MANAGEMENT DISCUSSION AND ANALYSIS

ECONOMIC OVERVIEW & OUTLOOK GLOBAL ECONOMY:

The global economy witnessed a challenging CY2024. While fluctuations in commodity prices led to inflation in both developed and developing nations, persistent geopolitical issues resulted in supply chain disruptions.

The year 2024 ended with concerted efforts by central banks worldwide to taper inflation and the business and investment world waited in anticipation of interest rate cuts. While inflation is edging down from multi-decade highs, with intermittent upticks, interest rate cut is not expected in a hurry.

The global economy expanded by 3.2% in the CY 2024, demonstrating remarkable resilience in the face of continuing economic adversities like geopolitical challenges, demand slowdown and fluctuations in commodity prices which has led to inflationary pressures in both advanced and emerging markets. ¹ World Economic Outlook April 2024, IMF

The global Manufacturing PMI has been under contraction in CY2023 but has indicated stabilisation towards the start of CY2024. Additionally, commodity prices have remained relatively stable in CY2023 despite the ongoing economic slowdown in China & Europe and geo-political challenges in Europe and the Middle East. Owing to the rising interest of foreign institution investor, several emerging economies like India, Vietnam and Mexico are expected to show a positive growth trajectory.

However, geopolitical risks remain high, particularly in light of the continuing conflict in the Middle East and political tensions in Europe. Going forward, declining inflation and greater government spending is anticipated to alleviate fiscal pressures and expected to attract investments for future growth.

INDIAN ECONOMY:

Despite a sluggish global economy, India maintained its trajectory as one of the fastest growing economies in the world. This economic growth can be primarily attributed to robust domestic consumption and less reliance on foreign imports. While government initiatives facilitated domestic demand, increased investments to bolster manufacturing sector and improve digital and physical infrastructure mitigated supply chain issues effectively. The government's emphasis on improving infrastructure, as evident through initiatives such as the PM Gati Shakti National Master Plan, logistics upgradation and industrial corridors, is anticipated to increase industrial competitiveness and spur future growth. In FY2024,

India's economy witnessed remarkable growth in the financial year 2023-24. However, Indian textile exports experienced a decline for the second consecutive year in 2023-24, mainly attributed to the geopolitical tensions casting a shadow on the global trade. However, there is a silver lining; the textile industry is optimistic about the demand recovery for their products in FY 2024-25. Firstly, the domestic market continues to witness steady demand growth. Secondly, the large retailers in the overseas market are expected to start restocking inventory ahead of the season, leading to a gradual recovery in exports.

On the input cost side, cotton prices in India have eased from their highs and are expected to remain range-bound due to expected higher production in India. However, appreciation of the USD and adverse climate impact on cotton crops in the United States (US) and other cotton-producing countries will negate the possible price deflation. However, challenges continue to persist and the prices of crude oil and derived products will be essential to watch.

On the logistics front, we believe that the fear of significant increase in cost is behind us and shipping rates are cooling off from the highs in February 2024. The disruption expected in terms of availability of containers, delay in routes is adjusted as part of the trade. De-escalation in the Middle East conflict will further help normalise the situation.

Government initiatives, including the PM Gati Shakti - National Master Plan, the National Monetisation Plan (NMP) and the Production-Linked Incentive (PLI), are expected to foster economic growth, going forward. The Reserve Bank of India (RBI) has also exercised prudent and proactive measures to ensure financial stability and address liquidity constraints.

TEXTILE INDUSTRY

GLOBAL TEXTILE INDUSTRY:

The global textile industry comprises textile manufacturing, refining and retail clothing. A multi-billion dollar manufacturing sector, the global textile business consists of production, refining and sale of synthetic and natural fibres. The textile industry is a dynamic market with key players being China, European Union, US and India. China is the largest textile producing and exporting country in the world. On the other hand, the European Union comprises Germany, Spain, France, Italy and Portugal at the forefront with a value of more than one-fifth of the global textile industry. India is the third-largest textile manufacturing industry and is responsible for more than 6% of the total textile production globally.

INDIAN TEXTILE INDUSTRY:

As one of the largest textile industries in the world, the Indian textile industry contributes approximately 2.3% to the country's GDP, 13% to industrial production and 12% to total exports earnings. India is one of the largest producers of cotton and jute in the world. It is also the 2nd largest producer of silk. India's total textile exports are expected to reach USD 65 Billion by FY2026 and is expected to grow at 10% CAGR 2019-2020 to reach USD 190 Billion by 2025-2026. The textiles and apparel industry in India has strengths across the entire value chain from fibre, yarn, fabric to apparel. The Indian textile and apparel industry is highly diversified with a wide range of segments ranging from products of traditional handloom, handicrafts, wool and silk products. ^{2- Textile Industry in India : Insights into the Garment & Apparel}

Work is currently under progress for the schemes announced like: Integrated Textile Parks (SITP), Mega Integrated Textile Region and Apparel (MITRA), Park scheme to attract private equity in the sector, and PM Mitra Scheme Government. The PM Mitra Park Scheme under which the government plans to invest over ` 70,000 crores to set up mega textile parks will provide a massive fillip to the textile sector and help India transform from only a traditional textile industry to an MMF (man-made fibre) and technical textile hub in the world.

Traditional sectors like handloom and small-scale power loom units are the biggest source of employment for millions of rural and semi-urban artisans and weavers. It provides direct and indirect employment and a source of livelihood to millions of Indians, including a large number of rural women and youth. Make in India, Skill India, Women Empowerment, and Rural Youth Employment are all significant government programs that the sector is aligned with perfectly. The government's focus has been on increasing textile manufacturing by building best-in-class manufacturing infrastructure, upgrading technology, fostering innovation, and enhancing skills and traditional strengths in the sector for making India's development inclusive and participative.

BUSINESS OVERVIEW

The Company continues to sustain its overall performance in the Financial Year 2023-24 driven by the average performance in the business. The Traditional Textiles processing division performance is continue plunged to some extent as compared to the previous years due to a significant increase in the cost of raw materials, cost of coal power-fuel and logistics. Your Directors have been making efforts on all fronts viz. marketing, finance and cost control, etc. and these efforts have been yielding good results. The outlook for the Company's products appears to be good and the Company is confident of achieving improved operational performance.

In order to achieve the greatest level of customer satisfaction and excellent business relations, continuous infrastructure upgradations are made. There is a special focus on adopting sustainable business processes that add value for the stakeholders. Our dedicated team, with rich experience in the field of procuring superior quality for the perfect quality cotton fabric.

Your Company reported at Standalone level, the total income of the Company is `9025.02 Lakhs as against `8742.64 Lakhs in the previous year. The Profit before Tax amounted to `(234.59) Lakhs as against `(279.66) Lakhs in the previous year. The net profit after tax amounted to `(191.83) Lakhs as against `(279.66) Lakhs in the previous year.

INDUSTRY STRUCTURE AND DEVELOPMENT:

Pursuant to the Scheme, First Demerged Undertaking i.e. Traditional Textiles Processing Division along with Wind power division of MRT has been transferred to MFML. In the Traditional Textiles Processing Division, it mainly engaged in bleaching, dyeing, printing and finishing and at the end of the chain, its fabric range goes into apparels and home textiles, catering to Domestic as well as Global Market. The company has end-to-end complete facility of processing various types of fabrics such as cotton, polyester, Bottom-weight and other blends.

STRENGTH AND WEAKNESS:

Nevertheless, the Indian Textile Industry has always remained one of the major industries of the glooming Indian Economy. Be it Charkha Moment by Gandhiji or Vocal for Local by our current Prime Minister, everything has helped to rise Indian Textile Industry. It is so essential that the three basic needs of the human being "Roti, Kapda Aur Makaan (Bread, Cloth, and Home)" also emphasize the need for Kapda (Clothing) and in turn the significance of Textile. This industry holds a significant position in India by providing the most basic need of Indians. Starting from the procurement of raw materials to the final production stage of the actual textile, the Indian Textile industry works on an independent basis.

In addition to the availability of a large labor force with required skills at a comparatively cheap rate, the Indian Textile Industry has a great advantage in that India is the third largest cotton-producing country in the World. The Indian Textile industry is autonomous and self-governing. Cheap labour and strong entrepreneurial skills have always been the backbone of the Indian Apparel and Textile Industry.

The Ministry of Textiles under the Government of India has taken some significant steps to promote the Textile Industry in the Country. Technology Up-gradation Fund Scheme and PLI Schemes aims at making available funds to the domestic textile industry for technology up-gradation and setting up of new units. This scheme aims to generate annual growth in volume terms in cloth production and in value terms in exports by increasing domestic value addition and technology depth and enhancing global competitiveness. The Indian Government and State Government have come up with several export promotion policies for the Textile sector.

However, one of the biggest weaknesses of the Textile industry is its old machines, the spinning, and processing sector lacks modernization and there is a need of introducing new technology. This is resulting in higher production costs where the Indian Manufacturing Sector is having a tough fight with the cheap imported fabrics.

Obsolescence of technology, risk in the industrial environment from the competition, and changing customer needs may affect Company's business too.

OPPORTUNITIES AND THREATS:

The market trust enjoyed by your Company, our wide range of products, supply capability, and our differentiated solution strategy would hopefully enable us to sail through the probable headwinds and continue the growth journey.

The future for the Indian Textile Industry looks promising, buoyed by both strong domestic consumption as well as export demand. With consumerism and disposable income on the rise, the retail sector has experienced rapid growth in the past decade with the entry of several international players into the Indian market. The rise of e-commerce and the emerging retail industry provide huge opportunities. The free trade environment is a good opportunity for the Indian Textile Industry to increase its Share in the global market.

Extension of the scheme for Rebate of State and Central Taxes and Levies (RoSCTL) till March 31, 2026, for the export of apparel, garments and made-ups with the same rates would benefit textile companies. The 'China plus one' diversification policy will benefit Indian manufacturers. As global retailers are looking for an alternate supply base, India has emerged as an attractive option for manufacturing and exports of textiles and apparels. The rapid growth of the retail sector and E-commerce and Rising disposable incomes will stimulate domestic demand. The growing popularity of 'fast fashion' products will contribute to the growth of the textile and apparel industry

Being a labour-intensive sector, the shortage of skilled workforce may impact the operations and there will be a struggle to complete orders and the situation in Middle East & Europe Conflicts, the threat of inflationary pressures, increasing power and fuel costs, high logistic costs, Intense competition in the global market, especially from China, Subdued demand for textile products as consumer confidence is low in the key markets, technology barriers, Compliance issues with the environmental norms and regulations and supply chain challenges continue to be issues of concern.

Current global and domestic headwinds need to be closely monitored for their impact on business operations. Liquidity Management and the Financial soundness of business partners will also be of high importance. The Company continues to keep a constant vigil for better risk management.

Volatility in the foreign currencies could impact the export earnings of the Company. The Company follows prudent financial measures that are subjected to periodic reviews to hedge its revenues in foreign currency.

OUTLOOK:

Financial Year 2023-24 has remained a roller coaster ride for businesses across industries barring a few exceptions. Your Company had also evident the same. Global demand was affected by Middle East & Europe conflict and global recession. Despite near-term uncertainties, we remain optimistic about the medium term and intend to continue investing in our growth engines. The government is pushing the textile industry by launching PLI Scheme in the segment, which will increase growth of this sector as a whole, as the government is targeting to have USD 100 Billion in export by 2030.

We are also very positive about the growth of Textiles in coming years considering the normalcy returning to the businesses in the textile industry from the start of the FY 24-25. In the mid-long term, Indian Textile Industry are expected to grow very strongly with growth being balanced by both domestic consumption as well as export demand. In the near-term, domestic demand would depend on the revival of macroeconomic factors. On the exports front, there are both positive and negative factors.

The volatility in foreign currency and price in the International market impacted the cost of production. Due to situation arose in Middle East & Europe conflict and global recession, the threat of inflationary pressures, high freight and logistic cost, and supply chain challenges continue to be issue of concern. Barring unforeseen circumstances, the Company is confident of achieving better results in the current year.

KEY RISKS & CONCERNS

The Textile industry is always subject to facing crisis in a cyclical way. Timely action is needed to overcome this situation by taking corrective and proactive steps, then and there.

The Textile business, like other businesses, is susceptible to various risks. The primary risk factor is raw material prices, mainly cotton and the biggest component of cost. Cotton prices are increasing regularly as are other input costs including power, fuel and logistics. Since cotton is an agricultural produce, it suffers from climatic and seasonal volatility. Whereas such volatility in case of a product higher in the textile value chain is generally passed through an increase in value added products in the basket provides insulation against such volatilities.

The Company monitors price fluctuations and follows inventory management and responsive procurement policy to ensure timely procurement of raw materials at competitive prices. It also engages in contracts with clients and tries to pass on variations in the prices of raw materials to them to protect margins.

The ongoing Middle East & Europe conflict has adversely impacted the global supply chain network. Since majority of the Company's business is exports-oriented and it depends on the supply chain for exporting final products, any kind of disruptions in the supply chain,

ever-rising container shipping cost, availability and delays pose severe challenges for the business. Further, inadequate and inefficient logistics in India lead to delays and high costs of logistics.

The geopolitical turmoil, global economic slowdown, high inflation and the threat of a looming recession in key markets like the US and Europe have led to a slowdown in the domestic as well as export market. Demand compression would reduce the Company's business.

The Company is susceptible to disasters and crises such as , cyclones, earthquakes, geopolitical instability, fire hazards, etc. which may cause operational disruption, shutdown or production cuts, project delays, supply chain hurdles, and increased construction costs. Compliance issues with the environmental norms and regulations and supply chain challenges continue to be issues of concern.

INTERNAL CONTROL SYSTEM:

The Company has an adequate system of internal control implemented by the Management towards achieving efficiency in operations, optimum utilization of resources and effective monitoring thereof and compliance with applicable laws. The internal control is supplemented by an extensive programme of Internal Audits.

The Internal Audit programme is finalized in consultation with the Internal Auditors and the Audit Committee of the Board. The Audit Committee is briefed on the findings by the Internal Auditors, every quarter, along with the remedial actions that have been recommended or have been taken by the Management to plug systemic weaknesses. The audit committee of the Board meets periodically to review various aspects of the performance of the Company and also review the adequacy and effectiveness of the internal control system and suggests improvement for strengthening then from time to time.

The Company maintains an efficient internal control system commensurate with the size, nature and complexity of its business. The internal control system is responsible for addressing the evolving risks in the business, reliability of financial information, timely reporting of operational and financial transactions, safeguarding of assets and stringent adherence to the applicable laws and regulations. The internal auditors of the Company are responsible for regular monitoring and review of these controls. The Audit Committee periodically reviews the audit reports and ensures correction of any variance, as may be required. Key observations are communicated to the management who undertakes prompt corrective actions.

FINANCIAL AND OPERATIONAL PERFORMANCE:

The The Company continues to sustain its overall performance in the Financial Year 2023-24 driven by the average performance in the business. The Traditional Textiles processing division performance is continue plunged to some extent as compared to the previous years due to a significant increase in the cost of raw materials, cost of coal power-fuel and logistics.

During FY 2023-24 , the market remained exposed to intermittent bouts of volatility due to domestic developments as well as uncertainty surrounding the evolution of global financial markets which impacted the market sentiments and liquidity conditions significantly.

Particulars	FY 2023-24	FY 2022-23	% change
Debtor Turnover (Times)	3.77	5.67	-33.49
Inventory Turnover (Times)	73.92	192.70	-61.64

Operating Profit Margin (%)	-1.27	-1.54	17.45
Net Profit Margin (%)	-2.19	-3.37	34.96

During the current Financial Year there has been marginally increase in Operating Profit and Net Profit Margin mainly due to volatility in market globally of Textile Products in which your Company operates.

The Net Worth of the Company stood at 8278.16 Lakhs as on March 31, 2024. Return on Net worth for the year 2023-24 stands at -2.14 % as against -3.20 % for 2022-23

MATERIAL DEVELOPMENTS IN HUMAN RESOURCES / INDUSTRIAL RELATIONS FRONT:

Your Company continues to have cordial and harmonious relations with its employees at all levels during the period under review. The Company also puts emphasis on formal training and development programmes to operators and workers, as a core activity and provides continuous training, both internally and externally, for the upgradation of employee skills. The operations of the Company across functions have been strengthened through the induction of appropriately qualified and experienced manpower.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF
MAHALAXMI RUBTECH LIMITED

Report on the audit of Financial Statements

Opinion

We have audited the accompanying Financial Statements of MAHALAXMI RUBTECH LIMITED (“the Company”), which comprise of the Balance Sheet as at March 31, 2024 and the statement of profit and loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended and a summary of significant accounting policies and other explanatory information (hereinafter referred to as “ Financial Statements”).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Financial Statements give the information required by the Companies Act, 2013 (“the Act”) in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, (“Ind AS”) and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the Financial Statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor’s Responsibility for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI’s Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Financial Statements.

Emphasis of Matter

We draw attention to Note.47 of the Financial Statements with respect to Scheme of Arrangement amongst Mahalaxmi Rubtech Limited, Mahalaxmi Fabric Mills Limited and Globale Tessile Limited and their respective shareholders and creditors (the ‘Scheme’) for demerger of Traditional Textile Processing and Wind Power Undertaking and Textile Trading Undertaking of the Company (collectively referred to as “Demerged Undertakings”). The Scheme has been given effect to from the Appointed Date of April 1, 2022, as approved by the Hon’ble National Company Law Tribunal(“NCLT”), Ahmedabad and which is deemed to be the demerger date for the purpose of accounting and consequently financial information in the statement of profit and loss for the year ended March 31, 2023, have been restated.

Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Financial Statements of the current period. These matters were addressed in the context of our audit of the Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matters	How our audit addressed the key audit matter
<p>Revenue recognition</p> <p>1. The Company has demerged its Traditional Textile Processing and Wind Power Undertaking and Textile Trading Undertaking to Mahalaxmi Fabric Mills Limited and Globale Tessile Limited respectively pursuant to a Scheme of Arrangement (“the Scheme”). The Scheme was approved by National Company Law Tribunal (NCLT) with an appointed date of 1st April,2022. We have identified this transaction relating to discontinued operations, as a key audit matter because of significant complexities in its accounting and disclosure requirements.</p>	<p>In this regard, our audit procedures included:</p> <ul style="list-style-type: none"> • We obtained and read the key documents relating to the transfer of the Demerged Undertakings (Scheme of Arrangement and approval granted by NCLT) • We have evaluated whether the method of accounting followed by the Company is in accordance with the scheme approved by NCLT and the relevant accounting guidelines. • We assessed the adequacy and appropriateness of the disclosure in the financial statements, relating to the discontinued operations and the transfer of segment, as required by the accounting standards. • Based on the above procedures performed, the method of accounting and disclosures relating to the transfer of the Demerged Undertakings are considered to be adequate and reasonable.

Key Audit Matters	How our audit addressed the key audit matter
<p>2. Company’s revenue is derived primarily from sale of goods. Revenue from sale of goods is recognised when control of the products being sold is transferred to the customer and there are no longer any unfulfilled performance obligations. The performance obligations in the contracts are fulfilled at the time of dispatch, delivery or upon formal customer acceptance depending on customer terms.</p> <p>Inappropriate assessment could lead to risk of revenue being recognized before transfer of control.</p> <p>In view of the above and since revenue is a key performance indicator of the Company, we have identified timing of revenue recognition from sale of goods as a key audit matter.</p>	<p>Assessing the appropriateness of the accounting policy for revenue recognition with relevant accounting standards;</p> <p>Evaluating the design and implementation of the Company’s key internal financial controls in relation to timing of revenue recognition and tested the operating effectiveness of such controls for selected samples</p> <p>Performing detailed testing by selecting samples of revenue transactions recorded during the year and around the year end date using statistical sampling. We assessed fulfilment of performance obligations during the year by verifying the underlying documents. These documents included contract specifying terms of sale, invoices, goods dispatch notes, customer acceptances and shipping documents;</p> <p>Testing, on a sample basis using specified risk based criteria, journal entries affecting revenue recognised during the year to identify unusual items.</p>
<p>Valuation of Inventories</p> <p>The Company is a technical textile manufacturer and the inventory primarily comprises of yarn, grey fabric, rubber, chemicals and technical textile fabric and rubber blankets. Inventories are valued at lower of cost and net realisable value. The Company maintains its inventory levels based on forecast demand and expected future selling prices. There is a risk of inventories being measured at values which are not representative of the lower of costs and net realisable value (‘NRV’)</p> <p>The Company exercises high degree of judgment in assessing the NRV of the inventories on account of estimation of future market and economic conditions. The carrying value of inventories is material in the context of total assets of the Company. We identified the valuation of inventories as a key audit matter.</p>	<p>In this regard, our audit procedures included:</p> <p>Assessing the appropriateness of the accounting policy for inventories with relevant accounting standards:</p> <p>Evaluating the design and implementation of the Company’s key internal financial controls over valuation of inventories and testing the operating effectiveness of such controls for selected samples;</p> <p>Observing the physical verification of inventory on a sample basis. In this regard, we have considered the physical condition of inventory by way of obsolescence or wear and tear, wherever relevant and applicable, in determining the valuation of such inventory.</p> <p>For NRV testing, selecting inventory items, on a sample basis at reporting date and compared their carrying value to their subsequent selling prices as indicated in sales invoices subsequent to the reporting date.</p>

Information other than the Financial Statements and Auditor’s report thereon

The Company’s Board of Directors is responsible for the other information. The other information obtained at the date of this auditor’s report is information included in the Directors’ Report including the Annexures to the Directors’ report, but does not include the Financial Statements and our auditor’s report thereon.

Our opinion on the Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon,

In connection with our audit of the Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor’s report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management’s Responsibility for the Financial Statements

The Company’s Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- i) Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ii) Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- iii) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- iv) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- v) Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of the section 143 of the Act, we give in the Annexure "A", a statement on the matters specified in the paragraph 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company, so far as it appears from our examination of those books;
 - (c) The balance sheet, the Statement of profit and loss including Other Comprehensive Income, Statement of Changes in Equity and Statement of Cash Flow dealt with by this Report are in agreement with the books of account;

- (d) In our opinion, the aforesaid Financial Statements comply with the Indian Accounting Standards specified under Section 133 of the Act read with relevant rules issued there under.
- (e) On the basis of written representations received from the directors as on March 31, 2024 and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2024 from being appointed as a director in terms of section 164(2) of the Act.
- (f) with respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such control, refer to our separate report in the Annexure-B . Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- (g) With respect to the matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid / provided by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- (h) With respect to other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
- i. The company has disclosed the impact of pending litigations on its financial position in its Financial Statements. Refer Note No.34 to the Financial Statements.
 - ii. The company has made provision, as required under the applicable law or IND AS, for material foreseeable losses, if any, on long term contracts including derivative contracts.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
 - iv.
 - a. The management has represented that, to the best of its knowledge and belief, to the financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company, to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall:
 - directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Company or:
 - provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries
 - b. The management has represented, that, to the best of its knowledge and belief, to the financial statements, no funds have been received by the Company from any persons or entities, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall:
 - directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Funding Parties or
 - provide any guarantee, security or the like from or on behalf of the Ultimate Beneficiaries
 - c. Based on such audit procedures as considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause h(iv) (a) & (b) contain any material mis-statement.
 - v. The Company has not declared any dividend during the year.
 - vi. Based on our examination which included test checks, the Company has used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. However, the audit trail feature is not enabled for certain direct changes to data when using certain access rights and at the database level for the accounting software, as described in note to the financial statements. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with in respect of the accounting software.

“Annexure A” to the Independent Auditors’ Report

Referred to in paragraph 2 under the heading ‘Report on Other Legal & Regulatory Requirement’ of our report of even date to the financial statements of the Company for the year ended March 31, 2024:

- i. In respect of property, plant & equipment:
 - (a) According to the information and explanation given to us and on the basis of our examination of records of the company, the Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment.
 - (b) According to the information and explanation given to us and on the basis of our examination of records of the company, all property, plant & equipment have been physically verified by the management during the year and there is a regular programme of verification which in our opinion is reasonable having regard to the size of the company and nature of its assets. No material discrepancies were noticed on such verification.
 - (c) According to the information and explanation given to us and on the basis of our examination of records of the company, the title deeds of immovable properties included in property, plant and equipment are held in the name of the Company.
 - (d) According to the information and explanation given to us and on the basis of our examination of records of the company, the Company has not revalued its Property, Plant and Equipment (including Right of use assets) or intangible assets during the year ended March 31, 2024.
 - (e) According to the information and explanation given to us and on the basis of our examination of records of the company, there are no proceedings initiated or are pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.
- ii. In respect of inventories:
 - (a) The inventory has been physically verified by the management during the year except for inventories lying with third parties. In our opinion, the frequency of verification by the management is reasonable and the coverage and procedure for such verification is appropriate. Inventories lying with third parties have been confirmed by them as at 31st March, 2024 and discrepancies of 10% or more in aggregate for each class of inventory were not noticed in respect of such confirmations. Discrepancies noticed on physical verification of inventory have been properly dealt with in the books of account.
 - (b) According to the information and explanation given to us and on the basis of our examination of records of the company, the Company has been sanctioned working capital limits in excess of five crore rupees in aggregate from banks and/or financial institutions during the year on the basis of security of current assets of the Company. As disclosed in note 18 to the financial statements, the quarterly returns/statements filed by the Company with such banks and financial institutions are in agreement with the books of accounts of the Company.
- iii. In respect of investments, guarantee or security or loans and advances given
 - (a) According to the information and explanation given to us and on the basis of our examination of records of the company, during the year the Company has not provided loans, advances in the nature of loans, stood guarantee or provided security to companies, firms, Limited Liability Partnerships or any other parties except corporate guarantee to its associate company (erstwhile subsidiary company). The amount of guarantee provided during the year to its subsidiaries is Rs. NIL and balance outstanding as at balance sheet date in respect of the guarantee provided to such company is Rs.1750 lakhs.
 - (b) During the year the Company has not made investments, provided guarantees, provided security and granted loans and advances in the nature of loans to companies, firms, limited liability partnerships or any other parties except loans provided to its subsidiaries. The terms and conditions of the grant of loans and advances in the nature of loans to its subsidiaries are not prima facie prejudicial to the interest of the company.
 - (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, in the case of loans given, the repayments or receipts have been regular, where applicable.

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of MAHALAXMI RUBTECH LIMITED (“the Company”) as of March 31, 2024 in conjunction with our audit of the Financial Statements of the Company for the year ended on that date.

Management’s Responsibility for the Internal Financial Controls.

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the Financial Statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the Financial Statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

44 Financial Risk Management

The principal financial assets of the Company include loans, trade and other receivables, and cash and bank balances that derive directly from its operations. The principal financial liabilities of the company, include loans and borrowings, trade and other payables and the main purpose of these financial liabilities is to finance the day to day operations of the company.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks and that advises on financial risks and the appropriate financial risk governance framework for the Company.

This note explains the risks which the company is exposed to and policies and framework adopted by the company to manage these risks:

Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk: foreign currency risk, interest rate risk, investment risk.

(i) Foreign currency risk

The company operates internationally and business is transacted in several currencies.

The export sales of company comprise around 38.17% of the total sales of the company, Further the company also imports certain assets and material from outside India. The exchange rate between the Indian rupee and foreign currencies has changed

substantially in the future. Consequently the company is exposed to foreign currency risk and the results of the company may be affected as the rupee appreciates/ depreciates against foreign currencies. Foreign exchange risk arises from the future probable transactions and recognized assets and liabilities denominated in a currency other than company's functional currency.

The company measures the risk through a forecast of highly probable foreign currency cash flows and manages its foreign currency risk by appropriately hedging the transactions. The Company uses a derivative financial instruments such as foreign exchange forward contracts to mitigate the risk of changes in exchange rates on foreign currency exposures.

The following table summarizes the company's exposure foreign currency risk from financial instruments at the end of each reporting period:

(Amount in Lakhs, unless otherwise stated)

Foreign Currency Risk Sensitivity

The impact on the Company's profit before tax due to changes in the fair value of monetary assets and liabilities including foreign currency derivatives on account of reasonably possible change in USD and Euro exchange rates (with all other variables held constant) will be as under:

Particulars	Net Impact on Profit before Tax	
	As at 31-Mar-24	As at 31-Mar-23
USD sensitivity		
INR/USD -Increase by 5%	1.31	-0.83
INR/USD -Decrease by 5%	-1.31	0.83
EURO sensitivity		
INR/EURO -Increase by 5%	2.65	16.31
INR/EURO -Decrease by 5%	-2.65	-16.31
CHF sensitivity		
INR/EURO -Increase by 5%	0	---
INR/EURO -Decrease by 5%	0	---

(ii) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with floating interest rates.

As the Company has no significant interest-bearing assets, the income and operating cash flows are substantially independent of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with floating interest rates, which are included in interest bearing loans and borrowings in these financial statements. The company's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

At the reporting date the interest rate profile of the Company's interest bearing financial instrument is at its fair value:

Exposure to Interest Rate risk

The exposure of the Company's borrowing to interest rate changes at the end of the reporting period are as follows:

(Amount in Lakhs, unless otherwise stated)

Particulars	As at 31 Mar, 2024	As at 31 Mar, 2023

Total borrowings	1559.22	1838.99
% of Borrowings out of above bearing variable rate of interest	94.88%	93.98%

Interest rate sensitivity

A change of 50 bps in interest rate would have following impact on Profit before tax

(Amount in Lakhs, unless otherwise stated)

Particulars	As at 31 Mar, 2024	As at 31 Mar, 2023
50 bps increase would decrease the profit before tax by	-7.40	-8.64
50 bps decrease would increase the profit before tax by	7.40	8.64

(iii) Investment Risk

The Company is exposed to equity price risk arising from equity investments.

The Company manages equity price risk by investing in fixed deposits/Fixed Maturity Plans. The Company does not actively trade equity investments. Protection principle is given high priority by limiting Company's investments to fixed deposits/Fixed Maturity plans only.

Liquidity Risk

The financial liabilities of the Company, other than derivatives, include loans and borrowings, trade and other payables. The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The Company monitors its risk of shortage of funds to meet the financial liabilities using a liquidity planning tool. The Company plans to maintain sufficient cash and deposits to meet the obligations as and when fall due.

The below is the detail of contractual maturities of the financial liabilities of the Company at the end of each reporting period:

Credit Risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables which are typically unsecured. Credit risk on cash and bank balances is limited as the company generally invests in deposits with banks and financial institutions with high credit ratings assigned by credit rating agencies. Investments primarily include investment in liquid mutual fund units, bonds, fixed maturity plan etc. issued by institutions having proven track record. The Company's credit risk in case of all other financial instruments is negligible.

The company assesses the credit risk for the overseas customers based on external credit ratings assigned by credit rating agencies. The company also assesses the creditworthiness of the customers internally to whom goods are sold on credit terms in the normal course of business. The credit limit of each customer is defined in accordance with this assessment. Outstanding customer receivables are regularly monitored and any shipments to overseas customers are generally covered by ECGC.

The impairment analysis is performed on client to client basis for the debtors that are past due at the end of each reporting date. The company has not considered an allowance for doubtful debts in case of trade receivables that are past due but there has not been a significant change in the credit quality and the amounts are still considered recoverable.

The maximum exposure to credit risk at the reporting date is the carrying value of trade receivables as disclosed at Note 8

Write off policy

The financial assets are written off, in case there is no reasonable expectation of recovering from the financial asset.

45 Capital Management

The capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the company. The primary objective of the company's capital management is to maintain optimum capital structure to reduce cost of capital and to maximize the shareholder value.

The company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants which otherwise would permit the banks to immediately call loans and borrowings. In order to maintain or adjust the capital structure, the company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares.

The Company monitors capital using a gearing ratio, which is net debt divided by total equity.

The Company's gearing ratio was as follows:

(Amount in Lakhs)

Particulars	Financial Year ended 31.03.2024	Financial Year ended 31.03.2023
Total Borrowings	1559.22	1838.99

All the Secured Loan including Term Loan, Cash Credit and Overdraft Facilities from Banks in the Demerged Undertakings and residual undertaking are secured by way of hypothecation of stock, book debts, plant & machineries & other movables and equitable mortgage of land and buildings and further secured 'by personal guarantee of promoter directors and overdraft is secured by way of pledge of fixed deposit receipts of the demerged company.

The borrowing limits and securities with Banks pertaining to the demerged undertakings are to be transferred into the respective resulting companies as a going concern in pursuance of Scheme. The Bank is in process of reviewing and segregating and transferring of all credit facilities and securities to respective resulting companies in pursuance of Scheme.

In accordance with the Scheme, the Demerger of the Undertaking has been accounted for as prescribed by Ind AS 103 - Business Combinations. As per the requirements of Appendix C to Ind AS 103 - "Business Combinations", in respect of the Scheme, effect of the Demerger needs to be given in the accounts as if it had occurred from the beginning of the preceding period in the standalone Financial Statements of the Company. Notwithstanding this, in accordance with the MCA circular dated 21st August, 2019, the Company has considered the Appointed Date i.e. on 1st April, 2022, as the date of the Demerger for the purpose of accounting. In accordance with the scheme, the demerger of undertakings has been accounted for as prescribed by Ind-AS 103 "Business Combinations". Accordingly, the accounting treatment has been given as under : All the Assets and liabilities of demerged undertakings as at 1st April, 2022 have been transferred at their book value except Factory land of the 1st Demerged undertaking at their fair market value in pursuance of the Scheme.

As per the Scheme of Arrangement Ms. Mahalaxmi Rubtech Limited, Demerged Company has continued to manage operations of demerged undertakings. Hence the inter-se transaction between the demerged undertakings and resulting companies pertaining to operation of undertakings including inter se transactions of goods, assets, employees, funds, reimbursement of expenses etc till the scheme become effective and thereafter till the date of transfer of requisite permission/ Licenses, agreement in the name of resulting companies were carried on by the Demerged Company for and on account of, and in trust for resulting companies.

The Financial statements of previous year presented have been restated accordingly, to disclose the financial statements of the Company's continuing business operations only by excluding the same of the demerged undertakings.

Discontinued Operations

The company vide the Scheme of arrangement ('the Scheme') demerged its Traditional Textile Processing undertaking and Wind Power Division simultaneously demerged the Trading Textile undertaking of the company with effect from 1st April 2022. The Scheme has been sanctioned by the Hon'ble National Company Tribunal (Ahmedabad Special Bench) vide its Order dated 4th March, 2024

The Company has derecognised the net carrying value of assets of ₹46.25 Crores as on appointed date i.e. 1st April, 2022. Further, in accordance with the Scheme net amount of ₹46.25 Crores so derecognised has been adjusted against retained earning.

48 Notes forming part of the Financial Statements for the year ended 31 March 2024

A General Information

Mahalaxmi Rubtech Limited (the "Company") is a listed public limited company domiciled in India and was incorporated on 25th September, 1991 under the provisions of the Companies Act, 1956 applicable in India. Its registered office is located at 47, New Cloth market, Ahmedabad. The Company is primarily engaged in the business of manufacturing of traditional textile and technical textile products.

B Significant accounting policies

Significant accounting policies adopted by the company are as under:

(a) Basis of Preparation of Financial Statements**(i) Statement of Compliance with Ind AS**

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 (the "Act") read with the Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act.

Accounting policies have been consistently applied to all the years presented except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

(ii) Basis of measurement

The financial statements have been prepared on a historical cost convention on accrual basis, except certain financial assets and liabilities measured at fair value.

(iii) Current and non current classification

All assets and liabilities have been classified as current and non-current as per the Company's normal operating cycle and other criteria set out in Schedule III to the Act.

(b) Use of estimates

The preparation of financial statements in conformity with Ind AS requires the management to make estimate and assumptions that affect the reported amount of assets and liabilities as at the Balance Sheet date, reported amount of revenue and expenses for the year and disclosures of contingent liabilities as at the Balance Sheet date. The estimates and assumptions used in the accompanying financial statements are based upon the management's evaluation of the relevant facts and circumstances as at the date of the financial statements. Actual results could differ from these estimates. Estimates and underlying assumptions are reviewed on a periodic basis. Revisions to accounting estimates, if any, are recognized in the year in which the estimates are revised and in any future years affected.

(c) Property, plant and equipment

The Company had applied for the one time transition exemption of considering the carrying cost on the transition date i.e. 1st April, 2016 as the deemed cost under IND AS. Hence regarded thereafter as historical cost.

Property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to Statement of Profit and Loss during the year in which they are incurred.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'.

Depreciation methods, estimated useful lives

The Company depreciates property, plant and equipment over their estimated useful lives using the straight line method. The estimated useful lives of assets are taken as prescribed useful lives under Schedule II to the Companies Act, 2013. The management believes that such estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

Depreciation on addition to property plant and equipment is provided on pro-rata basis from the date of acquisition. Depreciation on sale/deduction from property plant and equipment is provided up to the date preceding the date of sale, deduction as the case may be. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in Statement of Profit and Loss under 'Other Income'.

(d) Investment properties

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

**(e) Intangible Assets**

Intangible assets are stated at acquisition cost, net of accumulated amortization.

The Company has amortized intangible assets over their estimated useful lives using the straight line method. The estimated useful lives of intangible asset is 10 years.

(f) Investments in subsidiaries , associates

Investments in subsidiaries , associates are recognised at fair value.

(g) Borrowing cost

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

(h) Foreign Currency Transactions**(a) Functional and presentation currency**

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is the Company's functional and presentation currency.

(b) Transactions and balances

"On initial recognition, all foreign currency transactions are recorded by applying to the foreign currency amount the exchange rate between the functional currency and the foreign currency at the date of the transaction. Gains/Losses arising out of fluctuation in foreign exchange rate between the transaction date and settlement date are recognised in the Statement of Profit and Loss. All monetary assets and liabilities in foreign currencies are restated at the year end at the exchange rate prevailing at the year end and the exchange differences are recognised in the Statement of Profit and Loss. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions."

(i) Financial Instruments.**Fair value measurement**

The Company has valued financial assets and Financial Liabilities, at fair value. Impact of fair value changes as on date of transition, is recognised in opening reserves and changes there after are recognised in Statement of Profit and Loss Account or Other Comprehensive Income, as the case may be.

Financial Assets

The company classifies its financial assets as those to be measured subsequently at fair value (either through other comprehensive income or through Profit or loss) and those to be measured at amortised cost.

Financial liabilities**Initial recognition and measurement**

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable to transaction costs.

(j) Revenue Recognition

The company derives revenues primarily from sale of manufactured goods, traded goods, job work and related services.

Revenue is recognised when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the company's activities as described below:

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of various discounts and schemes offered by the company as part of the contract.

Sale of products:

Revenue from sale of products is recognised when significant risks and rewards in respect of ownership of products are transferred to customers based on the terms of sale. Revenue from sales is based on the price specified in the sales contracts, net of all discounts, returns and goods & service tax at the time of sale.

(k) Taxes

Tax expense for the year, comprising current tax and deferred tax, are included in the determination of the net profit or loss for the year.

(a) Current income tax

Current tax assets and liabilities are measured at the amount expected to be recovered or paid to the taxation authorities in accordance with the relevant prevailing tax laws. Tax expenses relating to the items in profit & loss account shall be treated as current tax as part of profit and loss and those relating to items in other comprehensive income shall be recognised as part of OCI.

(b) Deferred tax

Deferred income tax is recognised for all the temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the year and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

At each balance sheet, the company re-assesses unrecognised deferred tax assets, if any, and the same is recognised to the extent it has become probable that future taxable profit will allow the deferred tax asset to be recovered. Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

(l) Assets classified as held for sale

The Company classifies non-current assets (or disposal group) as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use.

Non-current assets (or disposal group) held for sale are measured at the lower of their carrying amount and the fair value less costs to sell. Assets and liabilities (or disposal group) classified as held for sale are presented separately in the balance sheet.

Property, plant and equipment and intangible assets once classified as held for sale are not depreciated or amortized.

(m) Leases

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as a lessee are shown as other non current assets. Payments made under operating leases (net of any incentives received from the lesser) are charged to Statement of Profit and Loss on a straight-line basis over the period of the lease.

(n) Inventories

Inventories are valued at the lower of cost and net realisable value.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

Raw materials, finished goods, semi finished goods, trading goods and stores and spare parts are valued at lower of cost and net realizable value. Cost includes purchase price, (excluding taxes those subsequently recoverable by the enterprise from the concerned revenue authorities), freight inwards and other expenditure incurred in bringing such inventories to their present location and condition. Fent, rags and rejections are stated at net realisable value. In determining the cost, FIFO method is used.

(o) Impairment of assets

The carrying value of assets / cash generating units at the Balance Sheet date are reviewed for impairment, if any indication of impairment exists. If the carrying amount of the assets exceed the estimated recoverable amount, an impairment is recognised for such excess amount. The impairment loss is recognised for such excess amount.

(p) Provisions and contingent liabilities

Provisions are recognized when there is a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance sheet date. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

(q) Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks, cash on hand and short-term deposits net of bank overdraft with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purposes of the cash flow statement, cash and cash equivalents include cash on hand, cash in banks and short-term deposits net of bank overdraft.

(r) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(I) Financial assets

(i) Initial recognition and measurement

At initial recognition, financial asset is measured at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

(ii) Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

- a) at amortized cost; or
- b) at fair value through other comprehensive income; or
- c) at fair value through profit or loss.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

(iii) Impairment of financial assets

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVTOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

(iv) Derecognition of financial assets

A financial asset is derecognized only when

- a) the rights to receive cash flows from the financial asset is transferred or
- b) retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the financial asset is transferred then in that case financial asset is derecognized only if substantially all risks and rewards of ownership of the financial asset is transferred. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

(II) Financial liabilities

(i) Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss and at amortized cost, as appropriate.

(ii) Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognized in the Statement of Profit and Loss.

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost . Gains and losses are recognized in Statement of Profit and Loss when the liabilities are derecognized .

(iii) Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss as finance costs.

(s) Employee Benefits**(I) Short-term obligations**

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the year in which the employees render the related service are recognized in respect of employees' services up to the end of the year and are measured at the amounts expected to be paid when the liabilities are settled.

(II) Other long-term employee benefit obligations**(i) Defined contribution plan**

Provident Fund: Contribution towards provident fund is made to the regulatory authorities, where the Company has no further obligations, apart from the contributions made on a monthly basis which are charged to the Statement of Profit and Loss.

Employee's State Insurance Scheme: Contribution towards employees' state insurance scheme is made to the regulatory authorities, where the Company has no further obligations apart from the contributions made on a monthly basis which are charged to the Statement of Profit and Loss.

(ii) Defined benefit plans

Gratuity: The Company provides for gratuity, a defined benefit plan (the 'Gratuity Plan') covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary. The Company's liability is actuarially at the end of each year. Actuarial losses/gains are recognized in the other comprehensive income in the year in which they arise.

(t) Earnings Per Share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Earnings considered in ascertaining the Company's earnings per share is the net profit or loss for the year after deducting preference dividends and any attributable tax thereto for the year, if any. The weighted average number of equity shares outstanding during the year and for all the years presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year is adjusted for the effects of all dilutive potential equity shares.

(u) Research & Development

Expenditure on research and development is recognised as an expense when it is incurred. Expenditure which results in increase in property, plant and equipment are capitalised and depreciated in accordance with the policies stated for property, plant & equipment.

(v) Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the company will comply with all the attached conditions. All government grants are initially recognised by way of setting up as deferred income. Government grants relating to income are recognised in the profit & loss account . Government grants relating to purchase of property, plant & equipment are subsequently recognised in profit & loss on a systematic basis over the expected life of the related depreciable assets. Grants recognised in Profit & Loss as above are presented within other income.

(w) Inter divisional transactions

Inter divisional transactions are eliminated as contra items. Any unrealised profits on unsold stocks on account of inter divisional transactions is eliminated while valuing the inventory.

(x) Significant accounting judgments, estimates and assumptions

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future years.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the year end date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

(i) Taxes

Significant assumptions and judgements are involved in determining the provision for tax based on tax enactments, relevant judicial pronouncements including an estimation of the likely outcome of any open tax assessments/ litigations. Deferred income tax assets are recognised to the extent that it is probable that future taxable income will be available, based on estimates thereof.

(ii) Defined benefit plans (gratuity benefits and leave encashment)

The cost of the defined benefit plans such as gratuity and leave encashment are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each year end.
