Dear Sir/Madam,

In terms of Regulation 30 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, it is to inform as under:

- (1) The whole country is reeling under the threat of rapidly spreading Novel Coronavirus (COVID-19) pandemic and business activities of MOIL are also affected by its spread.
- (2) MOIL has already taken up various preventive measures at all its offices, mines, plants and residential townships to protect the employees and their families from the spread of the virus.
- (3) As per instructions issued by various authorities, maintaining social distance is one of the most effective measures in the fight against the virus. Further, MOIL's mines are located in three districts, i.e. Nagpur and Bhandara in Maharashtra, and Balaghat in Madhya Pradesh. Company's efforts to keep the mining operations continue did not fructify as the impact of lock down is severe in these places.
- (4) The above has impacted the businesses activities of the company. In order to avoid the spread of the virus among employees involved in the production, the production activity of the company has been kept on hold as per the instructions received from the district administration. The company is, however, carrying out some ancillary activities like maintenance and repairs of shafts (which anyway require stoppage of shaft operations), filling and other safety related operations so that whenever production activity starts, MOIL can continue production uninterrupted. Lifting of inventory of manganese ore has also come down due to restrictions on the transportation activities and closure of many ferro alloys units, who are our customers. However, April being the starting month of the quarter/year, company's business operations normally starts late after reaching new contracts with customers and hence the impact as of now is marginal.
- (5) Efforts are on for resuming mining operations. As of now, it is difficult to quantify the actual impact of the above. MOIL will keep the exchanges informed about the further developments in the matter, if any.

This is for your kind information.

Thanking you,

Yours faithfully,

For MOIL Limited

N. D. Pandey
(Company Secretary & Compliance Officer)
