Independent Auditor's Review Report on the Quarterly and Year to Date Unaudited Standalone Financial Results of Infibeam Avenues Limited pursuant to the Regulation 33 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended

Review Report to
The Board of Directors of
Infibeam Avenues Limited

1. We have reviewed the accompanying Statement of Unaudited Standalone Financial Results for the Quarter and Nine Months ended December 31, 2024 ('the Statement') of Infibeam Avenues Limited ('the Company') attached herewith, being submitted by the Company pursuant to the requirements of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended ('the Listing Regulations').
2. This Statement, which is the responsibility of the Company's management and approved by the Company's Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34 "Interim Financial Reporting" ('Ind AS 34') prescribed under Section 133 of the Companies Act, 2013 as amended, read with relevant rules issued thereunder and other accounting principles generally accepted in India and in compliance with regulation 33 of the Listing Regulations. Our responsibility is to express a conclusion on the Statement based on our review.
3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the Statement is free of material misstatement. A review of interim financial statement consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
4. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying Statement, prepared in accordance with the recognition and measurement principles laid down in the aforesaid Indian Accounting Standards ('Ind AS') specified under Section 133 of the Companies Act, 2013 as amended, read with relevant rules issued thereunder and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in terms of the Listing Regulations, including the manner in which it is to be disclosed, or that it contains any material misstatement.

1. Business segments:

Based on the "management approach" as defined in Ind AS 108 - Operating Segments and evaluation by the Chief Operating Decision Maker, primary reportable segments of the Company consists of: (1) Payment Business and (2) E-commerce Platform Business

2. Segment assets and liabilities:

Segment information is prepared in conformity with the accounting policies adopted for preparing and presenting the standalone financial statements of the Company as a whole. Segment assets include all operating assets used by a segment and principally consists of operating cash, trade receivables and fixed assets, net of allowances and provisions which are reported as direct offsets in the balance sheet. While most such assets can be directly attributed to individual segments, the carrying amount of certain assets used jointly by two segments is allocated to the segments on a reasonable basis. Segment liabilities include all operating liabilities and consist principally of trade payables and accrued liabilities. Segment assets and liabilities do not include those relating to income taxes.

3. Segment expense:

Segment expense comprises the expense resulting from the operating activities of a segment that is directly attributable to the segment or that can be allocated on a reasonable basis to the segment and expense relating to transactions with other segments. Certain expenses are not specifically allocable to individual segments as the underlying services are used interchangeably. The Company therefore believes that it is not practicable to provide segment disclosures relating to such expenses, and accordingly such expenses are separately disclosed as 'unallocated' and directly charged against total income.

4. Certain assets and liabilities which are common to both the segments for which basis of allocation cannot be consistently identified are included under un-allocable assets and liabilities.

Infibeam Avenues Reports Strong Q3 Growth and Growth factors.

Infibeam Avenues’ strong growth in the payments business has been driven by a substantial surge in digital payment transactions. This growth is primarily attributed to the increased adoption of online utility payments and the rising

usage of digital payments across multiple retail stores through POS systems. Additionally, the company's AI-powered platform technologies have played a critical role in enhancing transaction volumes. The festive season further accelerated digital payment activity in Q3, contributing significantly to the company's growth trajectory.

A key driver of Infibeam Avenues' expansion has been its strategic partnerships with banks, fintech firms, and regulatory authorities, which have collectively contributed to higher transaction volumes. Notably, its utility payment brand, BillAvenue, has formed a strategic collaboration with India's government-backed payment platform, BHIM (Bharat Interface for Money), further boosting transaction processing capabilities. Additionally, alliances with fintech innovators such as ShopSe and Loylty Rewardz, among others, have added to transaction growth, reinforcing BillAvenue's role in India's expanding digital payments ecosystem.

The company's recognition as a certified Technology Service Provider (TSP) by NPCI Bharat BillPay Ltd. (NBBL) has further strengthened its position. This certification has allowed BillAvenue to integrate more banks, Small Finance Banks (SFBs), and fintech players into the Bharat Bill Payment System (now rebranded as Bharat Connect). The TSP certification has also streamlined the go-to-market process for Operating Unit (OU) license holders while reducing operational costs, thereby enhancing BillAvenue's efficiency and scalability.

In Q3 FY25, Infibeam Avenues demonstrated resilience, innovation, and market leadership by expanding its merchant network across diverse industries and geographies. The company successfully onboarded approximately 1,80,978 new merchants, solidifying its position as a key enabler of digital commerce in India.

India's digital payments sector continues to experience remarkable growth, driven by widespread adoption and technological advancements. Over the past 12 years, digital payment transactions in India have surged approximately 100-fold, increasing from 162 crore transactions in the financial year 2012-13 to over 16,416 crore transactions in 2023-24. By 2025, the total transaction value of the industry is projected to reach US\$1.89 trillion, with an annual growth rate of over 16% from 2025 to 2029, leading to an estimated total transaction value of US\$3.46 trillion by 2029.

This favorable macroeconomic environment positions Infibeam Avenues strategically to capitalize on the rapid growth of digital payments. With its advanced technology, strategic partnerships, and expanding merchant network, the company is well-equipped to leverage the evolving digital payments landscape with innovation.

Other Growth Pointers:
