We are experiencing strong momentum not only in our key market of Europe but also seeing substantial traction in the US and Middle East markets. Moving forward, we have a robust order book from these regions and expect this export momentum to continue.

Furthermore, our high-margin seamless pipes segment continues its steady growth trajectory with a 22% increase in revenue. The welded pipes segment also experienced a substantial growth of 55%, fueled by strong order inflows from the oil & gas sector, where we see vast potential for further expansion.

Our order book stands strong, with orders pouring in from a diverse set of industries, predominantly from oil & gas, pharma, engineering, power and other sectors.

We are well-positioned to capitalize on the current growth momentum. Our strategic initiatives, robust order book, and expanding presence in key international markets are paving the way for sustained success.
