However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

Observations	Management Remark
The Company has filed the Form AOC-XBRL for the F.Y 2022-23 by paying additional fees of Rs. 700/-, under section 137 of Companies Act, 2013 and Rule 12(1) of Companies (Accounts) Rules, 2014.	Due to some ongoing technical glitch with the XBRL filing software the Company couldn't generate the XML file on time which in turn caused delay in filing of the Form AOC-XBRL.
The Company passed an Ordinary Resolution instead of Special Resolution for appointment of Mr. Nikhil Rungta as an Independent Director of the Company as prescribed under Regulation 25 (2A) of SEBI (LODR), regulations 2015.	Please note that, Mr. Nikhil Rungta, was duly appointed as an Independent Director of the Company, vide an ordinary resolution passed in the Annual General Meeting held on 30 th September, 2023. While passing the resolution our then Company Secretary did keep in mind the

	<p>prerequisite stated under section 152 of Companies act, 2013 which demands passing of an ordinary resolution in the general meeting for appointment of an Independent Director, however we happen to inadvertently overlook the requirement of passing a Special Resolution as prescribed under Regulation 25 (2A) of SEBI (LODR), regulations 2015 which was inserted w.e.f. 1st January, 2022. Our Company “Nouveau Global Ventures Limited” is a well compliant company and is committed to maintaining the highest standards of corporate governance. We understand that we should have been more diligent in meeting the regulatory requirements and consequently we are unquestionably apologetic for the bona fide mistake made at the end of the Company, however we would like to bring to you attention that despite the resolution with respect to Mr. Nikhil’s appointment as an Independent Director of the Company was put up as an Ordinary Resolution, but it was still passed with a requisite majority of 99.99% votes in its favor. In view of the above clarification, we henceforth assure that we will stay informed with latest updates in laws & regulations and would beforehand consider every aspect of regulations and provisions that shall be made applicable to the Company.</p>

In addition to the above and pursuant to SEBI Circular dated February 8, 2019, a Report on annual secretarial compliances by M/s. Ritika Agrawal & Associates, Practicing Company Secretaries for the year ended 31st March, 2024 is submitted to stock exchange.

ANNEXURE I to the Director's Report
MANAGEMENT'S DISCUSSION AND ANALYSIS REPORT

This report covers the operations and financial performance of the Company for the year ended 31st March, 2024 and forms part of the Directors' Report.

➤ **GLOBAL ECONOMY**

The baseline forecast is for the world economy to continue growing at 3.2 percent during 2024 and 2025, at the same pace as in 2023. A slight acceleration for advanced economies—where growth is expected to rise from 1.6 percent in 2023 to 1.7 percent in 2024 and 1.8 percent in 2025—will be offset by a modest slowdown in emerging market and developing economies from 4.3 percent in 2023 to 4.2 percent in both 2024 and 2025. The forecast for global growth five years from now—at 3.1 percent—is at its lowest in decades. Global inflation is forecast to decline steadily, from 6.8 percent in 2023 to 5.9 percent in 2024 and 4.5 percent in 2025, with advanced economies returning to their inflation targets sooner than emerging market and developing economies. Core inflation is generally projected to decline more gradually.

Despite an improvement in near-term prospects, the global outlook remains subdued by historical standards. In 2024-25, growth is set to underperform its 2010s average in nearly 60 percent of economies, comprising over 80 percent of the global population. Downside risks predominate, including geopolitical tensions, trade fragmentation, higher-for-longer interest rates, and climate-related disasters. Global cooperation is needed to safeguard trade, support green and digital transitions, deliver debt relief, and improve food security.

➤ **INDIAN ECONOMY OVERVIEW AND INDUSTRY STRUCTURE AND DEVELOPMENTS**

In terms of scale and size, human aspirations and financial technology enablement, India will be the flavour of 2024 onwards. As the world's fifth largest stock exchange after the US, China, the EU and Japan, India's short-term return in 2023 is 16.8 percent, below the US's Nasdaq (43.5 percent) and Japan (29.2 percent), but higher than the US's Dow (12.6 percent) and China's (6.4 percent). But since equities need a longer-term perspective, India's five-year return is 83.1 percent, second only to Nasdaq. Add the potential of the world's fastest-growing economy over the next two years, a perceptible shift in the Union government's invitation to global companies and investors, and a deeper and stronger geopolitical interface with the US, and India becomes a can't-ignore destination.

The high 22.5 price-to-earnings multiples for the Indian market over other markets such as the US's 20.5, Taiwan's 15.5, France's 14.5, Australia's 14.2, Japan's 13.7 or Germany's 11.9 captures this growth within its higher price. But that doesn't mean it's going to be smooth sailing for global investors. Unlike Indian investors, whose universe of returns is in rupees, international capital has to factor in currency fluctuations in its geographical calculus. A strengthening dollar saw the Indian rupee fall by 3.3 percent over the past 12 months, in tune with the falls in the Euro or the Australian dollar. Over the past five years, the Indian rupee has fallen by 15 percent.

Financial & Consultancy

The divergent growth path of India vs. the rest of Emerging Markets or the rest of the world's large economy, is a well-known phenomenon, by now. The Indian equity markets have delivered good returns for investors in recent years. Capital markets signed off FY24 with a stellar 29%/38% returns in Nifty/MSCI India indices. India's market capitalisation has reached US\$4.4tr, making it the fifth largest in the world. Over the last four years, the MSCI India Index has delivered compounded returns of 26%, albeit from the Covid-inflicted market lows of March 2020. While there is clearly some valuation multiple expansion, one has to appreciate that the Indian market earnings (Nifty) has also delivered fairly solid compounding of ~22% over the same time period, albeit from a depressed base. Although valuations of Indian equities are relatively high, we opine that that alone will not derail a bull market, as long as they are well anchored by stronger growth prospects in a world of lacklustre growth. After all, equity investors are growth seekers, and they tend to gravitate towards destinations and stocks that offer premium growth.

Multimedia

The Indian Media & Entertainment (M&E) sector is set for substantial growth, with a projected 10.2%

increase, reaching Rs. 2.55 trillion (US\$ 30.8 billion) by 2024 and a 10% CAGR, hitting Rs. 3.08 trillion (US\$ 37.2 billion) by 2026. Advertising revenue in India is projected to reach Rs. 330 billion (US\$ 3.98 billion) by 2024. The share of traditional media (television, print, filmed entertainment, OOH, music, radio) stood at 57% of the media and entertainment sector revenues in 2023. According to a report by ICRA, the revenue for the print media industry is expected to grow by 8-10% in FY24.

The country's entertainment and media industry is expected to see a growth of 9.7% annually in revenues to reach US\$ 73.6 billion by 2027. In the year 2023, the revenue from subscriptions for over-the-top video platforms across India amounted to approximately US\$ 0.88 billion. This was expected to peak at over US\$ 1.2 billion by 2026. According to Media Partners Asia's Asia Pacific Video & Broadband Industry 2024 report, India's video market, encompassing both TV and digital, is projected to grow from \$13 billion in 2023 to \$17 billion by 2028.

The Indian media and entertainment sector posted a robust 19.9% growth in 2022 and crossed the Rs. 2 trillion (US\$ 24 billion) mark in annual revenue for the first time led by a sharp jump in the digital advertising mop-up. In 2024, the projected revenue in the Digital Media market in India is expected to reach US\$ 10.07 billion. It is expected to contribute 38% to the overall advertising industry in India, on par with television. The OTT segment is likely to grow at a remarkable CAGR of 14.1% to reach Rs. 21,032 crore (US\$ 2.55 billion) in 2026. Subscription services, which accounted for 90.5% of revenue in 2021, are projected to account for 95% of revenue by 2026.

The AVGC sector is estimated to grow at ~9% to reach ~Rs. 3 lakh crore (US\$ 43.93 billion) by 2024, stated Union Minister of Commerce & Industry, Consumer Affairs & Food & Public Distribution and Textiles, Mr. Piyush Goyal. 2023 recorded US\$ 575 million in PE/VC investments in the media and entertainment sector, an 84% decline y-o-y. In Q3 of CY23, eight deals were recorded in the media and entertainment sector of India at US\$ 269 million. FDI inflows in the information and broadcasting sector (including print media) stood at US\$ 10.99 billion between April 2000-March 2024.

Indian Over-The-Top (OTT) platforms have demonstrated significant growth in the global market, witnessing a 194% increase in revenue from international viewers over the last two years. The Indian OTT audience universe currently stands at 481.1 million people, of these, 138.2 million are active paid OTT subscriptions in India. India's Direct-To-Home (DTH) Services market is expected to expand to US\$ 7.59 billion in 2029 from US\$ 6.48 billion in 2023, growing at a CAGR of 2.8%. India's SVOD subscriptions reached 130.2 million in 2022 compared to 110.5 million in 2021. As per GroupM's TYN report 2023, India was ranked 8th by global ad spend, and will continue as the fastest growing market among the top 10 ad markets in 2023. Advertising revenue in India is projected to reach Rs. 330 billion (US\$ 3.98 billion) by 2024.

Key drivers of merchandise export growth in FY24 were electronic goods, drugs & pharmaceuticals, engineering goods, iron ore, cotton yarn, fabrics, and made-ups, handloom products, ceramic products, and glassware.

According to data from the economic think tank GTRI, China has emerged as India's largest trading

partner, surpassing the US, with two-way commerce totaling US\$118.4 billion in FY 2023-24. In the same period, bilateral trade between India and the US amounted to US\$118.3 billion. Previously, the US was India's top trading partner in 2021-22 and 2022-23.

- Account takeover is the biggest threat in Media and Entertainment Industry. Because media organizations invest millions into building followers, engaging and turning social reputation in dollars, attackers value these accounts too.
- The cyber criminal's bread and butter, spear phishing, performs incredibly well on social media.
- The major weaknesses of Indian consulting organizations, which has hindered the export growth of consulting sector in the country, are low quality assurance, low local presence overseas, low equity base, lack of market intelligence, and low level of Research & Development.

Further, the Company is confident that in spite of the challenges and competition in the industry it will perform better in view of the strong fundamentals of the Company and hope to improve its turnover. The Company is expecting to enhance its presence globally to rationalize its significance by entering into the new alliance.

➤ **RISK & CONCERNS**

Technology, Media and Telecommunications Industry executives were asked to identify the biggest threats they anticipate over the next 12 months and a decade ahead. Many of the risks cited correlate in many ways and can be categorised under two broad themes: foundational risks, which are essentially challenges that leaders must address to keep their business thriving, and risks that are essential for continued growth and expansion. Cyber threats have reemerged as the top risk concern for the Technology, Media and Telecommunications industry group, escalated by the continued expansion of attack vectors and geopolitical tensions. Labor constraints and economic conditions, including inflationary pressures, follow closely at No. 2 and No. 3 respectively, according to Protiviti's 2024 Top Risks Survey.

Since the pandemic, many companies have experienced unusually high attrition rates, although large multilocal organisations that have been able to accommodate employees seeking to relocate or transfer to different roles have been less impacted. High-level departures have also had devastating impacts on organisations. Replacing a C-suite executive or senior employee can be costly, although companies with deeper pockets, compared to startups and fledgling organisations, are able to absorb the impact better.

In 2024, the financial sector faces a range of significant risks and concerns driven by evolving economic, regulatory, and technological landscapes. Cybersecurity threats are a major concern, with financial institutions experiencing a 30% increase in cyberattacks year-over-year, as the sector remains a prime target for sophisticated ransomware and phishing schemes. Economic uncertainty adds to the challenge, with global inflation rates hovering around 6% and central banks grappling with interest rate fluctuations that could affect profitability. Regulatory compliance is becoming increasingly complex, with new AML and ESG regulations driving up compliance costs by an estimated 15% for many institutions. Technological disruptions are also notable, with fintech companies capturing 20% of the market share from traditional banks, pushing them to innovate rapidly or risk obsolescence. Geopolitical risks, including ongoing trade conflicts and currency volatility, further contribute to market instability. Additionally, financial institutions must manage the implications of climate change, with an expected 20% rise in climate-related disclosures and risk assessments. Operational risks persist, with 40% of institutions reporting significant system outages in the past year, and third-party risk management remains a critical focus due to heightened vulnerabilities. Consumer protection issues, such as a rise in financial fraud affecting 10% of customers, challenge institutions to maintain trust while adapting to evolving expectations. Lastly, the sector faces a skills gap, particularly in cybersecurity and data analytics, with a reported shortage of 50,000 skilled professionals, highlighting the urgent need for investment in talent development.

Information Other than the Financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's report including Annexure to Board's report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, on the other information obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard on the even date.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act read with rule 7 of the Companies (Accounts) Rules, 2014 (as amended). This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Standard on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to standalone financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial statement of the Company to express an opinion on the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the Standalone Financial Statements and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Annexure B to the Independent Auditors Report of even date to the members of Nouveau Global Ventures Limited, on the financial statements for the year ended 31st March, 2024**Independent Auditors Report on the Internal Financial Controls with reference to the financial statements under clause (i) of subsection 3 of section 143 of the Companies Act, 2013 (the Act).**

In conjunction with our audit of the financial statements of **Nouveau Global Ventures Limited** (the Company), as at and for the year ended 31st March, 2024, we have audited the internal financial controls with reference to the financial statements of the Company as at that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal financial control with reference to financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls with reference to Financial Reporting

A Company's internal financial control with reference to financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Note 1 : Basis of accounting and preparation of Financial Statements

a) Company Overview

Nouveau Global Ventures Limited (“the Company”) is engaged primarily in the business of trading in film & serial rights, Swimming pool related items, dealing in Shares & Securities and Management Consultancy and related other activities. The Company is a Public Limited Company incorporated and domiciled in India having its registered office at 401/A, Pearl Arcade, Opp. P. K. Jewellers, Dawood Baugh Lane, Off. J. P. Road, Andheri (West), Mumbai - 400 058. The Company is listed on BSE Limited (BSE).

b) Basis of Accounting

The Financial Statements of the Company have been prepared in accordance with the Indian Accounting Standards (Ind AS) to comply with the Section 133 of the Companies Act, 2013 (“the 2013 Act”), and the relevant provisions, rules and amendments, as applicable. The Financial Statements have been prepared on accrual basis under the historical cost convention except certain assets measured at fair value.

c) Functional and Presentation Currency

These financial statements are presented in Indian rupees, which is the functional currency of the Company. All financial information presented in Indian rupees has been rounded to the nearest rupees as per the requirement of Schedule III, unless otherwise stated.

d) Use of Estimates and Judgements

The preparation of financial statements in conformity with Ind AS requires management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported revenue and expenses during the year. The Management believes that the estimates used in preparation of the Financial Statements are prudent and reasonable. Significant estimates used by the management in the preparation of these financial statements include project revenue, project cost, saleable area, economic useful lives of fixed assets, accrual of allowance for bad and doubtful receivables, loans and advances and current and deferred taxes. Differences between the actual results and the estimates are recognised in the periods in which the results are known / materialise.

e) Property, Plant and Equipment & Depreciation

i. Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses, if any. The cost of an item of property, plant and equipment comprises:

- its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates.
- any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Property, plant and equipment are derecognised from financial statement, either on disposal or when no economic benefits are expected from its use or disposal. The gain or loss arising from disposal of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of Property, plant and equipment recognised in the statement of profit and loss account in the year of occurrence.

ii. Subsequent expenditure

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting year in which they are incurred.

iii. Depreciation

Depreciation is being provided on "Straight Line Method" method on the basis of systematic allocation of the depreciable amount of the assets over its useful life as stated in Schedule II of the Companies Act, 2013.

Depreciation on assets sold, discarded or scrapped, is provided up to the date on which the said asset is sold, discarded or scrapped.

In respect of an asset for which impairment loss is recognized, depreciation is provided on the revised carrying amount of the assets.

f) Intangible Assets –Recognition and measurement

Items of Intangible Assets are measured at cost less accumulated amortisation and impairment losses, if any. The cost of intangible assets comprises:

- its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates; and

- any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

i. Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

ii. Amortisation

Intangible assets are amortised over their estimated useful life on Straight Line Method.

g) Impairment of Assets

Intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets that suffered an

impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

h) Investments

Long term investments are stated at cost. However, provision for diminution is made to recognise any decline, other than temporary, in the value of long term investments.

Current investments are stated at the fair value.

i) Measurement at fair values

The Company measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability or
- In the absence of a principal market, in the most advantageous market for the asset or liability

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For the purpose of fair value disclosures, the Company has determined classes of assets & liabilities on the basis of the nature, characteristics and the risks of the asset or liability and the level of the fair value hierarchy as explained above.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

j) Financial Instrument

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets include Trade receivable, loan to body corporate, loan to employees, security deposits, Investments and other eligible current and non-current assets.

Financial liabilities include Loans, trade payable and eligible current and non-current liabilities.

Offsetting financial instruments - Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the group or the counterparty.

k) Inventories

- i. The cost of inventories comprises all cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Inventories are valued at cost or net realizable value, whichever is lower on the basis of first in first out method or specific identification, as the case may be.
- ii. Finished stock are valued at lower of cost or net realizable value on the basis of actual identified units.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

l) Revenue Recognition

In respect of Sales

Sales are recognised when goods are supplied and significant risk and reward of the ownership in the goods are transferred to the buyer as per the terms of contract and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of the goods. Sales are inclusive of duty and net of returns, trade discounts, rebates and GST.

In respect of interest income

Interest income is accounted on an accrual basis at interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

In respect of Dividend income

Dividend income including share of profit in LLP is recognized when the right to receive the payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

m) Taxation

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Company operate and generate taxable income. Management periodically evaluates positions taken in tax returns with

respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised, or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

n) Employee Benefits

i. Short term employee benefits

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

ii. Post-employment benefits

Long-term employee benefits The Company's net obligation in respect of long term employee benefit is the amount of future benefit that employees have earned in return of their service in the current and prior periods. The benefit is discounted to determine its present value. Re-measurement are recognized in Statement of Profit & Loss in the period in which they arise.

o) Cash and Cash equivalent

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

p) Earnings per share

Basic earnings per share is computed by dividing the profit / (loss) after tax by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed by dividing the profit / (loss) after tax as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered

for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on conversion of all dilutive potential equity shares.

q) Provisions and Contingent liabilities

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are discounted to their present value and are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates.

Contingent liabilities are disclosed in the Notes. Contingent liabilities are disclosed for

- i. possible obligations which will be confirmed only by future events not wholly within the control of the Company or
- ii. present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are not recognised in the Financial Statements.

r) Segment Reporting

Operating segment are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM). The Managing Director of the Company is responsible for allocating resources and assessing performance of the operating segments and accordingly is identified as the CODM. Refer note 39 for segment information presented.

s) Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains/(losses).

Where the terms of a financial liability are renegotiated and the entity issues equity instruments to a creditor to extinguish all or part of the liability (debt for equity swap), a gain or loss is recognised in profit or loss, which is measured as the difference between the carrying amount of the financial liability and the fair value of the equity instruments issued.

Borrowings are classified as current liabilities unless the group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the

approval of the financial statements for issue, not to demand payment as a consequence of the breach.

t) Trade and Other Payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 15 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

u) Trade Receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment / doubtful debts.

v) Government Grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received, and the Company will comply with all attached conditions.

Government grants relating to income are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets and presented within other income.

w) Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

x) Business Combinations

Business combinations involving entities or businesses under common control shall be accounted for using the pooling of interest's method.

The consideration for the business combination may consist of securities, cash or other assets. Securities shall be recorded at nominal value. In determining the value of the consideration, assets other than cash shall be considered at their fair values.

The balance of the retained earnings appearing in the financial statements of the transferor is aggregated with the corresponding balance appearing in the financial statements of the transferee. Alternatively, it is transferred to General Reserve, if any.

The identity of the reserves shall be preserved and shall appear in the financial statements of the transferee in the same form in which they appeared in the financial statements of the transferor.
