## Airtel Announces Revised Mobile Tariffs

**New Delhi, June 28, 2024:** Bharti Airtel ('Airtel') has maintained that the mobile Average Revenue per User (ARPU) needs to be upwards of INR 300, to enable a financially healthy business model for Telcos in India. We believe that this level of ARPU will enable the substantial investments required in network technology and spectrum and offer a modest return on capital.

In this light, we welcome the announcements in the industry to repair tariffs. Airtel will also revise its mobile tariffs as indicated below, from July 3<sup>rd</sup>, 2024. We have ensured that there is a very modest price increase (less than 70p per day) on the entry level plans, in order to eliminate any burden on budget challenged consumers.
