#### Notes

- The above unaudited financial results for the quarter ended June 30, 2013 have been reviewed by the Audit Committee and approved by the Board of Directors at their meeting held on August 5, 2013 and have been subjected to a limited review by the auditors of the Company.
- Accounting Standard (AS) 17 on 'Segment Reporting' requires the Company to disclose certain information about operating segments. The Company is managed as a single operating unit that provides air transportation only and has no other segment operation.
- As explained in note 34 (a) of the audited financial statements for the year ended March 31, 2012, the unaccrued interest on inter corporate deposit of Rs.500 lakhs under litigation at Bombay High Court since November 30, 2001, amounts to Rs. 747.10 lakhs. Had the Company accrued for the outstanding interest as described above, the net profit reported for the quarter would have been lower by Rs. 747.10 lakhs and the accumulated loss as at June 30, 2013 would have been higher by the same amount. The Company's management believes that pending finality of the suit filed against the Company in the Bombay High Court, no interest needs to be accrued on the deposit at this point in time on account of its defence in the Court proceedings. The auditors have qualified their audit report for the quarter and year ended March 31, 2013, and limited review report for the quarters ended June 30, 2013 and June 30, 2012 for the above matter. This may be treated as our response to the observations in the auditors' review report.
- During the previous year, the Company issued 13,000,000 14% Unsecured Compulsorily Convertible Debentures of Rs.100 each aggregating to Rs.13,000 lakhs which are convertible into equity shares of the Company at a price of Rs. 36.18 per equity share to its Promoter by way of preferential issue. The Company has utilized the entire proceeds of the preferential issue towards meeting its expansion program and working capital requirements, in accordance with the objects of the said issue. During the current quarter, the allottee exercised their right to convert the 13,000,000 14% Unsecured Compulsorily Convertible Debentures into equity shares of the Company, pursuant to which 35,931,453 equity shares of the Company were allotted at a price of Rs.36.18 per equity share.
- The Company has achieved significant growth in revenues in the current quarter while managing to improve yields on a consistent basis. The Company's operating results continue to be materially affected by various factors, particularly high aircraft fuel costs, significant depreciation in the value of the currency and general economic slowdown. The Company has continuously implemented various measures such as fare and route rationalization, optimizing aircraft utilization (including short-term leasing out of aircrafts), improving operational efficiencies, renegotiation of contracts and other cost control measures to improve the Company's operating results and cash flows. In addition, the Company continues to explore various options to raise finance in order to meet its short term and long term obligations, with the promoters committing to provide operational and financial support. The Company believes that the recent amendments to FDI policy will improve the investor sentiment towards the Indian aviation industry. The Company believes that these measures will not only result in sustainable cash flows, but also enhance the Company's plans for expansion. Accordingly, the Company's financial statements have been prepared on a going concern basis whereby the realization of assets and discharge of liabilities are expected to occur in the normal course of business.
- During the year ended March 31, 2012, the Company had incurred certain engine repair costs which were disclosed as an exceptional item. During the year ended March 31, 2013, the Company has received warranty claims from the engine manufacturer against these costs incurred. Such claims have been recognised as income and the same has been disclosed as an exceptional item.
- The figures for the quarter ended March 31, 2013 are balancing figures between audited figures in respect of the full financial year ended March 31, 2013 and the unaudited published year-to-date figures up to December 31, 2012, being the end of the third quarter of the financial year which was subjected to limited review.
- Previous periods' / year's figures have been regrouped / reclassified wherever considered necessary to conform to current periods' / year's classification.

## **SpiceJet delivers Profit After Tax of Rs 51 crores for quarter ended June 30, 2013**

Chennai, August 5, 2013

SpiceJet Limited posted revenues of Rs. 1,704 crore as compared to Rs. 1,467 crore during the quarter ended June 30, 2013, a growth of 16% as compared to the corresponding quarter a year ago. The net profit was Rs. 51 crore for the latest quarter.

The overall performance should be considered satisfactory and has to be viewed in the context of several adverse circumstances that continue to make the business environment for the airline industry extremely challenging.

Notwithstanding the several headwinds in the form of a weak rupee and high cost of fuel, the management has executed with an emphasis on efficiency, elimination of waste and profitability. Fuel cost as a proportion fell to 43% of the total revenue in the current quarter as against 46% in the comparable quarter for the previous year, mainly due to better realizations from our overseas routes that now make up almost 11% of revenues. However, currency depreciation and higher crude prices continue to exert pressure on margins.

The average passenger yields in the quarter increased by 5% as compared to the corresponding quarter a year ago. Domestic market share in June 2013 increased to 19.50% from 18.60% in June 2012. Highlights for the quarter ended June 30, 2013 vs. June 30, 2012

### Operational

- 13% growth in number of passengers
- 25% growth of Available Seat Kilometers
- 27% growth in number of departures
- Load factor decreased from 80% to 77%

### Financial

- 16% increase in Revenue from Operations
- 5% increase in passenger yields to Rs. 4,278 from Rs. 4,068

## International

- 322% growth in number of passengers
- 385% growth in number departures

SpiceJet continues to explore newer opportunities for business growth and to improve fleet utilizations. In this regard, the Company is aggressively adding to its international network and implementing multiple initiatives with a view to controlling the overall cost of doing business.

**Limited Review Report****Review Report to  
The Board of Directors  
SpiceJet Limited**

1. We have reviewed the accompanying statement of unaudited financial results of SpiceJet Limited ('the Company') for the quarter ended June 30, 2013 (the "Statement"), except for the disclosures regarding 'Public Shareholding' and 'Promoter and Promoter Group Shareholding' which have been traced from disclosures made by the management and have not been reviewed by us. This Statement is the responsibility of the Company's management and has been approved by the Board of Directors / committee of Board of Directors. Our responsibility is to issue a report on the Statement based on our review.
2. We conducted our review in accordance with the Standard on Review Engagements (SRE) 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the Statement is free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provides less assurance than an audit. We have not performed an audit and accordingly, we do not express an audit opinion.
3. *As more detailed in note 3 of the Statement, no provision has been made for interest of Rs. 747.1 lakhs up to June 30, 2013, relating to earlier years on the outstanding inter-corporate deposits taken by the Company. Had the same been accounted for, the net profit for the quarter ended June 30, 2013 would have been lower by Rs 747.1 lakhs, and the accumulated losses as at that date would have been higher by the same amount. Our audit opinion on the financial statements for the year ended March 31, 2013 and the limited review report for the quarter ended June 30, 2012 were also qualified in respect of the above matter.*
4. Without qualifying our conclusion, we draw attention to note 5 of the Statement. The Company's operating results have been materially affected by various factors, as fully described in the said note, and as at June 30, 2013, the Company's accumulated losses have fully eroded the net worth of the Company. The appropriateness of the going concern assumption is dependent on the Company's ability to establish consistent profitable operations as well as raising adequate finance to meet its short term and long term obligations. Based on the mitigating factors explained in the said note, management believes that the going concern assumption is appropriate.

5. Based on our review conducted as above, *except for the effect of the matter stated in paragraph 3*, nothing has come to our attention that causes us to believe that the accompanying Statement of unaudited financial results prepared in accordance with recognition and measurement principles laid down in Accounting Standard 25 "Interim Financial Reporting", notified pursuant to the Companies (Accounting Standards) Rules, 2006, (as amended) and other recognised accounting practices and policies has not disclosed the information required to be disclosed in terms of Clause 41 of the Listing Agreement including the manner in which it is to be disclosed, or that it contains any material misstatement.
