Press Release – 25/01/2013

ELGI - III Quarter Results 2012-13

Elgi Equipments Ltd, manufacturer of air compressors and automotive equipment, today announced results for the quarter ended 31st December 2012 posting a PAT of Rs.13.8 Cr for the quarter compared to 19.9 Cr during the same period in 2011-12.

The consolidated PAT for the group for the quarter was Rs.12.1 Cr as compared to 17.2 Cr in 2011-12. The adverse variance on profits is mainly on account of acquisition related costs.

Consolidated sales for the Quarter grew by 14% from Rs.252 Cr in 2011-12 to Rs.287 Cr. Compressor business grew by 10% largely contributed by the recent acquisitions. The sluggish and uncertain economic conditions prevailing in the market impacted the organic growth with increased pressure on margins.

During the quarter, the company through its US subsidiary has acquired 100% stake in Pattons Inc. USA along with its wholly owned subsidiary Pattons Medical LLC. It has an annual turnover of about 40 million USD, with market presence across five South Eastern states in the USA. With this acquisition, Elgi gets a ready and well entrenched distribution and service system which can be developed to cater to other states as well.

The automotive division registered a sales growth of 7% over the corresponding quarter in the previous year while the industry registered a negative growth of 5% during this period. There were huge pressures on the margins due to price competition in an environment where demand for products was subdued.

Projection for IV Quarter 2012-13

In the backdrop of the continuing uncertainties in the market, the company expects to end the financial year with a marginal organic growth. The company continues to focus in select international markets so that as the economies recover, it would be in a position to capitalize and grow rapidly.

The acquisitions and the manpower resources augmented in the current year are expected to yield results in the ensuing financial year.
