Dear Sir/Madam,

Re: Newspaper Advertisement – Disclosure under Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (“SEBI Listing Regulations”)

Pursuant to Regulation 30 read with Schedule III Part A Para A of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we hereby enclose the copies of newspaper advertisement published in Financial Express (English), Jansatta (Hindi) and Loksatta (Marathi), in compliance with Ministry of Corporate Affairs Circular No. 20/2020 dated May 5, 2020, intimating that 103rd Annual General Meeting of the Company will be held on Wednesday, September 28, 2022 at 11:00 a.m. IST through Video Conferencing / Other Audio Visual Means. The dispatch of the notice of the same was completed on 5th September 2022.

The above information is also available on the website of the Company www.newindia.co.in

This is for your information and records.

Yours faithfully,

For The New India Assurance Company Limited

Jayashree Nair
Company Secretary & Chief Compliance Officer

FCI's wheat stocks drop to 14-year low at 25 mt

Rice stocks still comfortable, could dip sharply if free ration scheme is extended beyond September

SANDIP DAS
New Delhi, September 5

FCI's grain stock
As on Sept 1, 2022 (million tonne)

Source: Food ministry (buffer stock norm for October 1, 30.77 mt)

WHEAT STOCKS IN the central pool held by the Food Corporation of India (FCI) and state agencies dipped to 25 million tonne (mt) at the beginning of this month, the lowest level since 2008.

According to estimates, by October 1, the wheat stock is expected to be around 22.9 mt against the buffer norm of 20.5 mt. However, rice stocks as on September 1, 2022, with the FCI were a comfortable 24.65 mt. Rice stock could fall to 20 mt by October 1, still nearly double the buffer requirement of 10.2 mt. Current stocks exclude more than 12 mt of rice yet to be received from millers.

While the government is yet to take a decision on extending Pradhan Mantri Garib Kalyan Anna Yojana (PMGKAY) beyond September 30, the cumulative foodgrain stocks at the beginning of this month was 49.65 mt against buffer stock norm of 30.77 mt for October 1.

Official sources told FE that the government is closely watching the grain stock position and condition of kharif sown paddy crops before taking a call in extending the free ration scheme. In July, FE had reported that rice stocks in the central pool are likely to plunge below the buffer norm by 2.2 mt or 16%, if PMGKAY is extended

to the whole of the second half of the current financial year.

Launched in April 2020 as part of the Covid-19 relief measures, 5 kg of grains are distributed free under PMGKAY to more than 800 million beneficiaries every month free of cost. Additionally, these people also get an equal quantity of highly subsidised foodgrains under the National Food Security Act.

The food ministry has allowed states to lift foodgrains for distribution under PMGKAY for this month till September 30 against earlier directive of grain lifting to be completed by August 31.

A food ministry official told FE that depletion in wheat stock

attributed to a more than 56% drop in procurement in the current rabi season to only 18.8 mt against 43 mt purchased by FCI and agencies in the 2021-22 season (April-June) because of lower production and the free ration scheme being implemented since May 2020.

Wheat output in the 2021-22 crop year (July-June), as per the agriculture ministry, has declined by around 3% on year to 106.8 MT because of heat waves during the flowering stage of the crop in March.

Last week, the government had set a marginally higher target of 51.8 mt of kharif rice procurement for 2022-23 season (October-September) by the FCI and state agencies against the actual procurement in previous year despite the possibility of drop in output because of lower paddy-sowing. Kharif rice procurement was 50.9 mt in 2021-22 season.

Overall paddy sowing area stood at 38.3 million hectare (mh) which was 5.6% less than year ago.

Palm oil imports nearly double to 11-month high as prices correct

RAJENDRA JADHAV
Mumbai, September 5

INDIA'S PALM OIL imports nearly doubled to an 11-month high in August from a month earlier, as a correction in prices prompted refiners to ramp up purchases, five dealers told Reuters on Monday.

Higher palm oil purchases by the world's biggest edible oil importer could support palm oil futures and help top producer Indonesia in bringing down ballooning inventories.

India's palm oil imports in August jumped 94% from a month ago to 1.03 million tonne, according to the average estimate from the five dealers

with trading firms.

"Palm has become very competitive compared to soft oils. Price difference widened sharply last month," said Sandeep Bajoria, chief executive of Sunvin Group, a leading vegetable oil broker.

Crude palm oil is being offered at \$1,011 a tonne

including cost, insurance and freight (CIF) in India for September shipments, compared with \$1,443 for crude soyoil, the dealers said.

The Solvent Extractors' Association of India, a Mumbai-based trade body, is likely to publish its import estimate for August in mid-September.

Indonesia's move to allow duty-free exports until end-October increased supplies in the market and brought down the prices, a Mumbai-based dealer with a global trading firm said. "In April-May, Indonesia was restricting exports. It has now been flooding the market to clear stocks," the dealer said. —REUTERS
