Notes:

- 1 The Company is primarily engaged in a single business segment of "Hydrocarbons and Other Incidental Services". All the activities of the Company are around the main business. Further, the Company does not have any separate geographic segments other than India. Hence, there are no separate reportable segments as per AS-17 "Segmental Reporting".
- 2 The Company has capital requirements to implement its business plans and commitments under the Production Sharing Contracts (PSC) in the foreseeable future, which cannot be met through internal accruals alone. As a strategic exercise initiated pursuant to appointment of a Financial Advisor, discussions are underway between the Promoter and prospective investors. Notwithstanding uncertainties which may be attached to the outcome of any such process, the Board recognizes that the Company has a successful track record of raising capital in the past and that the Company shall raise financial resources as and when needed to meet its commitments under the Production Sharing Contracts and to transform the reserves from the existing discoveries to production in the near to mid-term. Based on the foregoing, the Financial Statements have been prepared on the basis that the Company is a going concern and that no adjustments are required to the carrying value of assets and liabilities.
- 3 (a) While the EBITDA of Rs.2,364.15 lacs for FY 2013-14 has been positive, the Company has reported negative EBIT of Rs.12,402.13 lacs and PBT of Rs. 13,767.37 lacs for the same period, primarily due to high depletion, depreciation and amortization (DDA) charge in an offshore producing property, PY-1, located in the Cauvery Basin. The Company, as Operator, has commissioned a comprehensive geological and reservoir study by an independent 3rd party for PY-1 Field, the results and recommendations of which are still awaited. Pending the results of the Study, the Company has relied on the last independent reserve report of January 2013 and the capital allocation assumption considered towards drilling additional producer wells at the time of the Impairment Test for the year ended March 2013. Should the findings of the Study and the capital allocation assumptions undergo revision, there may be uncertainty in the recoverability of the carrying value of PY-1 Asset, which as of March 31, 2014 is approximately Rs. 116,571 lacs.
- 3 (b) The Auditors have qualified their opinion in this regard and the Company's position is as explained above.
- 4 PY-3 Field, operated by Hardy Exploration & Production (India) Inc., remains shut since July 31, 2011. The Full Field Development Plan submitted by the Operator during May 2013 has been technically reviewed by all the JV Partners. Discussions are ongoing amongst the Joint Venture Partners with respect to the proposal to proportionately share cess and royalty on a cost recoverable basis.
- 5 PY-1 Field was shut in for a period of 102 days in the FY 2014 primarily on account of non evacuation of gas by GAIL (Buyer). Following the Amendment to the Gas Sales Contract which had been executed in July 2013, GAIL has been evacuating gas through the low pressure pipeline connecting PY-1 Gas Terminal to alternate consumers on a nearly continuous basis.
- 6 Exceptional item for the previous year ended March 31, 2013 represented additional depletion and impairment loss aggregating to Rs 57,197 lacs charged to the statement of profit and loss due to reduction in the Proved Reserves of PY-1 Field pursuant to an independent third party certification of PY-1 Field Reserves based on information available subsequent to the drilling of Surya Well. While estimating the future cash flows for determining the value-in-use of PY-1 Asset as per AS 28, the Company had considered a natural gas price of USD 5/MMBtu from 2015 onwards.
- 7 The figures for the quarters ended March 31, 2014 and March 31, 2013 are balancing figures between audited figures in respect of the full financial year ended March 31, 2014 and March 31, 2013 respectively and the un-audited published year-to-date figures upto December 31, 2013 and December 31, 2012 respectively, being the end of the third quarter of the respective financial years which was subject to limited review.
- 8 In compliance with SEBI directions with respect to previous audit qualification relating to treatment of survey cost under the Guidance Note (Accounting for Oil and Gas Producing Activities, issued by Institute of Chartered Accountants of India), the Company has expensed off survey costs amounting to Rs. 4,461 lacs (Rs 3,410 lacs pertaining to previous years and Rs.4,414 Lakhs relating to earlier quarters) in the Statement of Profit and Loss which were initially capitalized as 'Exploration Expenditure'.
- 9 The Hon'ble Mumbai ITAT had, vide its order dated September 17, 2013, passed a favorable order in relation to the Company's Income Tax Assessment Cases for the Financial Years 2004-05 and 2005-06 primarily relating to deduction under Section 80IB(9) of the Income Tax Act 1961. Since the deduction had been decided in favour of the Company (consistent with Financial Years 2002-03 and 2003-04), the excess Income Tax provision made for the Financial Years 2004-05 to 2006-07 amounting to Rs 5,650 lacs had been written back during the FY 2014.
- 10 The details of Promoter's Shareholding is based on their declarations giving the status that no share has been pledged for respective periods.
- 11 Figures for previous period/year have been regrouped / reclassified to make them comparable with the current period, wherever necessary.
- 12 The above results and notes thereto were reviewed by the Audit Committee and approved by the Board of Directors at their respective meetings held on May 30, 2014.
