## **EKI Energy Services Registers India's First-Ever Floating Solar Project in the Voluntary Carbon Market**

**Indore, October 29, 2024** – EKI Energy Services Ltd., a globally leading carbon credit developer and supplier, is proud to share the registration of the first-ever floating solar project under the Voluntary Carbon Market (VCM). This ground breaking large-scale project, developed by Greenam Energy for captive usage, is also the first of its kind to be registered under the Verified Carbon Standard (VCS) globally. Located on water reservoirs in Tamil Nadu, the 24.7 MW floating solar PV plant will generate clean energy while mitigating 38,376 tonnes of CO<sub>2</sub> emissions annually.

This avant-garde of a project exemplifies India's progress in renewable energy innovation and supports its commitment to reducing carbon emissions. The registration of this floating solar project under the VCM represents a momentous step in promoting sustainable energy solutions while offering new opportunities for the trading of carbon credits.

**Mr. Manish Dabkara, Chairman and Managing Director of EKI Energy Services**, stated, "Sustainable future with innovative solutions is not a possibility but a responsibility. As we stand at the forefront of innovation in sustainable energy, redefining the possibilities of solar energy, by harnessing the power of the sun on water; we're opening a new chapter in renewable energy—one that inspires both progress and responsibility. This initiative reflects our belief in the transformative potential of technology and the urgent need for climate action, encouraging businesses and communities to rethink how we generate and consume energy."

By harnessing solar energy in a previously untapped domain, EKI is paving the way for a more sustainable future—one that redefines our relationship with the environment and inspires action across industries.

Verra: Verra is a non-profit organization dedicated to creating and managing standards for sustainable development, climate action, and ethical business practices. As the global leader in setting standards for these initiatives, Verra aims to promote more ambitious climate and sustainability objectives while facilitating a faster transition to a sustainable future.

### **About EKI Energy Services Ltd**

EKI Energy Services Ltd. is a leading Carbon Credit Developer & Supplier across the globe. It is the first ever company to list a Plastic Project from India with Verra - a global accreditation standard located in Washington, USA. Founded in 2008, the Bombay Stock Exchange (BSE) listed company has been passionately working towards rehabilitating the planet to a future of net-zero carbon emissions. EKI offers sustainable solutions for climate change and carbon offsets with global standards like CDM, VCS, Gold Standard, GCC, IREC, TIGR and others. With an aim to contribute to the development of a climate resilient global economy, the company offers strategic solutions to businesses and organizations globally to achieve their climate ambition. EKI offerings span across Carbon Credit/Asset Management, Carbon Credit

Generation, Carbon Credit Supply, Carbon Credit Offsetting, Carbon Footprint Management, Sustainability Audits, as well as Carbon Neutrality and Climate Positive initiatives. The company is present in 16+ countries and has 3500+ customers across 40+ countries. As on date, EKI has supplied over 200+ million offsets. Visit our website to know more: <https://enkingint.org/>
