ACCEL FRONTLINE joins hands with SciGenom to offer software development services for the Life Sciences sector

Chennai, 25th October 2013 - Accel Frontline Limited (www.accelfrontline.com) announced that it has entered into a memorandum of understanding with US based Sci GenomLabs for providing value added software development and cloud computing services for the life sciences sector.

Accel will get access to new sectors in key markets like US, Japan, etc. in the areas of life sciences, healthcare and Government institutions with this partnership.

Accel's software division currently focuses on vertical industry segments such as BFSI, Telecom, ISV's and consumer electronics in the areas of product engineering and R&D services, application development, lifecycle management and managed services. This new tie up will enable access to high growth life science sector especially in the area of Genomics.

Speaking on this new development, Accel Frontline CEO, Mr. N.R.Panicker, said:

Through this tie up Accel will expand its services into Life Sciences, leveraging Sci Genom's expertise. We are excited about the opportunity to partner with SciGenom in contributing to the future expansion of the life sciences market through value added IT software development services.

SciGenom Labs Founder and CEO, Sam Santhosh said:

SciGenom over the last few years has created a strong domain expertise in genomic sequencing and molecular testing services to life science and healthcare businesses. This new tie up with Accel will enable SciGenom to offer value-added software development services and product implementation to its existing customers. Accel's expertise in mobile user interface development and embedded technologies will be a great benefit to SciGenom's customers.

About Accel Frontline Limited:

Accel Frontline Limited is one of the leading IT Services Company and an end-to-end IT solutions provider specializing in IT Infrastructure services, software solutions and warranty management services. It employs over 2000 skilled IT professionals and serves over 500 customers.

Accel Frontline's software division provides services across verticals focusing on outsourced product development (OPD), engineering and R&D services, cloud computing, application development, lifecycle management and managed services.

Accel has strong offshore development capabilities with four development centers in India and overseas presence in US, Japan, UK ,UAE and Singapore.

About SciGenom Labs:

SciGenom Labs, focuses on providing genomic sequencing and molecular testing services to life science and healthcare businesses as well as academic and government institutions. Its commercial services include next-gen and Sanger sequencing, informatics and software solutions and molecular diagnostic testing.

Its research work is aimed at understanding the role of DNA sequence variation in human health and disease. The research is across multiple areas and focuses primarily on Gene Tests/Assay Development, Genomic Studies, Bioinformatics Algorithm Development.

It has a fully functional state-of-the-art molecular biology laboratory in Kochi, recognized by Department of Scientific & Industrial Research (DSIR), Ministry of Science & Technology, Government of India.
