MEDIA NOTE

This is a statement from BGR Energy Systems Limited, rebutting the report which appeared in the financial daily, Mint today regarding BGR Hitachi JVs.

19th March 2013, Chennai: BGR Energy Systems Limited in response to the story which has appeared in the Mint today about L&T Mitsubishi and BGR Hitachi JVs. strongly denies any such development and the veracity of the report.

Through this statement, we wish to inform all our stakeholders that the JVs with Hitachi are intact and we report ongoing business through these JVs. We wish to clarify the names of the companies and the equity held in the JVs which have been quoted wrongly by the financial daily, Mint in their report.

The JVs with Hitachi were signed in August 2010.

BGR Turbines Company Private Limited is a Joint Venture company, with 74% equity participation by BGR Energy Systems Limited and 26% by Hitachi, Japan and has signed Technical Collaboration for manufacture of 660MW, 800MW and 1000MW – Turbine & Generators. This JV is for design, manufacture, installation and commissioning of supercritical steam turbines and generators for thermal power plants.

BGR Boilers Private Limited is a Joint Venture company, with 70% equity participation by BGR Energy Systems Limited and 30% by Hitachi Power Europe, Germany and has signed Technical Collaboration for manufacture of 660MW, 700MW, 800MW and 1000MW super-critical boilers. The manufacturing facilities for manufacturing Super Critical Boilers and Turbines are being set up in Tamil Nadu.

Regarding NTPC Darlipalli project Turbines bid: BGR Energy had already clarified in the media regarding the bid for NTPC Darlipalli project. The proposal for supply of Steam Turbine and Generator (with the back-up from Hitachi) was sent in May 2011 to NTPC. BGR Energy had already given six extensions and held the price for more than 18 months. In the absence of a timeline for award of contract, it was not possible for BGR Energy to extend the validity of the contract.
