9M/ Q3 FY2024

# MANAGEMENT COMMENTARY

*“We are pleased to announce a robust performance for Q3FY2024 with a year-on-year volume growth of 20% and revenue growth of 17%. The Value-added products segment witnessed a growth of 25% Y-o-Y driven by good demand of Intermediate Bulk Containers (IBCs) and Composite Cylinders while the established products grew by 15% backed by improved performance of Polyethylene (PE) pipe business. Earnings Before Interest, Tax, Depreciation and Amortisation (EBITDA) and Profit after Tax (PAT) also witnessed a significant growth of 26% and 50% Y-o-Y respectively, driven by increased share of value-added products. With good order book position for CNG cascades and PE pipes coupled with stable demand for core Industrial packaging business including IBCs, we are confident on achieving our target set for the full year.”*
