Sub: Disclosure under Regulation 30 of the SEBI (LODR) Regulations, 2015 & Clarification on yesterday's Web-posting of an article published on the social media about the Company's IT infrastructure was Targeted by Ransomware attack

Dear Madam/ Sir,

Pursuant to Regulation 30 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, this is to inform you that yesterday there was a web posting of an article which has also been published on the social media claiming that they have breached the database of Federal Bank, FedNet (an Indian bank) and their associated companies. They are also claiming that they have targeted the Company's IT infrastructure by Ransomware attack.

In this regard, we wish to clarify that upon thorough investigation by our IT team, it has been confirmed that these claims are unfounded. Our team cross checked the details with internal records and established that the alleged breach pertains to an old, already known, and non-compromising data set from 2022. This appears to be a resurfaced and reshared post with no relevance to current operations.

Furthermore, we affirm that there has been no breach of our core systems or any ransomware attack on our infrastructure. The integrity of our systems remains intact, and we continue to provide uninterrupted service to our customers. We also unequivocally confirm that there is no connection between our Promoter (i.e., Federal Bank) and the alleged breach. We trust this clarification will dispel any concerns raised by the erroneous reports circulating online. This disclosure is made in the interest of transparency and for the information of all stakeholders.

The above is submitted for your kind information and appropriate dissemination.

Yours faithfully,

Rajaraman Sundaresan
Company Secretary & Compliance Officer
