Pioneering Digital Solutions for Complex Manufacturing: LTIMindtree's Strategic Partnership with SAP

Combining the collective power of Business Technology Platform, Business AI with SAP RISE and SAP GROW to innovate for engineer-to-order and project-centric manufacturing businesses

Warren, New Jersey, US, Mumbai, India – June 04, 2024: [LTIMindtree](#) [NSE: LTIM, BSE: 540005], a global technology consulting and digital solutions company, has expanded its partnership with SAP, a leading provider of enterprise application software, to deliver innovations for complex manufacturing industries. The collaboration aims to tackle the unique challenges of this sector, offering streamlined solutions that enhance efficiency, reduce costs, and ensure seamless upgrades.

Today, manufacturers are building increasingly complex products, often tailored to their customers' unique functional requirements, while competing in an increasingly fast-paced economic environment. The alliance focuses on utilizing SAP's advanced technologies, including the Business Technology Platform and Business AI, integrated with SAP GROW. These tools are designed to provide a foundation that simplifies upgrades, like moving to SAP S/4HANA, while also offering pre-built extensions for complex manufacturing processes.

Vineet Moroney, SVP and Global Head of Enterprise Applications, LTIMindtree emphasized the strategic nature of the partnership, "By focusing on simplifying core and transforming with Business Technology Platform (BTP) extensions and AI solutions, we are setting a new standard in the industry. Our extensive experience with complex manufacturing processes positions us uniquely to create purpose-built impactful solutions for our clients."

Reflecting on the collaboration, **Jan Gilg from SAP** stated, "This partnership illustrates the synergy between SAP's technological prowess and LTIMindtree's deep industry knowledge. The advantage of LTIMindtree's legacy, rooted in the Larsen & Toubro Group—one of the world's distinguished engineering, manufacturing, and construction firms—accelerates these capabilities, eliminating the need to build solutions from scratch. Together, we are crafting solutions that streamline the core experience for customers on SAP Cloud ERP. We strive to upgrade not just innovatively but deeply aligned with the real-world needs of the manufacturing sector."

About LTIMindtree

LTIMindtree is a global technology consulting and digital solutions company that enables enterprises across industries to reimagine business models, accelerate innovation, and maximize growth by harnessing digital technologies. As a digital transformation partner to more than 700 clients, LTIMindtree brings extensive domain and technology expertise to help drive superior competitive differentiation, customer experiences, and business outcomes in a converging world. Powered by 81,000+ talented and entrepreneurial professionals across more than 30 countries, LTIMindtree — a Larsen & Toubro Group company — combines the industry-acclaimed strengths of erstwhile Larsen and Toubro Infotech and Mindtree in solving the most complex business challenges and delivering transformation at scale.
