Dear Sir/Madam,

Sub: Submission of information pursuant to Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015

We wish to inform that during a workover in Block AAP-ON-94/1 (Dirok), an untested sand interval - Sand-9, which was tested today in Well Dirok-1, successfully flowed gas.

During the test, the initial flow rate with a half an inch choke flowed over 6 million standard cubic feet of gas per day. Further, production testing is in progress. This successful test of Sand-9 would add an additional volume to the proven reserves category of the Dirok field.

Re-estimation of the reserves in Sand-9 would be carried out after due completion of the production test. HOEC holds 26.882% participating interest and is the Operator of the Block, with Oil India Limited and Indian Oil Corporation Ltd. as JV partners to the Production Sharing Contract executed with the Government of India.

The above information is also available on the website of the Company - <a href="www.hoec.com">www.hoec.com</a>. We request you to kindly take our above submission on record.

Thanking you, Yours Sincerely,

For Hindustan Oil Exploration Company Limited

G. Josephin Daisy Company Secretary
