In the event the result is negative, it shall be credited as Capital Reserve in the books of account of the Amalgamated Company which shall be available for issuance of bonus shares. However, recognition for such intangible assets will be restricted to an amount that does not create or increase any Capital Reserve arising at the date of the amalgamation. APPROACH - BASIS OF AMALGAMATION

The proposed Transaction contemplates the merger of HIPL into ACL pursuant to the Scheme.

Arriving at the exchange ratio of equity shares for the merger of HIPL into ACL would require determining the value of the equity shares of HIPL in terms of the value of the equity shares of ACL. These values are to be determined independently but on a relative basis, and without considering the current Transaction.

HIPL is an investment company and holds investment in equity shares of ACC and ACL. Apart from these investments, HIPL does not have any other significant operations/ assets. Considering the aforementioned, equity value of HIPL has been arrived at on a 'sum of parts' basis, considering value of its investments in equity shares of ACC, ACL and book value of other assets and liabilities.

There are several commonly used and accepted methods for determining the value of the equity shares of a company, which have been considered in the present case, to the extent relevant and applicable, for valuing underlying investments in ACL and ACC, including:

1. Comparable Companies' Multiples method
2. Market Price method
3. Discounted Cash Flow method
4. Net Asset Value method

It should be understood that the valuation of any company or its assets is inherently subjective and is subject to certain uncertainties and contingencies, all of which are difficult to predict and are beyond our control. In performing our analysis, we made numerous assumptions with respect to industry performance and general business and economic conditions, many of which are beyond the control of the Companies. In addition, this valuation will fluctuate with changes in prevailing market conditions, the conditions and prospects, financial and otherwise, of the Companies, and other factors which generally influence the valuation of companies and their assets.

The application of any particular method of valuation depends on the purpose for which the valuation is done. Our choice of methodology of valuation has been arrived at using usual and conventional methodologies adopted for transactions of a similar nature and our reasonable

Page 6 of 9

Joint recommendation of the exchange ratio for the proposed merger of HIPL into ACL

Private and confidential
22 July 2013

judgment, in an independent and bona fide manner based on our previous experience of assignments of a similar nature.

Comparable Companies' Multiple ("CCM")

Under this method, value of the equity shares of a company is arrived at by using multiples derived from valuations of comparable companies or comparable transactions, as manifested through stock market valuations of listed companies and the transaction valuation. This valuation is based on the principle that market valuations, taking place between informed buyers and informed sellers, incorporate all factors relevant to valuation. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

We have used the profitability based valuation multiple of comparable listed companies for the purpose of our analysis. We have not used the comparable transactions analysis as transaction multiples may include acquirer specified considerations, synergy benefits, control premium and minority adjustments.

Operating EBITDA of ACL and ACC has been computed considering their performance for trailing twelve months ended 31 March 2013 and adjustments, as appropriate, for non-operating income and expenses. To arrive at the total value available to the equity shareholders for ACL and ACC, value arrived as above under CCM method is adjusted, as appropriate, for cash and cash equivalent, borrowings, cash receivable on exercise of outstanding warrants and options, contingent liabilities and other matters. The total value of equity is then divided by fully diluted equity shares (considering conversion of warrants and options and shares kept in abeyance, as appropriate) to arrive at the value per equity share.

Market Price Method

The market price of an equity share as quoted on a stock exchange is normally considered as the value of the equity shares of that company where such quotations are arising from the shares being regularly and freely traded in. Further, in the case of a merger, where there is a question of evaluating the shares of one company against those of another, the volume of transactions and the number of shares available for trading on the stock exchange over a reasonable period would have to be of a comparable standard.

In the present case, the equity shares of ACL and ACC are listed on the NSE and BSE. The volume weighted share price of ACL and ACC over an appropriate period has been considered for determining the value.

Discounted Cash Flows ("DCF") Method

Under the DCF method, the projected free cash flows to the firm are discounted at the weighted average cost of capital. The sum of the discounted value of such free cash flows is the value of the firm.

Using the DCF analysis involves determining the following:

Estimating future free cash flows:

Free cash flows are the cash flows expected to be generated by the company that are available to all providers of the company's capital – both debt and equity.

Appropriate discount rate to be applied to cash flows i.e. the cost of capital.

Joint recommendation of the exchange ratio for the proposed merger of HIPL into ACL

Private and confidential

22 July 2013

This discount rate, which is applied to the free cash flows, should reflect the opportunity cost to all the capital providers (namely shareholders and lenders), weighted by their relative contribution to the total capital of the company. The opportunity cost to the equity capital provider equals the rate of return the capital provider expects to earn on other investments of equivalent risk.

To the values so obtained generally from DCF analysis, the amount of loans is adjusted to arrive at the total value available to the equity shareholders. The total value for equity shareholders is then divided by the total number of equity shares in order to work out the value per equity share.

For the purpose of DCF valuation, the free cash flow forecast is based on Financial Projections as provided by the Management.

We must emphasize that realisations of free cash flow forecast will be dependent on the continuing validity of assumptions on which they are based. Our analysis, therefore, will not, and cannot be directed to providing any assurance about the achievability of the final projections. Since the financial forecasts relate to future, actual results are likely to be different from the projected results because events and circumstances do not occur as expected, and the differences may be material. While carrying out this engagement, we have relied extensively on historical information made available to us by the management of the Companies and the respective Financial Projections for future related information. We did not carry out any validation procedures or due diligence with respect to the information provided/ extracted or carry out any verification of the assets or comment on the achievability and reasonableness of the assumptions underlying the Financial Projections, save for satisfying ourselves to the extent possible that they are consistent with other information provided to us in the course of this engagement.

To arrive at the total value available to the equity shareholders of ACL and ACC, value arrived above under DCF method is adjusted, as appropriate, for cash and cash equivalent, borrowings, cash receivable on exercise of outstanding warrants and options, deferred tax liabilities, contingent liabilities and other matters. The total value is then divided by fully diluted equity shares (considering conversion of warrants and options and shares kept in abeyance, as appropriate) to arrive at the value per equity share.

Net Asset Value (NAV) Method

The asset based valuation technique is based on the value of the underlying net assets of the business, either on a book value basis or realizable value basis or replacement cost basis. A scheme of amalgamation would normally be proceeded with, on the assumption that the companies amalgamate as going concerns and an actual realization of the operating assets is not contemplated. In such a going concern scenario, the relative earning power is of importance to the basis of amalgamation, with the values arrived at on the net asset basis being of limited relevance. This valuation approach is mainly used in case where the firm is to be liquidated i.e. it does not meet the "going concern" criteria or in case where the assets base dominate earnings capability and hence, we have not considered this method for valuation.

BASIS OF AMALGAMATION

The basis of merger of HIPL into ACL would have to be determined after taking into consideration all the factors and methodologies mentioned hereinabove. Though different values have been arrived at under each of the above methodologies, for the purposes of recommending an exchange ratio of equity shares it is necessary to arrive at a single value for the equity shares of HIPL and of ACL. For this purpose, it is necessary to give appropriate weights to the values arrived at under each methodology.

Joint recommendation of the exchange ratio for the proposed merger of HIPL into ACL

Private and confidential

22 July 2013

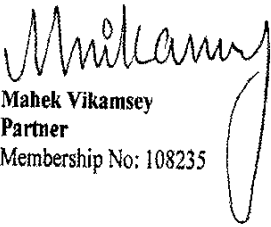

We have assigned appropriate weightages to the value per equity share of ACL and ACC, arrived using the CCM method, Market Price Method and DCF method, to value the equity shares of ACL and ACC. Value of HIPL, has been arrived at considering its book value as at 31 December 2012 and adjustments, as appropriate, for appreciation in the investments in ACL and ACC (based on their respective values, derived as aforementioned) and dividend received/ distributed between 31 December 2012 and Valuation Date.

The Valuets have been appointed severally and not jointly and have worked independently in their analysis and after arriving at a consensus on Exchange Ratio, are issuing this Valuation Report.

In view of the above, and on consideration of the relevant factors and circumstances as discussed and outlined hereinabove, we recommend the Exchange Ratio of equity shares for the merger of HIPL into ACL at 10 (ten) equity shares of ACL of INR 2 each fully paid up for every 74 (seventy four) equity shares of HIPL of INR 10 each fully paid up.

Andheri (E), Mumbai 400059

Dear Members of the Board:

I. Engagement Background

We understand that the Board of Directors of Ambuja Cements Limited ("ACL" or "Company" or "Amalgamated Company") is considering the amalgamation of Holcim (India) Private Limited ("HIPL" or "Amalgamating Company") with the Company through a Scheme of Amalgamation under section 391-394 of the Companies Act, 1956.

The scheme envisages an amalgamation of HIPL with ACL as per the terms and conditions more fully set forth in the Scheme of Amalgamation to be placed before the Board for their approval.

In consideration of the amalgamation of the HIPL into ACL pursuant to the Scheme of Amalgamation, for every 74 equity shares of the face value of Rs. 10 each and fully paid held by the shareholders of the Amalgamating Company, the Amalgamated Company shall issue and allot 10 equity shares of the face value of Rs. 2 each fully paid up (hereinafter referred to as the "Share Exchange Ratio").

In connection with the aforesaid, you requested our Fairness Opinion ("Opinion") as of the date hereof, as to the fairness of the Share Exchange Ratio to the Equity Shareholders of the Amalgamated Company.

A handwritten signature in black ink, appearing to be 'Amf'.

II. Basis of Opinion

In the Rationale of the Scheme as explained to us by the Management of the Amalgamated Company, given the business opportunities with respect to the Cement Business in India, the Holcim Group is keen to restructure its activities in the Cement Business in India by combining the strengths of ACC Limited ("ACC") and ACL into competitive advantages. The Amalgamating Company currently holds 50.01% equity shares in ACC which consequent upon the proposed amalgamation will vest with the Amalgamated Company. This will thus enable the Amalgamated Company to realize huge potential savings and improve its revenue and margins. Further, the size of the profits and net worth of the consolidated business of the Amalgamated Company is likely to increase from the current levels consequent upon the proposed amalgamation. The proposed amalgamation is likely to enhance significantly the values and synergies for both Amalgamated Company as well as ACC and for all the stakeholders.

A brief history of each of the aforesaid companies is as under –

ACL is a Public Limited Company listed on the Bombay Stock Exchange (BSE) and National Stock Exchange (NSE). The global depository receipts issued by ACL are listed on the Euro MTF Platform of the Luxemburg Stock Exchange. We have taken the foregoing facts (together with the other facts and assumptions set forth in section III of this Opinion) into account when determining the meaning of "fairness" for purposes of this Opinion.

We have relied upon the accuracy and completeness of all information and documents provided to us, including:

- The unaudited financial statements of the Amalgamating Company as on March 31, 2013 and audited financial statements of the Amalgamating Company and the Amalgamated Company for the period 2010 to 2012

We have not conducted any independent valuation or appraisal of any of the assets or liabilities of the Amalgamating Company and / or its subsidiaries or the Amalgamated Company and / or its subsidiaries. In particular, we do not express any opinion as to the value of any asset of the Amalgamating Company and / or its subsidiaries or the Amalgamated Company and / or its subsidiaries, whether at current prices or in the future. No consideration has been given to liens or encumbrances against

the assets, beyond the loans disclosed in the account. Therefore, no responsibility whatsoever is assumed for matters of a legal nature.

One should note that valuation is not an exact science and that estimating values necessarily involves selecting a method or approach that is suitable for the purpose. Moreover, in this case where shares of the Amalgamated Company are being issued as consideration to the shareholders of Amalgamating Company, it is not the absolute per share values that are important for framing an opinion but the relative per share values of the Amalgamated Company vis-a-vis the Amalgamating Company.

In rendering our Opinion, we have assumed, that the Scheme will be implemented on the terms described therein, without any waiver or modification of any material terms or conditions, and that in the course of obtaining the necessary Regulatory or third party approvals for the Scheme, no delay, limitation, restriction or condition will be imposed that would have an adverse effect on the Amalgamating Company and / or its subsidiaries, Amalgamated Company and / or its subsidiaries and their respective Shareholders.

We do not express any Opinion as to any tax or other consequences that might arise from the Scheme on the Amalgamating Company and / or its subsidiaries, Amalgamated Company and / or its subsidiaries and their respective shareholders, nor does our Opinion address any legal, tax, regulatory including all SEBI regulations or accounting matters, as to which we understand that the Amalgamated Company has obtained such advice as it deemed necessary from qualified professionals.

We assume no responsibility for updating or revising our Opinion based on circumstances or events occurring after the date hereof. Our Opinion is specific to the Amalgamation of the Amalgamating Company and Amalgamated Company as contemplated in the Scheme provided to us and is not valid for any other purpose. It is to be read in totality, and not in parts, in conjunction with the relevant documents referred to therein.

Our opinion also does not address any matters otherwise than as expressly stated herein, including but not limited to matters such as corporate governance matters, shareholders rights or any other equitable considerations. We have also not opined on the fairness of any terms and conditions of the Scheme of Amalgamation other than the fairness, from financial point of view, of the Share Exchange Ratio.

We have in the past provided, and may currently or in the future provide, investment banking services to the Amalgamated Company and/or its subsidiaries or their respective affiliates that are unrelated to the proposed Scheme, for which services we have received or may receive customary fees. In addition,

in the ordinary course of their respective businesses, affiliates of Axis Capital Ltd. may invest in securities of the Amalgamated Company and / or its subsidiaries or group companies or for their own accounts and for the accounts of their customers and, accordingly, may at any time hold a position in such securities. Our engagement and the Opinion expressed herein are for the benefit of the Board of Directors of the Amalgamated Company in connection with its consideration of the Scheme and for none other. Neither Axis Capital Ltd., nor its affiliates, partners, directors, shareholders, managers, employees or agents of any of them, makes any representation or warranty, express or implied, as to the information and documents provided to us, based on which the Opinion has been issued. All such parties and entities expressly disclaim any and all liability for, or based on or relating to any such information contained therein.

The fee for our services is not contingent upon the results of the proposed amalgamation. This Opinion is subject to the laws of India.

Our Opinion is not intended to and does not constitute a recommendation to any shareholder as to how such holder should vote or act in connection with the Scheme or any matter related thereto.
