The Statement has been prepared by the Company pursuant to Regulation 33 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended (the "Listing Regulations, 2015"), which has been digitally signed by us for identification purposes.
2. This Statement, which is the responsibility of the Company's Management and approved by the Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34 "Interim Financial Reporting" ("Ind AS 34"), prescribed under Section 133 of the Companies Act, 2013, and other accounting principles generally accepted in India. Our responsibility is to express a conclusion on the Statement based on our review.
3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", issued by the Institute of Chartered Accountants of India. This Standard requires that we plan and perform the review to obtain moderate assurance as to whether the Statement is free of material misstatement. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
4. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the Statement has not been prepared in all material respects in accordance with the recognition and measurement principles laid down in the aforesaid Indian Accounting Standard and other accounting principles generally accepted in India and has not disclosed the information required to be disclosed in terms of Regulation 33 of the Listing Regulations, 2015 including the manner in which it is to be disclosed, or that it contains any material misstatement.

The responsibility includes the design, implementation and maintenance of internal control relevant to the preparation of special purpose financial statements that are free from material misstatement, whether due to fraud or error.

Auditors’ Responsibility

4. Our responsibility is to express an opinion on these special purpose financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Companies Act, 2013 (“the Act”) and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the special purpose financial statements are free from material misstatement.
5. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the special purpose financial statements. The procedures selected depend on the auditors’ judgment, including the assessment of the risks of material misstatement of the special purpose financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity’s preparation and fair presentation of the special purpose financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Siemens Energy India Limited

Notes forming part of special purpose financial statements

(Currency: Indian rupees)

1. Background

Siemens Energy India Limited (“The Company”) is a Company incorporated on February 7, 2024 and domiciled in India with its registered office at Birla Aurora, Level 21, Plot No. 1080, Dr. Annie Besant Road, Worli, Mumbai – 400030.

The Company is incorporated on February 7, 2024 as a wholly owned subsidiary of Siemens Limited to take over the energy business undertaking from Siemens Limited which offers fully integrated products, solutions and services across the energy value chain of oil and gas production, power generation and transmission for various customers such as utilities, independent power producers and engineering, procurement and construction (EPC) companies comprising of the entire part of the business.

2.1 Material accounting policies

(A) Basis of preparation of special purpose financial statements

The special purpose financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified pursuant to section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and other relevant provisions of the Companies Act.

The financial statements have been prepared and presented under the historical cost convention.

The financial statements are presented in INR, which is the functional currency.

The Company (the 'Resulting Company') is proposing to enter into a draft scheme of arrangement for demerger, transfer and vesting of the energy business undertaking from Siemens Limited (the 'Demerged Company') into the Company and reduction and cancellation of the pre-scheme share capital of the Company, between the Company, the Demerged Company and their respective shareholders and creditors in terms of the provisions of Sections 230 to 232 of the Companies Act, 2013 (the 'Act').

The Special Purpose Financial Statements of the Company have been prepared solely for inclusion in the abridged prospectus of the Company which is to be shared with Siemens Limited for onward submission to National Company Law Tribunal, the shareholders and creditors of Siemens Limited Securities and Exchange Board of India and relevant stock exchanges for the approval of the proposed scheme of arrangement between Demerged Company and the Company and their respective shareholders and creditors under section 230 to 232 and other applicable provisions of the Companies Act, 2013 (the 'Scheme') and in compliance with the SEBI Circular No. SEBI/HO/CFD/SSEP/CIR/P/2022/14 dated February 04, 2022 read with SEBI Master Circular No. SEBI/HO/CFD/POD-2/P/CIR/2023/93 dated June 20, 2023 (the 'Purpose'). The special purpose financial statements are not considered as the statutory financial statements of the Company, and would not comply with the disclosure provisions applicable to statutory financial statements prepared under the Companies Act, 2013.

The special purpose financial statements were authorised for issue in accordance with a resolution of Board of Directors on September 3, 2024.

(B) Current versus non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle. Based on the nature of business and the time between acquisition of assets for

Siemens Energy India Limited

Notes forming part of special purpose financial statements (continued)

processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

(C) Significant accounting judgements, estimates and assumptions

The preparation of special purpose financial statements in conformity with Ind AS requires management to make estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively.

The key assumptions concerning the future and other key sources of estimating uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period, is described below.

The Company has based its assumptions and estimates on parameters available when the special purpose financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Taxes - Significant management judgment is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

(D) Cash and Cash equivalents

For the purpose of presentation in the statement of Cash Flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts.

(E) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

On initial recognition, financial assets are recognised at fair value except trade receivables which are recognized at transaction price as they do not contain a significant financing component.

Siemens Energy India Limited

Notes forming part of special purpose financial statements (continued)

(Currency: Indian rupees)

Subsequent measurement

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business where the objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss (FVTPL), or as payables, as appropriate.

The transaction costs are attributed to the acquisition or issue of the financial liabilities.

The Company's financial liabilities include trade and other payables.

Subsequent measurement

Financial liabilities are initially measured at fair value minus, in case of financial liabilities not at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial liabilities.

Subsequent to initial recognition these financial liabilities are measured at amortised cost using effective interest method.

(F) Ind AS 116 - Leases

The Company's lease asset classes primarily consist of leases for Buildings. The Company assesses whether a contract is (or contains) a lease, at inception of a contract. A contract is (or contains), a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (i) the contract involves the use of an identified asset;
- (ii) the Company has substantially all the economic benefits from use of the asset through the period of the lease; and
- (iii) the Company has the right to direct the use of the asset.

Where the Company is the lessee:

At the date of commencement of the lease, the Company recognises a Right-of-Use asset ("ROU") and a corresponding Lease Liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and leases of low value assets. For these short-term and leases of low value assets, the Company recognises the lease payments as an operating expense on a straight line basis over the term of the lease.

The ROU assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less Accumulated depreciation and impairment losses, if any. ROU assets are depreciated from the

Siemens Energy India Limited

Notes forming part of special purpose financial statements (continued)

(Currency: Indian rupees)

commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

The Lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made.

Ind AS 116 - Leases (Continued)

A lease liability is remeasured upon the occurrence of certain events such as a change in the lease term or a change in an index or rate used to determine lease payments. The remeasurement normally also adjusts the leased assets.

Lease liability and ROU asset have been separately presented in the Balance Sheet and Lease payments have been classified as financing cash flows.

2.2 Other accounting policies

(A) Taxation

Income-tax expense comprises current tax (i.e. amount of tax for the year determined in accordance with the income-tax law) and deferred tax charge or credit (reflecting the tax effect of temporary differences between accounting income and taxable income for the year) computed in accordance with the relevant provisions of the Income Tax Act, 1961. Current tax and deferred tax are recognised in the Statement of Profit and Loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

The current tax payable is based on taxable profit for the year. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted, by the end of the reporting period. Advance taxes and provisions for current income taxes are presented in the balance sheet after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant taxpaying units intend to settle the asset and liability on a net basis.

Deferred tax is provided using the balance sheet method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets are generally recognised for all deductible temporary differences to the extent it is probable that taxable profits will be available against those deductible temporary differences and can be realised. Deferred tax assets are reviewed as at each balance sheet date and written down to the extent it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

Siemens Energy India Limited

Notes forming part of special purpose financial statements (continued)

(Currency: Indian rupees)

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

(B) Earnings per share

Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit/ loss attributable to owners of the Company
- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares.

Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

APPROACH FOR RECOMMENDATION OF FAIR EQUITY SHARE ENTITLEMENT RATIO

We understand that, as part of the Scheme, Energy Business of Siemens India is proposed to be demerged into SEIL. It can be seen that SEIL is not engaged in any operations and Siemens India holds 100% equity shares of SEIL. Once the Scheme is implemented, all the shareholders of Siemens India would also become the shareholders of SEIL, and their shareholding in SEIL would mirror their shareholding in Siemens India. The effect of the demerger is that each shareholder of Siemens India becomes the owner of shares in two companies instead of one company. The percentage holding of a shareholder in Siemens India (post the demerger) and in SEIL would remain unchanged from the proportion of capital held by such shareholder in Siemens India.

BASIS OF FAIR EQUITY SHARE EXCHANGE RATIO

Hence, the share entitlement ratio would not have any impact on the ultimate value of the shareholders of the Siemens India and the Proposed Demerger will be value-neutral to the shareholders of Siemens India. Further, as stated in SEBI Master Circular SEBI/HO/CFD/POD-2/P/CIR/2023/93 dated 20 June 2023, valuation is not required in cases where there is no change in the shareholding pattern of the resultant company. Therefore, we have not carried out valuation of the Companies or Energy Business. Accordingly, the valuation under the valuation approaches mentioned in the format prescribed under BSE Circular No. LIST/COMP/02/2017-18 dated 29 May 2017 and NSE Circular No. NSE/CML/2017/12 dated 01 June 2017 are not applicable in the given case.

Methodology	Siemens India		SEIL	
	Value per Share	Weights	Value per Share	Weights
Asset Approach	NA	NA	NA	NA
Income Approach	NA	NA	NA	NA
Market Approach	NA	NA	NA	NA
Value Per Share	NA		NA	

Based on the above, any share entitlement ratio can be considered appropriate and fair for the Proposed Demerger as the proportionate equity shareholding of any shareholder before and after the Proposed Demerger would remain same.

<space left blank intentionally>

CONCLUSION

In the light of the above and on a consideration of all the relevant factors and circumstances, we recommend a ratio of **1 (One)** equity share of INR 2 each fully paid up of SEIL for every **1 (One)** equity share of INR 2 each fully paid up each held in Siemens India.

It should be noted that we have examined the share entitlement ratio for the Proposed Demerger and not examined any other matter including economic rationale for the demerger *per se* or accounting, legal or tax matters involved in the Proposed Demerger.

Dear Members of the Board of Directors, Audit Committee and Committee of Independent Directors:

Sub.: Fairness Opinion on the recommendation of the Share Entitlement Ratio report for the proposed demerger of the energy business of Siemens Limited to Siemens Energy India Limited

I. Engagement Background

We understand that the Board of Directors of Siemens Limited (the “Demerged Company” or “Company”) is considering a demerger of its energy business carried on by the Demerged Company (“Demerged Undertaking”) into Siemens Energy India Limited (the “Resulting Company”). The proposed demerger is to be carried out pursuant to a scheme of arrangement (“Scheme”) under Sections 230 to 232 and other relevant provisions of the Companies Act, 2013 (the “Act”).

The Demerged Company and the Resulting Company are hereinafter jointly referred to as “Parties”.

We understand from the management of the Demerged Company that, pursuant to the proposed demerger, the equity shareholders of the Demerged Company will be issued equity shares in the Resulting Company as consideration for their respective shareholding in the Demerged Company. The terms and conditions of the proposed demerger are more fully set out in the draft of the Scheme shared with us (“Draft Scheme”), the final version of which will be placed before the Board of Directors of the Parties for necessary approval and will be filed by the Parties with the appropriate authorities.

We further understand that the Share Entitlement Ratio (*defined below*) for the proposed demerger has been arrived at based on the Share Entitlement Report dated 14th May 2024 prepared by Ernst & Young Merchant Banking Services LLP (the “Valuer”), which has been appointed for this exercise by the Demerged Company and the Resulting Company.

Based on our perusal of the Share Entitlement Report dated 14th May 2024 prepared by the Valuer, we understand that it has been proposed that, pursuant to the Scheme, for every 1 (*one*) fully paid up equity share of the face value of INR 2 each held by the shareholders of the Demerged Company, the Resulting Company shall issue and allot 1 (*one*) fully paid up equity share of the face value of INR 2 each, on proportionate basis (hereinafter referred to as the “Share Entitlement Ratio”).

In connection with the aforesaid and in terms of SEBI Master Circular No. SEBI/HO/CFD/POD-2/P/CIR/2023/93 dated June 2023 on Master Circular on Scheme of Arrangement by Listed Entities, you have requested our opinion (“Opinion”), as of the date hereof, as to the fairness of the Share Entitlement Ratio, as proposed by the Valuer.

II. Basis of Opinion

The rationale for the Scheme as shared with us by the management of the Demerged Company is based on the Parties and the respective shareholders, employees, creditors and other stakeholders benefiting from, inter alia, the following advantages:

- (i) The Demerged Company is part of the Siemens group, a technology group that is globally active, focusing on the areas of automation and digitalization in the process and manufacturing industries, intelligent infrastructure for buildings and distributed energy systems, and smart mobility solutions. Siemens Aktiengesellschaft (“**Siemens AG**”), incorporated in Germany, is the parent company of the Siemens group. The Demerged Company is one of India’s largest multi-national conglomerates with interests in multiple businesses.
- (ii) Siemens AG demerged its energy business globally in the year 2020 and in continuation of the aforesaid strategy, it is now proposed to demerge the Energy Business (as defined in the Draft Scheme) of the Demerged Company into an independent company whose equity shares will be listed on the Stock Exchanges (i.e. the Resulting Company).
- (iii) The demerger is proposed with the aim to ensure that both the Energy Business and the Remaining Business (as defined in the Draft Scheme) focus on their core activities, portfolios and capital allocation. This will enable both businesses to have independent and focused management and adopt a clear, direct and tailored go-to-market and operational approach for the respective businesses to leverage the full potential of the Indian and export markets.
- (iv) The strategic and operational separation of the Energy Business from the Remaining Business of the Demerged Company will help the businesses achieve strategic independence, financial flexibility, reduce complexities and dependencies and will sharpen strategic profiles of both the businesses.
- (v) The nature and competition involved in the Energy Business is distinct from the other businesses within the Demerged Company. In order to foster the growth of the Energy Business, differentiated strategy aligned to industry specific risks, market dynamics and focused approach is required.
- (vi) The following benefits are expected to accrue on demerger of the Energy Business:
 - (a) formation of a company focusing solely on Energy Business will strengthen the investment and risk profile of the business;
 - (b) the changing market environment requires constant decision making on the strategic orientation of the Energy Business, and as an autonomous and independent company, the Energy Business will be able to react to short term market and industry trends in a more flexible, quicker and resolute manner resulting in a strong, focused company with operations spanning the entire energy value chain including the service business;
 - (c) better capital allocation in accordance with the focused strategic orientation of the business;
 - (d) create greater visibility of the business and strengthen the internal and external identity thereby defining its corporate profile and its perception in the greater public;
 - (e) such specialised company can attract different sets of investors, strategic partners and other stakeholders having a specific interest in the Energy Business; and

- (f) unlocking the value of the Energy Business for the shareholders of the Demerged Company through an independent market driven valuation of their shares in the Resulting Company which will be listed pursuant to the Scheme.
- (vii) The Scheme is in the interests of all stakeholders of the Demerged Company and the Resulting Company.

Accordingly, it is proposed that the Demerged Undertaking of the Company be demerged and transferred on a going concern basis into the Resulting Company with mirror shareholding of the Company.

The resulting pro rata shareholding of an equity shareholder of the Demerged Company in the Resulting Company, pursuant to the proposed Scheme would be a mirror image of the existing shareholding pattern of the Demerged Company (pre-demerger) as new shares in the Resulting Company would be issued to the existing shareholders of the Demerged Company in exact proportion to their shareholding in the Demerged Company. As such, upon the Scheme becoming effective, the beneficial economic interest of the shareholders in the Demerged Company and the Resulting Company taken together, would remain the same as in the Demerged Company before the Scheme becoming effective.
