5G SPECTRUM PAYMENT

DoT Receives Over ₹1k cr from Big 3 Telcos in 1st Instalment

Kiran Hathoo

New Delhi: The Department of Telecommunications (DoT) has received more than ₹1,000 crore from the three private telecom operators—Bharti Airtel, Vodafone Idea (VI) and Reliance Jio—who paid their first instalment for airwaves bought in the recent 5G spectrum auction.

According to government officials, Airtel paid about ₹450 crore, followed by VI and Reliance Jio at ₹312 crore and ₹232 crore respectively. Amounts deposited by Airtel and Vi were slightly lower than their first instalment as the telecom operator paid some amount for using spectrum on an interim basis, the officials said.

Airtel had paid around ₹35 crore earlier, while Vi paid about ₹10 crore earlier, which was adjusted to the first instalment. The three telcos didn't respond to ET's requests for comment. When the DoT issued documents to telcos on July 31, it gave two payment options—telcos could choose to pay the entire amount or go for 20 equal annual instalments. All the three telcos have chosen to go for instalments as there is not much difference in terms of interest rate.

Paying Up

Airtel paid about ₹450 cr, VI ₹312 cr and Jio ₹232 cr. Airtel and Vi had earlier paid ₹35 cr and ₹10 cr, respectively, for using spectrum on an interim basis.

In the 5G sale on June 26, Airtel, the biggest buyer, topped at 37,902 MHz of airwaves worth ₹6,896.79 cr.

VI was second, acquiring 30,916 MHz at ₹3,810.00 cr while Jio bought 23,916 MHz at ₹2,924.82 cr.

With the telcos paying the first instalment, DoT would start the process of allocating frequencies. While Airtel and VI have renewed airwaves, and are likely to continue using the same spectrum, new airwaves bought by the three telcos will be allocated in the coming 30 days, the officials said. In the 5G spectrum sale that concluded on June 26, Airtel was the biggest spectrum buyer, snapping up 37,902 MHz of 5G airwaves worth ₹6,896.79 crore. VI was the second biggest buyer, acquiring 30,916 MHz of 5G spectrum at ₹3,810 crore. Jio was the third biggest, buying 23,916 MHz of 5G spectrum at ₹2,924.82 crore.

'Battery Costs for EVs and Energy Storage Set to Come Down'

Mohit Datta

New Delhi: Import duty such as lithium carbonate and ferric oxide, the costs of batteries both for electric vehicles and energy storage, according to ENVIQZPL, group's executive director Deyash Jain.

"Battery chemicals constitute about 35% of the value of EV batteries. India's import duties on lithium and other critical minerals will help lower battery costs, thereby decreasing the overall cost of EVs," he said.

"The initiative, along with the PLI scheme, will spur further investments in EV battery and manufacturing in the country."

Jain also highlighted the wait-
