Management Commentary

Kapil Makhija
MD & CEO

"We are pleased to report a strong YoY performance for both Q3 FY25 and 9M FY25, demonstrating our strong momentum.

This quarter, we continued expanding our enterprise client base, onboarding marquee brands such as Hidesign and Hummel while strengthening our engagement with existing clients like SUGAR Cosmetics. Our platform usage has seen a steady rise, achieving an annualized run rate of over 1 billion order items processed, reflecting the increasing adoption of our solutions.

Our strategic acquisitions of Shipway and Convertway have strengthened our position as a leading e-commerce enablement platform. With a combined customer base of 7,000+ across the three platforms, we are unlocking upsell and cross-sell opportunities, further enhancing the value we deliver across the e-commerce ecosystem.

As India's eCommerce market expands, we are well-positioned to capitalize on this opportunity. With our differentiated offerings, we remain confident in Unicommerce's ability to drive sustained growth and profitability."

Anurag Mittal
CFO

"In Q3 FY25, including the Shipway acquisition effective December 17, 2024, our revenue grew by 26.1% YoY, reaching INR 327.4 Mn. For 9M FY25, revenue increased 16.2% YoY to INR 895.2 Mn, reflecting our consistent expansion.

Strong operating leverage in our business led to significant profitability improvements. Adjusted EBITDA for Q3 FY25 increased by 63.5% YoY to INR 88.8 Mn, while for 9M FY25, it grew 42.7% YoY to INR 195.1 Mn. Our Adjusted EBITDA margin expanded by 620 bps YoY to 27.1% in Q3 FY25 and by 405 bps YoY to 21.8% for 9M FY25.

Additionally, Profit After Tax (PAT) saw a strong growth of 62.3% YoY, reaching INR 62.9 Mn in Q3 FY25, while 9M FY25 PAT grew 39.3% YoY to INR 142.8 Mn.

With the expansion of our product offerings, continued operational efficiencies and inherent operating leverage, we are committed to delivering long-term value to our stakeholders while sustaining profitable growth."

Q3 FY25 – P&L Highlights

26%+ YoY Revenue growth and 62%+ PAT growth

We believe, below are the growth drivers for us:

- Share of revenue for the consumer industry from ecommerce channel has been consistently increasing. Company's revenues are linked to the number of transactions. With the number of transactions growing, this would help the Company to grow its business further. China did ~130+ Bn shipments² in 2023 whereas India did ~4.3 Bn shipments³ in FY24, highlighting a significant headroom for growth for us going ahead
- The eCommerce industry is currently underpenetrated, and there is large scope for the company to add to its existing client base
- Company continues to work on new use cases and therefore the new products launch will be key driver of growth
- Company has identified new geographies wherein the product can be marketed to attract new customers
