KIRLOSKAR ELECTRIC EXPORTS A GENERATOR DUTY TRANSFORMER TO SONG-GIANG, VIETNAM

Kirloskar Electric Company Limited has successfully exported a Generator Duty transformer of 24 / 30 MVA, 115 / 38.5 / 10.5 kV for a hydro-electric project in Song-Giang, Vietnam through an EPC Contractor. The windings of the transformer are rated for full power of 30 MVA with any of the combination of the pair of windings and for the combined operation of all the windings with suitable loading distributed among the secondaries.

Special design considerations have been made to meet the stringent losses and impedance combination required between different pairs of windings. CTC conductors with Multi start tapping arrangement have been used for better control.
