 $\label{eq:27.2} \text{Overview of the entity's material responsible business conduct issues:}$

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format:-

S.No.	Material Issue Identified	Indicate Risk/ Opportunity (R/O)	Rationale for identifying the Risk/Opportunity	In case of Risk, approach to adapt or mitigate	Financial Implication of the Risk or opportunity (Indicate positive/ negative implication)
1	Occupational Health & Safety	Risk	The operations of the Company require employees to work with heavy machinery, material handling equipment, all of which carry risk of injury. Failure to protect workers from occupational hazards can result in legal and financial claims against the Company. By prioritizing the well-being of all employees and workers, the Company can enhance its employer brand value.	Employees and workers are provided with safety protocols, training, and preventive measures to protect its workforce, minimize risks, and ensure a safe working environment. Plants are ISO 45001 standard certified.	Negative
2	Energy efficiency and energy management	Risk	Since the operations are highly energy intensive increase in production leads to high energy consumption. Resorting to more energy efficient measures including adoption of non-conventional and renewable energy options would help the Company to reduce cost of operations in the long run.	The Company is monitoring its energy consumption and taking measures to improve energy intensity and to explore renewable power systems.	Negative
3	Government's increased focus on infrastructure development especially rail infrastructure	Opportunity	The Government continues its focus on investments in rail infrastructure, with the objective of reducing logistics cost, in line with the global benchmarks. The Railways Industry will see investments growing. The GOI is also focusing on reducing carbon footprint, which will result in more freight on rails and also increase in urban mobility through metro, light metro etc. The Company foresees positive impact of these initiatives on is operations. Also with new logistics policy and endeavors of GOI, the Company expects sharp spurt in opportunities and corresponding benefits.	NA	Positive
4	Talent Attraction and Retention	Opportunity	Company that offers a positive work environment by providing work life balance and opportunities for professional growth is more likely to attract top talent in the industry. This can give the Company a competitive advantage, as it will have a skilled and motivated workforce that can help drive innovation and growth.	NA	Positive
5	Corporate Governance and Regulatory Compliance	Risk	Corporate governance or regulatory issues can negatively impact the investor confidence, long-term business continuity and value creation.	We have taken various measures to enhance our Governance practices and ensuring regulatory compliances.	Negative

10. Health and safety management system:

a. Whether an occupational health and safety management system has been implemented by the entity? (Yes/ No). If yes, the coverage such system?

Yes, A Health & Safety Management System (HSMS) is a structured approach to managing health and safety risks in the workplace. It typically involves several key components:

- 1. Policy and Planning: The Company has established a clear health and safety policy, setting objectives, and developing plans to achieve them.
- 2. Risk Assessment: Identifying potential hazards and assessing the risks associated with them by HIRA.
- 3. Controls and Procedures: Implementing measures to control risks, such as safe work procedures, engineering controls, and administrative controls.
- 4. Training and Education: Providing training and education to employees on health and safety topics relevant to their roles.
- 5. Emergency Preparedness: Developing plans and procedures to respond effectively to emergencies such as fires, chemical spills, or medical incidents.
- 6. Monitoring and Evaluation: Regularly monitoring and evaluating the effectiveness of the HSMS, including incident reporting and investigation processes.
- 7. Continuous Improvement: Continuously improving the HSMS based on lessons learned, feedback from employees, and changes in regulations or best practices.

Implementing an HSMS helps organizations create a safe and healthy work environment, reduce the risk of accidents and injuries, and comply with legal and regulatory requirements.

b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

The Company has in place systematic risk management process to identify and control all the hazards in manufacturing units, project sites etc. The Company's risk management process is applied through five steps (Identification, Assessment, Mitigation, Monitoring and Reporting) and all the construction engineers, design and planning engineers, production in charges are involved in risk assessments and the risk management process, All the identified risks and risk mitigation plans are required to be documented, approved and communicated to all relevant parts involved in the activity.

The Company is having certification of ISO 45001 for Occupational Health & Safety. To identify work-related hazards and assess risks on a routine and non-routine basis, entities can implement several processes:

- 1. Regular Inspections: Conduct regular inspections of the workplace to identify potential hazards, such as unsafe conditions or practices.
- 2. Risk Assessments: Perform comprehensive risk assessments for different tasks and activities to determine the level of risk involved.
- 3. Employee Involvement: Involve employees in hazard identification and risk assessment processes as they often have valuable insights into the day-to-day operations.
- 4. Documentation: Maintain records of identified hazards, risk assessments, and control measures implemented.
- 5. Training and Awareness: Provide training to employees on hazard recognition, risk assessment techniques, and appropriate control measures.
- 6. Incident Investigation: Investigate incidents and near misses to identify underlying hazards and areas for improvement.

- 7. Regulatory Compliance: Ensure compliance with relevant health and safety regulations and standards.
- 8. Continuous Improvement: Regularly review and update hazard identification and risk assessment processes to account for changes in the workplace or work practices.

By incorporating these processes into their operations, entities can effectively identify work-related hazards and assess risks on both routine and non-routine bases.
