AURIONPRO CONGRATULATES BABCOCK INTERNATIONAL, WINNER OF "BEST IDENTITY AND ACCESS MANAGEMENT PROJECT" AT THE EUROPEAN IDENTITY & CLOUD CONFERENCE

June 6, 2014 – London, U.K. (Marketwire)

Aurionpro would like to congratulate the team at Babcock International for winning the award for Best Identity and Access Management (IAM) Project with the UK Ministry of Defence (MoD) at the recent European Identity & Cloud Conference in Munich.

Babcock International was recognised for their work in building an Identity Management platform that will transform the way in which data is shared across the MoD's entire supply chain. The initiative enables suppliers to collaborate securely with the MoD, driving significant cost savings and dramatically improving the speed at which deployed defence assets can be supported.

Commenting on the award, Neil Barton, Aurionpro's EMEA Sales Director, reflected, "It was an honor to collaborate with Babcock International on this innovative and transformational project. The initiative certainly deserves this recognition from leading industry analysts based on the team's vision to apply Identity Management technologies in such an impactful way."

About the European Identity Awards

The European Identity Awards honor projects that promote awareness for and business value of professional Identity Management and Cloud Security. Numerous projects have been nominated by vendors and end-user companies during the last 12 months. Winners have been chosen by KuppingerCole analysts among the most outstanding examples of applications and ideas in the areas of IAM, GRC, and Cloud security.
