After UAE-based International League T20, Indian firms are now acquiring teams in new T20 tourney

VIVEAT SUSAN PINTO & SHINE JACOB Mumbai/Chennai, 20 July

ukesh Ambani-led **Reliance** Industries and India Cementsbacked Chennai Super Kings Cricket Ltd on Wednesday said they were buying a franchise each in Cricket South Africa's new T20 League, as Indian Premier League-style tournaments attract the attention of Indian firms.

This is the second instance in two months that Indian groups have acquired teams in an international T20 league, after conglomerates such as the Adani Group, Reliance, GMR, Capri Global and the Knight Riders Group - which operates the Kolkata Knight Riders in the IPL - picked up franchises in the UAE-based International League T20.

Both leagues will commence early next year, giving enough time for the Indian owners to prepare their teams for the respective tournaments, sector experts said.

Based in Cape Town, Reliance's new franchise will take forward the Mumbai Indians brand, the company said in a statement. Chennai Super Kings Cricket will have its base in Johannesburg. The Wanderers Stadium in Johannesburg, known as the Bullring, will be the home ground of the franchise.

Cricket South Africa on

FRESH GUARD

Reliance Industries (Johannesburg) have bought franchises teams in global T20

Wednesday said that apart from Reliance Industries Limited (RIL) and Chennai Super Kings Cricket, there were owners from four other IPL teams who had successfully bid for franchises in the new

Twenty20 tournament. It did not specify the names However, it is reliably learnt that Lucknow Super Giants owners RP-Sanjiv Goenka Group, Sunrisers Hyderabad owners Sun TV Network, Rajasthan Rovals owners Royals Sports Group and Delhi

Cricket South Africa said

4 other IPL teams had bid

successfully for franchises

in the new T20 league

(Cape Town) and Chennai Super Kings Cricket Ltd Twice in 2 months that Indian firms have bought leagues; both UAE and SA leagues to begin next yr

Owners of Lucknow, Hyderabad, Rajasthan and Delhi IPL franchises are learnt to have bid for the Durban, Ggeberha, Paarl & Pretoria teams

> have bid for the Durban, Ggeberha, Paarl and Pretoria franchises each. A formal announcement on the same is expected shortly by

the respective groups, persons in the know said. "We have been evaluating

new opportunities across the globe over the past few years. We felt this T20 league in South Africa will be highly competitive and it is a great opportunity for us to give back to the sport. It would also help us to spot new talent," said K S Viswanathan,

chief executive officer of Chennai Super Kings.

"South Africa has a strong sporting ecosystem, and we look forward to exploring the power and potential of this collaboration," Nita Ambani, director, RIL, said.

The interest in IPL-style T20 tournaments globally by Indian companies comes as the Indian property grows from strength to strength, prompting a wider embrace by international cricket boards

Among the most valued sporting properties in the world at \$4.5 billion, according to Brand Finance. the recently concluded IPL e-auction only reinforced its position, sector experts said. The value of the IPL media rights (at ₹48,390 crore for 2023-27) crossed the previous rights value (₹16,347.50 crore for 2018-22) by nearly three times, pushing the event as the second most expensive sporting league in terms of per-match value. Disney-Star, Reliance-backed Viacom18 and Times Internet emerged winners in the e-auction.

Among IPL franchise owners, Red Chillies Entertainment, who own Kolkata Knight Riders, were the first to buy an overseas T20 franchise - the Trinbago Knight Riders in the Caribbean Premier League (CPL), a few years ago

In 2020, KPH Dream Cricket Private Limited, the consortium that owns Punjab Kings, bought the St Lucia Kings that is part of the same league. And last year. Rajasthan Royals owner the Royals Sports Group bought the Barbados team in the CPL.

The Knight Riders brand also has a presence in the US, where it is among the founding members of Major League Cricket, a franchise-based T20 League scheduled to be launched next year.

Boeing's Super Hornet fighter completes testing in India

Rafale also passed test in Jan, but lacks twin-seat variant, which Navy requires

AJAI SHUKLA New Delhi, 20 July

After successfully demonstrating its ability to land on, and take off from, the ski-jump that equips India's two aircraft carriers. The Boeing Company (Boeing) is confident that the aircraft it is offering — the F/A-18 Super Hornet Block III — is in pole position to win the Indian Navy's tender for initially 26, increasing to 57, multi-role carrier-based fighters (MRCBF).

"Even though the Super Hornet was initially designed to operate from a catapultlaunch environment, the jet is so powerful that it is able to easily achieve ski-jump launches again under its own power with heavy payloads," said Alain Garcia, Boeing's defence head in India.

Challenging Boeing's Super Hornet in the MRCBF race is the naval version of the French Rafale fighter — called the Rafale Marine. However, the Rafale Marine has only a single-seat version, while the Indian Navy requires both single-seat and twinseat variants.

A two-seat fighter offers several unique advantages, such as mission flexibility, higher fleet utilisation and the ability to carry out high workload missions that require a second crew member. Besides, a twinseat fighter can also be used as a trainer.

"The competitor (the Rafale Marine) does not offer a two-seat, carrier-capable platform. So the fact that we can offer a two-seat platform that is carrier capable gives a lot of flexibility from a training perspective and a mission perspective to the Indian Navy," said Garcia.

In January, the Rafale Marine had undergone tests at the "shore-based test facility" in Goa to demonstrate its ability to operate off India's two aircraft carriers - INS Vikramaditya and INS Vikrant. Now it was the turn of the Super Hornet.

A Super Hornet takes off during testing at the shore-based test facility in Goa

During the testing in Goa, two US Navy F/A-18E/F Super Hornets completed multiple ski-jumps, roll-in and fly-in arrested landings, as well as performance flights, in a variety of weights in the air-to-air, air-toground, and air-to-surface configurations, meeting the Indian Navy's test require-

ments, Boeing announced on Wednesday. "With the Super Hornet Block III, the Indian Navy would not only get the most advanced platform but also benefit from tactics, upgrades and knowledge related to the naval aviation ecosystem that the US Navy offers," Garcia said.

Boeing announced on Wednesday that the Super Hornet tests in Goa had been preceded by internal testing in 2020 at Naval Air Station, Patuxent River, Maryland. That had included eight skijump take-offs, in various weights and con-

figurations, and had demonstrated the Super Hornet's ability to operate from a "short take-off but arrested recovery" (STO-BAR) aircraft carrier.

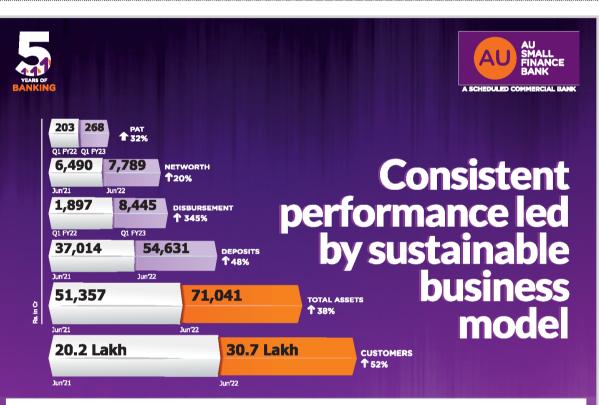

The Super Hornet Block III is the US Navy's premier fighter, with over 800 air-

craft delivered around the world and over 2.5 million flight hours logged. The US Navy intends to retain the Super Hornet in service till beyond 2035.

Towards this end, multi-billion-dollar investments have been made to increase the Super Hornet Block III's airframe life to 10.000 hours, from 6.000 hours in the Block II, reduce the radar cross-section, and incorporate an advanced cockpit with a large area display.

Published figures reveal that the Super Hornet Block III has the lowest cost per flight hour of all the US military's fighter aircraft. It has been designed, ground up, for carrier operations and requires no modifications for operating on the deck, hangar and lifts of Indian carriers.

The F/A-18 Super Hornet Block III uses the General Electric F-414 engine, which is from the same family that powers the Tejas Mark I fighter and could go on to power its Mark 1A and Mark 2 versions. This commonality will result in efficiencies of scale. reducing the cost of engines, which amount to one-third the cost of a fighter aircraft.

Boeing's Super Hornet fighter completes testing in India

Rafale also passed test in Jan, but lacks twin-seat variant, which Navy requires

AJAI SHUKLA New Delhi, 20 July

After successfully demonstrating its ability to land on, and take off from, the ski-jump that equips India's two aircraft carriers. The Boeing Company (Boeing) is confident that the aircraft it is offering — the F/A-18 Super Hornet Block III — is in pole position to win the Indian Navy's tender for initially 26, increasing to 57, multi-role carrier-based fighters (MRCBF).

"Even though the Super Hornet was initially designed to operate from a catapultlaunch environment, the jet is so powerful that it is able to easily achieve ski-jump launches again under its own power with heavy payloads," said Alain Garcia, Boeing's defence head in India.

Challenging Boeing's Super Hornet in the MRCBF race is the naval version of the French Rafale fighter — called the Rafale Marine. However, the Rafale Marine has only a single-seat version, while the Indian Navy requires both single-seat and twinseat variants.

A two-seat fighter offers several unique advantages, such as mission flexibility, higher fleet utilisation and the ability to carry out high workload missions that require a second crew member. Besides, a twinseat fighter can also be used as a trainer.

"The competitor (the Rafale Marine) does not offer a two-seat, carrier-capable platform. So the fact that we can offer a two-seat platform that is carrier capable gives a lot of flexibility from a training perspective and a mission perspective to the Indian Navy," said Garcia.

In January, the Rafale Marine had undergone tests at the "shore-based test facility" in Goa to demonstrate its ability to operate off India's two aircraft carriers - INS Vikramaditya and INS Vikrant. Now it was the turn of the Super Hornet.

A Super Hornet takes off during testing at the shore-based test facility in Goa

During the testing in Goa, two US Navy F/A-18E/F Super Hornets completed multiple ski-jumps, roll-in and fly-in arrested landings, as well as performance flights, in a variety of weights in the air-to-air, air-toground, and air-to-surface configurations, meeting the Indian Navy's test require-

ments, Boeing announced on Wednesday. "With the Super Hornet Block III, the Indian Navy would not only get the most advanced platform but also benefit from tactics, upgrades and knowledge related to the naval aviation ecosystem that the US Navy offers," Garcia said.

Boeing announced on Wednesday that the Super Hornet tests in Goa had been preceded by internal testing in 2020 at Naval Air Station, Patuxent River, Maryland. That had included eight skijump take-offs, in various weights and con-

figurations, and had demonstrated the Super Hornet's ability to operate from a "short take-off but arrested recovery" (STO-BAR) aircraft carrier.

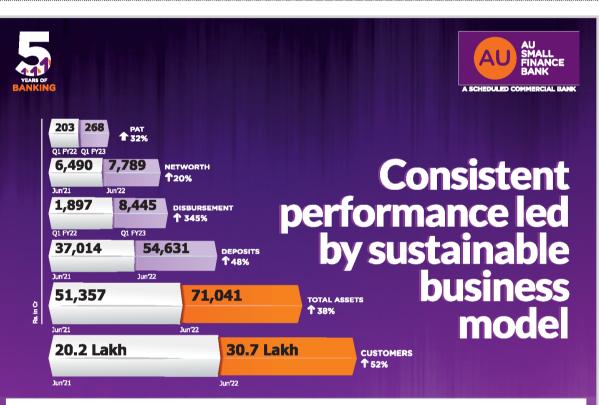

The Super Hornet Block III is the US Navy's premier fighter, with over 800 air-

craft delivered around the world and over 2.5 million flight hours logged. The US Navy intends to retain the Super Hornet in service till beyond 2035.

Towards this end, multi-billion-dollar investments have been made to increase the Super Hornet Block III's airframe life to 10.000 hours, from 6.000 hours in the Block II, reduce the radar cross-section, and incorporate an advanced cockpit with a large area display.

Published figures reveal that the Super Hornet Block III has the lowest cost per flight hour of all the US military's fighter aircraft. It has been designed, ground up, for carrier operations and requires no modifications for operating on the deck, hangar and lifts of Indian carriers.

The F/A-18 Super Hornet Block III uses the General Electric F-414 engine, which is from the same family that powers the Tejas Mark I fighter and could go on to power its Mark 1A and Mark 2 versions. This commonality will result in efficiencies of scale. reducing the cost of engines, which amount to one-third the cost of a fighter aircraft.

After UAE-based International League T20, Indian firms are now acquiring teams in new T20 tourney

VIVEAT SUSAN PINTO & SHINE JACOB Mumbai/Chennai, 20 July

ukesh Ambani-led **Reliance** Industries and India Cementsbacked Chennai Super Kings Cricket Ltd on Wednesday said they were buying a franchise each in Cricket South Africa's new T20 League, as Indian Premier League-style tournaments attract the attention of Indian firms.

This is the second instance in two months that Indian groups have acquired teams in an international T20 league, after conglomerates such as the Adani Group, Reliance, GMR, Capri Global and the Knight Riders Group - which operates the Kolkata Knight Riders in the IPL - picked up franchises in the UAE-based International League T20.

Both leagues will commence early next year, giving enough time for the Indian owners to prepare their teams for the respective tournaments, sector experts said.

Based in Cape Town, Reliance's new franchise will take forward the Mumbai Indians brand, the company said in a statement. Chennai Super Kings Cricket will have its base in Johannesburg. The Wanderers Stadium in Johannesburg, known as the Bullring, will be the home ground of the franchise.

FRESH GUARD

Reliance Industries (Cape Town) and Chennai Super Kings Cricket Ltd (Johannesburg) have bought franchises Twice in 2 months that Indian firms have bought teams in global T20 leagues; both UAE and SA leagues to begin next yr

Wednesday said that apart from Reliance Industries Limited (RIL) and Chennai Super Kings Cricket, there were owners from four other IPL teams who had successfully bid for franchises in the new

Twenty20 tournament. It did not specify the names new opportunities across the However, it is reliably learnt globe over the past few years. that Lucknow Super Giants We felt this T20 league in owners RP-Sanjiv Goenka South Africa will be highly Group, Sunrisers Hyderabad competitive and it is a great owners Sun TV Network, opportunity for us to give Rajasthan Rovals owners back to the sport. It would Royals Sports Group and Delhi also help us to spot new tal-

Capitals co-owners JSW Sports

chief executive officer of Chennai Super Kings.

"South Africa has a strong sporting ecosystem, and we look forward to exploring the power and potential of this collaboration," Nita Ambani, director, RIL, said.

The interest in IPL-style T20 tournaments globally by Indian companies comes as the Indian property grows from strength to strength, prompting a wider embrace by international cricket boards

Among the most valued sporting properties in the world at \$4.5 billion, according to Brand Finance. the recently concluded IPL e-auction only reinforced its position, sector experts said. The value of the IPL media rights (at ₹48,390 crore for 2023-27) crossed the previous rights value (₹16,347.50 crore for 2018-22) by nearly three times, pushing the event as the second most expensive sporting league in terms of per-match value. Disney-Star, Reliance-backed Viacom18 and Times Internet emerged winners in the e-auction.

Among IPL franchise owners, Red Chillies Entertainment, who own Kolkata Knight Riders, were the first to buy an overseas T20 franchise - the Trinbago Knight Riders in the Caribbean Premier League (CPL), a few years ago

In 2020, KPH Dream Cricket Private Limited, the consortium that owns Punjab Kings, bought the St Lucia Kings that is part of the same league. And last year. Rajasthan Royals owner the Royals Sports Group bought the Barbados team in the CPL.

The Knight Riders brand also has a presence in the US, where it is among the founding members of Major League Cricket, a franchise-based T20 League scheduled to be launched next year.

Boeing's Super Hornet fighter completes testing in India

Rafale also passed test in Jan, but lacks twin-seat variant, which Navy requires

AJAI SHUKLA New Delhi, 20 July

After successfully demonstrating its ability to land on, and take off from, the ski-jump that equips India's two aircraft carriers. The Boeing Company (Boeing) is confident that the aircraft it is offering — the F/A-18 Super Hornet Block III — is in pole position to win the Indian Navy's tender for initially 26, increasing to 57, multi-role carrier-based fighters (MRCBF).

"Even though the Super Hornet was initially designed to operate from a catapultlaunch environment, the jet is so powerful that it is able to easily achieve ski-jump launches again under its own power with heavy payloads," said Alain Garcia, Boeing's defence head in India.

Challenging Boeing's Super Hornet in the MRCBF race is the naval version of the French Rafale fighter — called the Rafale Marine. However, the Rafale Marine has only a single-seat version, while the Indian Navy requires both single-seat and twinseat variants.

A two-seat fighter offers several unique advantages, such as mission flexibility, higher fleet utilisation and the ability to carry out high workload missions that require a second crew member. Besides, a twinseat fighter can also be used as a trainer.

"The competitor (the Rafale Marine) does not offer a two-seat, carrier-capable platform. So the fact that we can offer a two-seat platform that is carrier capable gives a lot of flexibility from a training perspective and a mission perspective to the Indian Navy," said Garcia.

In January, the Rafale Marine had undergone tests at the "shore-based test facility" in Goa to demonstrate its ability to operate off India's two aircraft carriers - INS Vikramaditya and INS Vikrant. Now it was the turn of the Super Hornet.

A Super Hornet takes off during testing at the shore-based test facility in Goa

During the testing in Goa, two US Navy F/A-18E/F Super Hornets completed multiple ski-jumps, roll-in and fly-in arrested landings, as well as performance flights, in a variety of weights in the air-to-air, air-toground, and air-to-surface configurations, meeting the Indian Navy's test require-

ments, Boeing announced on Wednesday. "With the Super Hornet Block III, the Indian Navy would not only get the most advanced platform but also benefit from tactics, upgrades and knowledge related to the naval aviation ecosystem that the US Navy offers," Garcia said.

Boeing announced on Wednesday that the Super Hornet tests in Goa had been preceded by internal testing in 2020 at Naval Air Station, Patuxent River, Maryland. That had included eight skijump take-offs, in various weights and con-

figurations, and had demonstrated the Super Hornet's ability to operate from a "short take-off but arrested recovery" (STO-BAR) aircraft carrier.

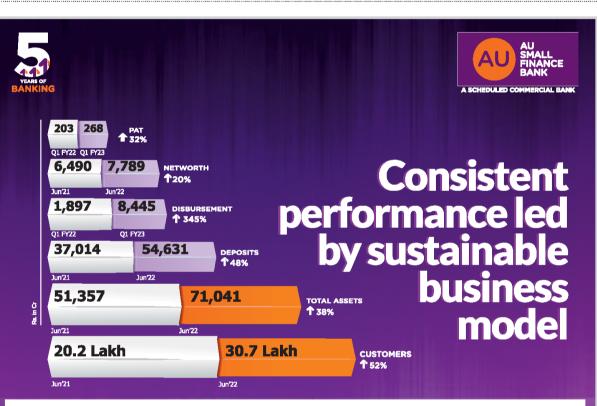

The Super Hornet Block III is the US Navy's premier fighter, with over 800 air-

craft delivered around the world and over 2.5 million flight hours logged. The US Navy intends to retain the Super Hornet in service till beyond 2035.

Towards this end, multi-billion-dollar investments have been made to increase the Super Hornet Block III's airframe life to 10.000 hours, from 6.000 hours in the Block II, reduce the radar cross-section, and incorporate an advanced cockpit with a large area display.

Published figures reveal that the Super Hornet Block III has the lowest cost per flight hour of all the US military's fighter aircraft. It has been designed, ground up, for carrier operations and requires no modifications for operating on the deck, hangar and lifts of Indian carriers.

The F/A-18 Super Hornet Block III uses the General Electric F-414 engine, which is from the same family that powers the Tejas Mark I fighter and could go on to power its Mark 1A and Mark 2 versions. This commonality will result in efficiencies of scale. reducing the cost of engines, which amount to one-third the cost of a fighter aircraft.

Boeing's Super Hornet fighter completes testing in India

Rafale also passed test in Jan, but lacks twin-seat variant, which Navy requires

AJAI SHUKLA New Delhi, 20 July

After successfully demonstrating its ability to land on, and take off from, the ski-jump that equips India's two aircraft carriers. The Boeing Company (Boeing) is confident that the aircraft it is offering — the F/A-18 Super Hornet Block III — is in pole position to win the Indian Navy's tender for initially 26, increasing to 57, multi-role carrier-based fighters (MRCBF).

"Even though the Super Hornet was initially designed to operate from a catapultlaunch environment, the jet is so powerful that it is able to easily achieve ski-jump launches again under its own power with heavy payloads," said Alain Garcia, Boeing's defence head in India.

Challenging Boeing's Super Hornet in the MRCBF race is the naval version of the French Rafale fighter — called the Rafale Marine. However, the Rafale Marine has only a single-seat version, while the Indian Navy requires both single-seat and twinseat variants.

A two-seat fighter offers several unique advantages, such as mission flexibility, higher fleet utilisation and the ability to carry out high workload missions that require a second crew member. Besides, a twinseat fighter can also be used as a trainer.

"The competitor (the Rafale Marine) does not offer a two-seat, carrier-capable platform. So the fact that we can offer a two-seat platform that is carrier capable gives a lot of flexibility from a training perspective and a mission perspective to the Indian Navy," said Garcia.

In January, the Rafale Marine had undergone tests at the "shore-based test facility" in Goa to demonstrate its ability to operate off India's two aircraft carriers - INS Vikramaditya and INS Vikrant. Now it was the turn of the Super Hornet.

A Super Hornet takes off during testing at the shore-based test facility in Goa

During the testing in Goa, two US Navy F/A-18E/F Super Hornets completed multiple ski-jumps, roll-in and fly-in arrested landings, as well as performance flights, in a variety of weights in the air-to-air, air-toground, and air-to-surface configurations, meeting the Indian Navy's test require-

ments, Boeing announced on Wednesday. "With the Super Hornet Block III, the Indian Navy would not only get the most advanced platform but also benefit from tactics, upgrades and knowledge related to the naval aviation ecosystem that the US Navy offers," Garcia said.

Boeing announced on Wednesday that the Super Hornet tests in Goa had been preceded by internal testing in 2020 at Naval Air Station, Patuxent River, Maryland. That had included eight skijump take-offs, in various weights and con-

figurations, and had demonstrated the Super Hornet's ability to operate from a "short take-off but arrested recovery" (STO-BAR) aircraft carrier.

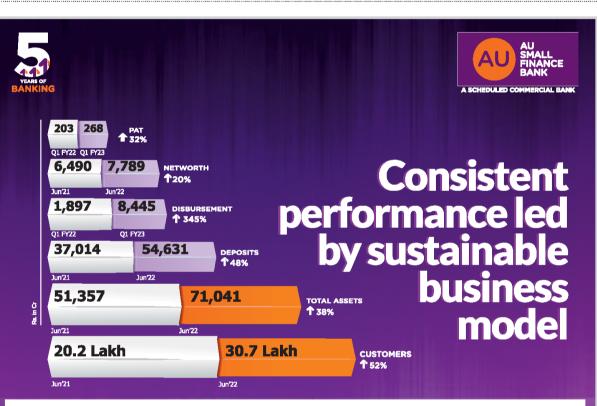

The Super Hornet Block III is the US Navy's premier fighter, with over 800 air-

craft delivered around the world and over 2.5 million flight hours logged. The US Navy intends to retain the Super Hornet in service till beyond 2035.

Towards this end, multi-billion-dollar investments have been made to increase the Super Hornet Block III's airframe life to 10.000 hours, from 6.000 hours in the Block II, reduce the radar cross-section, and incorporate an advanced cockpit with a large area display.

Published figures reveal that the Super Hornet Block III has the lowest cost per flight hour of all the US military's fighter aircraft. It has been designed, ground up, for carrier operations and requires no modifications for operating on the deck, hangar and lifts of Indian carriers.

The F/A-18 Super Hornet Block III uses the General Electric F-414 engine, which is from the same family that powers the Tejas Mark I fighter and could go on to power its Mark 1A and Mark 2 versions. This commonality will result in efficiencies of scale. reducing the cost of engines, which amount to one-third the cost of a fighter aircraft.

Torrent Pharma to mark entry into diagnostics space

Formal launch expected in two-three months

SOHINI DAS Mumbai, 20 July

hmedabad-based Torrent Pharmaceuticals is foraying into the diagnostics space after its peer Lupin started a similar venture last year.

A formal launch of Torrent's diagnostics business is expected in two-three months, according to sources in the know. An email sent to the company remained unanswered. Sources, however, indicate that Torrent Pharma has firmed up plans to enter the diagnostics business and has already started the recruitment process.

A company called Torrent Diagnostics Private Ltd was incorporated in February this year and has a Torrent Pharmaceuticals executive director as one of its directors.

"Recruitment of team members is on and the company is setting up a reference laboratory now. Things would take a few more months before a formal launch can be expected," the source said.

Mumbai-based Lupin had forayed into diagnostics last through vear Lupin Diagnostics, which is a part of Lupin Healthcare, a whollyowned subsidiary of Lupin. It set up a reference laboratory in Navi Mumbai and hired professionals from Apollo Diagnostics, Dr Lal Pathlabs, SRL, and Reliance Life Sciences.

Analysts Anubhav Aggarwal and Sayantan Maji of Credit Suisse are of the opinion that with the entry of years, feel analysts. Lupin the competitive inten-

PIECE OF THE PIE NEW PASTURES

Large organised diagnostics hold only 15% of India's networks depend on prescriptions and illness detection to drive growth Their share may touch This is where pharma firms about 25% in 3-5 years, score, as they already have a

sity will increase in the diagnostics business.

Organised players

diagnostics market

₹55,000-crore

say analysts

"Low-entry barriers, high return on capital employed (over 50 per cent) and fast growth (double digit) profile of the diagnostics sector is attracting new entrants, including digital health aggregators" said the analysts.

A trend of pharma companies foraying into diagnostics is on the rise. Sector observers feel that this is a logical step for drug firms, who already have the advantage of a good doctor network.

Why diversify into

diagnostics? India's ₹55,000-crore diagnostics sector is largely dominated by unorganised players. From 15 per cent, the share of organised players is likely to rise to 25 per cent in three to five

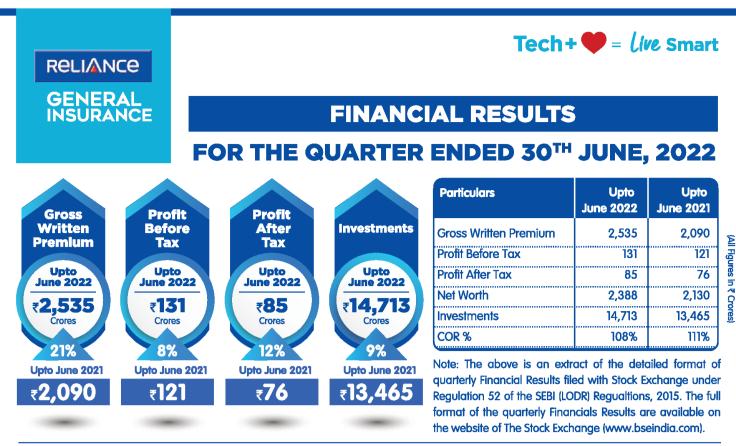

connection with physicians tor revenues come from prescriptions or illness detection. Currently, there is a growing

trend of 'wellness' testing or preventive healthcare. This is a space, which is witnessing a churn after the entry of online diagnostics players.

"Leading drug firms that already have strong relationships with doctors through their sales force can leverage this prescriber network for generating patient volumes to diagnostic centres," said an analyst.

Torrent has already increased its field force to 3,900 medical representatives from the earlier 3,600. Edelweiss Securities noted that this may further increased by be another 200-300 by the end of the first quarter.

In the Indian market, it has increased its overall share to 3.5 per cent in FY22 from the Bulk of the diagnostics secearlier 3.2 per cent.

कोविड-19 संक्रमण के बढ़ रहे मामले, उच्चस्तरीय बैठक में 9 राज्यों की हुई समीक्षा

सोहिनी दास

द्र ने नौ राज्यों में बढ़ रहे कोरोना के मामलों और बढ़ रही संक्रमण दर पर चिंता जताई है। केंद्र ने जांच और टीकाकरण में ढिलाई को जिम्मेदार ठहराया है।

केंद्रीय स्वास्थ्य सचिव राजेश भूषण ने बुधवार को इन राज्यों के साथ उच्च स्तरीय बैठक बुलाई। इन राज्यों में केरल, पश्चिम बंगाल, तमिलनाडु, महाराष्ट्र, असम, आंध्र प्रदेश, हिमाचल प्रदेश, मिजोरम और अरुणाचल प्रदेश शामिल थे।

नीति आयोग के सदस्य (स्वास्थ्य) विनोद पॉल ने कहा कि हमें इस बात का ध्यान रखना चाहिए कि कोविड अभी गया नहीं है। वैश्विक माहौल को देखते हुए हमें सचेत होने की सख्त जरूरत है। कई ऐसे राज्य हैं जहां कोविड मामलों की निगरानी में कोताही, जांच में कमी और औसत से भी कम टीकाकरण हो रहा है। उन्होंने राज्यों से अधिक संक्रमण दर वाले क्षेत्रों में जांच और निगरानी में तेजी लाने और टीकाकरण की रफ्तार को तेज करने का आग्रह किया है।

उन्होंने कहा कि उन सभी राज्यों को जहां कोरोना संक्रमण की दर ज्यादा है, उन्हें आरटी-पीसीआर जांच में तेजी लाने की जरूरत है। केंद्रीय स्वास्थ्य मंत्रालय ने कहा कि इसमें किसी भी तरह की कोताही इन जिलों में स्थिति को और बिगाड़ सकती है। मंत्रालय ने कहा कि जिन लोगों को होम आइसोलेशन पर रखा जा रहा है उन्हें भी प्रभावी और सख्ती से निगरानी करने की जरूरत है ताकि उनके माध्यम से आस-पास के

लोगों पर संक्रमण को रोका जा सके। राज्यों को 9 जून को संशोधित निगरानी रणनीति के अनुसार निगरानी करने की सलाह दी गई है। उन्हें यह भी कहा गया है कि सारे राज्य एसएआरआई (तीव्र श्वसन बीमारी) और आईएलआई (इन्फ्लुएंजा संबंधित बीमारी) के मामलों को दैनिक तौर पर सूचित करें और इसे जीनोम सीक्वेन्सिंग के लिए बनाई गई इंसाकॉग लैब में भेजें। धीमी जांच से चिंतित केंद्र सरकार ने राज्यों से उन मामलों के लिए भी

🗕 १० प्रतिशत से

निगरानी हो

असम, पश्चिम बंगाल महाराष्ट और

हिमाचल प्रदेश की औसत जांच राष्ट्रीय

औसत से कम है वहीं आरटी-पीसीआर

की जांच भी मिजोरम, अरुणाचल प्रदेश

और असम में बहुत कम है वहीं

हिमाचल प्रदेश.केरल व पश्चिम बंगाल

स्वास्थ्य मंत्रालय ने इन राज्यों से

आरटी-पीसीआर की घटती जांच को

लेकर जवाब मांगा है और प्रति दस

लाख औसत जांच की रफ्तार बढ़ाने के

लिए कहा है। अनुमान है कि अरुणाचल

प्रदेश, मिजोरम, असम, महाराष्ट्,

पश्चिम बंगाल, तमिलनाडु और केरल

में टीकाकरण की रफ्तार को बढ़ाया जा

सकता है। राज्यों को यह भी सलाह दी

गई है कि जिन जिलों में 10 प्रतिशत से

ज्यादा की संक्रमण दर पिछले हफ्ते रही

है उन पर सख्त निगरानी रखने की

जवाब मांगा गया

जागरूकता फैलाने को कहा है जो लोग रैपिड ऐंटीजन -टेस्ट किट के माध्यम से होम-टेस्ट किट चुनते हैं।

इसके अलावा केंद्र ने राज्यों से पहली, दूसरी खुराक के साथ-साथ एहतियाती खुराक देने के लिए मुफ्त टीकाकरण अभियान की रफ्तार तेज करने के लिए कहा है।

एम्स के निदेशक रणदीप गुलेरिया ने राज्यों को सलाह दी है कि वह जीनोम सीक्वेन्सिंग का इंतजार न करें जबकि शुरुआती लक्षण के दिखने पर ही आवश्यक कदम उठाएं। इससे संक्रमण दर की निगरानी और अधिक सतर्कता से की जा सकेगी। अस्पताल में भर्ती मरीजों के अंदर कोरोना के बदलते स्वरूप की लाक्षणिक अभिव्यक्ति को लेकर भी चौकस रहने की जरूरत है। ऐसा देखा गया है कि प्रति दस लाख लोगों में आंध्र प्रदेश, अरुणाचल प्रदेश,

तीसरी खुराक फायदेमंद

सोहिनी दास

हाल में नेचर साइंटिफिक रिपोटर्स में प्रकाशित एक शोध पत्र के मुताबिक भारत बायोटेक के कोविड-19 टीके कोवैक्सीन की दूसरी खुराक लेने के छह महीने बाद तीसरी खुराक, कई सार्स-कोव-2 स्ट्रेन (अल्फा, बीटा, डेल्टा, डेल्टा प्लस और ओमीक्रोन और मेमरी बी-सेल प्रतिक्रिया) से बचाव के लिए उन्हें निष्प्रभावी करने वाली एंटीबॉडी प्रतिक्रिया बढ़ा देती है। भारत बायोटेक ने कहा कि इस अध्ययन ने टीके के कई फायदे बताए हैं, मसलन दीर्घावधि की प्रतिरोधक क्षमता, बुस्टर खुराक की सुरक्षा और स्पाइक प्रोटीन, एन प्रोटीन से बचाव की प्रतिरोधक क्षमता तैयार होने और अल्फा. बीटा. डेल्टा. डेल्टा प्लस और ओमीक्रोन स्वरूप से बचाव में ऐंटीबॉडी प्रतिक्रिया को निष्प्रभावी करना आदि।

कंपनी ने बुधवार को कहा, 'दो खुराक वाले टीकाकरण के छह महीने बाद तीसरी खुराक लगाने से एक ही वंशावली वाले वायरस के स्वरूप या मिश्रित स्वरूप वाले स्ट्रेन से बचाव के लिए उसे निष्प्रभावी करने की एंटीबॉडी प्रतिक्रिया नाटकीय रूप से बढ़ गई। इसके साथ ही मेमरी बी सेल प्रतिक्रिया भी बढ़ गई।'

कोवैक्सीन वाली टी-सेल या मेमरी सेल की प्रतिक्रिया छह महीने रहती है, इसके बाद ऐंटीबॉडी में कमी आती है। कंपनी ने कहा, 'टीका लगा चुके लोगों जिन्हें तीसरी खुराक मिली हो या न मिली हो लेकिन यह टी-सेल प्रतिक्रिया 12 महीने तक देखी जा सकती है। ऐंटीजेन की चपेट में दोबारा आने पर टी-सेल प्रतिक्रिया से बी-सेल मेमरी प्रतिक्रिया बनाने में मदद मिलती है।'

घूमने के लिए विदेश अब महंगा

अनीश फडणीस, बिंदिशा सारंग और संजय कुमार सिंह

डॉलर के मुकाबले रुपये में इस साल अब तक 7 प्रतिशत की गिरावट के कारण विदेश यात्रा करने की योजना बनाने वाले या अपने बच्चों को विदेशी कॉलेजों और विश्वविद्यालयों में पढ़ने के लिए भेजने वाले लोगों को काफी अधिक खर्च करना पड़ सकता है। महामारी से पहले या 2019 की तुलना में बढ़ती मांग, हवाई किराये में वृद्धि और ऑन-ग्राउंड शुल्क की वजह से विदेश जाने की लागत में 50 प्रतिशत तक का इजाफा हुआ है।

अगर छह महीने पहले को कीमतों की तुलना की जाए तब भी मांग में तेजी और कच्चे तेल की कीमतों में तेज उछाल के कारण एयर टर्बाइन ईंधन (एटीएफ) की कीमत भी बढ़ गई है। घूमने की लागत बढ़ने के साथ ही हवाई किराया भी महंगा हो गया है। उदाहरण के तौर पर मुंबई में एटीएफ की कीमतें जुलाई में तेजी से बढ़कर 140 रुपये प्रति लीटर हो गई हैं जो 2022 की शुरुआत में लगभग 75 रुपये और पिछले अप्रैल में 56 रुपये थीं। एटीएफ की लागत आमतौर पर विमानन कंपनी के कुल खर्च का 40-50 प्रतिशत होती है।

अंतरराष्ट्रीय पर्यटन पैकेज के मूल्य में हवाई किराया, होटल, ग्राउंड ट्रांसपोर्ट, दर्शनीय स्थलों की यात्रा, भोजन, वीजा और बीमा जैसी चीजें शामिल होती हैं। हवाई किराया और बीमा प्रीमियम रुपये में अंकित हैं। वीजा शल्क रुपये में लिए जाते हैं लेकिन कीमत विदेशी मुद्रा में तय होती है। वीजा शुल्क में उतार-चढ़ाव, विनिमय दर (आरओई) पर निर्भर करता है। वर्तमान में जबकि अधिकांश वीजा शल्क महामारी से पहले के स्तर के समान हैं ऐसे में विनिमय दरों के कारण रुपये की लागत बढ़ गई है। आमतौर पर, दौरे की लागत इस बात पर निर्भर करती है कि कोई व्यक्ति कितने दिन कहीं ठहरता है और इसमें हवाई कीमतों की हिस्सेदारी 30-50 प्रतिशत होती है।

एसओटीसी ट्रैवल के अध्यक्ष और कंट्री हेड (हॉलिडे) डैनियल डिसूजा के अनुसार, 'मांग में तेजी, आपूर्ति से जुड़ी बाधाओं, एटीएफ की लागत में वृद्धि के साथ ही हमने हवाई किराये में वृद्धि देखी है।' लेकिन हम उम्मीद करते हैं कि यह विमानन कंपनियों की क्षमता और विमान

विदेश यात्रा के लिए पहले से बुकिंग करना, अग्रिमतौर पर पैसे भेजने के साथ ही इस समस्या का दीर्घकालिक समाधान यह भी है कि वैश्विक म्युचुअल फंड और सोने में निवेश किया जाए

मार्गों के बढ़ने के साथ स्थिर होना चाहिए, हालांकि यह चरणबद्ध तरीके से होना चाहिए।'

ईजमाईट्रिप के प्रवक्ता ने कहा कि इँधन की कीमतों में वृद्धि और मांग में वृद्धि के कारण 2019 के बाद से हवाई किराये में लगभग 50 प्रतिशत की वृद्धि हुई है। होटल के किराये में भी 10-15 प्रतिशत तक की तेजी आई है। उन्होंने कहा, 'हमने बुकिंग पर कोई महत्त्वपूर्ण प्रभाव नहीं देखा है क्योंकि यात्रा का रुझान बना हुआ है।' थॉमस कुक इंडिया के अध्यक्ष और

कंट्री हेड (हॉलिडे) राजीव काले इस बात से सहमत हैं कि कीमतें बढ़ गई हैं, लेकिन उनका कहना है, 'कीमतों में वृद्धि के बावजूद, हमारे ग्राहक अपने पसंदीदा अंतरराष्ट्रीय गंतव्यों पर छुट्टियों में जाना चाहते हैं।इसमें और तेजी आने की उम्मीद है। हमसे किफायती, लक्जरी और प्रीमियम प्रॉपर्टी के लिए पूछताछ की जा रही है।'

शिक्षा महंगी होने से बढ़ी चिंता

रुपये में अवमूल्यन के कारण, विदेशों में पढ़ाई करने की लागत भी बढ़ेगी, यहां तक कि उन जगहों पर भी जहां कॉलेजों ने अपनी फीस नहीं बढाई है। शिक्षा सलाहकारों का कहना है कि पहले वे अभिभावकों को सलाह देते थे कि वे लागत में 2-3 प्रतिशत सालाना वृद्धि के लिए तैयार रहें। रुपये के अवमूल्यन के हाल के दौर के बाद, वे उन्हें 5-7 प्रतिशत वार्षिक वृद्धि के लिए तैयार रहने की सलाह दे रहे हैं।

केवल कुछ अभिभावकों ने ही अपने बच्चे को विदेश भेजने की अपनी योजना फिलहाल टाल दी है। बेंगलूरु में मौजूद स्पार्क करियर मेंटर्स के सह-संस्थापक और निदेशक नीरज खन्ना ने कहा, 'हम जिन परिवारों के साथ काम करते हैं, उनमें से लगभग 5 प्रतिशत ने अपने बच्चे को देश के ही कॉलेज में भेजने का फैसला किया है।'

बाकी 95 प्रतिशत में से जो वित्तीय रूप से मजबूत हैं, उन्हें किसी बात की चिंता नहीं है। लेकिन बाकी के बीच, चिंता स्पष्ट है। खन्ना का कहना है, 'ये आमतौर पर वेतनभोगी पेशेवर होते हैं जिन्होंने पहले से ही अपने सभी संसाधनों का निवेश किया होता है मसलन ऋण लिया होता है।' छात्र और माता-पिता कई तरह से कोशिशें कर रहे हैं। कई लोग जो अध्ययन के दौरान काम करने के लिए तैयार नहीं थे वे अब सप्ताहांत और छुट्टियों के दौरान ऑनलाइन काम करने की योजना बना रहे हैं। स्नातकोत्तर की पढाई करने वाले छात्र शिक्षण सहायकों की नौकरी की तलाश में हैं। कुछ लोग छुट्टियों के दौरान भारत नहीं लौटने की योजना बनाते हुए काम करना

चाहते हैं। पटना की एक छात्रा अवंतिका सिंह, जल्द ही विदेश जाने वाली हैं और वह कछ लागत-कटौती उपायों की योजना बना रही हैं। वह कहती हैं, 'मैं किसी के साथ मिलकर रहने की योजना बना रही हुं जो परिसर से बाहर हो और सस्ता हो। इसके अलावा मैं खद ही खाना पका लूंगी।'किस देश में पढ़ाई करनी है और कौन से कॉलेज में नामांकन करना है इसकी पुरी लागत का अनुमान लगाएं, न कि केवल ट्यशन फीस और आवास लागत का। अवांस फाइनैंशियल सर्विसेज के मुख्य रणनीति अधिकारी और मुख्य कारोबार अधिकारी (डिजिटल कारोबार) अमित यादव ने कहा, 'शिक्षा ऋण का चयन करने से पहले एक छात्र को कुल खर्च का अनुमान लगाने के लिए कुछ शोध कर उचित ऋण राशि के लिए आवेदन करना होता है।' हालांकि, रुपये का अवमुल्यन उन छात्रों के हित में होगा जिन्होंने अपने पाठ्यक्रमों को लगभग पुरा कर लिया है।
