable to an audit of internal financial control, both issued by the Institute of Chartered Accountants of India. Those Standards

and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Financial Statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to Financial Statements included obtaining an understanding of internal financial controls with reference to Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to Financial Statements

A company's internal financial control with reference to Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Financial Statements in accordance

with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the Financial Statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Financial Statements to future periods are subject to the risk that the internal financial control with reference to Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to Financial Statements and such internal financial controls with reference to Financial Statements were operating effectively as at March 31, 2024, based on the internal control with reference to Financial Statements, criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes forming part of financial statements

Note 1 - Corporate Information And Material Accounting Policies

A. Corporate Information

Sanghi Industries Limited is engaged in the manufacturing and marketing of cement and cement products in domestic and export market. The Company's manufacturing facilities are at Sanghipuram, Gujarat and Registered Office at Sanghi Nagar, R.R. District, Telangana. Equity shares of the Company are listed on The National Stock Exchange and BSE Limited in India.

B. Material Accounting Policies

a. Basis of Preparation and Presentation

i. Compliance with Indian Accounting Standards

The financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) read with Companies (Indian Accounting Standards) Rules, and other relevant provisions of the Act, as amended from time to time.

ii. Historical cost convention

The financial statements have been prepared on a historical cost basis, except certain financial assets and liabilities (including derivative instruments) are measured at fair value

iii. These financial statements were approved for issue in accordance with the resolution of the Board of Directors on April 27,2024

b. Revenue from contracts with customers

Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. Revenue is recognised upon transfer of control of promised goods to customers at transaction price (net of taxes and duties), arrived at by determining the fair value of the consideration received or receivable after adjusting returns, allowances, trade discounts, volume discounts etc. in exchange of goods. In determining the transaction price for the sales of goods, the Company considers

the effects of variable consideration and existence of significant financing components if any.

c. Interest income

Interest income is recognised using the effective interest rate method.

d. Property, plant and equipment

In accordance with provisions of Ind AS 101, the Company has elected to use fair value of freehold land as its deemed cost on transition date of Ind AS. All other items of property, plant and equipment are stated at acquisition cost of the items. Acquisition cost includes expenditure that is directly attributable to getting the asset ready for intended use. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to statement of profit and loss during the reporting period in which they are incurred.

Items of spare parts that meets the definition of 'Property, plant and equipment' are recognised as property, plant and equipment. The depreciation on such an item of spare part will begin when the asset is available for use i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by management.

Expenditure directly attributable to setting up / construction of new projects are capitalised. Administrative and other general overhead expenses, which are specifically attributable to the setting up / construction activities, incurred during the construction period are capitalised as part of the indirect cost. Other indirect expenditure incurred during such period which are not related to the setting up / construction activities are charged to Statement of Profit and Loss.

The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

Property, plant and equipment are eliminated from financial statement, either on disposal or when retired from active use. Profit/Losses arising in the

Notes forming part of financial statements

case of retirement of property, plant and equipment are recognised in the statement of profit and loss in the year of occurrence.

e. Depreciation

Depreciation is calculated to allocate the cost of assets, net of their residual values, over their estimated useful lives. Components having value significant to the total cost of the asset and life different from that of the main asset are depreciated over its useful life. Depreciation on Property, Plant and Equipment is provided on straight line method as per useful life and residual value as provided in Schedule II of the Companies Act, 2013, except in following cases, where the useful life and residual value is taken based on the technical report received from Chartered Engineer and as approved by the management. Cement manufacturing plant is considered as continuous process plant:

Nature of Assets	Useful life and Residual value
Plant & Machinery	30 to 50 Years and Residual Value 5 to 10%
Civil Structure	30 to 60 years

Depreciation on items of property, plant and equipment acquired / disposed off during the year is provided on pro-rata basis with reference to the date of addition / disposal. Cost of lease-hold land is amortised equally over the period of lease.

Leasehold improvement is depreciated over the period of lease.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

f. Leases

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (1) the contact involves the use of an identified asset (2) the Company has substantially all of the economic benefits from use of the asset

through the period of the lease and (3) the Company has the right to direct the use of the asset.

The Company recognises a right-of-use asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and leases for low value underlying assets. For these short-term and leases for low value underlying assets, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease.

The right-of-use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation/ amortisation and impairment losses.

Right-of-use assets are depreciated/ amortised from the commencement date to the end of the useful life of the underlying asset, if the lease transfers ownership of the underlying asset by the end of lease term or if the cost of right of use assets reflects that the purchase option will be exercised. Otherwise, Right-of-use assets are depreciated / amortised from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

The lease liability is initially measured at amortised cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rate.

g. Impairment of asset

The carrying amount of Property, Plant and Equipment are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use.

In assessing value in use, the estimated future cash flows are discounted to their present value using a

Notes forming part of financial statements

pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used

Non-financial assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired.

h. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. Borrowing costs consist of interest and other costs that a company incurs in connection with the borrowing of funds.

For general borrowing used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalisation is determined by applying a capitalisation rate to the expenditures on that asset. The capitalisation rate is the weighted average of the borrowing costs that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset.

All other borrowing costs are expensed in the period in which they occur.

i. Financial instruments

1. Financial assets

Financial assets are measured as at amortised cost and this includes contractual revenue receivables and lease receivables.

Derecognition

A Financial Asset is primarily derecognised when:

- i. The rights to receive cash flows from asset has expired, or

- ii. The Company has transferred its right to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either

- a) The Company has transferred substantially all the risks and rewards of the asset, or
- b) The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

2. Financial liabilities

Initial recognition and measurement

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts. The same is recognised at fair value.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method. Gains and losses are recognised in statement of profit and loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

Notes forming part of financial statements

Offsetting of Financial Instruments.

Financial Assets and Financial Liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis to realise the assets and settle the liabilities simultaneously.

j. Derivative financial instruments

The Company uses derivative financial instruments, such as forward currency contracts and interest rate swaps to hedge its foreign currency risks and interest rate risks of foreign currency loans. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivatives are taken to statement of profit and loss

k. Taxes on income

Current tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on the rates and tax laws enacted or substantively enacted, at the reporting date in the country where the entity operates and generates taxable income.

Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is recognised using the balance sheet method, on temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the tax bases of assets and liabilities. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they materialise, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally

enforceable right to offset current tax assets against the current tax liabilities, and they relate to income taxes levied by the same tax authority.

Deferred tax is recognised in statement of profit and loss except to the extent that it relates to items recognised directly in OCI or equity, in which case it is recognised in OCI or equity, respectively.

A deferred tax asset is recognised for all deductible temporary differences to the extent that it is probable that future taxable profits will be available against which the deductible temporary difference can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the sufficient taxable profits will be available in future to allow all or part of deferred tax assets to be utilised.

l. Inventories

Inventories are valued at the lower of cost and net realisable value. Raw materials cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. For finished goods and work in progress, cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing costs. Items of spare parts that does not meet the definition of 'property, plant and equipment are recognised as a part of inventories.

m. Employee benefits

All employee benefits payable wholly within twelve months of rendering services are classified as short-term employee benefits. Post-employment and other employee benefits are recognised as an expense at the present value of the amount payable determined using actuarial valuation techniques. Actuarial gains and loss in respect of post-employment and other long-term benefits are charged to the statement of other comprehensive income.

n. Provisions, contingent liabilities and contingent assets

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions

Notes forming part of financial statements

are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

Contingent assets are possible assets that arise from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are disclosed in the financial statements when inflow of economic benefits is probable on the basis of judgment of management. These are assessed continually to ensure that developments are appropriately reflected in the financial statements.

o. Use of estimates and judgments

The presentation of the financial statements is in conformity with the Ind AS which requires the management to make estimates, judgments and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses and disclosure of contingent liabilities. Such estimates and assumptions are based on management's evaluation of relevant facts and circumstances as on the date of financial statements. The actual outcome may differ from these estimates. Estimates and underlying assumptions are reviewed on an

ongoing basis. Revisions to the accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

p. Statement of cash flows

Cash flow are reported using the indirect method, whereby net profit or loss before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals of accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and finance activities of the Company are segregated.

q. Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period,

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

Notes forming part of financial statements

r. Foreign currency translation

The financial statements are presented in Indian rupee (₹), which is company's functional and presentation currency. Transactions in foreign currencies are initially recorded at the respective currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the foreign currency spot rates of exchange at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

Exchange differences arising on settlement or translation of monetary items are recognised in statement of profit and loss unless otherwise disclosed.

s. Exceptional items

Certain occasions, the size, type or incidence of an item of income or expense, pertaining to the ordinary activities of the Company is such that its disclosure improves the understanding of the performance of the Company, such income or expense is classified as an exceptional item and accordingly, disclosed in the notes accompanying to the financial statements.

t. Rounding off

All amounts disclosed in the financial statements and notes have been rounded off to the nearest crore (up to two decimals) as per the requirements of Schedule III, unless otherwise stated.

u. Critical accounting judgements and key sources of estimation uncertainty:

The preparation of the Company's financial statements requires management to make judgement, estimates and assumptions that affect the reported amount of revenue, expenses, assets and liabilities and the accompanying disclosures. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in next financial years.

i) Recoverability of trade receivables:

Judgements are required in assessing the recoverability of overdue trade receivables and determining whether a provision against those receivables is required. Factors considered include the credit rating of the counterparty,

the amount and timing of anticipated future payments and any possible actions that can be taken to mitigate the risk of non-payment.

ii) Provisions:

Provisions and liabilities are recognised in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events and the amount of cash outflow can be reliably estimated. The timing of recognition and quantification of the liability require the application of judgement to existing facts and circumstances, which can be subject to change. The carrying amounts of provisions and liabilities are reviewed regularly and revised to take account of changing facts and circumstances.

iii) Impairment of financial assets and non-financial assets:

The impairment provisions for financial assets are based on assumptions about risk of default and expected cash loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

In case of non-financial assets, Company estimates asset's recoverable amount, which is higher of an assets or Cash Generating Units (CGU's) fair value less costs of disposal and its value in use.

iv) Recognition of Deferred tax assets and liabilities:

Deferred tax assets and liabilities are recognised for deductible temporary differences and unused tax losses for which there is probability of utilisation against the future taxable profit. The Company uses judgement to determine the amount of deferred tax that can be recognised, based upon the likely timing and the level of future taxable profits and business developments.

v) Fair value measurement:

For estimates relating to fair value of financial instruments, refer note 35 of financial statements.

C. Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- Credit risk;
- Liquidity risk; and
- Market risk

i. Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company manages cash resources, borrowing strategies, and ensures compliance with market risk limits and policies.

Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

The audit committee oversees compliance with the Company's risk management policies and reviews the adequacy of the risk management framework in relation to the risks faced by the Company.

ii. Credit risk

Credit Risk is the risk of financial loss to the Company if the customer or counterparty to the financial instruments fails to meet its contractual obligations and arises principally from the Company's receivables, treasury operations and other operations that are in the nature of lease

Cash and other bank balances

The Company maintains its Cash and cash equivalents and Bank deposits with banks with good past track record and high quality credit rating and also reviews their credit-worthiness on an on-going basis.

Trade receivables

The Company's exposure to credit risk is influenced mainly by individual characteristic of each customer. The Company extends credit to its customers in the normal course of business by considering the factors such as financial reliability of the customers. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and operate in largely independent markets. The Company maintains adequate security deposits from the customers in case of wholesale and retail segment, credit risks are mitigated by way of enforceable securities. However, unsecured credits are extended based on creditworthiness of the customers on case to case basis.

Notes forming part of financial statements

Trade receivables are written off when there is no reasonable expectation of recovery, such as a debtor declaring bankruptcy or failing to engage in a repayment plan with the Company and where there is a probability of default, the Company creates a provision based on Expected Credit Loss for trade receivables under simplified approach as below:

As at March 31, 2024

	Not Due	< 90 days	90 - 180 days	180 - 365 days	365 - 1095 days	> 1095 days	Total

Carrying amount to trade receivables net of allowance for expected credit loss	49.29	-	0.39	0.60	0.61	0.83	51.72

iii. Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The Company maintains sufficient lines of credit to commensurate its business.

Exposure to liquidity risk

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and include estimated interest payments and exclude the impact of netting agreements.

iv. Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates and interest rates - will affect the Company's income or the value of its holdings of financial instruments. Exposure to market risk is a function of investing and borrowing activities and revenue generating and operating activities in foreign currency.

v. Currency risk

The functional currency of the Company is Indian Rupee. The Company is exposed to currency risk on account of its trade receivables, trade payables, borrowings and payables for capital goods in foreign currency. The Company has not used derivative financial instruments either for hedging purpose or for trading or speculative purposes except for forward contracts executed for LC opened in foreign currency.

Forward Exchange Contracts

There is no outstanding Derivatives for hedging currency.

d. Expense recognised during the year	0.62	0.55	1.13	0.28
4. Expense recognised during the year in OCI				
a. Actuarial (Gain)/Loss	(0.45)	(0.60)	0.40	(0.29)
5. Actuarial Assumptions				
a. Discount Rate (per annum)	7.20%	7.47%	7.20%	7.47%
b. Salary escalation	7.00%	3.00%	7.00%	3.00%
c. Mortality Rate Indian Assured Lives Mortality (Mortality 2012-14 (Urban)) – Previous Year (Mortality 2006-2008 (Urban))	Urban	Urban	Urban	Urban

That significant actuarial assumptions for the determination of the Defined Benefit Plans are discount rate, expected salary increase and mortality.

Discount rate is based on the prevailing market yields of Government of India securities as at Balance Sheet date for the estimated term of the obligations.

The estimates of future salary increase considered in actuarial valuation take account of inflation, seniority, promotion, and other relevant factors such as supply and demand in the employment market.

Notes forming part of financial statements

IV. Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

Particulars	₹ in crore	
	As at March 31, 2024	
	Increase Gratuity	Decrease Gratuity
Discount rate (1% movement)	(0.36)	0.41
Salary growth rate (1% movement)	0.40	(0.36)

Particulars	₹ in crore	
	As at March 31, 2023	
	Increase Gratuity	Decrease Gratuity
Discount rate (1% movement)	(0.31)	0.34
Salary growth rate (1% movement)	0.32	(0.29)

Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown.

10. Process and manner for Shareholders opting for voting through electronic means:

- a. Pursuant to the provisions of Section 108 of the Act read with Rule 20 of the Companies (Management and Administration) Rules, 2014 (as amended) and Regulation 44 of SEBI Listing Regulations (as amended) and pursuant to the MCA circulars, the Company is providing facility of remote e-voting to its Shareholders in respect of the businesses to be transacted at the AGM. For this purpose, the Company has entered into an agreement with Central Depository Services (India) Limited (CDSL) as the authorised e-voting agency for facilitating voting through electronic means. The facility of casting votes by a shareholder using remote e-voting as well as e-voting on the date of AGM will be provided by CDSL.
- b. Shareholders whose names are recorded in the Register of Members or in the Register of Beneficial Owners maintained by the Depositories as on the Cut-off date i.e. Wednesday, June 19, 2024 shall be entitled to avail the facility of remote e-voting as well as e-voting system on the date of the AGM. Any recipient of the Notice, who has no voting rights as on the Cut-off date, shall treat this Notice as intimation only.
- c. A person who has acquired the shares and has become a shareholder of the Company after the dispatch of the Notice of the AGM and prior to the Cut-off date i.e. Wednesday, June 19, 2024, shall be entitled to exercise his/her vote either electronically i.e. remote e-voting or venue voting system on the date of the AGM by following the procedure mentioned in this part.
- d. The remote e-voting will commence on Sunday, June 23, 2024 at 9.00 a.m. and will end on Tuesday, June 25, 2024 at 5.00 p.m. During this period, the Shareholders of the Company as on the Cut-off date. i.e. Wednesday, June

19, 2024 may cast their vote electronically. The Shareholders will not be able to cast their vote electronically beyond the date and time mentioned above and the remote e-voting module shall be disabled for voting by CDSL thereafter.

- e. Once the vote on a resolution is cast by the Shareholder, he/she shall not be allowed to change it subsequently or cast the vote again. Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting, however they can attend the meeting through VC / OAVM facility.
 - f. The voting rights of the Shareholders shall be in proportion to their share in the paid-up equity share capital of the Company as on the Cut-off date i.e. Wednesday, June 19, 2024.
 - g. The Company has appointed CS Chirag Shah, Practicing Company Secretary (Membership No. FCS: 5545; CP No: 3498), to act as the Scrutiniser for conducting the remote e-voting process as well as the e-voting system on the date of the AGM, in a fair and transparent manner.
- 11. Process for those Shareholders whose email ids/mobile no. are not registered:**
- a. For Demat Shareholders - Please update your e-mail id and mobile no. with your respective Depository Participant (DP).
 - b. For Individual Demat Shareholders – Please update your email id & mobile no. with your respective Depository Participant (DP) which is mandatory while e-Voting & joining virtual meetings through Depository.
- 12. The instructions for Shareholders for remote voting are as under:**
- i. Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its Shareholders, in respect of all Shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the Shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

Step 1: Access through Depositories CDSL/ NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

- II. In terms of SEBI circular no. SEBI/HO/CFD/ CMD/ CIR/P/2020/242 dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual Shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

Pursuant to aforesaid SEBI Circular, Login method for e-Voting and joining virtual meetings for Individual Shareholders holding securities in Demat mode is given below:

BRSR Limited Assurance Report

Independent Limited Assurance Statement to Sanghi Industries Limited on their Business Responsibility & Sustainability Report (BRSR) FY2023-24

To the Management of Sanghi Industries Ltd., Ahmedabad, India

Introduction

Intertek India Private Limited ("Intertek") was engaged by Sanghi Industries Limited ("SIL") to provide an independent limited assurance on its BRSR (Business Responsibility & Sustainability Report) selected disclosures for FY2023-24 ("the Report"). The scope of the Report comprises the reporting periods of FY2023-24. The Report is prepared by SIL based on SEBI's (Securities and Exchange Board of India) BRSR guidelines. The assurance was performed in accordance with the requirements of International Federation of Accountants (IFAC) International Standard on Assurance Engagement (ISAE) 3000 (Revised), Assurance Engagements Other than Audits or Reviews of Historical Financial Information.

Objective

The objectives of this limited assurance exercise were, by review of objective evidence, to confirm whether any evidence existed that the sustainability related disclosures in alignment with BRSR requirements, as declared in the Report, were not accurate, complete, consistent, transparent and free of material error or omission in accordance with the criteria outlined below.

Intended Users

This Assurance Statement is intended to be a part of the Annual Report 2023-24 of Sanghi Industries Limited.

Responsibilities

The management of SIL is solely responsible for the development of the Report and its presentation. Management is also responsible for the design, implementation and maintenance of internal controls relevant to the preparation of the Report so that it is free from material misstatement, whether due to error.

Intertek's responsibility, as agreed with the management of SIL, is to provide assurance and express an opinion on the data and assertions in the Report based on our verification following the assurance scope and criteria given below. Intertek does not accept or assume any responsibility for any other purpose or to any other person or organization. This document represents Intertek's independent and balanced opinion on the content and accuracy of the information and data held within.

Assurance Scope

The assurance has been provided for selected sustainability performance disclosures presented by SIL in its Report. The assurance boundary included data and information for the operations of Sanghipuram, Gujarat and SIL (Corporate Office) in accordance with SEBI's BRSR guidelines. Our scope of assurance included verification of data and information on selected disclosures reported as summarized in the table below:

Section A: General Disclosures

- Total number of permanent employees
- Total number of permanent and other than permanent workers
- Total number of female employees and workers
- Total number of differently abled employees and workers (permanent and other than permanent)

Assurance Criteria

Intertek conducted the assurance work in accordance with requirements of 'Limited Assurance' procedures as per the following standard:

- International Standard on Assurance Engagements (ISAE) 3000 (revised) for 'Assurance Engagements other than Audits or Reviews of Historical Financial Information'.
- International Standard on Assurance Engagements (ISAE) 3410 for 'Assurance Engagements on Greenhouse Gas Statement

A limited assurance engagement comprises of limited depth of evidence gathering including inquiry and analytical procedures and limited sampling as per professional judgement of assurance provider. A materiality threshold level of 10% was applied. Assessment of compliance and materiality was undertaken against the stated calculation methodology and criteria.

Methodology

Intertek performed assurance work using risk-based approach to obtain the information, explanations and evidence that was considered necessary to provide a limited level of assurance. The assurance was conducted by desk reviews, and stakeholder interviews with regards to the reporting and supporting records for the fiscal year 2024 at SIL's corporate office in Ahmedabad. Our assurance task was planned and carried out during May 2024. The assessment

included the following:

- Review of the Report that was prepared in accordance with the SEBI's BRSR guidelines.
- Review of processes and systems used to gather and consolidate data.
- Examined and reviewed documents, data and other information made available at SIL's operational sites, corporate office and digitally.
- Conducted online interviews with key personnel responsible for data management.
- Assessment of appropriateness of various assumptions, estimations and thresholds used by SIL for data analysis.
- Review of BRSR disclosures on sample basis for the duration from 1st April 2023 to 31st March of 2024 for SIL was carried out remotely.
- Appropriate documentary evidence was obtained to support our conclusions on the information and data reviewed and details would be provided in a separate management report.

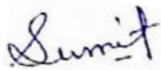

Conclusions

Intertek reviewed selected BRSR disclosures provided by SIL in its Report. Based on the data and information provided by SIL, Intertek concludes with limited assurance that there is no evidence that the sustainability data and information presented in the Report is not materially correct. The report provides a fair representation of BRSR disclosures and is in accordance with the SEBI's BRSR guidelines to the best of our knowledge.

Intertek's Competence and Independence

Intertek is a global provider of assurance services with a presence in more than 100 countries employing approximately 43,500 people. The Intertek assurance team included competent sustainability assurance professionals, who were not involved in the collection and collation of any data except for this assurance opinion.
