## **Blue Cloud Softech Solutions Successfully completed the supply of BioSter sterilization solution Project in the United States**

**[Hyderabad, Telangana, December 23, 2024]** – Blue Cloud Softech Solutions Limited (BCS), a leading provider of cutting-edge AIoT solutions and a company listed on the Bombay Stock Exchange (BSE), proudly announces the successful completion of its latest international project in the United States.

This milestone project involved the deployment of BioSter, an Artificial Intelligence (AI)-enabled sterilization solution. Executed with a project cost of USD 32,000, this achievement underscores BCS's expertise in delivering innovative and transformative solutions equipped with advanced content verification capabilities on a global stage.

### **Product Highlights**

#### **1. BioSter:**

A revolutionary sterilization product leveraging Photocatalytic Oxidation (PCO) to enhance infection control. Safe and maintenance-free, BioSter eliminates harmful pathogens and VOCs in indoor spaces without toxic chemicals, making it ideal for hospitals, classrooms, and homes.

### **Chairman's Vision**

Ms. Janaki Yarlagadda commented on the achievement, stating, "The successful deployment of BioSter is a testament to our relentless pursuit of innovation in sterilization technology. BioSter's advanced AI capabilities not only enhance sterilization efficiency but also ensure unparalleled accuracy and reliability in sterilization Solutions. This project reinforces our standing as a global leader in AI-powered solutions, and we are confident that BioSter will continue to deliver exceptional value to our clients, improving both operational productivity and safety standards worldwide."
