Rationale and key rating drivers

The ratings assigned to the debt instruments of Mahindra and Mahindra Financial Services Limited (MMFSL) continue to factor in the majority ownership by Mahindra & Mahindra Limited (M&M; rated 'CARE AAA; Stable') and strategic importance of MMFSL for M&M. The ratings also take into account the expected support and operational linkages with M&M, sharing of a common brand name, and the resource raising ability being part of the group. The ratings also factor MMFSL's strong management, long track record of operations with strong position in financing of tractors and utility vehicles, comfortable capitalisation and liquidity profile, diversified asset mix and well-diversified funding profile and improved profitability.

The ratings also factor in the elevated asset quality parameters due to the seasonal nature of income of its customers in rural and semi-urban areas who are also susceptible to slowdown in the overall economy and dependent on regular monsoon.

The credit profile of the parent (M&M), strategic importance of MMFSL for M&M, asset quality, profitability and capitalisation profile are the key rating sensitivities.

Rating sensitivities: Factors likely to lead to rating actions

Negative factors – Factors that could, individually or collectively, lead to negative rating action/downgrade:

- Deterioration in asset quality parameters at the consolidated level, with gross non-performing asset (GNPA) exceeding 12% on a sustained basis.
- Increase in net NPA (NNPA) to tangible net worth (TNW) on a sustained basis.
- Moderation in the credit profile of the parent company.
- Significant reduction in the support/stake by M&M.

Analytical approach: CARE Ratings Limited (CARE Ratings) has analysed the consolidated credit profile of MMFSL along with factoring linkages with the parent, i.e., M&M Ltd.

Outlook: Stable

¹Complete definition of the ratings assigned are available at [HYPERLINK "http://www.careedge.in"](http://www.careedge.in) www.careedge.in and other CARE Ratings Ltd.'s publications

The stable outlook reflects expectation of improving operational and financial position, comfortable capitalisation levels along with benefit and support derived from the parent entity M&M Ltd.

Detailed description of the key rating drivers:

Key rating strengths

Strong parentage, shared brand and experienced Board of Directors and management team

MMFSL is a subsidiary of M&M, which has a leadership position in the tractor market in India. M&M has been supporting MMFSL through shared 'Mahindra' brand as well as representation on Board of Directors along with management support. Anish Shah, Managing Director & CEO of M&M, is also the Chairman of the company.

The operations of the company are headed by Ramesh Iyer (Vice-Chairman and Managing Director) and has been with MMFSL since inception in 1995. He is also a member of the Group Executive Board of M&M, the holding company, and on the Board of various Mahindra Group companies, which explores synergies between all the businesses and formulates strategic plans.

Strategically important subsidiary for the parent

MMFSL is crucial to M&M's sales of rural and semi-urban products like tractors and utility vehicles. MMFSL is a strategically important subsidiary for M&M being the largest financier of M&M assets. It constitute around 44% of assets under management (AUM) of MMFSL as on June 30, 2023. Strategic importance of MMFSL can also be seen by the way of capital infusion done by the parent from time to time. Most recently, MMFSL raised ₹3,089 crore during August 2020 through rights issues which were also subscribed by M&M taking its shareholding from 51.16% as on June 30, 2020 to 52.16% as on September 30, 2020.

As on June 30, 2023, M&M held 52.16% stake in MMFSL. Given the shared brand name and other linkages, CARE Ratings expects the parent to support the company as and when required.

Long track record of operations and diversified OEM base

MMFSL started business in 1991 and has a long track record of operations. It has the experience of operating in various business cycles. Although it started as a captive financier for M&M, from 2002-03, the company has started financing vehicles of other original equipment manufacturers (OEMs) like Maruti, Hyundai, Eicher, Nissan, Tata, etc. Being a subsidiary of M&M, it enjoys strong linkages and has relationship with the dealer network of M&M and remains a preferred financier for most of its dealer network. As a diversification and growth strategy, the company aims at increasing financing of other manufacturers as well.

Comfortable capitalisation along with diversified funding profile

As on March 31, 2023, the gearing* on a standalone level increased to 4.56x from 3.78x as on March 31, 2022 on account of growth in the loan book which led to increase in debt as on March 31, 2023. As on June 30, 2023, gearing stood at 4.71x.

MMFSL has a wide spectrum of funding profile both in terms of investor base and type of instruments. During the year ended March 31, 2023, the borrowings stood at ₹74,946 crore (Consolidated ₹81,429 crore) as against ₹55,818 crore as on March 31, 2022 of which NCD/sub-debt contributed 32%, term loan - 40%, securitisation/assignments - 9%, fixed deposits - 7%, Offshore borrowings - 4% and CP/ICD/NHB - 8%. The funding is also well-diversified across multiple lenders.

CARE Ratings notes that the company's borrowing profile has remained diversified and expects it to continue with its long track record and brand name. The company has the ability to tap different sources of funds at competitive rates.

Moderate profitability parameters

On a standalone basis as well, the profitability has improved to ₹1,984 crore in FY23 from ₹989 crore in FY22 largely on account of decline in impairment expenses from ₹2,368.30 crore in FY22 to ₹999.23 crore in FY23. There was a provision reversal of ₹1,212 crore during FY23; however, the write-offs were ₹2,213 crore leading to net impairment expense of ₹999.23 crore. In Q1FY24, the company reported a profit after tax (PAT) of ₹353 crore on a total income of ₹3,126 crore as against PAT of ₹223 crore on a total income of ₹2,498 crore in Q1FY23. On a consolidated level, the company reported PAT of ₹2,071 crore on a total income of ₹12,832 crore during FY23 as against the PAT of ₹1,150 crore on a total income of ₹11,401 crore during FY22. The company's profitability improved largely on account of the low cost of funds and lower credit cost. Provisions for FY23 decreased to ₹1,182.59 crore as compared with ₹2,690.38 crore in FY22. Provision for FY23 was down mainly due to recovery of loans amounting to ₹1,423 crore and write-off for FY23 was ₹2,606 crore. Furthermore, return on total assets (ROTA)* improved and stood at 2.19% in FY23 as against 1.36% in FY22. In Q1FY24, the company reported a PAT of ₹362 crore on a total income of ₹3,637 crore as against PAT of ₹240 crore on a total income of ₹2,914 crore in Q1FY23.

For FY23 and Q1 FY24, the cost of funds was high mainly due to the rise in interest rate across industry and the same was passed on to the customers leading to increase in yields.
