Commenting on the Results, Mr Brij Bhushan Agarwal, Vice Chairman & Managing Director said "SMEL is on a steady progression path in our journey to scale up the value-added products portfolio. It is encouraging to see higher contribution from the segment driving up the margins. The completion of acquisition of Mittal Corp. facilitates our foray into the stainless steel business and offers us multiple benefits.

We are focused on our delivering on the recent capex plan announced recently, which will enable further backward integration and position the company to offer a plethora of downstream products. The holistic intent is to move towards higher margin products and build market leading positions in all 4 areas of the metals space: Steel, Stainless Steel, Ferro Alloys and Aluminium Foil Products, thus generating long term value for our stakeholders. "
